The decrease of commission per room night was primarily due to promotional activities. Hotel reservation revenues increased by 13% quarter-on-quarter, primarily driven by hotel reservation volume growth.

Ticketing services revenues for the second quarter of 2013 were RMB522 million (US\$85 million), representing a 29% increase year-on-year, primarily driven by an increase of 34% in air ticketing sales volume and partially offset by 6% decrease of commission per air ticket. Ticketing services revenues increased 14% quarter-on-quarter, primarily driven by air ticketing sales volume growth.

Packaged-tour revenues for the second quarter of 2013 were RMB187 million (US\$30 million), representing a 40% increase year-on-year due to the increase of leisure travel volume. Packaged-tour revenues decreased 20% quarter-on-quarter, primarily due to seasonality.

Corporate travel revenues for the second quarter of 2013 were RMB66 million (US\$11 million), representing a 34% increase year-on-year, primarily driven by the increased corporate travel demand from business activities. Corporate travel revenues increased 29% quarter-on-quarter, primarily due to seasonality.

For the second quarter of 2013, net revenues were RMB1.2 billion (US\$203 million), representing a 28% increase from the same period of 2012. Net revenues for the second quarter of 2013 increased by 7% from the previous quarter.

Gross margin was 75% in the second quarter of 2013, remained consistent with that in the same period of 2012 and compared to 74% in the previous quarter.

Product development expenses for the second quarter of 2013 increased by 49% to RMB310 million (US\$50 million) from the same period of 2012 and by 16% from the previous quarter, primarily due to an increase in product development personnel related expense. Excluding share-based compensation charges (non-GAAP), product development expenses accounted for 22% of the net revenues, increased from 18% in the same period of 2012 and 20% in the previous quarter.

Sales and marketing expenses for the second quarter of 2013 increased by 25% to RMB271 million (US\$44 million) from the same period in 2012, primarily due to an increase in sales and marketing related activities. Sales and marketing expenses for the second quarter of 2013 increased by 1% from the previous quarter. Excluding share-based compensation charges (non-GAAP), sales and marketing expenses accounted for 21% of the net revenues, remained consistent with that in the same period of 2012 and decreased from 22% in the previous quarter.

General and administrative expenses for the second quarter of 2013 increased by 14% to RMB159 million (US\$26 million) from the same period in 2012, primarily due to an increase in administrative personnel related expense and share-based compensation charges. General and administrative expenses for the second quarter of 2013 decreased by 2% from the previous quarter. Excluding share-based compensation charges (non-GAAP), general and administrative expenses accounted for 8% of the net revenues, remained consistent with that in the same period of 2012 and the previous quarter.

Operating margin was 16% in the second quarter of 2013, compared to 17% in the same period of 2012, and 14% in the previous quarter. The effective tax rate for the second quarter of 2013 was 27%, decreased from 45% in the same period of 2012, primarily because Ctrip accrued the provision of 5% PRC withholding tax related to the dividends that our PRC subsidiaries would pay to our Hong Kong subsidiary to fund the share repurchase program in the second quarter of 2012. The effective tax rate for the second quarter of 2013 decreased from 32% in the previous quarter, primarily due to the decrease in the amount of non tax-deductible share-based compensation as a percentage to our income as a whole.

Net income attributable to Ctrip's shareholders for the second quarter of 2013 was RMB210 million (US\$34 million), representing an increase of 76% from the same period in 2012 and an increase of 37% from the previous quarter. James Liang, Chairman of the Board and Chief Executive Officer of Ctrip said, "As an active member of our Board, Suyang has made many contributions to Ctrip from the startup. This announcement contains forward-looking statements. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "may," "will," "expect," "anticipate," "future," "intend," "plan," "believe," "estimate," "is/are likely to," "confident" or other similar statements. Among other things, quotations from management and the Business Outlook section in this press release, as well as Ctrip's strategic and operational plans, contain forward-looking statements. Ctrip may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission on Forms 20-F and 6-K, etc., in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about Ctrip's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Potential risks and uncertainties include, but are not limited to, the slow-down of economic growth in China and the global economic downturn, general declines or disruptions in the travel industry, volatility in the trading price of Ctrip's ADSs, Ctrip's reliance on its relationships and contractual arrangements with travel suppliers and strategic alliances, failure to further increase Ctrip's brand recognition to obtain new business partners and consumers, failure to compete against new and existing competitors, failure to successfully manage current growth and potential future growth, risks associated with any strategic investments or acquisitions, seasonality in the travel industry in mainland China, Hong Kong, Macau or Taiwan, failure to successfully develop Ctrip's corporate travel business, damage to or failure of Ctrip's infrastructure and technology, loss of services of Ctrip's key executives, inflation in China and in other countries, risks and uncertainties associated with PRC laws and regulations with respect to the ownership structure of Ctrip's affiliated Chinese entities and the contractual arrangements among Ctrip, its affiliated Chinese entities and their shareholders, and other risks outlined in Ctrip's filings with the U.S. Securities and Exchange Commission, including its annual report on Form 20-F and other filings. About Non-GAAP Financial Measures

To supplement Ctrip's unaudited condensed consolidated financial statements presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), Ctrip uses non-GAAP financial information related to product development expenses, sales and marketing expenses, general and administrative expenses, income from operations, operating margin, net income, and diluted earnings per ordinary share and per ADS, each of which is adjusted from the most comparable GAAP result to exclude the share-based compensation charges recorded under ASC 718, "Compensation-Stock Compensation" for 2013 and 2012. Ctrip's management believes the non-GAAP financial measures facilitate better understanding of operating results from quarter to quarter and provide management with a better capability to plan and forecast future periods.

Non-GAAP information is not prepared in accordance with GAAP and may be different from non-GAAP methods of accounting and reporting used by other companies. The presentation of this additional information should not be considered a substitute for GAAP results. A limitation of using non-GAAP financial measures is that non-GAAP measures exclude share-based compensation charges that have been and will continue to be significant recurring expenses in Ctrip's business for the foreseeable future.

Reconciliations of Ctrip's non-GAAP financial data to the most comparable GAAP data included in the consolidated statement of operations are included at the end of this press release.
