RISK FACTORS

In considering whether to invest in the Depositary Shares and the Series J Preferred Stock, you should carefully consider the risks described below and the other information we have included or incorporated by reference in this prospectus supplement and the accompanying prospectus. Investing in the Depositary Shares and the Series J Preferred Stock involves risk. Please see the "Risk factors" section and other information in Fifth Third's most recent Annual Report on Form 10-K, which are incorporated by reference herein, as updated by our filings made with the SEC after the Form 10-K, including our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014. Before making an investment decision, you should carefully consider these risks as well as other information contained or incorporated by reference in this document. Risks and uncertainties not presently known to Fifth Third or that Fifth Third currently deems immaterial may also impair its business operations, its financial results and the value of the Depositary Shares and the Series J Preferred Stock.

You are making an investment decision about the Depositary Shares, as well as the Series J Preferred Stock.

As described in this prospectus supplement, we are issuing fractional ownership interests in shares of our Series J Preferred Stock. Those fractional ownership interests take the form of Depositary Shares. The depositary will rely solely on the dividend payments on the Series J Preferred Stock, if any, it receives from us to fund all dividend payments on the Depositary Shares. You should review carefully the information in this prospectus supplement and the accompanying prospectus regarding our Depositary Shares and Series J Preferred Stock.

The Series J Preferred Stock is equity and is subordinate to our existing and future secured and unsecured indebtedness.

The shares of Series J Preferred Stock will be equity interests and will not constitute indebtedness of Fifth Third. This means that the Depositary Shares, which represent fractional interests in shares of the Series J Preferred Stock, will rank junior to all of our and our subsidiaries' existing and future indebtedness, including subordinated debt, and our other non-equity claims with respect to assets available to satisfy claims against Fifth Third, including claims in the event of a liquidation of Fifth Third. As of March 31, 2014, our total consolidated liabilities were approximately \$115 billion, and we may incur additional indebtedness in the future. On April 25, 2014, Fifth Third Bank sold \$850,000,000 principal amount of its 2.375% senior notes due 2019 and \$650,000,000 principal amount of its 1.35% senior notes due 2017.

The terms of the Series J Preferred Stock place no restrictions on our business or operations or on our ability to incur indebtedness or engage in any transactions, subject only to the limited voting rights referred to below in "—Holders of the Series J Preferred Stock and the Depositary Shares will have limited voting rights." Further, our existing and future indebtedness may restrict the payment of dividends on the Series J Preferred Stock.

Dividends on the Series J Preferred Stock are discretionary and non-cumulative.

Dividends on the Series J Preferred Stock are discretionary and non-cumulative. We have no obligation to declare and pay dividends in respect of a dividend payment period after the dividend payment date for such period. If our board of directors does not declare and pay dividends on the Series J Preferred Stock and the related Depositary Shares, you will not receive dividends for that dividend payment period and the market price of your Depositary Shares may decline.

If we are not paying full dividends on any outstanding parity stock, we will not be able to pay full dividends on the Series J Preferred Stock

On any dividend payment date for which dividends are not paid, or declared and funds set aside therefor, on the Series J Preferred Stock and any shares of parity stock for any dividend period, all dividends paid or declared for payment on that dividend payment date with respect to the Series J Preferred Stock and any parity stock will be shared ratably by the holders of any shares of such other series of parity stock who have the right to receive dividends with respect to dividend payment periods prior to the then-current dividend payment period, in proportion to their respective amounts of undeclared and unpaid dividends relating to such prior dividend payment periods. Thereafter, such dividends paid or declared for payment on that dividend payment date with respect to the Series J Preferred Stock and all parity stock shall be shared by holders of the shares of Series J Preferred Stock and such parity stock on a *pro rata* basis.

Our ability to pay dividends on the Series J Preferred Stock may be limited by regulatory considerations and the results of operations of our subsidiaries.

We are a bank holding company that conducts substantially all of our operations through our banking and other subsidiaries, and our ability to make dividend payments on the Series J Preferred Stock and consequently the related Depositary Shares depends primarily upon the receipt of dividends and other distributions from our subsidiaries. Payments to us by our subsidiaries also will be contingent upon those subsidiaries' earnings and business considerations. Furthermore, our right to receive any assets of any of our subsidiaries upon their liquidation, reorganization or otherwise, and thus your ability as a holder of Depositary Shares to benefit indirectly from such distribution, will be subject to the prior claims of the subsidiaries' creditors. Even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of those subsidiaries and any indebtedness of those subsidiaries senior to that held by us.

There are also various regulatory restrictions on the ability of our banking and other subsidiaries to pay dividends or make other payments to us. In particular, federal and state banking laws regulate the amount of dividends that may be paid by our banking subsidiary without prior approval.

In addition, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") requires federal banking agencies to establish more stringent risk-based capital guidelines and leverage limits applicable to banks and bank holding companies, and especially those institutions with consolidated assets equal to or greater than \$50 billion. In July 2013, the federal banking regulators issued final rules, which, among other things, are intended to implement in the United States the Basel Committee on Banking Supervision's regulatory capital guidelines, including the reforms known as Basel III. The final Basel III capital standards (the "Final Rules") issued by the Board of Governors of the Federal Reserve System ("Federal Reserve Board") provide that distributions (including dividend payments and redemptions) on additional Tier 1 capital instruments may only be paid out of our net income, retained earnings, or surplus related to other additional Tier 1 capital instruments. The Final Rules also introduce a new capital conservation buffer on top of the minimum risk-based capital ratios. Failure to maintain a capital conservation buffer above certain levels will result in restrictions on our ability to make dividend payments, redemptions or other capital distributions. These requirements, and any other new regulations or capital distribution constraints, could adversely affect the ability of our banking subsidiary to pay dividends to us and our ability to pay dividends on the Series J Preferred Stock and the related Depositary Shares.

[Table of Contents](#)

Furthermore, the Comprehensive Capital Analysis and Review (“CCAR”) requires Fifth Third to submit an annual capital plan to the Federal Reserve Board in addition to the results of other stress testing required under the Dodd-Frank Act. The mandatory elements of the capital plan are an assessment of the expected use and sources of capital over the planning horizon, a description of all planned capital actions over the planning horizon (including dividends on and redemptions of common and preferred stock), a discussion of any expected changes to Fifth Third’s business plan that are likely to have a material impact on its capital adequacy or liquidity, a detailed description of Fifth Third’s process for assessing capital adequacy and Fifth Third’s capital policy. The Federal Reserve Board’s review of Fifth Third’s capital plan assesses the comprehensiveness of the capital plan, the reasonableness of the assumptions and the analysis underlying the capital plan. Additionally, the Federal Reserve Board reviews the robustness of the capital adequacy process, the capital policy and Fifth Third’s ability to maintain capital above the minimum regulatory capital ratios (including new minimum regulatory capital ratios under the Final Rules as they are phased in) and above a Tier 1 common ratio of 5 percent on a pro forma basis under expected and stressful conditions throughout the nine-quarter planning horizon. The Federal Reserve Board also assesses Fifth Third’s transition plan to meet the higher capital standards under the Final Rules on a fully phased-in basis. The Federal Reserve Board issues an objection or non-objection to Fifth Third’s capital plan, and an objection may limit Fifth Third’s ability to pay dividends on or redeem the Series J Preferred Stock.

The Federal Reserve Board may also, as a supervisory matter, otherwise limit our ability to pay dividends on the Series J Preferred Stock.

In addition, the Series J Preferred Stock may be fully subordinate to interests held by the U.S. government in the event of a receivership, insolvency, liquidation, or similar proceeding, including a proceeding under the “orderly liquidation authority” provisions of the Dodd-Frank Act.

The dividend rate will vary commencing on September 30, 2019 and any dividends declared may be less than the initial fixed annual rate of % in effect prior to September 30, 2019.

The annual dividend rate on the Series J Preferred Stock commencing on September 30, 2019 will equal three-month LIBOR, reset quarterly, plus %. Therefore, any dividends declared after September 30, 2019 may vary from period to period and could be more or less than the fixed rate for the fixed-rate period. Fifth Third has no control over a number of factors that may affect market interest rates, including geopolitical conditions and economic, financial, political, regulatory, judicial or other events that affect the markets generally and that are important in determining the existence, magnitude, and longevity of market rate risk.

Increased regulatory oversight and changes in the method pursuant to which the LIBOR rates are determined may adversely affect the value of the Depository Shares.

Beginning in 2008, concerns were raised that some of the member banks surveyed by the British Bankers’ Association (“BBA”) in connection with the calculation of LIBOR across a range of maturities and currencies may have been under-reporting or otherwise manipulating the interbank lending rate applicable to them. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR, and investigations were instigated by regulators and governmental authorities in various jurisdictions (including in the United States, United Kingdom, European Union, Japan and Canada). If manipulation of LIBOR or another inter-bank lending rate occurred, it may have resulted in that rate being artificially lower (or higher) than it otherwise would have been.

[Table of Contents](#)

In September 2012, the U.K. government published the results of its review of LIBOR (commonly referred to as the “Wheatley Review”). The Wheatley Review made a number of recommendations for changes with respect to LIBOR including the introduction of statutory regulation of LIBOR, the transfer of responsibility for LIBOR from the BBA to an independent administrator, changes to the method of compilation of lending rates and new regulatory oversight and enforcement mechanisms for rate-setting. Based on the Wheatley Review, final rules for the regulation and supervision of LIBOR by the Financial Conduct Authority (“FCA”) were published and came into effect on April 2, 2013 (“FCA Rules”). In particular, the FCA Rules include requirements that (1) an independent LIBOR administrator monitor and survey LIBOR submissions to identify breaches of practice standards and/or potentially manipulative behavior, and (2) firms submitting data to LIBOR establish and maintain a clear conflicts of interest policy and appropriate systems and controls. In addition, in response to the Wheatley Review recommendations, ICE Benchmark Administration Limited (“ICE Administration”) has been appointed as the independent LIBOR administrator, effective February 1, 2014.

It is not possible to predict the effect of the FCA Rules, any changes in the methods pursuant to which the LIBOR rates are determined and any other reforms to LIBOR that will be enacted in the U.K. and elsewhere, which may adversely affect the trading market for LIBOR-based securities. In addition, any changes announced by the FCA, the ICE Administration or any other successor governance or oversight body, or future changes adopted by such body, in the method pursuant to which the LIBOR rates are determined may result in a sudden or prolonged increase or decrease in the reported LIBOR rates. If that were to occur and to the extent that the value of your securities is affected by reported LIBOR rates, the level of dividend payments (if authorized and declared) and the value of the securities may be affected. Further, uncertainty as to the extent and manner in which the Wheatley Review recommendations will continue to be adopted and the timing of such changes may adversely affect the current trading market for LIBOR-based securities and the value of your Depositary Shares.

Investors should not expect Fifth Third to redeem the Series J Preferred Stock on the date it becomes redeemable or on any particular date after it becomes redeemable.

The Series J Preferred Stock is a perpetual equity security. This means the Series J Preferred Stock has no maturity or mandatory redemption date and is not redeemable at the option of the holders, including holders of the Depositary Shares. Although we may redeem the Series J Preferred Stock on or after September 30, 2019, or earlier following the occurrence of a “regulatory capital event,” in each case subject to certain conditions and as described herein, you should not assume that we will do so.

The Series J Preferred Stock may, subject to our obtaining all required regulatory approvals, be redeemed at our option at any time on or after September 30, 2019, or at any time prior to September 30, 2019 following the occurrence of a regulatory capital event.

Subject to obtaining all required regulatory approvals, we may redeem the Series J Preferred Stock at our option (i) in whole or in part, at any time, or from time to time, on or after September 30, 2019, and (ii) in whole, but not in part, at any time prior to September 30, 2019, following the occurrence of a “regulatory capital event” as described herein in each case, at a redemption price per share equal to the fixed liquidation preference of \$25,000 per share, plus an amount equal to any declared but unpaid dividends to, but excluding, the redemption date, without accumulation of any undeclared dividends. Any decision we may make at any time to propose a redemption of the Series J Preferred Stock will depend upon, among other things, our evaluation of our capital position, the composition of our stockholders’ equity and general market conditions at that time.

[Table of Contents](#)

Our ability to redeem the Series J Preferred Stock is subject to regulatory and supervisory limitations. Under the current Federal Reserve Board risk-based capital guidelines applicable to bank holding companies, any redemption of the Series J Preferred Stock is subject to prior approval of the Federal Reserve Board. In addition, under the Final Rules, before we can redeem the Series J Preferred Stock, or immediately thereafter, we must either replace the Series J Preferred Stock to be redeemed with an equal amount of common equity Tier 1 or additional Tier 1 capital instruments, or demonstrate to the satisfaction of the Federal Reserve Board that following redemption, we will continue to hold capital commensurate with our risk. We cannot assure you that the Federal Reserve Board will approve any redemption of the Series J Preferred Stock that we may propose. Furthermore, under the Final Rules, failure to maintain a capital conservation buffer above certain levels will result in restrictions on our ability to make dividend payments, redemptions or other capital distributions. Our ability to redeem the Series J Preferred Stock may also be limited if the Federal Reserve Board objects to our capital plan as part of the annual CCAR process.

Holders of the Series J Preferred Stock and the Depositary Shares will have limited voting rights regardless of whether we have paid dividends on the Series J Preferred Stock.

Holders of the Series J Preferred Stock and the Depositary Shares will have no voting rights except as required by Ohio law and with respect to authorizing or increasing the amount of stock senior to the Series J Preferred Stock, and certain changes in the terms of the Series J Preferred Stock, as described under “Description of the Series J Preferred Stock—Voting rights.” Moreover, the terms of the Series J Preferred Stock do not provide any additional voting upon non-payment of dividends (e.g. there is no right to elect any directors to our board of directors).

If Fifth Third is deferring payments on outstanding junior subordinated debt securities or is in default under the indentures governing those securities, Fifth Third will be prohibited from declaring or paying dividends on the Series J Preferred Stock.

As of the date of this prospectus supplement, Fifth Third Bancorp has no outstanding junior subordinated deferrable interest debentures (referred to as “*junior subordinated debt securities*”). Without notice to or consent from the holders of the Series J Preferred Stock, we may issue junior subordinated debt securities or other securities in the future with terms which may prohibit us from declaring or paying any dividends or distributions on preferred stock, including on the Series J Preferred Stock, or purchasing, redeeming, acquiring, or making a liquidation payment on the Series J Preferred Stock, if a default under the indenture governing any such junior subordinated debt securities (or under the corresponding guarantee) has occurred and is continuing or at any time when we are deferring payments of interest on those junior subordinated debt securities.

General market conditions and unpredictable factors could adversely affect market prices for the Depositary Shares.

There can be no assurance about the market price for the Depositary Shares. Several factors, many of which are beyond our control, will influence the market price of the Depositary Shares. Factors that might influence the market value of the Depositary Shares include:

- whether we skip or are likely to skip dividends on the Series J Preferred Stock from time to time;
- our creditworthiness;
- interest rates generally and expectations regarding changes in rates;

[Table of Contents](#)

- developments in the credit, mortgage and housing markets, the markets for securities relating to mortgages or housing, and developments with respect to financial institutions generally;
- the market for similar securities; and
- economic, financial, geopolitical, regulatory or judicial events that affect us or the financial markets generally.

Accordingly, the Depositary Shares that an investor purchases, whether in this offering or in the secondary market, may trade at a discount to their cost, and their value will fluctuate.

There may be future sales or other dilution of our preferred stock, which may adversely affect the market price of the Depositary Shares or the underlying Series J Preferred Stock.

Except as described under “Underwriting,” we are not restricted from issuing additional preferred stock ranking on a parity with, or junior to, the Series J Preferred Stock, or any substantially similar securities. The market price of the Depositary Shares or the underlying Series J Preferred Stock could decline as a result of sales of additional Series J Preferred Stock or other similar securities in the market made after this offering or the perception that such sales could occur.

The Series J Preferred Stock and the related Depositary Shares will not be listed on any securities exchange or electronic communication network and will not have any active trading market.

The Series J Preferred Stock and the related Depositary Shares are new issues with no established trading market and will not be listed on any securities exchange or electronic communication network. Even if a secondary market for the Depositary Shares develops, it may not provide significant liquidity and transaction costs in any secondary market could be high. As a result, the difference between bid and asked prices in any secondary market could be substantial. We do not expect that there will be any separate public trading market for the shares of the Series J Preferred Stock except as represented by the Depositary Shares.

A downgrade, suspension or withdrawal of any rating assigned by a rating agency to us or our securities, including the Series J Preferred Stock and the Depositary Shares, could cause the liquidity or trading price of the Depositary Shares to decline significantly.

Real or anticipated changes in the credit ratings assigned to the Series J Preferred Stock, the Depositary Shares, or our credit ratings generally could affect the trading price of the Depositary Shares. Credit ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization in its sole discretion. In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the financial services industry as a whole and may change their credit rating for us and our securities, including the Series J Preferred Stock and the Depositary Shares, based on their overall view of our industry.

Rating agencies may change rating methodologies.

The rating agencies that currently or may in the future publish a rating for us, the Series J Preferred Stock or the Depositary Shares may from time to time in the future change the methodologies that they use for analyzing us or securities with features similar to the Series J Preferred Stock or the Depositary Shares, respectively. This may include, for example, changes

[Table of Contents](#)

to the relationship between ratings assigned to an issuer's senior securities and ratings assigned to securities with features similar to the Series J Preferred Stock, which is sometimes called "notching." If the rating agencies change their practices for rating these securities in the future, and the ratings of the Series J Preferred Stock are subsequently lowered or "notched" further, the trading price and liquidity of the Series J Preferred Stock and related Depositary Shares could be adversely affected.

USE OF PROCEEDS

We expect to receive net proceeds from the sale of the Depositary Shares of approximately \$ after estimated expenses and commissions to be paid by us. We intend to use the net proceeds of this offering for general corporate purposes, which may include repurchases of shares of our common stock. This offering is being undertaken as part of our 2014 CCAR capital plan (as to which the Federal Reserve Board provided a non-objection). Additional capital actions may be undertaken by us pursuant to our CCAR capital plan.

REGULATORY CONSIDERATIONS

The Federal Reserve Board regulates, supervises and examines Fifth Third Bancorp as a bank holding company that has elected to be treated as a financial holding company under the Bank Holding Company Act of 1956, as amended. Fifth Third Bancorp's bank subsidiary is also regulated by various other federal and state banking regulators. For a discussion of the material elements of the regulatory framework applicable to financial holding companies, bank holding companies, banks and their subsidiaries and specific information relevant to Fifth Third Bancorp, please refer to Fifth Third Bancorp's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, and any subsequent reports we file with the SEC, which are incorporated by reference in this prospectus supplement. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, Fifth Third Bancorp's earnings are affected by actions of the Federal Reserve Board, the Federal Deposit Insurance Corporation, which insures the deposits of its banking subsidiaries within certain limits, and the SEC, which regulates the activities of certain subsidiaries engaged in the securities business. The corrective actions taken at the direction of our regulators may include, but are not limited to, requiring Fifth Third Bancorp or our bank subsidiary to enter into informal or formal enforcement orders, including memoranda of understanding, written agreements, supervisory letters, commitment letters, and consent or cease and desist orders to take corrective action and refrain from unsafe and unsound practices; removing officers and directors and assessing civil monetary penalties, and taking possession of and liquidating our bank subsidiary.

Fifth Third Bancorp's earnings are also affected by general economic conditions, its management policies and legislative action.

In addition, under federal and state laws and regulations pertaining to the safety and soundness of insured depository institutions and their holding companies, the Federal Reserve Board, the FDIC, the Consumer Financial Protection Bureau and the Ohio Division of Financial Institutions have the authority to compel or restrict certain actions by Fifth Third and our banking subsidiary. Fifth Third and its banking subsidiary are subject to such supervisory authority and, more generally, must, in certain instances, obtain prior regulatory approval before engaging in certain activities or corporate decisions. There can be no assurance that such approvals, if required, would be forthcoming or that such approvals would be granted in a timely manner. Failure to receive any such approval, if required, could limit or impair Fifth Third's operations, restrict its growth and/or affect its dividend policy. Such actions and activities subject to prior approval include, but are not limited to, increasing dividends paid by Fifth Third or its banking subsidiary, entering into a merger or acquisition transaction, acquiring or establishing new branches, and entering into certain new businesses. Fifth Third, as well as other financial institutions more generally, have recently been subjected to increased scrutiny from regulatory authorities stemming from broader systemic regulatory concerns, including with respect to stress testing, capital levels, asset quality, provisioning, consumer protection and other prudential matters, arising as a result of the recent financial crisis and efforts to ensure that financial institutions take steps to improve their risk management and compliance efforts and prevent future crises. In some cases, regulatory agencies may take supervisory actions that may not be publicly disclosed, which restrict or limit a financial institution. Finally, as part of Fifth Third's regular examination process, Fifth Third's and its banking subsidiary's respective regulators may advise it and its banking subsidiary to operate under various restrictions as a prudential matter. Such supervisory actions or restrictions, if and in whatever manner imposed, could have a material adverse effect on Fifth Third's business and results of operations and may not be publicly disclosed.

[Table of Contents](#)

Furthermore, there are numerous other governmental requirements and regulations that affect Fifth Third Bancorp's business activities. A change in applicable statutes, regulations or regulatory policy or significant regulatory actions or litigation may have a material effect on Fifth Third Bancorp's business. Comprehensive reform of the legislative and regulatory environment occurred in 2010 and remains ongoing due to the passage of the Dodd-Frank Act. Fifth Third cannot predict changes in the applicable laws, regulations and regulatory agency policies, yet such changes may have a material effect on its business, financial condition or results of operations.

Finally, depository institutions, like Fifth Third Bancorp's bank subsidiary, are also affected by various federal and state laws, including those relating to consumer protection and similar matters. Fifth Third Bancorp also has other financial services subsidiaries regulated, supervised and examined by the Federal Reserve Board, as well as other relevant state and federal regulatory agencies and self-regulatory organizations. Fifth Third Bancorp's non-bank subsidiaries may be subject to other laws and regulations of the federal government or the various states in which they are authorized to do business.

DESCRIPTION OF THE SERIES J PREFERRED STOCK

The following is a brief description of the terms of the Series J Preferred Stock. This summary does not purport to be complete in all respects. This description is subject to and qualified in its entirety by reference to our Articles of Incorporation, as amended (the "Articles of Incorporation") and as may be amended from time to time, and the amendment thereto creating the Series J Preferred Stock.

General

Under our Articles of Incorporation, we have authority to issue up to 500,000 shares of preferred stock, no par value (including the Series J Preferred Stock), of which 24,000 shares of the Series H Preferred Stock and 18,000 shares of the Series I Preferred Stock are issued and outstanding.

We are offering _____ Depositary Shares representing _____ shares of Series J Preferred Stock in the aggregate by this prospectus supplement.

Dividends

Commencing on September 30, 2014 through, but excluding September 30, 2019 (the "Fixed Rate Period"), dividends on the Series J Preferred Stock will accrue, on a non-cumulative basis, at an annual rate of ____%. Commencing on September 30, 2019 and continuing for so long as any shares of Series J Preferred Stock remain outstanding (the "Floating Rate Period"), dividends on the Series J Preferred Stock will accrue, on a non-cumulative basis, at an annual rate equal to three-month LIBOR, reset quarterly, plus ____%.

For purposes of calculating any dividend on the Series J Preferred Stock during the Floating Rate Period:

- "Three-month LIBOR" means, with respect to any quarterly dividend payment period, the rate (expressed as a percentage per annum) for deposits in U.S. dollars for such three-month period commencing on the first day of that quarterly dividend payment period that appears on the Reuters Screen LIBOR01 Page as of 11:00 a.m., London time, on the LIBOR determination date for that quarterly dividend payment period. If such rate does not appear on Reuters Screen LIBOR01 Page, three-month LIBOR will be determined on the basis of the rates at which deposits in U.S. dollars for such three-month period commencing on the first day of that quarterly dividend payment period and in a principal amount of not less than \$1,000,000 are offered to prime banks in the London interbank market by four major banks in the London interbank market selected by the calculation agent (after consultation with Fifth Third), at approximately 11:00 a.m., London time, on the LIBOR determination date for that quarterly dividend payment period. The calculation agent will request the principal London office of each of such banks to provide a quotation of its rate. If at least two such quotations are provided, three-month LIBOR with respect to that quarterly dividend payment period will be the arithmetic mean (rounded upward if necessary to the nearest whole multiple of 0.00001%) of such quotations. If fewer than two quotations are provided, three-month LIBOR with respect to that quarterly dividend payment period will be the arithmetic mean (rounded upward if necessary to the nearest whole multiple of 0.00001%) of the rates quoted by three major banks in New York City selected by the calculation agent, at approximately 11:00 a.m., New York City time, on the LIBOR determination date for that quarterly dividend payment period for loans in U.S. dollars to leading European banks

[Table of Contents](#)

for a three-month period commencing on the first day of that quarterly dividend payment period and in a principal amount of not less than \$1,000,000. However, if fewer than three banks selected by the calculation agent to provide quotations are quoting as described above, three-month LIBOR for that quarterly dividend payment period will be the same as three-month LIBOR as determined for the immediately preceding dividend payment period. The establishment of three-month LIBOR for each quarterly dividend payment period by the calculation agent shall (in the absence of manifest error) be final and binding.

- “*Calculation agent*” means Wilmington Trust, National Association or any other firm appointed by Fifth Third, acting as calculation agent. Upon request of the holder of any shares of Series J Preferred Stock, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective for the next quarterly dividend payment period for the Series J Preferred Stock.
- “*LIBOR determination date*” means the second London banking day immediately preceding the first day of the relevant quarterly dividend payment period.
- “*Reuters Screen LIBOR01 Page*” means the display designated on the Reuters Screen LIBOR01 Page (or such other page as may replace Reuters Screen LIBOR01 Page on the service or such other service as may be nominated by the British Bankers’ Association for the purpose of displaying London interbank offered rates for U.S. Dollar deposits).

When issued, the Series J Preferred Stock will have a fixed liquidation preference of \$25,000 per share. If we liquidate, dissolve and wind up our affairs, holders of Series J Preferred Stock will be entitled to receive, out of our assets that are available for distribution to shareholders, an amount per share equal to the liquidation preference per share plus any declared and unpaid dividends, including, if applicable, a *pro rata* portion of any declared and unpaid dividends for the then-current dividend payment period to the date of liquidation, without regard to any undeclared dividends. Distributions will be made *pro rata* as to the Series J Preferred Stock and any other equity securities designated as ranking on a parity with the Series J Preferred Stock with respect to the payment of dividends and distribution of assets upon any liquidation, dissolution and winding-up of Fifth Third and only to the extent of Fifth Third’s assets, if any, that are available after satisfaction of all liabilities to creditors and distributions to holders of senior securities.

For the Fixed Rate Period, dividends on the liquidation preference of \$25,000 per share of Series J Preferred Stock will be payable, when, as and if declared by our board of directors, semi-annually in arrears on each March 31 and September 30, beginning on September 30, 2014 to and including September 30, 2019. For the Floating Rate Period, dividends on the liquidation preference of \$25,000 per share of Series J Preferred Stock will be payable, when, as and if declared by our board of directors, quarterly in arrears on March 31, June 30, September 30 and December 31 of each year, beginning on December 31, 2019. Each dividend payment date will relate to the immediately preceding dividend payment period. If any of those dividend payment dates or any date fixed for payment upon redemption is not a business day, then such payment will be payable on the next succeeding business day without any increase in the amount payable as a result of such postponement.

Dividends on shares of Series J Preferred Stock will not be cumulative and will not be mandatory. Accordingly, if our board of directors does not declare a dividend on the Series J Preferred Stock payable in respect of any dividend payment period before the related dividend payment date, such dividend will not accrue and we will have no obligation to pay a dividend for that dividend payment period on the dividend payment date or at any future time, whether

[Table of Contents](#)

or not dividends on the Series J Preferred Stock are declared for any future dividend payment period.

Declared dividends, if any, will be paid to holders of record of Series J Preferred Stock on the respective date fixed for that purpose by our board of directors in advance of payment of each particular declared dividend (a "record date"). Record dates for the payment of dividends and other matters relating to the Depositary Shares will be the same as the corresponding record dates for the Series J Preferred Stock.

A "dividend payment period" means each period commencing on, and including, a dividend payment date and ending on, but excluding, the next succeeding dividend payment date, except that the first dividend payment period shall commence on, and include, the original issuance date of the Series J Preferred Stock and end on, but exclude, September 30, 2014.

For the Fixed Rate Period, the dividend payable on the Series J Preferred Stock for any dividend payment period will be computed on the basis of a 360-day year of twelve 30-day months.

For the Floating Rate Period, the dividend accrued for each day (the "Daily Dividend Amount") will be calculated by dividing the dividend rate in effect for such day by 360 and multiplying the result by the aggregate liquidation preference of the Series J Preferred Stock. The dividend to be paid, when, as and if declared by our board of directors, on the Series J Preferred Stock for each quarterly dividend payment period will be calculated by adding the Daily Dividend Amounts for each day in such quarterly dividend payment period. All percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one-millionths of a percentage point being rounded upwards (e.g., 8.765435% (or .08765435) being rounded to 8.76544% (or .0876544)) and all dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one-half cent being rounded upwards).

The Series J Preferred Stock will rank senior to our common stock with respect to the payment of dividends to the extent provided in the Articles of Incorporation. As a result, so long as any shares of Series J Preferred Stock remain outstanding, unless the full dividends for the then-current dividend payment period on all outstanding shares of Series J Preferred Stock have been paid, or declared and funds set aside therefore, on any day in the immediately succeeding dividend payment period, no dividend whatsoever shall be declared on any junior stock, other than a dividend payable solely in junior stock; and we and our subsidiaries may not purchase, redeem or otherwise acquire for consideration (other than as a result of reclassification of junior stock for or into junior stock, or the exchange or conversion of one share of junior stock for or into another share of junior stock, and other than through the use of the proceeds of a substantially contemporaneous sale of other shares of junior stock), nor will we pay to or make available any monies for a sinking fund for the redemption of any junior stock. The foregoing provisions shall not restrict the ability of any of our affiliates to engage in any market-making transactions in our junior stock in the ordinary course of business.

Our board of directors may, in its discretion, choose to pay dividends on the Series J Preferred Stock without the payment of any dividends on our common stock (or any of our other stock ranking, as to the payment of dividends, junior to the Series J Preferred Stock). No dividends may be declared or paid or set apart for payment on any Series J Preferred Stock if at the same time any arrears exist or default exists in the payment of dividends on any outstanding class or series of our stock ranking, as to the payment of dividends, senior to Series J Preferred Stock. On any dividend payment date for which dividends are not paid, or declared and funds set aside therefor, on the Series J Preferred Stock and any Dividend Parity Stock, all

[Table of Contents](#)

dividends paid or declared for payment on that dividend payment date with respect to the Series J Preferred Stock and the Dividend Parity Stock will be shared ratably by the holders of any shares of such other series of Dividend Parity Stock who have the right to receive dividends with respect to dividend payment periods prior to the then-current dividend payment period, in proportion to their respective amounts of undeclared and unpaid dividends relating to such prior dividend payment periods. Thereafter, such dividends paid or declared for payment on that dividend payment date with respect to the Series J Preferred Stock and the Dividend Parity Stock shall be shared by holders of the shares of Series J Preferred Stock and the Dividend Parity Stock on a *pro rata* basis.

“*Dividend Parity Stock*” refers to shares of any class or series or any securities convertible into shares of any class or series of other equity securities designated as ranking on a parity with the Series J Preferred Stock as to payment of dividends.

Ranking

The Series J Preferred Stock will rank senior to our common stock, and to all other of our equity securities that we may issue in the future that by their terms rank junior to the Series J Preferred Stock, with respect to payment of dividends and distribution of assets upon our liquidation, dissolution and winding up.

The Series J Preferred Stock will rank equally with our outstanding Series H Preferred Stock and Series I Preferred Stock. The Series J Preferred Stock will rank equally with any shares of preferred stock and with all other equity securities that we may issue in the future, the terms of which provide that such preferred stock or other equity securities will rank equally with the Series J Preferred Stock with respect to payment of dividends and distribution of assets upon our liquidation, dissolution and winding up.

The terms of the Series J Preferred Stock will provide, that we will not issue any series of preferred stock in the future that ranks senior to the Series J Preferred Stock, but we may issue additional series ranking junior to or on a parity with the Series J Preferred Stock with respect to the payment of dividends and distribution of assets upon any liquidation, dissolution and winding up of Fifth Third. Our Series H Preferred Stock and our Series I Preferred Stock contain similar provisions.

The Series J Preferred Stock will rank junior to our secured and unsecured debt, including subordinated debt.

Maturity

The Series J Preferred Stock does not have a maturity date, and we are not required to redeem the Series J Preferred Stock. In addition, we are not required to set aside funds to redeem the Series J Preferred Stock. Accordingly, the Series J Preferred Stock will remain outstanding indefinitely unless we decide to redeem them.

Redemption

Subject to receiving all required regulatory approvals, we may redeem the Series J Preferred Stock at our option, in whole or in part, at any time, or from time to time, on or after September 30, 2019 at a redemption price equal to \$25,000 per share, plus an amount equal to any declared but unpaid dividends to, but excluding, the redemption date, without accumulation of any undeclared dividends.

[Table of Contents](#)

We may also redeem the Series J Preferred Stock at our option, in whole but not in part, at any time after our good faith determination that an event has occurred that would constitute a “regulatory capital event.” If we exercise our option upon such an event, subject to receiving all required regulatory approvals (including prior approval by the Federal Reserve Board, if required), we will provide notice of our intent to redeem the Series J Preferred Stock in accordance with the procedures described below, and subsequently redeem in whole, but not in part, prior to September 30, 2019, the shares of Series J Preferred Stock at the time outstanding at a redemption price equal to \$25,000 per share, plus an amount equal to any declared but unpaid dividends to, but excluding, the redemption date, without accumulation of any undeclared dividends.

A “*regulatory capital event*” means our reasonable determination that as a result of any:

- amendment to, clarification of, or change (including any announced prospective change) in the laws or regulations of the United States or any political subdivision of the United States that is enacted or becomes effective on or after the date we first issue shares of the Series J Preferred Stock, which date is expected to be June , 2014;
- proposed change in the laws or regulations of the United States or any political subdivision of the United States that is announced or becomes effective on or after the date we first issue shares of the Series J Preferred Stock, which date is expected to be June , 2014; or
- official administrative decision or judicial decision or administrative action or other official pronouncement interpreting or applying the laws or regulations of the United States or any political subdivision of the United States that is announced on or after the date we first issue shares of the Series J Preferred Stock, which date is expected to be June , 2014,

there is more than an insubstantial risk that we will not be entitled to treat the full liquidation preference amount of all shares of Series J Preferred Stock then outstanding as additional Tier 1 capital (or its equivalent) for purposes of the capital adequacy guidelines or regulations of the appropriate federal banking agency, as then in effect and applicable, for as long as any share of Series J Preferred Stock is outstanding.

Under the current Federal Reserve Board’s risk-based capital guidelines applicable to bank holding companies, any redemption of the Series J Preferred Stock is subject to prior approval of the Federal Reserve Board. In addition, under the Final Rules, before we can redeem the Series J Preferred Stock, or immediately thereafter, we must either replace the Series J Preferred Stock to be redeemed with an equal amount of common equity Tier 1 or additional Tier 1 capital instruments, or demonstrate to the satisfaction of the Federal Reserve Board that following redemption, we will continue to hold capital commensurate with our risk.

We may redeem the Series J Preferred Stock upon not less than 30 and not more than 60 days’ notice, which notice will be irrevocable, at a price of 100% of the liquidation preference of the redeemed Series J Preferred Stock, plus declared but unpaid dividends, if any, to, but excluding, the redemption date.

If notice of redemption of any shares of Series J Preferred Stock has been duly given and if the funds necessary for such redemption have been irrevocably set aside by us for the benefit of the holders of the shares of Series J Preferred Stock so called for redemption, then, on and after the redemption date, dividends will not accrue on such shares of Series J Preferred Stock, such shares of Series J Preferred Stock shall no longer be deemed outstanding and all rights of the

[Table of Contents](#)

holders of such shares will terminate, except the right to receive the redemption price. In case of any redemption of only part of the shares of Series J Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either *pro rata* or in such other manner as we may determine to be fair and equitable.

The holders of the Series J Preferred Stock have no right to require redemption of the Series J Preferred Stock.

Voting rights

The Series J Preferred Stock will have no voting rights except as set forth below or as otherwise provided by Ohio law.

Ohio law provides for mandatory voting rights for a class of shares in certain circumstances. The holders of the outstanding shares of a class are entitled to vote as a separate voting class on any amendment to a corporation's articles of incorporation that would result in any of the following consequences:

- increase or decrease the par value of the issued shares of the particular class, except in the case of certain amendments to the articles of incorporation adopted by the directors of the corporation to prevent an increase in the aggregate par value of the outstanding shares of the class as a result of certain dividends or distributions;
- change the issued shares of the particular class into a lesser number of shares of the same class or into the same or a different number of shares of any other class;
- change the express terms, or add express terms, of the shares of the particular class in any manner substantially prejudicial to the holders of the shares;
- change the express terms of issued shares of any class senior to the particular class in any manner substantially prejudicial to the holders of shares of the particular class;
- authorize shares of another class that are convertible into, or authorize the conversion of shares of another class into, shares of the particular class, or authorize the directors to fix or alter conversion rights of shares of another class that are convertible into shares of the particular class;
- reduce or eliminate the stated capital of the corporation in certain circumstances;
- substantially change the purposes of the corporation, or provide that a subsequent amendment to the articles of incorporation may be adopted that would substantially change the purposes of the corporation;
- change the corporation into a nonprofit corporation; or
- release preemptive right of any shares of that class entitled to preemptive rights.

Ohio law also requires that any merger or consolidation of a corporation with or into any other entity in which the corporation is not the surviving corporation be approved by the holders of each class of outstanding shares, if such class of shares would be changed in such merger or consolidation in a manner that would have required the approval of such class if the change were effected by an amendment to the corporation's articles of incorporation.

Ohio law further provides that a corporation's board of directors may seek shareholder approval for the purchase by the corporation of its own shares, in which case shareholders would need to vote as a class to approve such repurchases even if such class did not otherwise have voting rights.

[Table of Contents](#)

In all of the foregoing situations set forth above, the vote or consent of the holders of at least two thirds of the outstanding shares of the Series J Preferred Stock, as well as at least two thirds of the outstanding shares of each other series of preferred shares, each voting separately as a single class, given in person or by proxy at any meeting called for the purpose, will be necessary for effecting or authorizing such matter. Alternatively, the holders of the Series J Preferred Stock as well as each other series of preferred stock could approve such matters by unanimous written consent without a meeting.

We believe that each outstanding series of shares of our preferred stock, including the Series J Preferred Stock, should be treated as a separate "class" of shares for purposes of the provisions of Ohio law described above. However, we are not aware of any controlling precedent on point.

Merger and Consolidations

We will not effect any merger or consolidation of Fifth Third with or into any entity other than a corporation, or any merger or consolidation of Fifth Third with or into any other corporation, unless (a) the Series J Preferred Stock remains issued and outstanding following the transaction, (b) holders of Series J Preferred Stock are issued a class or series of preferred stock of the surviving or resulting corporation, or a corporation controlling such corporation, having substantially identical voting powers, preferences and special rights, or (c) such merger is approved by a class vote of the holders of Series J Preferred Stock pursuant to the mandatory voting rights provided by Ohio law and as set forth in the terms of the Series J Preferred Stock.

Liquidation preference

Upon any voluntary or involuntary liquidation, dissolution and winding up of our company, holders of Series J Preferred Stock will be entitled to receive an amount per share referred to as the "*Total Liquidation Amount*," equal to the fixed liquidation preference of \$25,000 per share, plus any declared and unpaid dividends including, if applicable, a *pro rata* portion of any declared and unpaid dividends for the then-current dividend payment period to the date of liquidation. Holders of the Series J Preferred Stock will be entitled to receive the Total Liquidation Amount out of our assets that are available for distribution to shareholders of our capital stock ranking equally on liquidation to the Series J Preferred Stock, but only after payment or provision for payment of our debts and other liabilities. Holders of the Series J Preferred Stock will be entitled to receive such Total Liquidation Amount before any distribution of assets is made to holders of our common stock or any other securities ranking, as to liquidation distributions, junior to the Series J Preferred Stock.

If our assets are not sufficient to pay the Total Liquidation Amount in full to all holders of Series J Preferred Stock and all holders of any shares of our stock ranking equally as to any such distribution with the Series J Preferred Stock, the amounts paid to holders of Series J Preferred Stock and to holders of such other shares will be paid *pro rata* in accordance with the respective Total Liquidation Amount and the aggregate liquidation amount of any such other shares.

Neither the sale, conveyance, exchange or transfer, for cash, shares of stock, securities or other consideration, of all or substantially all of our property and assets nor the consolidation or merger by our company with or into any other corporation or the consolidation or merger of any other corporation with or into our company will be deemed to be a voluntary or involuntary liquidation, dissolution and winding up of our company.

The additional shares would form a single series together with all previously issued shares of Series J Preferred Stock. In the event we issue additional shares of Series J Preferred Stock, we will cause a corresponding number of additional Depositary Shares to be issued.

Transfer agent, registrar and paying agent

American Stock Transfer and Trust Company will be the transfer agent, registrar and paying agent for the Series J Preferred Stock. The Series J Preferred Stock will be held in book-entry form by Wilmington Trust, National Association, as the depository.

DESCRIPTION OF THE DEPOSITARY SHARES

This prospectus supplement summarizes specific terms and provisions of the Depositary Shares relating to the Series J Preferred Stock. The following summary is qualified in its entirety by reference to the terms and provisions of the Deposit Agreement, the form of depositary receipts, which contain the terms and provisions of the Depositary Shares, our Articles of Incorporation and the amendment thereto creating the Series J Preferred Stock.

General

We are issuing fractional ownership interests in shares of Series J Preferred Stock in the form of Depositary Shares. Each Depositary Share will represent a 1/25th interest in one share of Series J Preferred Stock. The Depositary Shares will be evidenced by depositary receipts. The shares of Series J Preferred Stock underlying the Depositary Shares will be deposited with Wilmington Trust, National Association, as depositary, under a deposit agreement to be entered into on or before the closing date (the “*Deposit Agreement*”), among us, the depositary, the registrar appointed thereunder and all holders from time to time of depositary receipts issued by the depositary thereunder. The Series J Preferred Stock will be issued only in fully registered form and will be registered in the name of the depositary. Copies of the Deposit Agreement and forms of the depositary receipt may be obtained from us upon request and in the manner described in the “Where You Can Find More Information” section of the accompanying prospectus.

American Stock Transfer and Trust Company will act as transfer agent and registrar with respect to the depositary receipts, Depositary Shares and Series J Preferred Stock. Wilmington Trust, National Association will act as depositary and calculation agent with respect to the Depositary Shares. The depositary’s office at which the depositary receipts will be administered is located at 1100 N. Market Street, Wilmington, DE 19890.

In this prospectus supplement, references to “*holders*” of Depositary Shares mean those who own Depositary Shares registered in their own names on the books that we, the transfer agent and registrar, or the depositary maintain for this purpose. DTC is the only registered holder of the depositary receipts representing the Depositary Shares. References to “*holders*” of Depositary Shares do not include indirect holders who own beneficial interests in Depositary Shares registered in street name or issued in book-entry form through DTC. Please review the special considerations that apply to indirect holders described in the section entitled “Book-entry system.”

Subject to the terms of the Deposit Agreement, each holder of a Depositary Share will be entitled, through the depositary, in proportion to the applicable fraction of a share of Series J Preferred Stock represented by such Depositary Share, to all the rights and preferences of the Series J Preferred Stock represented thereby (including dividend, voting, redemption and liquidation rights).

Dividends and other distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the Series J Preferred Stock to the record holders of Depositary Shares in proportion to the numbers of such Depositary Shares owned by such holders on the relevant record date. In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of Depositary Shares entitled thereto, unless the depositary determines that it is not feasible to make such distribution, in which case the depositary may,

[Table of Contents](#)

with our approval, sell such property and distribute the net proceeds from such sale to such holders.

Record dates for the payment of dividends and other matters relating to the Depositary Shares will be the same as the corresponding record dates for the Series J Preferred Stock. See "Description of the Series J Preferred Stock – Dividends."

The amounts distributed to holders of Depositary Shares will be reduced by any amounts required to be withheld by the depositary or by us on account of taxes or other governmental charges.

Redemption of Depositary Shares

If we redeem the Series J Preferred Stock represented by the Depositary Shares, the Depositary Shares will be redeemed from the proceeds received by the depositary resulting from the redemption of the Series J Preferred Stock held by the depositary. The redemption price per Depositary Share will be equal to 1/25th of the redemption price per share payable with respect to the Series J Preferred Stock (or \$1,000 per Depositary Share), plus any declared and unpaid dividends, without accumulation of any undeclared dividends. Whenever we redeem shares of Series J Preferred Stock held by the depositary, the depositary will redeem, as of the same redemption date, the number of Depositary Shares representing shares of Series J Preferred Stock so redeemed.

If fewer than all of the outstanding Depositary Shares are redeemed, the depositary will select the Depositary Shares to be redeemed *pro rata*, by lot or in such other manner determined by the depositary to be equitable. In any such case, we will redeem Depositary Shares only in increments of 25 shares and any multiple thereof. The depositary will mail notice of redemption to record holders of the depositary receipts not less than 30 and not more than 60 days prior to the date fixed for redemption of the Series J Preferred Stock and the related Depositary Shares.

Withdrawal of Series J Preferred Stock

Any holder of 25 or more Depositary Shares may receive the number of whole shares of Series J Preferred Stock and any money or other property represented by the Depositary Shares held by such holder after surrendering the depositary receipts representing such Depositary Shares at the corporate trust office of the depositary, paying any taxes, governmental charges and fees provided for in the Deposit Agreement and complying with any other requirement of the Deposit Agreement. Holders of Depositary Shares making these withdrawals will be entitled to receive such whole shares of Series J Preferred Stock, but holders of such whole shares of Series J Preferred Stock will not be entitled to deposit that Series J Preferred Stock under the Deposit Agreement or to receive Depositary Shares for such Series J Preferred Stock after withdrawal. If the Depositary Shares surrendered by the holder in connection with withdrawal exceed the number of Depositary Shares that represent the number of whole shares of Series J Preferred Stock to be withdrawn, the depositary will deliver to that holder at the same time a new depositary receipt evidencing the excess number of Depositary Shares.

Amendment and termination of the Deposit Agreement

We may amend the form of depositary receipt evidencing the Depositary Shares and any provision of the Deposit Agreement at any time and from time to time by agreement with the depositary without the consent of the holders of depositary receipts. However, any amendment that will materially and adversely alter the rights of the holders of depositary receipts or that would be materially and adversely inconsistent with the rights granted to the holders of the

[Table of Contents](#)

Series J Preferred Stock will not be effective unless the holders of at least a majority of the affected Depositary Shares then outstanding approve the amendment. We will make no amendment that impairs the right of any holder of Depositary Shares, as described above under “—Withdrawal of Series J Preferred Stock,” to receive shares of Series J Preferred Stock and any money or other property represented by those Depositary Shares, except in order to comply with mandatory provisions of applicable law. Holders who retain or acquire their depositary receipts after an amendment becomes effective will be deemed to have agreed to the amendment and will be bound by the amended Deposit Agreement.

The Deposit Agreement will automatically terminate if:

- all outstanding Depositary Shares have been redeemed; or
- a final distribution in respect of the Series J Preferred Stock has been made to the holders of depositary receipts in connection with any liquidation, dissolution and winding up of Fifth Third.

We may terminate the Deposit Agreement at any time upon not less than 35 days' prior notice to the depositary, and the depositary will give notice of that termination to the record holders of all outstanding Depositary Shares not less than 30 days before the termination date. In the event of such termination, the depositary will deliver or make available for delivery to holders of depositary receipts, upon surrender of such depositary receipts, the number of whole or fractional shares of Series J Preferred Stock as are represented by the Depositary Shares evidenced by such depositary receipts.

Charges of depositary

We will pay the charges of the depositary and the calculation agent in connection with the initial deposit of the Series J Preferred Stock and the initial issuance of the Depositary Shares, any redemption of the Series J Preferred Stock at our option, and all withdrawals of Series J Preferred Stock by holders of Depositary Shares as previously agreed between us and the depositary. We will also pay all taxes and governmental charges arising solely from the existence of the Deposit Agreement. Holders of Depositary Shares will pay all other transfer and other taxes and governmental charges and, in addition, such other charges as are expressly provided in the Deposit Agreement to be for their accounts. All other charges and expenses of the depositary, the calculation agent and the registrar and transfer agent incident to the performance of their respective obligations arising from the depositary arrangements will be paid by us.

Miscellaneous

The depositary will forward to the holders of the Depositary Shares all reports and communications from us that we are required to furnish to the holders of the Series J Preferred Stock.

Neither the depositary nor we will be liable if it or we are prevented or delayed by law or any circumstances beyond its or our control in performing our respective obligations under the Deposit Agreement. Our obligations and the obligations of the depositary under the Deposit Agreement will be limited to the performance of such duties as are set forth in the Deposit Agreement. Neither we nor the depositary shall be subject to any liability under the Deposit Agreement, other than for bad faith, gross negligence or willful misconduct.

Neither we nor the depositary, the registrar or the transfer agent will be obligated to prosecute or defend any legal proceedings in respect of any Depositary Shares or the Series J Preferred Stock unless a satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or independent accountants, or information provided by persons

[Table of Contents](#)

presenting Series J Preferred Stock for deposit, holders of Depositary Shares or other persons believed to be competent and on documents believed to be genuine.

Resignation and removal of depositary; termination of Deposit Agreement

The depositary may resign at any time by delivering to us notice of its resignation and we may at any time remove the depositary, with any such resignation or removal taking effect upon the appointment of a successor depositary and its acceptance of such appointment. Such successor depositary will be appointed by us within 60 days after delivery of the notice of resignation or removal. Upon termination of the Deposit Agreement, the depositary will discontinue the transfer of depositary receipts, will suspend the distribution of dividends and will not give any further notices (other than notice of such termination) or perform any further acts under the Deposit Agreement, except that the depositary will continue to collect dividends and other distributions pertaining to Series J Preferred Stock and will continue to deliver Series J Preferred Stock certificates together with such dividends and distributions. At any time after the expiration of three years from the date of termination, the depositary may sell the Series J Preferred Stock and hold the proceeds of such sale, without interest, for the benefit of the holders of depositary receipts who have not then surrendered their depositary receipts. After making such sale, the depositary will be discharged from all obligations under the Deposit Agreement, except to account for such proceeds.

Voting of the Series J Preferred Stock

Because each Depositary Share represents a 1/25th ownership interest in a share of the Series J Preferred Stock, holders of depositary receipts will be entitled to a 1/25th vote per Depositary Share under those limited circumstances in which holders of the Series J Preferred Stock are entitled to vote.

When the depositary receives notice of any meeting at which the holders of the Series J Preferred Stock are entitled to vote, the depositary will mail (by electronic mail or first-class postage prepaid mail) the information contained in the notice to the record holders of the depositary receipts relating to the Series J Preferred Stock. Each record holder of the Depositary Shares on the record date, which will be the same date as the record date for the Series J Preferred Stock, may instruct the depositary to vote the amount of the Series J Preferred Stock represented by the holder's Depositary Shares. Insofar as practicable, the depositary will vote the amount of the Series J Preferred Stock represented by Depositary Shares evidenced by such depositary receipts in accordance with the instructions it receives. We will agree to take all reasonable actions that the depositary determines are necessary to enable the depositary to vote as instructed. If the depositary does not receive specific instructions from the holders of any Depositary Shares representing the Series J Preferred Stock, it will not vote the amount of Series J Preferred Stock represented by such Depositary Shares.

Listing

The Depositary Shares will not be listed on any securities exchange or electronic communication network.

Form of Depositary Shares

The Depositary Shares shall be issued will be issued only in book-entry form through DTC, as described under "Book-entry system" in this prospectus supplement. The Series J Preferred Stock will be issued in registered form to the depositary.

Of the total number of authorized shares of stock, 2,000,000,000 shares are shares of common stock, no par value, and 500,000 shares are shares of preferred stock, no par value. This power is limited by applicable laws or regulations and may be delegated to a committee of our board of directors. Reference to this power by our board of directors includes any authorized committee thereof.

Shares of preferred stock may be issued from time to time in one or more series. Fifth Third's board of directors is authorized, within the limitations and restrictions stated in the fourth article of Fifth Third's Articles of Incorporation, to fix by resolution: the division of such shares of preferred stock into series and the designation and authorized number of shares of each series, the dividend rate; whether dividend rights shall be cumulative or non-cumulative; the dates of payment of dividends and the dates from which they are cumulative; liquidation price; redemption rights and price; sinking fund requirements, conversion rights and restrictions on the issuance of such shares or any series thereof and such other subjects or matters as may be fixed by resolution or exchange, and such other subjects or matters as may be fixed by resolution of Fifth Third's board of directors under the General Corporation Law of the State of Ohio.

The Series I Preferred Stock ranks senior to shares of our common stock in the event of liquidation or dissolution of Fifth Third.

Shares of Common Stock

We may issue shares of common stock in such amounts and proportion and for such consideration as may be fixed by our board of directors or a properly designated committee thereof. As of the date of this prospectus supplement, we are authorized to issue up to 2,000,000,000 shares of common stock. As of March 31, 2014, we had issued 847,568,728 shares of our common stock (excluding 76,323,853 shares of common stock held in treasury). Shares of our common stock are traded on the NASDAQ Global Select Market under the symbol “FITB”. The transfer agent and registrar for shares of our common stock is American Stock Transfer & Trust Company, LLC.

General

Holders of shares of our common stock are not entitled to preemptive or preferential rights. Shares of our common stock have no redemption or sinking fund provisions applicable thereto. Shares of our common stock do not have any conversion rights. The rights of holders of shares of our common stock will be subject to, and may be adversely affected by, the rights of holders of our currently outstanding Series H Preferred Stock, the Series J Preferred Stock and any shares of preferred stock that we may issue in the future.

We may issue authorized but unissued shares of common stock in connection with several employee benefit and stock option and incentive plans maintained by us or our subsidiaries, and under our Shareholder Direct Plan.

Our outstanding shares of common stock are fully paid and non-assessable and shares of our common stock that we issue in the future, when fully paid for, will be non-assessable.

[Table of Contents](#)

Dividends

When, as and if dividends are declared by our board of directors out of funds legally available for their payment, the holders of shares of our common stock are entitled to share equally, share for share, in such dividends. The payment of dividends on shares of our common stock is subject to the prior payment of dividends on shares of our preferred stock.

Liquidation

In the event of our voluntary or involuntary liquidation, dissolution, and winding up, the holders of shares of our common stock are entitled to receive, on a share for share basis, any of our assets or funds available for distribution after we have paid in full all of our debts and distributions and the full liquidation preferences of all series of shares of our outstanding preferred stock.

Voting Rights

Subject to the rights, if any, of the holders of shares of any series of preferred stock, holders of shares of our common stock have exclusive voting rights and are entitled to one vote for each share of common stock on all matters voted upon by the shareholders. Upon demand, holders of shares of our common stock have the right to cumulate their voting power in the election of directors under certain conditions.

Change of Control

Articles of Incorporation and Code of Regulations. Our Articles of Incorporation and Code of Regulations contain various provisions which could discourage or delay attempts to gain control of us, including among others, provisions that:

- authorize the board of directors to fix its size between 10 and 30 directors;
- provide that directors may be removed only for cause and only by a vote of the holders of a majority of the shares entitled to vote thereon; and
- authorize directors to fill vacancies on the board that occur between annual stockholder meetings, except for vacancies caused by a director's removal by a stockholder vote.

In addition, the ability of the board of directors to issue authorized but unissued common shares or preferred stock could have an anti-takeover effect.

Federal Bank Regulatory Limitations. The Change in Bank Control Act prohibits a person or group of persons from acquiring "control" of a bank holding company unless:

- the Federal Reserve Board has been given 60 days' prior written notice of the proposed acquisition; and
- within that time period, the Federal Reserve Board does not issue a notice disapproving the proposed acquisition or extending for up to another 30 days the period during which such a disapproval may be issued,

or unless the acquisition otherwise required Federal Reserve Board approval. An acquisition may be made before expiration of the disapproval period if the Federal Reserve Board issues written notice that it intends not to disapprove the action. The acquisition of more than 10% of a class of voting stock of a bank holding company with publicly held securities, such as Fifth Third, generally would constitute the acquisition of control.

[Table of Contents](#)

In addition, any “company” would be required to obtain Federal Reserve Board approval before acquiring 25% or more of our outstanding common shares. If the acquiror is a bank holding company, this approval is required before acquiring 5% of the outstanding common shares. A company’s obtaining “control” of Fifth Third would also require Federal Reserve Board prior approval. “Control” generally means:

- the ownership or control of 25% or more of a class of voting securities;
- the ability to elect a majority of the directors; or
- the ability otherwise to exercise a controlling influence over management and policies.

Ohio Law. Ohio law contains provisions that also could make more difficult a change of control of us or discourage a tender offer or other plan to restructure us. The following discussion of some of these provisions is qualified in its entirety by reference to those particular statutory and regulatory provisions.

Control Share Acquisition Act. The Ohio Control Acquisition Act provides that any “control share acquisition” of an Ohio issuing public corporation may be made only with the prior authorization of the shareholders of the corporation in accordance with the provisions of the Control Share Acquisition Act, unless the corporation’s articles of incorporation or code of regulations provide that the Control Share Acquisition Act does not apply to control share acquisition of its shares. Our Articles of Incorporation and Code of Regulations do not so provide, and accordingly we are subject to the Control Share Acquisition Act. Subject to certain exceptions, a “control share acquisition” means the acquisition, directly or indirectly, by any person of shares of the corporation that, when added to all other shares in respect to which the person exercises voting power, would entitle that person, directly or indirectly to exercise voting power in the election of directors within the following ranges:

- 20% or more, but less than one-third;
- one-third or more, but less than a majority; or
- a majority or more.

The Control Share Acquisition Act also requires that the acquiring person deliver an acquiring person statement to the corporation. The corporation must call a special meeting of its stockholders to vote upon the proposed acquisition within 50 days after receipt of the acquiring person statement, unless the acquiring person agrees to a later date.

The Control Share Acquisition Act further specifies that the stockholders must approve the proposed control share acquisition by certain percentages at a special meeting of stockholders at which a quorum is present. In order to comply with the Control Share Acquisition Act, the acquiring person may only acquire shares upon the affirmative vote of:

- a majority of the voting power of the common shares entitled to vote in the election of directors that is represented in person or by proxy at the separate special meeting; and
- a majority of the voting power of the common shares that is represented in person or by proxy at the special meeting excluding those shares of the common shares deemed to be “interested shares” for purposes of the Control Share Acquisition Act.

“Interested shares” are shares the voting power of which in the election of directors is controlled by:

- an acquiring person;
- any officer of the corporation;

[Table of Contents](#)

- any employee who is also a director of the corporation; or
- any person who transfers such shares for value after the record date for the special meeting, if accompanied by the voting power in the form of a blank proxy, an agreement to vote as instructed by the transferee, or otherwise.

“*Interested shares*” also includes common shares that are acquired by any person during the period beginning on the date of the first public disclosure of a proposed control share acquisition or any proposed merger, consolidation or other transaction that would result in a change of control of the corporation or all or substantially all of its assets and ending on the record date for the special meeting if either:

- the aggregate consideration paid by the person (and any other person acting in concert with the person) for shares of the corporation’s common shares exceeds \$250,000; or
- the number of shares acquired by the person (and any other person acting in concert with the person), exceeds one-half of one percent of the outstanding shares of the corporation’s common shares entitled to vote in the election of directors.

In order to comply with the Control Share Acquisition Act, the proposed control share acquisition must be completed no later than 360 days following stockholder authorization.

Merger Moratorium Statute. Ohio corporation law prohibits an issuing public corporation, such as Fifth Third, from engaging in certain transactions with an interested stockholder for a period of three years following the date on which the person became an interested stockholder unless, prior to such date, the directors of the corporation approve either the transaction or the acquisition of shares pursuant to which such person became an interested stockholder. An interested stockholder is any person who is the beneficial owner of a sufficient number of shares to allow such person, directly or indirectly, alone or with others, including affiliates and associates, to exercise or direct the exercise of 10% of the voting power of the corporation in the election of directors.

The transactions covered include:

- any merger, consolidation, combination, or majority share acquisition between or involving the corporation or a subsidiary and an interested stockholder or an affiliate or associate of an interested stockholder;
- certain transfers of property, dividends, and issuance or transfers of shares, from or by the corporation or a subsidiary to, with, or for the benefit of an interested stockholder or an affiliate or associate of an interested stockholder unless the transaction is in the ordinary course of the corporation’s business and on terms no more favorable to the interested stockholder than those acceptable to third parties as demonstrated by contemporaneous transactions; and
- certain transactions which:
 - increase the proportionate share ownership of an interested stockholder;
 - result in the adoption of a plan, proposed by or on behalf of the interested stockholder, providing for the dissolution, winding up of the affairs, or liquidation of the corporation; or
 - pledge or extend the credit or financial resources of the corporation to or for the benefit of the interested stockholder.

[Table of Contents](#)

After the initial three-year moratorium has expired, the corporation may engage in a covered transaction if:

- the acquisition of shares pursuant to which the relevant person became an interested stockholder received the prior approval of the Board of Directors;
- the transaction is approved by the affirmative vote of the holders of shares representing at least two-thirds of the voting power of the corporation in the election of directors and by the holders of shares representing at least a majority of voting shares that are not beneficially owned by an interested stockholder or an affiliate or associate of an interested stockholder; or
- the transaction meets certain statutory tests designed to ensure that it is economically fair to all stockholders.

Tender Offer Procedures. Ohio corporation law also provides that an offeror may not make a tender offer that would result in the offeror beneficially owning more than 10% of any class of the corporation's equity securities without first filing certain information with the Ohio Division of Securities and providing such information to the corporation and stockholders within Ohio. The Ohio Division of Securities may suspend the continuation of the tender offer if it determines that the offeror's filed information does not provide full disclosure to the offerees of all material information concerning the tender offer. The statute also provides that an offeror may not acquire any equity security of the corporation within two years of the offeror's previous acquisition of any equity security of the corporation pursuant to a tender offer unless the Ohio stockholders may sell such security to the offeror on substantially the same terms as the previous tender offer. The statute does not apply to a transaction if either the offeror or the target corporation is a savings and loan or bank holding company and the proposed transaction requires federal regulatory approval. Consequently, this Ohio statute will only apply if the proposed transaction does not trigger prior approval requirements discussed above under "Federal Bank Regulatory Limitations."

Dissenter's Rights. Under Ohio law, stockholders have the right to dissent from certain corporate actions and receive the fair cash value for their shares if they follow certain procedures. Stockholders entitled to relief as dissenting stockholders under Ohio law include stockholders:

- dissenting from certain amendments to the corporation's articles of incorporation;
- of a corporation where all or substantially all of the assets of the corporation are being leased, sold, exchanged, transferred or otherwise disposed of outside of the ordinary course of its business;
- of a corporation that is being merged or consolidated into a surviving or new entity;
- of a surviving corporation in a merger who are entitled to vote on the adoption of an agreement of merger (but only as to the shares so entitling them to vote);
- other than the parent corporation, of an Ohio subsidiary corporation that is being merged into its parent corporation;
- of an acquiring corporation in a combination or a majority share acquisition who are entitled to vote on such transaction (but only as to the shares so entitling them to vote);
- of an Ohio subsidiary corporation into which one or more domestic or foreign corporations are being merged;
- of a domestic corporation that is being converted.

[Table of Contents](#)

The existence of the above provisions could potentially result in Fifth Third being less attractive to a potential acquiror, or result in our stockholders receiving less for their common stock than otherwise might be available if there is a takeover attempt.

Ohio law has eliminated dissenter's rights in connection with the above corporate actions if the shares of the corporation for which a stockholder would make a demand are listed on a national securities exchange and no proceedings are underway to delist the shares. Therefore, none of our stockholders who own shares of our stock listed on a national securities exchange could exercise dissenter's rights with respect to such shares unless, and until, such shares would be delisted. Currently, our common stock are the only shares of our capital stock that are listed on a national securities exchange.

BOOK-ENTRY SYSTEM

The Depositary Shares will be issued in fully registered form in the name of Cede & Co., as nominee of The Depository Trust Company (“DTC”). One or more fully registered global depositary receipts will be issued representing in the aggregate the total number of the Depositary Shares. Such global depositary receipt will be deposited with or on behalf of DTC and may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any nominee to a successor of DTC or a nominee of such successor.

So long as DTC, or its nominee, is the registered owner of a global depositary receipt, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Depositary Shares represented by such global depositary receipts for all purposes under the Deposit Agreement. Except as set forth in the accompanying prospectus, owners of beneficial interests in a global depositary receipt will not be entitled to have the Depositary Shares represented by such global receipt registered in their names, will not receive or be entitled to receive physical delivery of such Depositary Shares in definitive form and will not be considered the owners or holders thereof. Accordingly, each person owning a beneficial interest in a global note must rely on the procedures of DTC for such global receipt and, if such person is not a participant in DTC (as described below), on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder.

Owners of beneficial interests in a global depositary receipt may elect to hold their interests in such global depositary receipt either in the United States through DTC or outside the United States through Clearstream Banking, société anonyme (“Clearstream”) or Euroclear Bank, S.A./N.V., or its successor, as operator of the Euroclear System (“Euroclear”), if they are a participant of such system, or indirectly through organizations that are participants in such systems. Interests held through Clearstream and Euroclear will be recorded on DTC’s books as being held by the U.S. depositary for each of Clearstream and Euroclear, which U.S. depositaries will in turn hold interests on behalf of their participants’ customers’ securities accounts. Citibank, N.A. will act as depositary for Clearstream and JPMorgan Chase Bank, N.A. will act as depositary for Euroclear (in such capacities, the “U.S. Depositaries”).

As long as the Depositary Shares are represented by the global depositary receipts, we will pay dividends, if any, on the Series J Preferred Stock represented by the Depositary Shares to or as directed by DTC as the registered holder of the global depositary receipts. Payments to DTC will be in immediately available funds by wire transfer. DTC will credit the relevant accounts of their participants on the applicable date. Neither we nor Wilmington Trust, National Association will be responsible for making any payments to participants or customers of participants or for maintaining any records relating to the holdings of participants and their customers, and each person owning a beneficial interest will have to rely on the procedures of the depositary and its participants.

We have been advised by DTC, Clearstream and Euroclear, respectively, as follows:

DTC

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds

[Table of Contents](#)

securities deposited with it by its participants and facilitates the settlement of transactions among its participants in such securities through electronic computerized book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. Access to DTC's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. According to DTC, the foregoing information with respect to DTC has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind.

Clearstream

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations ("Clearstream Participants") and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic bookentry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to Depositary Shares held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depositary for Clearstream.

Euroclear

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear ("Euroclear Participants") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the "Euroclear Operator"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

[Table of Contents](#)

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, or the Euroclear Terms and Conditions, and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

- transfers of securities and cash within Euroclear;
- withdrawal of securities and cash from Euroclear; and
- receipt of payments with respect to securities in Euroclear.

All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear Participants and has no record of or relationship with persons holding securities through Euroclear Participants.

Distributions with respect to interests in the Depositary Shares held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Euroclear Terms and Conditions, to the extent received by the U.S. Depositary for the Euroclear Operator.

Settlement

Investors in the Depositary Shares will be required to make their initial payment for the Depositary Shares in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of the relevant European international clearing system by the U.S. depositary for such clearing system; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (based on European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to the U.S. Depositary to take action to effect final settlement on its behalf by delivering or receiving Depositary Shares in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. Depositories.

Because of time-zone differences, credits of Depositary Shares received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such Depositary Shares settled during such processing will be reported to the relevant Clearstream Participants or Euroclear Participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of Depositary Shares by or through a Participant customer or a Euroclear participant to a DTC participant will be received

[Table of Contents](#)

with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of Depositary Shares among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.

The information in this section concerning DTC, Clearstream, Euroclear and DTC's book-entry system has been obtained from sources that Fifth Third Bancorp believes to be reliable (including DTC, Clearstream and Euroclear), but Fifth Third Bancorp takes no responsibility for the accuracy thereof.

Neither Fifth Third Bancorp, the Depositary nor the underwriters will have any responsibility or obligation to participants, or the persons for whom they act as nominees, with respect to the accuracy of the records of DTC, its nominee or any participant with respect to any ownership interest in the Depositary Shares or payments to, or the providing of notice to participants or beneficial owners

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

This section describes the material U.S. federal income tax consequences of owning the Depositary Shares. It applies to you only if you acquire Depositary Shares upon their original issuance at their original offering price and you hold your Depositary Shares as capital assets for tax purposes. This section does not describe other U.S. federal tax consequences, nor does it describe any tax consequences arising under the laws of any state, local or foreign jurisdiction.

This section is based on the Internal Revenue Code of 1986, as amended (the "Code"), existing and proposed regulations under the Code, and published rulings and court decisions currently in effect, all of which are subject to change. Any such change may be applied retroactively and may adversely affect the U.S. federal income tax consequences described herein.

This section does not describe all of the consequences that may be relevant to you if you are a member of a class of holders subject to special rules, including, but not limited to, tax-exempt organizations, insurance companies, banks or other financial institutions, partnerships or other entities classified as partnerships for U.S. federal income tax purposes, dealers in securities or currencies, regulated investment companies, real estate investment trusts, U.S. persons whose functional currency is not the U.S. dollar, U.S. expatriates, persons subject to the alternative minimum tax, non-U.S. holders (as defined below) subject to the Medicare contribution tax, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, persons that purchase or sell Depositary Shares as part of a wash sale for tax purposes, and persons that will hold the Depositary Shares as a position in a hedging transaction, "straddle," "conversion transaction" or other risk reduction transaction.

In general, and assuming that each obligation in the Deposit Agreement and any related agreement will be performed in accordance with its terms, for United States federal income tax purposes, if you hold Depositary Shares, you will be treated as the owner of the underlying Series J Preferred Stock represented by those Depositary Shares. Accordingly, the following discussion addresses the tax consequences of owning share of Series J Preferred Stock as if you owned such shares directly rather than through the ownership interests represented by the Depositary Shares which are being sold in this offering.

Tax consequences may vary depending upon the particular status of an investor. Potential investors should consult with their own tax advisers in determining the specific tax consequences and risks to them of purchasing, holding and disposing of Depositary Shares, including the application to their particular situation of the U.S. federal income tax considerations discussed below, as well as the application of state, local, foreign or other tax laws.

U.S. holders

The discussion in this section is addressed to a U.S. holder, which for this purpose means a beneficial owner of Depositary Shares that is, for U.S. federal income tax purposes, (1) an individual citizen or resident of the United States, (2) a corporation (or other entity treated as a corporation for U.S. federal tax purposes) created or organized in or under the laws of the United States or of any state thereof or the District of Columbia, (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (4) a trust if (i) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of its substantial decisions or (ii) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

[Table of Contents](#)

Dividends. Distributions with respect to the Series J Preferred Stock will be taxable as dividend income when paid to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. To the extent that the amount of a distribution with respect to the shares of Series J Preferred Stock exceeds our current and accumulated earnings and profits, such distribution will be treated first as a tax-free return of capital to the extent of the U.S. holder's adjusted tax basis in such Series J Preferred Stock and thereafter as capital gain. Although we presently have accumulated earnings and profits, we may not have sufficient current or accumulated earnings and profits during future years for distributions with respect to the Series J Preferred Stock to be treated as dividend income.

Distributions constituting dividend income received by an individual U.S. holder in respect of Series J Preferred Stock will be "qualified dividend income" if the Series J Preferred Stock has been held for at least 61 days during the 121-day period beginning 60 days before the ex-dividend date. Qualified dividend income is generally taxed at a maximum rate that is based upon the individual's marginal tax rate for other ordinary income. These reduced rates do not apply to dividend income received by an individual U.S. holder that elects to treat such dividend income as "investment income" (as defined in the Code) which may be offset against investment expenses.

Distributions with respect to the Series J Preferred Stock constituting dividend income paid to holders that are U.S. corporations or entities taxed as corporations will generally qualify for the dividends-received deduction if the applicable holding period is met.

The availability of the reduced dividend tax rate for individuals and the dividends-received deduction for U.S. corporations is subject to certain exceptions for short-term and hedged positions and other applicable limitations. A U.S. holder should consult its own tax adviser regarding the availability of the reduced dividend tax rate and the dividends-received deduction in light of its particular circumstances. In addition, a U.S. holder should consult its own tax adviser with respect to the possible application of the "extraordinary dividend" provisions of the Code to its ownership of the Depositary Shares in light of its particular circumstances.

Dispositions. A U.S. holder will generally recognize capital gain or loss on a sale or exchange of the Series J Preferred Stock equal to the difference between the amount realized (which does not include any declared but unpaid distributions, which will be treated in the manner described above) upon the sale or exchange and such U.S. holder's adjusted tax basis in the securities sold or exchanged. A U.S. holder's initial tax basis in the Series J Preferred Stock will equal its cost. Such capital gain or loss will be long-term capital gain or loss if the U.S. holder's holding period for the securities sold or exchanged is more than one year. Long-term capital gains of non-corporate taxpayers are generally taxed at the same lower maximum tax rates applicable to qualified dividend income summarized above. Net capital gains of a U.S. holder other than long-term capital gains are taxed at the rates applicable to ordinary income. The deductibility of net capital losses is subject to limitations.

Although a U.S. holder receiving cash in a redemption of the Series J Preferred Stock is generally expected to be taxed in the same manner described for any other disposition, that treatment is subject to certain exceptions, particularly in the case of a holder actually or constructively owning other shares of our stock. A U.S. holder should consult its own tax adviser regarding the application of these rules in light of its particular circumstances. In addition, a U.S. holder should consult its own tax adviser with respect to the possible application of the "extraordinary dividend" provisions of the Code in a disposition of the Depositary Shares in light of its particular circumstances.

[Table of Contents](#)

Medicare Tax. In addition, a U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% Medicare tax on the lesser of (1) the U.S. holder's "net investment income" for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its dividend income and its net gains from the disposition of Series J Preferred Stock, unless such dividend income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. holder that is an individual, estate, or trust, should consult with its tax adviser regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the Series J Preferred Stock.

Backup withholding on U.S. holders. U.S. holders may be subject to backup withholding with respect to the payment of dividends on the Series J Preferred Stock and to payments of proceeds on the disposition of the Series J Preferred Stock unless such U.S. holders provide proof of an applicable exemption or a correct taxpayer identification number, and otherwise comply with applicable requirements of the backup withholding rules.

Any amount withheld under the backup withholding rules from a payment to a U.S. holder is allowable as a credit against such holder's U.S. federal income tax, which may entitle the U.S. holder to a refund, provided that the U.S. holder provides the required information to the Internal Revenue Service (the "IRS") in a timely manner. Moreover, certain penalties may be imposed by the IRS on a U.S. holder who is required to furnish information, but does not do so in the proper manner.

Information reporting. Information returns will generally be filed with the IRS in connection with the payment of dividends on the Series J Preferred Stock to non-corporate U.S. holders and certain payments of proceeds to non-corporate U.S. holders on the disposition of the Series J Preferred Stock.

Non-U.S. holders

The discussion in this section is addressed to non-U.S. holders of the Series J Preferred Stock. For this purpose, a non-U.S. holder is a beneficial owner of Series J Preferred Stock other than a U.S. holder or partnership.

Dividends. Generally, dividends paid to a non-U.S. holder with respect to the Series J Preferred Stock will be subject to withholding of U.S. federal income tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty, provided the non-U.S. holder furnishes the payor with a properly completed IRS Form W-8BEN or W-8BEN-E (or other applicable form) certifying under penalty of perjury that such holder is eligible for treaty benefits. The 30% withholding does not apply if the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if a tax treaty applies, are attributable to a U.S. permanent establishment maintained by the non-U.S. holder and the non-U.S. holder provides the payor with a properly completed IRS Form W-8ECI. In such case, the dividends will generally be subject to U.S. federal income tax on a net basis at applicable individual or corporate rates and, in the case of a non-U.S. holder that is a corporation, may be subject to a "branch profits tax" at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

Dispositions. A non-U.S. holder generally will not be subject to U.S. federal income tax on gain realized on the sale or exchange of the Series J Preferred Stock unless: (1) the gain is

[Table of Contents](#)

effectively connected with a U.S. trade or business of the non-U.S. holder (and if a tax treaty applies, the gain is attributable to a U.S. permanent establishment maintained by such non-U.S. holder); (2) in the case of an individual, such non-U.S. holder is present in the United States for 183 or more days in the taxable year of the sale or disposition and certain other conditions exist; or (3) we have been a "U.S. real property holding corporation" for U.S. federal income tax purposes at any time during the five-year period ending on the date of disposition of the Series J Preferred Stock and certain other conditions are met. If you are a corporate non-U.S. holder, "effectively connected" gains that you recognize may also, under certain circumstances, be subject to an additional "branch profits tax" at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. We believe that we are not currently, and we do not anticipate becoming, a U.S. real property holding corporation.

Although a non-U.S. holder receiving cash in a redemption of the Series J Preferred Stock is generally expected to be taxed in the same manner described for any other disposition, that treatment is subject to certain exceptions, particularly in the case of a non-U.S. holder actually or constructively owning other shares of our stock. A non-U.S. holder should consult its own tax adviser regarding the application of these rules in light of its particular circumstances.

Information reporting and backup withholding on non-U.S. holders. Payment of dividends and the tax withheld with respect thereto are subject to information reporting requirements. These information reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable income tax treaty, or withholding was not required because the dividends were effectively connected with a trade or business in the United States conducted by the non-U.S. holder. Copies of the information returns reporting such dividends and withholding may also be made available by the IRS under the provisions of an applicable income tax treaty or agreement to the tax authorities in the country in which the non-U.S. holder resides. U.S. backup withholding may apply to payments of dividends to non-U.S. holders unless such non-U.S. holders furnish to the payor an IRS Form W-8BEN or W-8BEN-E (or other applicable form) certifying, under penalty of perjury, that the person is a non-U.S. person, or such non-U.S. holders otherwise establish an exemption.

Payment by a U.S. office of a broker of the proceeds of a sale of the Series J Preferred Stock may be subject to both backup withholding and information reporting unless the non-U.S. holder, or beneficial owner thereof, as applicable, certifies that it is a non-U.S. holder on IRS Form W-8BEN or W-8BEN-E (or other applicable form), or otherwise establishes an exemption. Subject to certain exceptions, backup withholding and information reporting generally will not apply to a payment of proceeds from the sale of the Series J Preferred Stock if such sale is effected through a foreign office of a broker without certain specified U.S. connections.

Withholdable payments to Foreign Financial Entities and Other Foreign Entities. A 30% withholding tax may be imposed on dividend income and the gross proceeds of a disposition of the Series J Preferred Stock paid to certain foreign entities ("FATCA Withholding"). Under guidance issued by Treasury and the IRS, FATCA Withholding will apply to dividends paid on Series J Preferred Stock after June 30, 2014, and to gross proceeds from dispositions of Series J Preferred Stock after December 31, 2016. Generally, if a foreign financial institution (as specifically defined for this purpose) enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution or the foreign financial institution otherwise qualifies for an exemption, then FATCA Withholding will not be applicable. Similarly, if a non-financial foreign entity provides the withholding agent with a certification identifying the substantial U.S. owners of the entity or otherwise establishes an exemption, then FATCA Withholding will not apply. A non-U.S. holder should consult its tax adviser regarding the potential application and impact of FATCA based on its particular circumstances.

CERTAIN ERISA CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended ("ERISA") (each, a "Plan"), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the Depository Shares. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under ERISA or the Code.

Section 406 of ERISA and Section 4975 of the Code prohibit Plans, as well as individual retirement accounts, Keogh plans any other plans that are subject to Section 4975 of the Code (also "Plans"), from engaging in certain transactions involving "plan assets" with persons who are "parties in interest" under ERISA or "disqualified persons" under the Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Code for those persons, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) ("Non-ERISA Arrangements") are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, non-U.S or other laws ("Similar Laws").

The acquisition or holding of Depository Shares by a Plan or any entity whose underlying assets include "plan assets" by reason of any Plan's investment in the entity (a "Plan Asset Entity") with respect to which we or certain of our affiliates is or becomes a party in interest or disqualified person may result in a prohibited transaction under ERISA or Section 4975 of the Code, unless the Depository Shares are acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued prohibited transaction class exemptions, or "PTCEs," that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase or holding of Depository Shares. These exemptions include PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, ERISA Section 408(b)(17) and Section 4975(d)(20) of the Code may provide an exemption for the purchase and sale of securities offered hereby, provided that neither the issuer of securities offered hereby nor any of its affiliates have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than "adequate consideration" in connection with the transaction (the "service provider exemption"). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Any purchaser or holder of Depository Shares or any interest therein will be deemed to have represented by its purchase and holding of Depository Shares offered hereby or any interest therein that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing the Depository Shares on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement or (2) the purchase and holding of the Depository Shares will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws.

[Table of Contents](#)

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing Depositary Shares on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above, the service provider exemption or the potential consequences of any purchase or holding under Similar Laws, as applicable. Purchasers of Depositary Shares have exclusive responsibility for ensuring that their purchase and holding of Depositary Shares do not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The sale of any Depositary Shares to a Plan, Plan Asset Entity or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by, or is appropriate for, any such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement.

prior written consent of Deutsche Bank Securities Inc., Goldman Sachs & Co. and Morgan Stanley & Co. LLC offer, sell, contract to sell, or otherwise dispose of, directly or indirectly, or announce the offering of (i) any preferred securities issued or guaranteed by the Company or (ii) shares of any class of capital stock of the Company (other than the Depositary Shares and the Series J Preferred Stock pursuant to this offering), which is preferred as to the payment of dividends, or as to the distribution of assets upon any liquidation or dissolution of the Company, over shares of any other class of capital stock of the Company.

Deutsche Bank Securities Inc., Goldman Sachs & Co. and Morgan Stanley & Co. LLC, in their sole discretion, may release the Depositary Shares and other securities subject to the restrictions described above in whole or in part at any time with or without notice.

In order to facilitate the offering of the Depositary Shares, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Depositary Shares. Specifically, the underwriters may sell more Depositary Shares than they are obligated to purchase under the underwriting agreement, creating a naked short position. The underwriters must close out any naked short position by purchasing Depositary Shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Depositary Shares in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, Depositary Shares in the open market to stabilize the price of the Depositary Shares. These activities may raise or maintain the market price of the Depositary Shares above independent market levels or prevent or retard a decline in the market price of the Depositary Shares. The underwriters are not required to engage in these activities and may end any of these activities at any time.

The underwriters have agreed to indemnify us and we have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of Depositary Shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their affiliates have in the past provided, and may in the future from time to time provide, investment banking and other financing and banking services to Fifth Third and/or its affiliates, for which they have in the past received, and may in the future receive, customary fees and expenses.

In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or for the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future.

ABOUT THIS PROSPECTUS

The Trusts may sell trust preferred securities and perpetual preferred trust certificates, each representing undivided beneficial interests in the Trusts, and which may be guaranteed by Fifth Third Bancorp, to the public.

Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. USE OF PROCEEDS

We intend to use the net proceeds from the sales of the securities as set forth in the applicable prospectus supplement.

PLAN OF DISTRIBUTION

We may sell the securities described in this prospectus in public offerings to or through underwriters, to be designated at various times, or directly to other purchasers or through agents. At-the-market offerings, if any, will be conducted by underwriters acting as our principal or agent, who may also be third-party sellers of the securities. The distribution of securities may be effected at various times in one or more transactions at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices.

Securities other than common stock will be new issues of securities with no established trading market. It has not presently been established whether the underwriters, if any, of these securities will make a market in these securities. If a market in these securities is made by those underwriters, this market making may be discontinued at any time without notice. These securities may or may not be listed on a national securities exchange. No assurance can be given as to the liquidity of the trading market for these securities.

In facilitating the sale of securities, underwriters may receive compensation from us and/or the applicable Trust or from purchasers of securities for whom they may act as agents in the form of discounts, concessions or

[Table of Contents](#)

commissions. Underwriters may sell securities to or through dealers, and these dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of securities may be considered underwriters, and any discounts or commissions received by them from us and/or the applicable Trust and any profit on the resale of securities by them may be considered underwriting discounts and commissions under the Securities Act of 1933, as amended (the "Securities Act"). Any such underwriter or agent will be identified, and any such compensation received from us and/or the applicable Trust will be described, in the prospectus supplement relating to those securities.

Unless otherwise indicated in the applicable prospectus supplement, the obligations of any underwriters to purchase the securities will be subject to certain conditions precedent, and each of the underwriters with respect to a sale of securities will be obligated to purchase all of its securities if any are purchased. Unless otherwise indicated in the applicable prospectus supplement, any such agent involved in the offer and sale of the securities in respect of which this prospectus is being delivered will be acting on a best efforts basis for the period of its appointment.

In connection with an offering of securities, underwriters may purchase and sell these securities in the open market. These transactions may include over-allotment and stabilizing transactions and purchases to cover short positions created by underwriters with respect to the offering. Stabilizing transactions consist of certain bids or purchases for preventing or retarding a decline in the market price of the securities; and short positions created by underwriters involve the sale by underwriters of a greater number of securities than they are required to purchase from us and/or the applicable Trust in the offering. Underwriters also may impose a penalty bid, by which selling concessions allowed to broker-dealers in respect of the securities sold in the offering may be reclaimed by underwriters if such securities are repurchased by underwriters in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the securities, which may be higher than the price that might otherwise prevail in the open market; and these activities, if commenced, may be discontinued at any time.

Under agreements which we and the applicable Trust may enter into, underwriters, agents and their controlling persons who participate in the distribution of securities may be entitled to indemnification by us and the applicable Trust against certain liabilities, including liabilities under the Securities Act.

If so noted in the applicable prospectus supplement relating to any securities, we will authorize dealers or other persons acting as our agents to solicit offers by certain institutions to purchase any securities from us and/or the applicable Trust under contracts providing for payment and delivery on a future date. Institutions with which these contracts may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. We must approve such institutions in all cases. The obligations of any purchaser under any of these contracts will be subject to the condition that the purchase of any securities will not at the time of delivery be prohibited under the laws of the jurisdiction to which such purchaser is subject. The underwriters and such other agents will not have any responsibility in respect of the validity or performance of such contracts.

If we and/or the applicable Trust offer and sell securities directly to a purchaser or purchasers in respect of which this prospectus is delivered, purchasers involved in the reoffer or resale of such securities, if these purchasers may be considered underwriters as that term is defined in the Securities Act, will be named and the terms of their reoffers or resales will be described in the applicable prospectus supplement. These purchasers may then reoffer and resell such securities to the public or otherwise at varying prices to be determined by such purchasers at the time of resale or as otherwise described in the applicable prospectus supplement. Purchasers of securities directly from us may be entitled under agreements that they may enter into with us and/or the applicable Trust to indemnification by us and/or the applicable Trust against certain liabilities, including liabilities under the Securities Act, and may engage in transactions with or perform services for us in the ordinary course of their business or otherwise.

[Table of Contents](#)

We and/or the applicable Trust may use this prospectus in connection with offers and sales of the securities in remarketing transactions and other resales. In a remarketing transaction, we and/or the applicable Trust may resell a security acquired from other holders, after the original offering and a sale of the security. Resales may occur in the open market or may be privately negotiated, at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices.

In connection with a remarketing transaction, one or more firms, referred to as “remarketing firms,” may also offer or sell the securities, if the prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us and/or the applicable Trust. These remarketing firms will offer or sell the securities pursuant to the terms of its agreement, if any, with us and/or the applicable Trust and will describe the remarketing firm’s compensation. Remarketing firms may be deemed to be underwriters in connection with the securities they remarket. Remarketing firms may be entitled to indemnification by us and/or the applicable Trust under agreements that may be entered into with us or the trusts against certain liabilities, including liabilities under the Securities Act, and may engage in transactions with or perform services for us in the ordinary course of their business or otherwise.

Underwriters or agents and their associates may be customers of (including borrowers from), engage in transactions with, and/or perform services for, us or any of the trustees, depositaries, warrant agents, transfer agents or registrars for securities sold using this prospectus in the ordinary course of business.

Fifth Third Securities, Inc. is a member of the Financial Industry Regulatory Authority (“FINRA”) and is an affiliate of ours for purposes of the FINRA Conduct Rules. In the event Fifth Third Securities, Inc. acts as an underwriter in connection with the offering of any securities under this prospectus and the related registration statement, such offering will be conducted in accordance with the applicable sections of Rule 2720 of the FINRA Conduct Rules or, in the case of the trust preferred securities of the Trusts, Rule 2810 of the FINRA Conduct Rules. Pursuant to such rules, no FINRA member participating in any such offering will be permitted to execute a transaction in the securities in a discretionary account without the prior specific written approval of such member’s customer.

The maximum underwriting compensation for any offering under the registration statement to which this prospectus relates may not exceed 8% of the offering proceeds.
