NOTE ABOUT FORWARD-LOOKING STATEMENTS

Statements in this quarterly report on Form 10-Q that are not historical facts may constitute “forward-looking statements,” including any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance. These statements are often, but not always, made through the use of words or phrases such as “anticipate,” “believes,” “can,” “could,” “may,” “predicts,” “potential,” “should,” “will,” “estimate,” “plans,” “projects,” “continuing,” “ongoing,” “expects,” “intends” and similar words or phrases. These statements are only predictions and involve estimates, known and unknown risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed in such statements, including as a result of the following factors, among others:

- our inability to make acquisitions of, or lease, aircraft on favorable terms;
- our inability to sell aircraft on favorable terms;
- our inability to obtain additional financing on favorable terms, if required, to complete the acquisition of sufficient aircraft as currently contemplated or to fund the operations and growth of our business;
- our inability to obtain refinancing prior to the time our debt matures;
- impaired financial condition and liquidity of our lessees;
- deterioration of economic conditions in the commercial aviation industry generally;
- increased maintenance, operating or other expenses or changes in the timing thereof;
- changes in the regulatory environment;
- potential natural disasters and terrorist attacks and the amount of our insurance coverage, if any, relating thereto; and
- the factors discussed under “Part I — Item 1A. Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2014 and other SEC filings.

All forward-looking statements are necessarily only estimates of future results, and there can be no assurance that actual results will not differ materially from expectations. You are therefore cautioned not to place undue reliance on such statements. Any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

Air Lease Corporation and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Company Background and Overview

Air Lease Corporation, together with its subsidiaries (the “Company”, “ALC”, “we”, “our” or “us”), is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as The Boeing Company (“Boeing”) and Airbus S.A.S. (“Airbus”). We lease these aircraft to airlines throughout the world to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our fleet to leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee.

Note 2. Basis of Preparation

The Company consolidates financial statements of all entities in which we have a controlling financial interest, including the accounts of any Variable Interest Entity in which we have a controlling financial interest and for which we are determined to be the primary beneficiary. All material intercompany balances are eliminated in consolidation. The accompanying Consolidated Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The accompanying unaudited consolidated financial statements include all adjustments, including only normal, recurring adjustments, necessary to present fairly the Company’s financial position, results of operations and cash flows at September 30, 2015, and for all periods presented. The results of operations for the three and nine months ended September 30, 2015 are not necessarily indicative of the operating results expected for the year ending December 31, 2015. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Note 3. Recently Issued Accounting Standards

In February 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-02 (“ASU 2015-02”), “Consolidation (Topic 810): Amendments to the Consolidation Analysis”, that amends the guidelines for determining whether certain legal entities should be consolidated and reduces the number of consolidation models. This new standard will be effective for interim and annual periods beginning on January 1, 2016. Early adoption is permitted. We are currently evaluating the impact, if any, of the adoption of ASU 2015-02 on our consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03 (“ASU 2015-03”), “Interest-Imputation of Interest (Subtopic 835-30)”, that amends the presentation for debt issuance costs. Upon adoption, such costs shall be presented on our Consolidated Balance Sheet as a direct deduction from the carrying amount of the related debt liability and not as a deferred charge presented in assets on our Consolidated Balance Sheet. This new standard will be effective for interim and annual periods beginning on January 1, 2016, and is required to be retrospectively adopted. Early adoption is permitted for financial statements that have not been previously issued.

The Company early adopted ASU 2015-03 as of March 31, 2015. The Consolidated Balance Sheet as of December 31, 2014 has been adjusted to apply the change in accounting principle retrospectively. Debt issuance costs of \$83.6 million previously reported as assets on the Consolidated Balance Sheet as of December 31, 2014 have been reclassified as a direct deduction from the carrying amount of the related debt liability.

Senior unsecured notes

As of September 30, 2015, the Company had \$5.7 billion in senior unsecured notes outstanding. As of December 31, 2014, the Company had \$4.6 billion in senior unsecured notes outstanding.

In August 2015, the Company issued \$500.0 million in aggregate principal amount of senior unsecured notes due 2018 that bear interest at a rate of 2.625%.

In January 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%.

Unsecured revolving credit facilities

In September 2015, the Company entered into an agreement to increase the capacity of its Syndicated Unsecured Revolving Facility by \$90.0 million to \$2.8 billion.

In June 2015, the Company completed an amendment to its Syndicated Unsecured Revolving Credit Facility that increased the borrowing capacity to \$2.7 billion and extended the final maturity to May 5, 2019 for certain commitments under the facility. As a result of the transaction, lenders hold revolving commitments totaling \$2.5 billion that mature on May 5, 2019, and lenders hold revolving commitments totaling \$175.0 million that mature on May 5, 2018. The facility continues to accrue interest at a rate of LIBOR plus 1.25% on drawn balances and includes a 0.25% facility fee, subject to reductions based on improvements in the Company's credit ratings. The amendment also increased the uncommitted accordion feature of the facility, under which its aggregate principal amount can be increased up to \$3.0 billion under certain circumstances.

[Table of Contents](#)

The total amount outstanding under our unsecured revolving credit facilities was \$494.0 million and \$569.0 million as of September 30, 2015 and December 31, 2014, respectively.

Unsecured term financings

In March 2015, the Company entered into a \$100.0 million one year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

The outstanding balance on our unsecured term facilities as of September 30, 2015 and December 31, 2014 was \$286.3 million and \$196.1 million, respectively.

Warehouse facility

As of September 30, 2015, the Company had borrowed \$374.6 million under the 2010 Warehouse Facility and pledged 14 aircraft as collateral with a net book value of \$584.3 million. As of December 31, 2014, the Company had borrowed \$484.5 million under the 2010 Warehouse Facility and pledged 18 aircraft as collateral with a net book value of \$729.5 million.

2018	1,495,613
2019	1,579,406
Thereafter	2,146,722
Total	\$ 7,591,653

Note 5. Commitments and Contingencies

As of September 30, 2015, the Company had commitments to acquire a total of 387 new aircraft scheduled to deliver through 2024.

During the quarter ended September 30, 2015, the Company amended an existing definitive purchase agreement with Airbus S.A.S. ("Airbus") to purchase two additional A350-900 aircraft. Deliveries of the aircraft are scheduled for 2017.

During the quarter ended June 30, 2015, the Company amended existing definitive purchase agreements with Airbus to purchase an additional A330-200 aircraft and two additional A320-200 aircraft. Deliveries of the aircraft are scheduled for 2016.

During the quarter ended March 31, 2015, the Company entered into definitive agreements with Airbus to purchase 57 aircraft which were previously subject to memorandums of understanding. We agreed to purchase 25 A330neo aircraft, 30 A321neo LR aircraft, an incremental A350 aircraft and an additional A321-200 aircraft. Deliveries of the aircraft are scheduled to commence in 2016 and continue through 2023.

[Table of Contents](#)

Scheduled deliveries of the 387 new aircraft the Company has committed to purchase are as follows:

- (1) All of our Airbus A321-200 aircraft will be equipped with sharklets.
- (2) Our Airbus A320/321neo aircraft orders include 30 long-range variants.

Commitments for the acquisition of these aircraft and other equipment at an estimated aggregate purchase price (including adjustments for inflation) of approximately \$30.7 billion at September 30, 2015 are as follows (in thousands):

Years ending December 31,	
2015	\$ 461,251
2016	2,547,478
2017	2,180,510
2018	3,491,196
2019	4,603,825
Thereafter	17,402,518
Total	\$ 30,686,778

We have made non-refundable deposits on the aircraft for which we have commitments to purchase of \$1.1 billion on each of September 30, 2015 and December 31, 2014, which are subject to manufacturer performance commitments. If we are unable to satisfy our purchase commitments, we may forfeit our deposits. Further, we would be subject to breach of contract claims by our lessees and manufacturers.

As of September 30, 2015, the Company had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Note 6. Net Earnings Per Share

Basic net earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if the effect of including these shares would be anti-dilutive. The Company's two classes of common stock, Class A and Class B Non-Voting, have equal rights to dividends and income, and therefore, basic and diluted earnings per share are the same for each class of common stock. As of September 30, 2015, we did not have any Class B Non-Voting common stock outstanding.

Diluted net earnings per share takes into account the potential conversion of stock options, restricted stock units, and warrants using the treasury stock method and convertible notes using the if-converted method. The Company excluded 947,643 and 973,107 shares related to restricted stock units for which the performance metric had yet to be achieved as of September 30, 2015 and 2014, respectively.

Note 7. Fair Value Measurements

Assets and Liabilities Measured at Fair Value on a Recurring and Non-recurring Basis

The Company had no assets or liabilities which are measured at fair value on a recurring or non-recurring basis as of September 30, 2015 or December 31, 2014.

Financial Instruments Not Measured at Fair Value

The fair value of debt financing is estimated based on the quoted market prices for the same or similar issues, or on the current rates offered to the Company for debt of the same remaining maturities, which would be categorized as a Level 2 measurement in the fair value hierarchy. The estimated fair value of debt financing as of September 30, 2015 was \$7.7 billion compared to a book value of \$7.6 billion. The estimated fair value of debt financing as of December 31, 2014 was \$7.0 billion compared to a book value of \$6.7 billion.

The following financial instruments are not measured at fair value on the Company's consolidated balance sheet at September 30, 2015, but require disclosure of their fair values: cash and cash equivalents and restricted cash. The estimated fair value of such instruments at September 30, 2015 approximates their carrying value as reported on the consolidated balance sheet. The fair value of all these instruments would be categorized as Level 1 of the fair value hierarchy.

Note 8. Stock-based Compensation

On May 7, 2014, the stockholders of the Company approved the Air Lease Corporation 2014 Equity Incentive Plan (the "2014 Plan"). Upon approval of the 2014 Plan, no new awards may be granted under the Amended and Restated 2010 Equity Incentive Plan (the "2010 Plan"). As of September 30, 2015, the number of stock options ("Stock Options") and restricted stock units ("RSUs") authorized under the 2014 Plan is approximately 6,648,524, which includes 1,648,524 shares which were previously reserved for issuance under the 2010 Plan. Stock Options are generally granted for a term of 10 years and generally vest over a three year period. The Company has issued RSUs with three different vesting criteria: those RSUs that vest based on the attainment of book value goals, those RSUs that vest based on the attainment of Total Shareholder Return ("TSR") goals and time based RSUs that vest ratably over a time period of three years. The book value RSUs generally vest ratably over three years, if the performance condition has been met. Book

[Table of Contents](#)

value RSUs for which the performance metric has not been met are forfeited. The TSR RSUs vest at the end of a three year period. The number of TSR RSUs that will ultimately vest is based upon the percentile ranking of the Company's TSR among a peer group. The number of shares that will ultimately vest will range from 0% to 200% of the RSUs initially granted depending on the extent to which the TSR metric is achieved.

The Company recorded \$4.6 million and \$3.9 million of stock-based compensation expense for the three months ended September 30, 2015 and 2014, respectively. Stock-based compensation expense for the nine months ended September 30, 2015 and 2014 totaled \$12.4 million and \$12.2 million, respectively.

Stock Options

A summary of stock option activity for the nine month period ended September 30, 2015 follows:

	Shares	Exercise Price	Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands) (1)
Balance at December 31, 2014	3,312,158	\$ 20.40	5.49	\$ 46,077
Granted	—	\$ —	—	\$ —
Exercised	(2,000)	\$ 20.00	—	\$ 35
Forfeited/canceled	—	\$ —	—	\$ —
Balance at September 30, 2015	3,310,158	\$ 20.40	4.75	\$ 34,827
Vested and exercisable as of September 30, 2015	3,310,158	\$ 20.40	4.75	\$ 34,827

- (1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the closing stock price of our Class A common stock as of the respective date.

The Company's outstanding stock options fully vested on June 30, 2013 and there were no unrecognized compensation costs related to outstanding stock options as of September 30, 2015. As a result, there was no stock-based compensation expense related to Stock Options for the three and nine months ended September 30, 2015 and 2014.

The following table summarizes additional information regarding exercisable and vested stock options at September 30, 2015:

Range of exercise prices	Stock options exercisable and vested	
	Number of Shares	Weighted-Average Remaining Life (in years)
\$20.00	3,160,158	4.71
\$28.80	150,000	5.57
\$20.00 - \$28.80	3,310,158	4.75

Restricted Stock Units

Compensation cost for stock awards is measured at the grant date based on fair value and recognized over the vesting period. The fair value of book value and time based RSUs is determined based on the closing market price of the Company's Class A common stock on the date of grant, while the fair value of TSR RSUs is determined at the grant date using a Monte Carlo simulation model. Included in the Monte Carlo simulation model were certain assumptions regarding a number of highly complex and subjective variables, such as expected volatility, risk free interest rate and expected dividends. To appropriately value the award, the risk-free interest rate is estimated for the time period from the valuation date until the vesting date and the historical volatilities were estimated based on a historical timeframe equal to the time from the valuation date until the end date of the performance period.

[Table of Contents](#)

During the nine months ended September 30, 2015, the Company granted 427,194 RSUs of which 181,350 are TSR RSUs. The following table summarizes the activities for our unvested RSUs for the nine months ended September 30, 2015:

	<u>Unvested Restricted Stock Units</u>	
		<u>Weighted-Average Grant-Date</u>
	<u>Number of Shares</u>	<u>Fair Value</u>
Unvested at December 31, 2014	969,225	\$ 33.51

Unvested at September 30, 2015	993,643	\$ 41.62
Expected to vest after September 30, 2015 ⁽¹⁾	981,243	\$ 41.62

(1) RSUs expected to vest reflect an estimated forfeiture rate.

The Company recorded \$4.6 million and \$3.9 million of stock-based compensation expense related to RSUs for the three months ended September 30, 2015 and 2014, respectively. The Company recorded \$12.4 million and \$12.2 million of stock-based compensation expense related to RSUs for the nine months ended September 30, 2015 and 2014, respectively.

As of September 30, 2015, there was \$23.6 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to unvested RSUs granted to employees. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures and is expected to be recognized over a weighted-average remaining period of 1.8 years.

Note 9. Investments

On November 4, 2014, a wholly owned subsidiary of the Company entered into an agreement with a co-investment vehicle arranged by Napier Park to participate in a joint venture formed as a Delaware limited liability company—Blackbird Capital I, LLC (“Blackbird”) for the purpose of investing in commercial aircraft and leasing them to airlines around the globe. We provide management services to the joint venture for a fee based upon aircraft assets under management. The Company’s non-controlling interest in Blackbird is 9.5% and it is accounted for as an investment under the equity method of accounting. During the nine months ended September 30, 2015, the Company recognized \$2.1 million of gains on the sale of aircraft to Blackbird. As of September 30, 2015 and December 31, 2014, the amounts due from Blackbird to the Company were \$670,000 and \$454,000, respectively. The Company’s investment in Blackbird was \$16.1 million and \$10.1 million as of September 30, 2015 and December 31, 2014, respectively.

Note 10. Flight Equipment Held for Sale

Management evaluates all contemplated aircraft sale transactions to determine whether all the required criteria have been met under GAAP to classify aircraft as flight equipment held for sale. Management uses judgment in evaluating these criteria. Due to the significant uncertainties of potential sale transactions, the held for sale criteria generally will not be met unless the aircraft is subject to a signed sale agreement, or management has made a specific determination and obtained appropriate approvals to sell a particular aircraft or group of aircraft. Aircraft classified as flight equipment held for sale are recognized at the lower of their carrying amount or estimated fair value less estimated costs to sell and are included in other assets on the Consolidated Balance Sheet. At the time aircraft are sold, or classified as flight equipment held for sale, the cost and accumulated depreciation are removed from the related accounts and depreciation expense is no longer recognized.

As of September 30, 2015 and December 31, 2014, we did not have any aircraft classified as flight equipment held for sale.

Note 11. Litigation

On April 24, 2012, the Company was named as a defendant in a complaint filed in Superior Court of the State of California for the County of Los Angeles by American International Group, Inc. (“AIG”) and International Lease

[Table of Contents](#)

Finance Corporation (“ILFC”) (the “AIG/ILFC Complaint”). The complaint also named as defendants certain executive officers and employees of the Company. AIG withdrew as a plaintiff on all but one cause of action that was not asserted against the Company.

Among other things, the complaint, as amended, alleged breach of fiduciary duty, misappropriation of trade secrets, the wrongful recruitment of ILFC employees, and the wrongful diversion of potential ILFC leasing opportunities. The complaint sought an unspecified amount of damages and injunctive relief.

On August 15, 2013, the Company filed a cross-complaint against ILFC and AIG (the “Cross-Complaint”). The Cross-Complaint, as amended, alleged breach of contract for the sale of goods in connection with an agreement entered into by AIG, acting on behalf of ILFC, in January 2010 to sell 25 aircraft to the entity that became Air Lease Corporation. The Cross-Complaint sought compensatory damages in excess of \$500 million.

The matters set forth in the AIG/ILFC Complaint and the Cross-Complaint are collectively referred to as the “litigation”.

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into a settlement agreement and release (the “Settlement Agreement”) with AIG, ILFC, and ILFC’s parent, AerCap Holdings N.V., to settle all ongoing litigation. Pursuant to the terms of the Settlement Agreement, (i) all claims and counterclaims asserted in the litigation will be dismissed with prejudice, (ii) each of the parties to the litigation will receive full releases of all claims and counterclaims asserted in the litigation, and (iii) the Company will pay AIG the sum of \$36.0 million no later than June 30, 2015, and will pay an additional sum of \$36.0 million no later than September 30, 2015. As of September 30, 2015, all amounts related to the settlement have been paid by the Company. The Company recorded settlement expense of \$72.0 million on the Consolidated Statement of Income for the nine months ended September 30, 2015. The parties to the Settlement Agreement agreed that the settlement was intended solely as a compromise of disputed claims, and that no party admits any wrongdoing or liability with respect to any matter alleged in the litigation. On April 24, 2015, the parties filed a request for dismissal which was entered on April 29, 2015.

Note 12. Subsequent Events

On November 4, 2015, our board of directors approved a quarterly cash dividend of \$0.05 per share on our outstanding common stock, representing a \$0.01 per share increase from our previous quarterly cash dividend. The dividend will be paid on January 6, 2016 to holders of record of our common stock on December 14, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Overview

Air Lease Corporation is a leading aircraft leasing company that was founded by aircraft leasing industry pioneer, Steven F. Udvar-Házy. We are principally engaged in purchasing new commercial jet transport aircraft directly from the manufacturers, such as Boeing and Airbus, and leasing those aircraft to airlines throughout the world to generate attractive returns on equity. In addition to our leasing activities, we sell aircraft from our operating lease portfolio to third-parties, including other leasing companies, financial services companies and airlines. We also provide fleet management services to investors and owners of aircraft portfolios for a management fee. Our operating performance is driven by the growth of our fleet, the terms of our leases, the interest rates on our indebtedness and the terms of our aircraft sales and trading activities.

During the quarter ended September 30, 2015, we took delivery of nine aircraft from our new order pipeline and three incremental aircraft, ending the quarter with a total of 235 aircraft. We leased aircraft and managed aircraft on lease to a globally diversified customer base comprised of 89 airlines in 50 countries. The weighted average lease term remaining on our operating lease portfolio was 7.3 years and the weighted average age of our fleet was 3.5 years as of September 30, 2015. Our fleet grew by 16.4% based on net book value of \$10.4 billion as of September 30, 2015 compared to \$9.0 billion as of December 31, 2014. All of the aircraft in our fleet were leased as of September 30, 2015 and December 31, 2014. In addition, we increased our managed fleet to 26 aircraft as of September 30, 2015 from 17 aircraft as of December 31, 2014.

The acquisition and lease of additional aircraft led to an increase of \$51.7 million, or 20.5%, in our rental revenue to \$304.3 million for the quarter ended September 30, 2015, compared to \$252.5 million for the quarter ended September 30, 2014. Due to the timing of aircraft deliveries, the full impact on rental revenue for aircraft acquired during a given period will be reflected in subsequent periods. During the quarter ended September 30, 2015, we recorded gains of \$5.2 million from the sale of four aircraft which were classified as held for sale as of June 30, 2015, compared to gains of \$8.8 million from the sale of four aircraft from our operating lease portfolio and the trading of one aircraft for the quarter ended September 30, 2014.

During the quarter ended September 30, 2015, the Company amended an existing definitive purchase agreement with Airbus to purchase two additional A350-900 aircraft. Deliveries of the aircraft are scheduled for 2017.

In June 2015, we amended existing definitive purchase agreements with Airbus to purchase an additional A330-200 aircraft and two additional A320-200 aircraft. Deliveries of the aircraft are scheduled for 2016.

In March 2015, we entered into a definitive agreement and amendments to existing agreements with Airbus to purchase 57 aircraft which were previously subject to memorandums of understanding. We agreed to purchase 25 A330neo aircraft, 30 A321neo LR aircraft, an incremental A350 aircraft and an additional A321-200 aircraft. Deliveries of the aircraft are scheduled to commence in 2016 and continue through 2023.

On October 26, 2015, Standard & Poor's Ratings Services revised its outlook on ALC to positive from stable and affirmed all ratings on ALC, including its 'BBB-' corporate credit rating.

In September 2015, the Company entered into an agreement to increase the capacity of its Syndicated Unsecured Revolving Facility by \$90.0 million to \$2.8 billion. In August 2015, the Company issued \$500.0 million in aggregate principal amount of senior unsecured notes due 2018 that bear interest at a rate of 2.625%. We ended the third quarter of 2015 with total debt outstanding of \$7.6 billion, of which 80.8% was at a fixed-rate and 87.7% was unsecured, with a composite cost of funds of 3.61%.

In June 2015, the Company amended its Syndicated Unsecured Revolving Credit Facility which increased the borrowing capacity to \$2.7 billion and extended the availability period to May 2019 with an interest rate of LIBOR plus

[Table of Contents](#)

1.25%. In January 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%.

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into the Settlement Agreement with AIG, ILFC, and ILFC's parent, AerCap Holdings N.V., to settle all ongoing litigation as set forth in Note 11: Litigation, in the Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q. In connection with the settlement, we recorded an expense of \$72.0 million before taxes for the nine months ended September 30, 2015. As of September 30, 2015, all amounts related to the settlement have been paid by the Company.

We recorded income before taxes of \$119.6 million for the quarter ended September 30, 2015 compared to \$96.3 million for the quarter ended September 30, 2014. Income before taxes for the nine months ended September 30, 2015 decreased 6.6%, totaling \$267.7 million compared to \$286.7 million for the nine months ended September 30, 2014.

Our net income for the quarter ended September 30, 2015 was \$77.0 million compared to \$62.4 million for the quarter ended September 30, 2014. Net income for the nine months ended September 30, 2015 decreased 7.2%, to \$172.5 million compared to \$185.9 million for the nine months ended September 30, 2014. Our diluted earnings per share for the quarter ended September 30, 2015 was \$0.71 compared to \$0.58 for the quarter ended September 30, 2014. Diluted earnings per share decreased to \$1.60 for the nine months ended September 30, 2015 compared to \$1.73 for the nine months ended September 30, 2014. Our pretax profit margin for the three months ended September 30, 2015 was 38.2%, compared to 36.8% for the three months ended September 30, 2014. Reported income before taxes, net income and diluted earnings per share for the nine months ended September 30, 2015 were negatively impacted by \$72.0 million, \$46.4 million and \$0.42 per share, respectively, for the litigation settlement discussed above.

Excluding the effects of certain non-cash items, one-time or non-recurring items that are not expected to continue in the future and certain other items including the litigation expense, our adjusted net income was \$131.7 million for the three months ended September 30, 2015 compared to \$107.6 million for the three months ended September 30, 2014, an increase of \$24.1 million or 22.4%. Our adjusted net income was \$374.9 million for the nine months ended September 30, 2015 compared to \$319.8 million for the nine months ended September 30, 2014, an increase of \$55.1 million or 17.2%. Adjusted diluted earnings per share increased to \$1.20 for the three months ended September 30, 2015, compared to \$0.99 for the three months ended September 30, 2014. Adjusted diluted earnings per share increased to \$3.43 for the nine months ended September 30, 2015, compared to \$2.95 for the nine months ended September 30, 2014. Adjusted net income and adjusted diluted earnings per share are measures of financial and operational performance that are not defined by GAAP. See note 1 under the "Results of Operations" table below for a discussion of adjusted net income and adjusted diluted earnings per share as non-GAAP measures and reconciliation of these measures to net income.

Our lease placements are progressing in line with expectations. As of September 30, 2015 and through November 5, 2015, we have entered into contracts for the lease of new aircraft scheduled to be delivered as follows:

<u>Delivery Year</u>	<u>Number of Aircraft</u>	<u>Number Leased</u>	<u>% Leased</u>
2015	6	6	100.0 %
2016	37	37	100.0 %

2018	39	21	53.8 %
2019	59	20	33.9 %
Thereafter	218	11	5.0 %
Total	387	119	

As of September 30, 2015, the Company had a non-binding commitment to acquire up to five A350-1000 aircraft. Deliveries of these aircraft are scheduled to commence in 2023 and continue through 2024.

Aircraft industry and sources of revenues

Our revenues are principally derived from operating leases with scheduled and charter airlines. In the last three years, we derived more than 95% of our revenues from airlines domiciled outside of the U.S., and we anticipate that most of our revenues in the future will be generated from foreign customers.

Demand for air travel has consistently grown in terms of both passenger traffic and number of aircraft in service. According to the International Air Transport Association (“IATA”), global passenger traffic demand has grown 6.7% in the first nine months of 2015. In 2014 and 2013, global passenger traffic demand grew 5.9% and 5.2% respectively, which was in line with the annual growth rate over the past 30 years. The number of aircraft in service has grown steadily and the number of leased aircraft in the global fleet has increased. In addition, demand for used aircraft in the secondary market remains robust as low fuel prices have increased the utilization of used current generation aircraft. The long-term outlook for aircraft demand remains robust due to increased passenger traffic and the need to replace aging aircraft.

The success of the commercial airline industry is linked to the strength of global economic development, which may be negatively impacted by macroeconomic conditions, geopolitical and policy risks. While the airline industry is cyclical, the leasing industry has remained resilient over time.

From time to time, our airlines customers face financial difficulties. In January 2015, Skymark Airlines filed for civil rehabilitation proceedings in Japan (similar to U.S. Bankruptcy reorganization). The airline's plan of rehabilitation became final on September 1, 2015. Skymark Airlines operates two of our Boeing 737-800 aircraft and extended both leases as part of its plan.

Despite industry cyclical and economic stresses, we remain optimistic about the long-term growth prospects for air transportation. We see a growing demand for aircraft leasing in the broader industry and a role for us in helping airlines modernize their fleets to support the growth of the airline industry.

Liquidity and Capital Resources

Overview

We finance the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activity, and debt financings. We have structured the Company to have an investment-grade credit profile and our debt financing strategy has focused on funding our business on an unsecured basis. Unsecured financing provides us with operational flexibility when selling or transitioning aircraft from one airline to another. In addition, we may, to a limited extent, utilize export credit financing in support of our new aircraft deliveries.

The Company's unsecured debt increased to \$6.7 billion as of September 30, 2015 from \$5.5 billion as of December 31, 2014. The Company's unsecured debt as a percentage of total debt increased to 87.7% as of September 30, 2015

[Table of Contents](#)

from 82.4% as of December 31, 2014. The Company's fixed-rate debt as a percentage of total debt increased to 80.8% as of September 30, 2015 from 75.3% as of December 31, 2014.

We increased our cash flows from operations by 2.7% or \$15.4 million, to \$586.6 million for the nine months ended September 30, 2015 as compared to \$571.2 million for the nine months ended September 30, 2014. Our cash flows from operations increased primarily because of revenue from the lease of additional aircraft partially offset by decreased leasing revenue from aircraft sold from our operating lease portfolio. Our cash used in investing activities increased by 7.4% or \$116.0 million to \$1.7 billion for the nine months ended September 30, 2015 as compared to \$1.6 billion for the nine months ended September 30, 2014. Our cash used in investing activities increased primarily as a result of an increase in aircraft purchases during the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014. Our cash flows from financing activities decreased by 0.3% or \$3.0 million to \$928.9 million for the nine months ended September 30, 2015 as compared to \$931.9 million for the nine months ended September 30, 2014. Our cash flows from financing activities decreased primarily as a result of a decrease in proceeds from debt financings during the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014.

We ended the third quarter of 2015 with available liquidity of \$2.8 billion which is comprised of unrestricted cash of \$119.7 million, undrawn balances under our 2010 Warehouse Facility, and our unsecured revolving credit facilities of \$2.6 billion. We believe that we have sufficient liquidity to satisfy the operating requirements of our business through the next twelve months.

Our financing plan for the remainder of 2015 and 2016 is focused on funding the purchase of aircraft and our business with available cash balances, internally generated funds, including aircraft sales and trading activities, and debt financings. Our debt financing plan is focused on continuing to raise unsecured debt in the global bank and capital markets. In addition, we may utilize, to a limited extent, export credit financing in support of our new aircraft deliveries.

We are in compliance in all material respects with all covenants or other requirements in our debt agreements. While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of such financings. Our liquidity plans are subject to a number of risks and uncertainties, including those described in our Annual Report on Form 10-K for the year ended December 31, 2014.

(1) This rate does not include the effect of upfront fees, undrawn fees or issuance cost amortization.

Senior unsecured notes

As of September 30, 2015, the Company had \$5.7 billion in senior unsecured notes outstanding. As of December 31, 2014, the Company had \$4.6 billion in senior unsecured notes outstanding.

In August 2015, the Company issued \$500.0 million in aggregate principal amount of senior unsecured notes due 2018 that bear interest at a rate of 2.625%.

In January 2015, the Company issued \$600.0 million in aggregate principal amount of senior unsecured notes due 2022 that bear interest at a rate of 3.75%.

Unsecured revolving credit facilities

In September 2015, the Company entered into an agreement to increase the capacity of its Syndicated Unsecured Revolving Facility by \$90.0 million to \$2.8 billion.

In June 2015, the Company completed an amendment to its Syndicated Unsecured Revolving Credit Facility that increased the borrowing capacity to \$2.7 billion and extended the final maturity to May 5, 2019 for certain commitments under the facility. As a result of the transaction, lenders hold revolving commitments totaling \$2.5 billion that mature on May 5, 2019, and lenders hold revolving commitments totaling \$175.0 million that mature on May 5, 2018. The facility continues to accrue interest at a rate of LIBOR plus 1.25% on drawn balances and includes a 0.25% facility fee, subject to reductions based on improvements in the Company's credit ratings. The amendment also increased the uncommitted accordion feature of the facility, under which the aggregate principal amount can be increased up to \$3.0 billion under certain circumstances.

The total amount outstanding under our unsecured revolving credit facilities was \$494.0 million and \$569.0 million as of September 30, 2015 and December 31, 2014, respectively.

[Table of Contents](#)

Unsecured term financings

In March 2015, the Company entered into a \$100.0 million one year unsecured term facility bearing interest at a rate of LIBOR plus 1.00%.

The outstanding balance on our unsecured term facilities as of September 30, 2015 and December 31, 2014 was \$286.3 million and \$196.1 million, respectively.

Warehouse facility

As of September 30, 2015, the Company had borrowed \$374.6 million under the 2010 Warehouse Facility and pledged 14 aircraft as collateral with a net book value of \$584.3 million. As of December 31, 2014, the Company had borrowed \$484.5 million under the 2010 Warehouse Facility and pledged 18 aircraft as collateral with a net book value of \$729.5 million.

Credit ratings

The following table summarizes our current credit ratings:

Rating Agency	Long-term Debt	Corporate Rating	Outlook	Date of Last Ratings Action
Standard and Poor's	BBB-	BBB-	Positive Outlook	October 26, 2015
Kroll Bond Rating Agency	A-	A-	Stable Outlook	October 16, 2014

While a ratings downgrade would not result in a default under any of our debt agreements, it could adversely affect our ability to issue debt and obtain new financings, or renew existing financings, and it would increase the cost of our financings.

- (1) Adjusted net income (defined as net income excluding the effects of certain non-cash items, one-time or non-recurring items, such as settlement expense, that are not expected to continue in the future and certain other items), and adjusted diluted earnings per share (defined as net income excluding the effects of certain non-cash items, one-time or non-recurring items, such as settlement expense, that are not expected to continue in the future and certain other items divided by the weighted average diluted common shares outstanding) are measures of operating performance that are not defined by GAAP and should not be considered as an alternative to net income, earnings per share, and diluted earnings per share, or any other performance measures derived in accordance with GAAP. Adjusted net income and adjusted diluted earnings per share, are presented as supplemental disclosure because management believes they provide useful information on our earnings from ongoing operations.

Management and our board of directors use adjusted net income and adjusted diluted earnings per share to assess our consolidated financial and operating performance. Management believes these measures are helpful in evaluating the operating performance of our ongoing operations and identifying trends in our performance, because they remove the effects of certain non-cash items, one-time or non-recurring items that are not expected to continue in the future and certain other items from our operating results. Adjusted net income and adjusted diluted earnings per share, however, should not be considered in isolation or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Adjusted net income and adjusted diluted earnings per share do not reflect our cash expenditures or changes in or cash requirements for our working capital needs. In addition, our calculation of adjusted net income and adjusted diluted earnings per share may differ from the adjusted net income and adjusted diluted earnings per share or analogous calculations of other companies in our industry, limiting their usefulness as a comparative measure.

Three months ended September 30, 2015, compared to the three months ended September 30, 2014

Rental revenue

As of September 30, 2015, we owned 235 aircraft at a net book value of \$10.4 billion and recorded \$304.3 million in rental revenue for the quarter then ended, which included overhaul revenue of \$13.4 million. In the prior year, as of September 30, 2014, we owned 212 aircraft at a net book value of \$8.9 billion and recorded \$252.5 million in rental revenue for the quarter ended September 30, 2014, which included overhaul revenue of \$6.5 million. The increase in rental revenue was primarily attributable to the delivery of nine additional aircraft from our new order book and three incremental aircraft in the quarter. Due to the timing of aircraft deliveries, the full impact on rental revenue will be reflected in subsequent periods.

All of the aircraft in our fleet were leased as of September 30, 2015 and September 30, 2014.

Aircraft sales, trading and other

Aircraft sales, trading and other revenue totaled \$8.9 million for the three months ended September 30, 2015 compared to \$9.4 million for the three months ended September 30, 2014. During the quarter ended September 30, 2015, we recorded \$5.2 million in gains from the sale of four aircraft which were classified as held for sale as of June 30, 2015. During the quarter ended September 30, 2014, we recorded \$8.8 million in gains from (i) the sale of four aircraft from our operating lease portfolio and (ii) the trade of a Boeing 737-300 aircraft.

[Table of Contents](#)

Interest expense

Interest expense totaled \$67.5 million for the three months ended September 30, 2015 compared to \$56.0 million for the three months ended September 30, 2014. The change was primarily due to an increase in our average outstanding debt balances resulting in an \$11.5 million increase in interest expense. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$102.0 million in depreciation expense of flight equipment for the three months ended September 30, 2015 compared to \$86.1 million for the three months ended September 30, 2014. The increase in depreciation expense for the three months ended September 30, 2015, compared to the three months ended September 30, 2014, is attributable to the acquisition of additional aircraft. The full impact on depreciation expense for aircraft acquired and sold during the period will be reflected in subsequent periods.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$19.3 million for the three months ended September 30, 2015 compared to \$19.7 million for the three months ended September 30, 2014. Selling, general and administrative expense as a percentage of revenue decreased to 6.2% for the three months ended September 30, 2015 compared to 7.5% for the three months ended September 30, 2014. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Taxes

The effective tax rate was 35.6% and 35.2% for the three months ended September 30, 2015 and 2014, respectively. The change in effective tax rate for the respective periods is due to the effect of changes in permanent differences.

Nine months ended September 30, 2015, compared to the nine months ended September 30, 2014

Rental revenue

As of September 30, 2015, we owned 235 aircraft at a net book value of \$10.4 billion and recorded \$860.3 million in rental revenue for the nine months then ended, which included overhaul revenue of \$23.4 million. In the prior year, as of September 30, 2014, we owned 212 aircraft at a net book value of \$8.9 billion and recorded \$725.4 million in rental revenue for the nine months ended September 30, 2014, which included overhaul revenue of \$21.2 million. The increase in rental revenue was primarily attributable to the delivery of 42 additional aircraft in 2015 partially offset by the sale of 20 aircraft from our operating lease portfolio in 2015. Due to the timing of aircraft deliveries and sales, the full impact on rental revenue will be reflected in subsequent periods.

All of the aircraft in our fleet were leased as of September 30, 2015 and September 30, 2014.

Aircraft sales, trading and other

Aircraft sales, trading and other revenue totaled \$35.9 million for the nine months ended September 30, 2015 compared to \$39.1 million for the nine months ended September 30, 2014. During the nine months ended September 30, 2015, we recorded \$29.1 million in gains from the sale of 20 aircraft from our operating lease portfolio. During the nine months ended September 30, 2014, we recorded \$36.5 million in gains from (i) the sale of eight aircraft from our operating lease portfolio, (ii) the trades of five Boeing 737-300 aircraft and (iii) the insurance proceeds received in excess of the book value relating to the loss of an aircraft in the fourth quarter of 2013.

Interest expense

Interest expense totaled \$196.4 million for the nine months ended September 30, 2015 compared to \$161.2 million for the nine months ended September 30, 2014. The change was primarily due to an increase in our average outstanding debt balances resulting in an \$33.4 million increase in interest expense and an increase of \$1.8 million in amortization of

[Table of Contents](#)

debt discounts and issuance costs. We expect that our interest expense will increase as our average debt balance outstanding continues to increase. Interest expense will also be impacted by changes in our composite cost of funds.

Depreciation expense

We recorded \$291.5 million in depreciation expense of flight equipment for the nine months ended September 30, 2015 compared to \$245.7 million for the nine months ended September 30, 2014. The increase in depreciation expense for the nine months ended September 30, 2015, compared to the nine months ended September 30, 2014, is attributable to the acquisition of additional aircraft. The full impact on depreciation expense for aircraft acquired and sold during the period will be reflected in subsequent periods.

Selling, general and administrative expenses

We recorded selling, general and administrative expenses of \$56.2 million for the nine months ended September 30, 2015 compared to \$58.7 million for the nine months ended September 30, 2014. Selling, general and administrative expense as a percentage of revenue decreased to 6.3% for the nine months ended September 30, 2015 compared to 7.7% for the nine months ended September 30, 2014. As we continue to add new aircraft to our portfolio, we expect over the long-term, selling, general and administrative expense to decrease as a percentage of our revenue.

Settlement expense

We recorded settlement expense of \$72.0 million for the nine months ended September 30, 2015 as a result of the Settlement Agreement entered into by and between the Company, certain executive officers and employees of the Company, AIG, ILFC, and AerCap Holdings N.V., to settle all ongoing litigation as set forth in Note 11: Litigation, of Notes to Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

Taxes

The effective tax rate was 35.6% and 35.2% for the nine months ended September 30, 2015 and 2014, respectively. The change in effective tax rate for the respective periods is due to the effect of changes in permanent differences.

Net income

For the nine months ended September 30, 2015, we reported consolidated net income of \$172.5 million, or \$1.60 per diluted share, compared to consolidated net income of \$185.9 million, or \$1.73 per diluted share, for the nine months ended September 30, 2014. The decrease in net income for the nine months ended September 30, 2015, compared to the same period in 2014, was primarily attributable to an increase in interest expense and settlement expense recorded during the nine months ended September 30, 2015.

Contractual Obligations

Our contractual obligations as of September 30, 2015, are as follows (in thousands):

	2015	2016	2017	2018	2019	Thereafter	Total
Long-term debt obligations	\$ 32,330	\$ 952,472	\$ 1,385,110	\$ 1,495,613	\$ 1,579,406	\$ 2,146,722	\$ 7,591,653

Total	\$ 553,599	\$ 3,771,134	\$ 3,779,768	\$ 5,156,660	\$ 6,298,975	\$ 19,772,178	\$ 39,332,314

(1) Future interest payments on floating rate debt are estimated using floating rates in effect at September 30, 2015.

Off-Balance Sheet Arrangements

We have not established any unconsolidated entities for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. We have, however, from time to time established subsidiaries and created partnership arrangements or trusts for the purpose of leasing aircraft or facilitating borrowing arrangements, all of which are consolidated.

Critical Accounting Policies

The Company's critical accounting policies reflecting management's estimates and judgments are described in our Annual Report on Form 10-K for the year ended December 31, 2014. The Company has reviewed recently adopted accounting pronouncements and determined that the adoption of such pronouncements is not expected to have a material impact, if any, on its consolidated financial statements. Accordingly, there have been no changes to critical accounting policies in the nine months ended September 30, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, caused by fluctuations in interest rates and foreign exchange rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Interest Rate Risk

The nature of our business exposes us to market risk arising from changes in interest rates. Changes, both increases and decreases, in our cost of borrowing, as reflected in our composite interest rate, directly impact our net income. Our lease rental stream is generally fixed over the life of our leases, whereas we have used floating-rate debt to finance a significant portion of our aircraft acquisitions. We had \$1.5 billion and \$1.7 billion in floating-rate debt outstanding on each of September 30, 2015 and December 31, 2014, respectively. If interest rates increase, we would be obligated to make higher interest payments to our lenders. If we incur significant fixed-rate debt in the future, increased interest rates prevailing in the market at the time of the incurrence of such debt would also increase our interest expense. If the composite rate on our floating-rate debt were to increase by 1.0%, we would expect to incur additional interest expense on our existing indebtedness of approximately \$14.6 million and \$16.7 million as of September 30, 2015 and December 31, 2014, respectively, on an annualized basis, which would put downward pressure on our operating margins.

We also have interest rate risk on our forward lease placements. This is caused by us setting a fixed lease rate in advance of the delivery date of an aircraft. The delivery date is when a majority of the financing for an aircraft is arranged. We partially mitigate the risk of an increasing interest rate environment between the lease signing date and the delivery date of the aircraft by having interest rate adjusters in a majority of our forward lease contracts which would adjust the final lease rate upward if certain benchmark interest rates are higher at the time of delivery of the aircraft than at the lease signing date.

Foreign Exchange Rate Risk

The Company attempts to minimize currency and exchange risks by entering into aircraft purchase agreements and a majority of lease agreements and debt agreements with U.S. dollars as the designated payment currency. Thus, most of our revenue and expenses are denominated in U.S. dollars. As of September 30, 2015 and December 31, 2014, 0.9% and 0.8%, respectively, of our lease revenues were denominated in Euros. As our principal currency is the U.S. dollar, weakness in the U.S. dollar as compared to other major currencies should not have a significant impact on our future operating results.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission ("SEC"), and such

[Table of Contents](#)

information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer (collectively, the “Certifying Officers”), as appropriate, to allow timely decisions regarding required disclosure. Our management, including the Certifying Officers, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

We have evaluated, under the supervision and with the participation of management, including the Certifying Officers, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, as of September 30, 2015. Based on that evaluation, our Certifying Officers have concluded that our disclosure controls and procedures were effective at September 30, 2015.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On April 24, 2012, the Company was named as a defendant in a complaint filed in Superior Court of the State of California for the County of Los Angeles by American International Group, Inc. (“AIG”) and International Lease Finance Corporation (“ILFC”) (the “AIG/ILFC Complaint”). The complaint also named as defendants certain executive officers and employees of the Company. AIG withdrew as a plaintiff on all but one cause of action that was not asserted against the Company. Among other things, the complaint, as amended, alleged breach of fiduciary duty, misappropriation of trade secrets, the wrongful recruitment of ILFC employees, and the wrongful diversion of potential ILFC leasing opportunities. The complaint sought an unspecified amount of damages and injunctive relief.

On August 15, 2013, the Company filed a cross-complaint against ILFC and AIG (the “Cross-Complaint”). The Cross-Complaint, as amended, alleged breach of contract for the sale of goods in connection with an agreement entered into by AIG, acting on behalf of ILFC, in January 2010 to sell 25 aircraft to the entity that became Air Lease Corporation. The Cross-Complaint sought compensatory damages in excess of \$500 million.

The matters set forth in the AIG/ILFC Complaint and the Cross-Complaint are collectively referred to as the “litigation.”

On April 22, 2015, the Company and certain executive officers and employees of the Company entered into a settlement agreement and release (the “Settlement Agreement”) with AIG, ILFC, and ILFC’s parent, AerCap Holdings N.V., to settle all ongoing litigation. Pursuant to the terms of the Settlement Agreement, (i) all claims and counterclaims asserted in the litigation will be dismissed with prejudice, (ii) each of the parties to the litigation will receive full releases of all claims and counterclaims asserted in the litigation, and (iii) the Company will pay AIG the sum of \$36.0 million no later than June 30, 2015, and will pay an additional sum of \$36.0 million no later than September 30, 2015. As of September 30, 2015, all amounts related to the settlement have been paid by the Company. The Company recorded settlement expense of \$72.0 million on the Consolidated Statement of Income for the nine months ended September 30, 2015. The parties to the Settlement Agreement agreed that the settlement was intended solely as a compromise of disputed claims, and that no party admits any wrongdoing or liability with respect to any matter alleged in the litigation. On April 24, 2015, the parties filed a request for dismissal which was entered on April 29, 2015.

BETWEEN

AIRBUS S.A.S.

as Seller

and

AIR LEASE CORPORATION

As Buyer

**AMENDMENT N°3 TO THE
A350 FAMILY PURCHASE AGREEMENT**

This amendment N°3 (the "**Amendment N°3**") dated September 08th 2015 is made

BETWEEN:

AIRBUS S.A.S., a *société par actions simplifiée*, created and existing under French law having its registered office at 1 Rond-Point Maurice Bellonte, 31707 Blagnac-Cedex, France and registered with the Toulouse *Registre du Commerce* under number RCS Toulouse 383 474 814 (the "**Seller**"),

and

AIR LEASE CORPORATION, a corporation organised and existing under the laws of the State of Delaware, U.S.A., having its principal place of business at 2000 Avenue of the Stars, Suite 1000N, Los Angeles, California 90067, U.S.A. (the "**Buyer**").

The Buyer and Seller together are referred to as the "**Parties**".

WHEREAS:

- A. The Buyer and the Seller have signed a purchase agreement with reference CLC-CT1103521 on the 1st February 2013 for the manufacture and sale by the Seller and purchase by the Buyer of twenty-five (25) firm A350 Family aircraft hereinafter together with its Exhibits and Letter Agreements referred to as the "**Purchase Agreement**".
- B. On 3rd March 2015, the Buyer and the Seller entered into an Amendment N° 1 to the Purchase Agreement to modify the terms and conditions with respect to certain A350XWB Family Aircraft.
- C. On 3rd March 2015, the Buyer and the Seller entered into an Amendment N° 2 to the Purchase Agreement for the manufacture and sale by the Seller and purchase by the Buyer of one (1) incremental A350-900 Aircraft.

The Purchase Agreement as amended and supplemented pursuant to the foregoing shall be referred to as the "**Agreement**".

- D. [*] the Buyer and the Seller now wish to provide for the manufacture and sale by the Seller and purchase by the Buyer of two (2) A350-900 incremental aircraft, subject to the terms and conditions set out below [*].

The terms "herein", "hereof" and "hereunder" and words of similar import refer to this Amendment N°3. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned thereto in the Agreement.

NOW IT IS HEREBY AGREED AS FOLLOWS:

* Confidential material omitted and filed separately with the Securities and Exchange Commission pursuant to a request for confidential treatment.
