RISK FACTORS

Investing in the Series 2017A Senior Notes involves risks. In addition to the factors described below, please see the risk factors in GAS' Annual Report on Form 10-K for the year ended December 31, 2016 (the "Form 10-K"), along with disclosure related to the risk factors contained in GAS' Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, which are incorporated by reference in this prospectus supplement and the accompanying prospectus. Before making an investment decision, you should carefully consider these risks as well as other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus.

The guarantee of the Series 2017A Senior Notes by GAS does not provide significant additional assurance of payment to the holders of the Series 2017A Senior Notes.

Upon issuance, the Series 2017A Senior Notes will be guaranteed by our parent company, GAS, on a standalone basis, and will not be guaranteed by any of its affiliates. GAS is a holding company and has no operations separate from its investment in us and its other subsidiaries. Therefore, if we should be unable to meet our payment obligations with respect to the Series 2017A Senior Notes, it is unlikely that GAS would be able to do so either. GAS' parent, Southern, is not guaranteeing or otherwise becoming an obligor of the Series 2017A Senior Notes offered hereby.

Our ability to pay the Series 2017A Senior Notes may be impaired if GAS or its operating subsidiaries are unable to repay funds to us or to GAS or if the operating subsidiaries are unable to pay dividends to GAS.

We are a finance subsidiary with no independent operations or operating subsidiaries, and our immediate parent and the guarantor of the Series 2017A Senior Notes, GAS, is a holding company with no independent operations. GAS' operations are carried out through its operating subsidiaries, none of which will guarantee the Series 2017A Senior Notes. This structure may limit our ability to obtain funds to pay the Series 2017A Senior Notes.

Funds we raise through our financing activities may be loaned to GAS or its affiliates, or paid as dividends to GAS, which dividends may in turn be divided or loaned to or otherwise invested in GAS' affiliates. Our ability to pay interest and principal on the Series 2017A Senior Notes primarily depends on the ability of GAS and its subsidiaries to repay funds we have loaned them. In addition, GAS' ability to repay funds we have loaned to it or to otherwise invest funds in us for the purpose of paying the Series 2017A Senior Notes, or to satisfy its guarantee of the Series 2017A Senior Notes, depends on the ability of its subsidiaries to pay dividends to GAS or repay loans from GAS. A substantial portion of GAS' consolidated assets, earnings and cash flows is derived from the operation of its regulated utility subsidiaries, whose legal authority to pay dividends and make other distributions to GAS is subject to regulation. GAS' utility subsidiary Northern Illinois Gas Company, which we refer to as Nicor Gas, is restricted by regulation in the amount it can dividend or loan to affiliates. Dividends by Nicor Gas to GAS are allowed only to the extent of Nicor Gas' retained earnings balance. Additionally, GAS' utility subsidiary Elizabethtown Gas is restricted in the amount it can dividend to GAS to 70% of its quarterly net income. Further, claims of some creditors of GAS' subsidiaries may have priority with respect to the assets and earnings of those subsidiaries over the claims of creditors of GAS or GAS Capital, including holders of the Series 2017A Senior Notes. The Series 2017A Senior Notes and GAS' guarantee thereof will be effectively subordinated to such creditors of GAS' subsidiaries.

SOUTHERN COMPANY GAS CAPITAL CORPORATION

We are a wholly-owned subsidiary of GAS. We provide financing to GAS on an ongoing basis through a commercial paper program, the issuance of various debt and hybrid securities and other financing arrangements. Our senior notes are guaranteed by GAS, but not any of its affiliates (including Southern). GAS Capital's principal address is 2215-B Renaissance Drive, Las Vegas, Nevada 89119, and its telephone number is (702) 967-2442.

SOUTHERN COMPANY GAS

GAS is a wholly-owned subsidiary of Southern. GAS is an energy services holding company, headquartered in Atlanta, Georgia, whose primary business is the distribution of natural gas in seven states—Illinois, Georgia, Virginia, New Jersey, Florida, Tennessee, and Maryland—through its seven natural gas distribution utilities. At March 31, 2017, these utilities served approximately 4.6 million end-use customers.

GAS also is involved in several related and complementary businesses to the distribution of natural gas, including retail natural gas marketing to end-use customers primarily in Georgia and Illinois and home equipment protection products and services through its gas marketing services segment; natural gas asset management and related logistics activities for its own utilities as well as for nonaffiliated companies through its wholesale gas operations; and the development and operation of high-deliverability underground natural gas storage assets through its gas midstream operations.

The address of GAS' principal executive offices is Ten Peachtree Place NE, Atlanta, Georgia 30309, and its telephone number is (404) 584-4000.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the Series 2017A Senior Notes to repay a portion of our short-term indebtedness, which aggregated approximately \$662,000,000 as of May 3, 2017, and for general corporate purposes.

DESCRIPTION OF THE SERIES 2017A SENIOR NOTES

Set forth below is a description of the specific terms of the Series 2017A 4.400% Senior Notes due May 30, 2047. We will issue the Series 2017A Senior Notes under the Indenture, dated as of February 20, 2001, by and among GAS Capital, as issuer, GAS, as guarantor, and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A., as successor trustee to The Bank of New York), as trustee, which we refer to as the Indenture. The Indenture is more fully described under the caption "Description of Debt Securities" in the accompanying prospectus. The following description of the particular terms of the Series 2017A Senior Notes supplements, and to the extent inconsistent therewith replaces, the description of the general terms and provisions of the debt securities included in the accompanying prospectus under the caption "Description of Debt Securities."

General

The Series 2017A Senior Notes will initially be issued in the aggregate principal amount of \$450,000,000 and will bear interest at the annual rate of 4.400% from the date of original issuance. Interest will be payable semi-annually in arrears on May 30 and November 30 of each year, beginning on November 30, 2017. Interest will be paid to the person in whose name a Series 2017A Senior Note is registered at the close of business on the preceding May 15 and November 15, respectively. The amount of interest payable will be computed on the basis of a 360 day year of twelve 30 day months.

If any interest payment date, or the stated maturity date, shall not be a business day, payment of amounts due thereon on such date may be made on the next succeeding business day, and if such payment is made or duly provided for on such business day, no interest shall accrue on such amounts for the period from and after such interest payment date or stated maturity date, as the case may be, to such business day.

The Series 2017A Senior Notes will mature on May 30, 2047. GAS, but not any of its affiliates, will fully and unconditionally guarantee the payment of the Series 2017A Senior Notes to each holder thereof and to the trustee on behalf of each such holder.

The Series 2017A Senior Notes do not contain any sinking fund provisions.

Denominations

The Series 2017A Senior Notes will be issued in global form in initial denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. No service charge will be made for any registration of transfer or any exchange of Series 2017A Senior Notes, but we may require payment of a sum sufficient to cover any transfer tax or similar governmental charge payable in connection therewith.

Ranking of Senior Notes and Guarantee

The Series 2017A Senior Notes will rank equally in right of payment with each other and GAS Capital's other unsecured and unsubordinated obligations from time to time outstanding. In the case of failure by GAS Capital to make due and punctual payment of the principal of (and premium, if any) and interest on the Series 2017A Senior Notes, GAS agrees to cause such payment to be made when and as the same shall become due and payable. GAS' guarantee will similarly be an unsecured and unsubordinated obligation of GAS. As of March 31, 2017, GAS had approximately \$5,110,000,000 of other unsecured and unsubordinated obligations outstanding.

Issuance of Additional Senior Notes

We may, without the consent of the holders of the Series 2017A Senior Notes, increase the principal amount of the Series 2017A Senior Notes by issuing additional Series 2017A Senior Notes in the future on the same terms and conditions (except for any differences in the price to the public, interest accrued prior to the issue date of the additional Series 2017A Senior Notes and, if applicable, the initial interest payment date), and with the same CUSIP number as the Series 2017A Senior Notes offered hereby. The Series 2017A Senior Notes offered by this prospectus supplement and the accompanying prospectus and any additional Series 2017A Senior Notes would rank equally and ratably and would be treated as a single class for all purposes under the Indenture. No additional Series 2017A Senior Notes may be issued if any event of default has occurred with respect to the Series 2017A Senior Notes (except for Series 2017A Senior Notes authenticated and delivered upon registration of, transfer of, in exchange for, or in lieu of, other securities of the series pursuant to sections 304, 305, 306, 406 or 1206 of the Indenture and, except for any Series 2017A Senior Notes which, pursuant to section 303, are deemed never to have been authenticated and delivered under the Indenture).

Optional Redemption

We may redeem the Series 2017A Senior Notes, in whole or in part, at our option, at any time on or after November 30, 2046 (six months prior to maturity), which we refer to as the Par Call Date, at a redemption price equal to 100% of the principal amount of the Series 2017A Senior Notes to be redeemed plus accrued and unpaid interest on the Series 2017A Senior Notes being redeemed to the redemption date.

In addition, we may redeem the Series 2017A Senior Notes, in whole or in part, at our option, at any time prior to November 30, 2046 (six months prior to maturity) at a redemption price equal to the greater of:

- 100% of the principal amount of the Series 2017A Senior Notes to be redeemed, or
- as determined by a Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest thereon that would be due if the Series 2017A Senior Notes matured on the Par Call Date (not including any portion of such payments of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate (as defined below) plus 20 basis points;

plus, in each case, accrued and unpaid interest on the Series 2017A Senior Notes to the redemption date.

“Adjusted Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) is equal to the Comparable Treasury Price for such redemption date.

“Comparable Treasury Issue” means the United States Treasury security selected by a Quotation Agent as having a maturity comparable to the remaining term of the Series 2017A Senior Notes to be redeemed (assuming for this purpose that the Series 2017A Senior Notes mature on the Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such Series 2017A Senior Notes.

“Comparable Treasury Price” means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (2) if we obtain fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Primary Treasury Dealer” means a primary U.S. Government securities dealer in New York City.

“Quotation Agent” means the Reference Treasury Dealer appointed by us.

“Reference Treasury Dealer” means each of (1) a Primary Treasury Dealer selected by each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman Sachs & Co. LLC, Scotia Capital (USA) Inc., U.S. Bancorp Investments, Inc. and Wells Fargo Securities, LLC, and their respective successors; and (2) any other Primary Treasury Dealers selected by us.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

We will give notice to The Depository Trust Company, or DTC, of any redemption we propose to make at least 30 days, but not more than 60 days, before the redemption date. If we redeem only some of the Series 2017A Senior Notes, it is the practice of DTC to determine by lot the amount of Series 2017A Senior Notes to be redeemed from each of its participating institutions. Notice by DTC to these participants and by participants to “street name” holders of indirect interests in the Series 2017A Senior Notes will be made according to arrangements among them and may be subject to statutory or regulatory requirements.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Series 2017A Senior Notes or portions of the Series 2017A Senior Notes called for redemption.

Information Concerning the Trustee

The Bank of New York Mellon Trust Company, N.A. is the trustee under the Indenture (which we refer to as the trustee) and has been appointed by us as the paying agent and security registrar with regard to the Series 2017A Senior Notes.

Book-Entry Only Issuance—The Depository Trust Company

The Depository Trust Company (which we refer to as DTC) will act as the initial securities depository for the Series 2017A Senior Notes. The Series 2017A Senior Notes will be issued only as fully-registered securities registered in the name of Cede & Co., DTC’s nominee, or such other name as may be requested by an authorized representative of DTC. One or more fully-registered global Series 2017A Senior Notes certificates will be issued, representing in the aggregate the total principal amount of Series 2017A Senior Notes, and will be deposited with the trustee on behalf of DTC. Investors may hold interests in the Series 2017A Senior Notes through DTC if they are participants in DTC or indirectly through organizations that are participants in DTC, including Euroclear Bank S.A./N.V., as operator of the Euroclear system, or Clearstream Banking, société anonyme, Luxembourg (which we refer to as Clearstream).

DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues and money market instruments (from over 100 countries) that DTC’s participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (which we refer to as DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The DTC rules applicable to its direct and indirect participants are on file with the SEC. More information about DTC can be found at www.dtcc.com. The contents of the DTC website do not constitute part of this prospectus supplement.

Purchases of Series 2017A Senior Notes under the DTC system must be made by or through direct participants, which will receive a credit for the Series 2017A Senior Notes on DTC’s records. The ownership interest of each actual purchaser of each senior note (which we refer to as a beneficial owner) is in turn to be recorded on the direct and indirect participants’ records. Beneficial owners will not receive written confirmation from DTC of their purchases. Beneficial owners, however, are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owners purchased Series 2017A Senior Notes. Transfers of ownership interests in the Series 2017A Senior Notes are to be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in Series 2017A Senior Notes, except in the event that use of the book-entry system for the Series 2017A Senior Notes is discontinued.

To facilitate subsequent transfers, all Series 2017A Senior Notes deposited by direct participants with DTC are registered in the name of DTC’s nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2017A Senior Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any changes in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Series 2017A Senior Notes. DTC’s records reflect only the identity of the direct participants to whose accounts such Series 2017A Senior Notes are credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices will be sent to DTC. If less than all of the Series 2017A Senior Notes are being redeemed, DTC’s practice is to determine by lot the amount of interest of each direct participant in such Series 2017A Senior Notes to be redeemed.

Although voting with respect to the Series 2017A Senior Notes is limited, in those cases where a vote is required, neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2017A Senior Notes unless authorized by a direct participant in accordance with DTC’s procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.’s consenting or voting rights to those direct participants to whose accounts the Series 2017A Senior Notes are credited on the record date (identified in a listing attached to the omnibus proxy).

Payments on the Series 2017A Senior Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit direct participants’ accounts upon DTC’s receipt of funds and corresponding detail information from us or the trustee on the relevant payment date in accordance with their respective holdings shown on DTC’s records. Payments by direct or indirect participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers registered in “street name,” and will be the responsibility of such direct or indirect participant and not of DTC or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is our responsibility, disbursement of such payments to direct participants is the responsibility of DTC, and disbursement of such payments to the beneficial owners is the responsibility of direct and indirect participants.

Except as provided herein, a beneficial owner of a global senior note will not be entitled to receive physical delivery of Series 2017A Senior Notes. Accordingly, each beneficial owner must rely on the procedures of DTC to exercise any rights under the Series 2017A Senior Notes. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in definitive form. Such laws may impair the ability to transfer beneficial interests in a global senior note.

DTC may discontinue providing its services as securities depository with respect to the Series 2017A Senior Notes at any time by giving reasonable notice to us. Under such circumstances, in the event that a successor securities depository is not obtained, Series 2017A Senior Notes certificates will be required to be printed and delivered to the holders of record. Additionally, we may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository) with respect to the Series 2017A Senior Notes. We understand, however, that under current industry practices, DTC would notify its direct and indirect participants of our decision, but will only withdraw beneficial interests from a global senior note at the request of each direct or indirect participant. In that event, certificates for the Series 2017A Senior Notes will be printed and delivered to the applicable direct or indirect participant.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but neither we nor any underwriter takes any responsibility for the accuracy thereof. Neither we nor any underwriter has any responsibility for the performance by DTC or its direct or indirect participants of their respective obligations as described herein or under the rules and procedures governing their respective operations.

Global Clearance and Settlement Procedures

Secondary market trading between Clearstream participants and/or Euroclear system participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and the Euroclear system, as applicable.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream participants or Euroclear system participants on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear system participants may not deliver instructions directly to their respective U.S. depositories.

Because of time-zone differences, credits of Series 2017A Senior Notes received in Clearstream or the Euroclear system as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such Series 2017A Senior Notes settled during such processing will be reported to the relevant Euroclear system participant or Clearstream participant on such business day. Cash received in Clearstream or the Euroclear system as a result of sales of the Series 2017A Senior Notes by or through a Clearstream participant or a Euroclear system participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or the Euroclear system cash account only as of the business day following settlement in DTC.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following summary describes certain United States (which we refer to in this section as U.S.) federal income tax considerations relevant to the acquisition, ownership and disposition of the Series 2017A Senior Notes, and insofar as it relates to matters of U.S. federal income tax laws and regulations or legal conclusions with respect thereto, constitutes the opinion of our tax counsel, Troutman Sanders LLP. The following discussion does not purport to be a complete analysis of all potential U.S. federal income tax considerations. This discussion only applies to Series 2017A Senior Notes that are held as capital assets, within the meaning of section 1221 of the Internal Revenue Code of 1986, as amended (which we refer to as the Code), and that are purchased in the initial offering at the initial offering price, by Non-U.S. Holders (as defined below). This summary is based on the Code, administrative pronouncements, judicial decisions and regulations of the Treasury Department, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein. This discussion does not describe all of the U.S. federal income tax considerations that may be relevant to Non-U.S. Holders in light of their particular circumstances or to Non-U.S. Holders subject to special rules, such as certain financial institutions, tax-exempt organizations, insurance companies, "controlled foreign corporations", "passive foreign investment companies", partnerships or other pass-through entities for U.S. federal income tax purposes, traders or dealers in securities or commodities, persons holding Series 2017A Senior Notes as part of a hedge or other integrated transaction, or certain former citizens or residents of the U.S.

We have not and will not seek any rulings or opinions from the Internal Revenue Service (which we refer to as the IRS) with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax consequences of the acquisition, ownership or disposition of the Series 2017A Senior Notes or that any such position would not be sustained.

For purposes of this summary, a “Non-U.S. Holder” means a beneficial owner of a senior note (other than a partnership) that, for U.S. federal income tax purposes, is not (i) an individual that is a citizen or resident of the U.S.; (ii) a corporation or other entity treated as a corporation for U.S. federal income tax purposes that is created or organized under the laws of the U.S., any state thereof or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust if (A) a court within the U.S. is able to exercise primary control over its administration and one or more U.S. persons, within the meaning of section 7701(a)(30) of the Code (which we refer to as a U.S. Person), have the authority to control all substantial decisions of such trust, or (B) the trust has made an election under the applicable Treasury regulations to be treated as a U.S. Person. If a partnership, or other entity or arrangement treated as a partnership for U.S. federal income tax purposes, beneficially owns the Series 2017A Senior Notes, the tax treatment of a partner in such partnership will generally depend upon the status of the partner and the activities of the partnership. Partners in a partnership that beneficially own the Series 2017A Senior Notes should consult their tax advisors as to the particular U.S. federal income tax considerations relevant to the acquisition, ownership and disposition of the Series 2017A Senior Notes applicable to them.

Interest

It is anticipated, and this discussion assumes, that the Series 2017A Senior Notes will not be issued with more than a de minimis amount of original issue discount. Except if interest on the Series 2017A Senior Notes is effectively connected with the conduct by a Non-U.S. Holder of a trade or business within the United States, and subject to the FATCA summary below, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of interest on the Series 2017A Senior Notes provided that such Non-U.S. Holder (A) does not directly or indirectly, actually or constructively, own 10% or more of the total combined voting power of all classes of our stock entitled to vote, (B) is not a controlled foreign corporation that is related to us directly or constructively through stock ownership, (C) is not a bank receiving such interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business, and (D) satisfies certain certification requirements. Such certification requirements will be met if (x) the Non-U.S. Holder provides its name and address, and certifies on an IRS Form W-8BEN or IRS Form W-8BEN-E (or a substantially similar form), under penalties of perjury, that it is not a U.S. Person or (y) a securities clearing organization or certain other financial institutions holding the Series 2017A Senior Notes on behalf of the Non-U.S. Holder certifies on IRS Form W-8IMY, under penalties of perjury, that such certification has been received by it and furnishes us or our paying agent with a copy thereof. In addition, we or our paying agent must not have actual knowledge or reason to know that the beneficial owner of the Series 2017A Senior Notes is a U.S. Person.

If interest on the Series 2017A Senior Notes is not effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the U.S., but such Non-U.S. Holder does not satisfy the other requirements outlined in the preceding paragraph, interest on the Series 2017A Senior Notes generally will be subject to U.S. withholding tax at a 30% rate (or a lower applicable treaty rate).

If interest on the Series 2017A Senior Notes is effectively connected with the conduct by a Non-U.S. Holder of a trade or business within the U.S., or, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the U.S., the Non-U.S. Holder generally will be subject to U.S. federal income tax on a net income basis at the rate applicable to U.S. Persons generally (and, with respect to corporate Non-U.S. Holders, may also be subject to a 30% branch profits tax (or a lower applicable treaty branch profits tax rate)). If interest is subject to U.S. federal income tax on a net income basis in accordance with these rules, such interest payments will not be subject to U.S. withholding tax if the Non-U.S. Holder provides us or our paying agent with the appropriate documentation (generally an IRS Form W-8ECI).

Sale or Other Taxable Disposition of the Senior Notes

Subject to the FATCA summary below, a Non-U.S. Holder generally will not be subject to U.S. federal withholding tax with respect to gain, if any, recognized on the sale or other taxable disposition of the Series 2017A Senior Notes. A Non-U.S. Holder will also generally not be subject to U.S. federal income tax with respect to such gain, unless (i) the gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the U.S., or, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the U.S., or (ii) in the case of a Non-U.S. Holder that is a nonresident alien individual, such Non-U.S. Holder is present in the U.S. for 183 or more days in the taxable year of the disposition and certain other conditions are satisfied. In the case described in (i) above, gain or loss recognized on the disposition of such Series 2017A Senior Notes generally will be subject to U.S. federal income taxation in the same manner as if such gain or loss were recognized by a U.S. Person, and, in the case of a Non-U.S. Holder that is a foreign corporation, may also be subject to the branch profits tax at a rate of 30% (or a lower applicable treaty branch

profits tax rate). In the case described in (ii) above, the Non-U.S. Holder will be subject to a 30% tax on any capital gain recognized on the disposition of the Series 2017A Senior Notes (after being offset by certain U.S. source capital losses).

Information Reporting and Backup Withholding

Information returns will be filed annually with the IRS in connection with our payment of interest on the Series 2017A Senior Notes. Copies of these information returns may also be made available under the provisions of a specific tax treaty or other agreement to the tax authorities of the country in which the Non-U.S. Holder resides. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. Person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of the Series 2017A Senior Notes, and the Non-U.S. Holder may be subject to backup withholding tax (currently at a rate of 28%) on payments of interest on the Series 2017A Senior Notes or on the proceeds from a sale or other disposition of the Series 2017A Senior Notes. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid the backup withholding tax as well. The amount of any backup withholding from a payment to a Non-U.S. Holder may be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability or may entitle the Non-U.S. Holder to a refund, provided that the required information is furnished to the IRS in a timely manner.

Foreign Account Tax Compliance Act Withholding

Under the "Foreign Account Tax Compliance Act" (which we refer to as FATCA) and additional guidance issued by the IRS, a U.S. federal withholding tax of 30% generally will apply to (1) interest on a debt obligation and (2) the gross proceeds, including the return of principal, from the sale or other disposition, including redemptions, after December 31, 2018 of a debt obligation, in each case paid to (i) a foreign financial institution (as a beneficial owner or as an intermediary), unless such institution enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners), or (ii) a foreign entity that is not a financial institution (as a beneficial owner or as an intermediary), unless such entity provides the withholding agent with a certification identifying the substantial U.S. owners of the entity, which generally includes any U.S. Person who directly or indirectly owns more than 10% of the entity. We will not pay any additional amounts to "gross up" payments to holders as a result of any withholding or deduction for such taxes. Non-U.S. Holders are encouraged to consult with their tax advisors regarding the possible implications of the FATCA withholding rules on their investment in the Series 2017A Senior Notes.

Persons considering the purchase of Series 2017A Senior Notes are urged to consult their tax advisors with regard to the application of the U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction. Furthermore, this discussion does not describe the effect of U.S. federal estate and gift tax laws or the effect of any applicable foreign, state or local law.

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the Series 2017A Senior Notes are subject to, among other things, the approval of certain legal matters by their counsel and certain other conditions. In the underwriting agreement, the underwriters have severally agreed, subject to the terms and conditions set forth therein to purchase all of the Series 2017A Senior Notes offered hereby, if any of the Series 2017A Senior Notes are purchased.

The underwriters propose to offer the Series 2017A Senior Notes to the public at the public offering price set forth on the cover page of this prospectus supplement and may offer the Series 2017A Senior Notes to certain dealers at such price less a concession not in excess of 0.500% of the principal amount per Series 2017A Senior Note. The underwriters may allow, and such dealers may reallow, a concession not in excess of 0.350% of the principal amount per Series 2017A Senior Note. After the initial public offering, the offering price and other selling terms may be changed.

The Series 2017A Senior Notes are a new issue of securities with no established trading market. The Series 2017A Senior Notes will not be listed on any securities exchange or on any automated dealer quotation system. The underwriters may make a market in the Series 2017A Senior Notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the Series 2017A Senior Notes or that an active public market for the Series 2017A Senior Notes will develop. If an active public trading market for the Series 2017A Senior Notes does not develop, the market price and liquidity of the Series 2017A Senior Notes may be adversely affected.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

Our expenses associated with the offer and sale of the Series 2017A Senior Notes (not including the underwriting discount) are estimated to be \$460,000.

We have agreed with the underwriters, that during the period of 15 days from the date of the underwriting agreement, we will not sell, offer to sell, grant any option for the sale of, or otherwise dispose of any Series 2017A Senior Notes, any security convertible into, exchangeable into or exercisable for the Series 2017A Senior Notes or any debt securities substantially similar to the Series 2017A Senior Notes (except for the Series 2017A Senior Notes issued pursuant to the underwriting agreement), without the prior written consent of the representatives. This agreement does not apply to issuances of commercial paper or other debt securities with scheduled maturities of less than one year.

In order to facilitate the offering of the Series 2017A Senior Notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the Series 2017A Senior Notes. Specifically, the underwriters may over-allot in connection with this offering, creating short positions in the Series 2017A Senior Notes for their own accounts. In addition, to cover over-allotments or to stabilize the price of the Series 2017A Senior Notes, the underwriters may bid for,

and purchase, Series 2017A Senior Notes in the open market. Finally, the underwriters may reclaim selling concessions allowed to the underwriters or dealers for distributing Series 2017A Senior Notes in this offering, if the underwriters repurchase previously distributed Series 2017A Senior Notes in transactions to cover short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the Series 2017A Senior Notes above independent market levels. The underwriters are not required to engage in these activities and may end any of these activities at any time without notice.

In general, purchases of a security for the purpose of stabilization or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security.

Neither we nor any underwriter makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Series 2017A Senior Notes. In addition, neither we nor any underwriter makes any representation that the underwriters will engage in such transactions or that such transactions once commenced will not be discontinued without notice.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking corporate trust and other commercial dealings in the ordinary course of business with us and our affiliates, for which they have received and will receive customary compensation.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own accounts and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of GAS, GAS Capital or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Series 2017A Senior Notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the Series 2017A Senior Notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Loop Capital Markets LLC has entered into a referral agreement with Northern Trust Securities, Inc., a Financial Industry Regulatory Authority member and subsidiary of Northern Trust Corporation, pursuant to which it will pay a referral fee to Northern Trust Securities, Inc. in connection with this offering.

For the purposes of the above, the expression an “offer of the Series 2017A Senior Notes to the public” in relation to any of the Series 2017A Senior Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Series 2017A Senior Notes to be offered so as to enable an investor to decide to purchase or subscribe for any of the Series 2017A Senior Notes, as the same may be varied in that member state by any measure implementing the Prospectus Directive in that member state, the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive), and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of the Series 2017A Senior Notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of the Series 2017A Senior Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Series 2017A Senior Notes which are the subject of the offering contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for us or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. FORWARD-LOOKING STATEMENTS

This prospectus, the accompanying prospectus supplement and the documents incorporated by reference herein contain "forward-looking statements." These statements, which may relate to such matters as completion of AGL Resources' proposed merger with The Southern Company ("Southern"), the maintenance of AGL Resources as a separate wholly owned subsidiary within the Southern corporate structure, AGL Resources' SEC reporting practices following such merger, future earnings, growth, supply and demand, costs, subsidiary performance, new technologies and strategic initiatives, often include words such as "anticipate," "assume," "believe," "can," "could," "estimate," "expect," "forecast," "future," "goal," "indicate," "intend," "may," "outlook," "plan," "potential," "predict," "project," "proposed," "seek," "should," "target," "would" or similar expressions. You are cautioned not to place undue reliance on forward-looking statements. While AGL Resources believes that its expectations are reasonable in view of the information that it currently has, these expectations are subject to future events, risks and uncertainties, and there are numerous factors—many beyond AGL Resources' control—that could cause actual results to vary materially from these expectations.

Such events, risks and uncertainties include, but are not limited to:

- certain risks and uncertainties associated with the proposed merger of AGL Resources with Southern, including, without limitation:
 - the possibility that the proposed merger does not close due to the failure to satisfy the closing conditions;
 - disruption from the proposed merger making it more difficult to maintain AGL Resources' business and operation relationships and the risk that unexpected costs will be incurred during this process; and
 - the diversion of AGL Resources' management time on merger-related issues;

- changes in price, supply and demand for natural gas and related products;
- the impact of changes in state and federal legislation and regulation, including any changes related to climate matters;
- actions taken by government agencies on rates and other matters;
- concentration of credit risk;
- utility and energy industry consolidation;
- the impact on cost and timeliness of construction projects, including AGL Resources' pipeline projects, from governmental and other approvals, project delays, adequacy of supply of diversified vendors, and unexpected change in project costs;
- the cost of funds to finance AGL Resources' construction projects and AGL Resources' ability to recover certain project costs from customers;
- limits on pipeline capacity;
- the impact of acquisitions and divestitures;
- AGL Resources' ability to successfully integrate operations that it has or may acquire or develop in the future;
- direct or indirect effects on AGL Resources' business, financial condition or liquidity resulting from a change in AGL Resources' credit ratings or the credit ratings of AGL Resources' counterparties or competitors;
- interest rate fluctuations;
- financial market conditions, including disruptions in the capital markets and lending environment;
- general economic conditions;
- uncertainties about environmental issues and the related impact of such issues, including AGL Resources' environmental remediation plans;
- the capacity of AGL Resources' gas storage caverns, which are subject to natural settling and other occurrences;
- contracting rates at AGL Resources' midstream operations storage business;
- the impact of weather on the temperature-sensitive portions of AGL Resources' business;
- the impact of natural disasters, such as hurricanes, on the supply and price of natural gas;
- acts of war or terrorism;
- the outcome of litigation;
- the effect of accounting pronouncements issued by standard-setting bodies; and
- other factors discussed under "Risk Factors" and elsewhere herein and in AGL Resources' filings with the SEC.

There also may be other factors that we do not anticipate or that we do not recognize as material that could cause results to differ materially from expectations.

Forward-looking statements speak only as of the date they are made. AGL Capital and AGL Resources expressly disclaim any obligation to update or revise any forward-looking statement, whether as a result of future events, new information or otherwise, except as required by law.

AGL RESOURCES INC.

AGL Resources is an Atlanta-based energy services holding company with operations in natural gas distribution, retail operations, wholesale services and midstream operations. AGL Resources serves approximately 4.6 million utility customers through its regulated distribution subsidiaries in seven states. AGL Resources also serves approximately 658,000 retail energy customers and approximately 1.2 million customer service contracts through its SouthStar Energy Services joint venture and Pivotal Home Solutions, which market natural gas and related home services. Other non-utility businesses include asset management for natural gas wholesale customers through Sequent Energy Management and ownership and operation of natural gas storage facilities.

The principal executive office of AGL Resources is located at Ten Peachtree Place N.E., Atlanta, Georgia 30309, and its telephone number is (404) 584-4000.

PENDING ACQUISITION BY THE SOUTHERN COMPANY

On August 23, 2015, AGL Resources entered into an Agreement and Plan of Merger, which we refer to as the Merger Agreement, with Southern, and a newly formed wholly owned direct subsidiary of Southern, which we refer to as Merger Sub, providing for the merger of Merger Sub with and into AGL Resources, with AGL Resources surviving as a wholly owned direct subsidiary of Southern. At the effective time of the merger, which is expected to occur on or around July 1, 2016, each share of AGL Resources' common stock, other than certain excluded shares, will be converted into the right to receive \$66 in cash, without interest, less any applicable withholding taxes.

AGL Resources and Southern have made joint filings seeking and obtaining regulatory approval with all of the required state regulatory agencies. Completion of the merger remains subject to various closing conditions, including, among others, the absence of a judgment, order, decision, injunction, ruling or other finding or agency requirement of a governmental entity prohibiting the closing of the merger. The proposed merger has been approved by the Maryland Public Service Commission, the Georgia Public Service Commission, the California Public Utilities Commission, the Virginia State Corporation Commission, the Illinois Commerce Commission and the New Jersey Board of Public Utilities, which we refer to as the New Jersey BPU. Additionally, AGL Resources' shareholders approved the Merger Agreement in November 2015. AGL Resources has received consent from the Federal Communications Commission to transfer to Southern parent company control of radio licenses held by certain of AGL Resources' subsidiaries. The waiting period under the Hart-Scott-Rodino Act has expired. There is no financing condition to the merger.

The orders issued by the Virginia State Corporation Commission, the Maryland Public Service Commission, the Illinois Commerce Commission and the New Jersey BPU contain certain commitments and restrictions by the parties with respect to a number of matters, including maintenance of a minimum number of employees in the applicable state for a certain period following closing of the merger and maintenance of resources for capital and infrastructure. In addition, the New Jersey BPU order includes a stipulation that if AGL Resources' senior unsecured debt rating falls below investment grade, AGL Resources must cease paying dividends to Southern until the investment grade rating is restored.

Subject to certain limitations, either party may terminate the Merger Agreement if the merger is not completed by August 23, 2016. The outside date may be extended by either party to February 23, 2017 if, on August 23, 2016, all conditions to closing, other than those relating to (1) regulatory approvals or (2) the absence of legal restraints preventing completion of the merger (to the extent relating to regulatory approvals), have been satisfied. In addition, the Merger Agreement, in certain circumstances, provides for the payment by AGL Resources of a \$201 million termination fee to Southern and, in certain circumstances, provides for the reimbursement of expenses by AGL Resources of up to \$5 million upon termination of the Merger Agreement (which reimbursement would reduce on a dollar-for-dollar basis any termination fee subsequently paid by AGL Resources).

The Merger Agreement is attached as an exhibit to AGL Resources' Current Report on Form 8-K filed with the SEC on August 24, 2015 and is incorporated by reference into this prospectus.

AGL CAPITAL CORPORATION

We are a wholly owned subsidiary of AGL Resources. We provide financing for AGL Resources on an ongoing basis through a commercial paper program, the issuance of various debt and hybrid securities and other financing arrangements. FINANCIAL STATEMENTS OF AGL CAPITAL AND ACCOUNTING TREATMENT

There are no separate financial statements of AGL Capital in this prospectus. We do not believe such financial statements would be helpful because:

- AGL Capital is a wholly owned subsidiary of AGL Resources, and the financial information of AGL Capital is included with the consolidated financial statements and financial information of AGL Resources, which is filed under the Exchange Act.
- AGL Capital does not have any independent operations other than providing for the ongoing financing needs of AGL Resources.

- The obligations of AGL Capital will be fully and unconditionally guaranteed by AGL Resources.

AGL Capital is not, and will not become, subject to the information reporting requirements of the Exchange Act.

RISK FACTORS

Investing in our securities involves risks. You should carefully consider any specific risks discussed or incorporated by reference in the applicable prospectus supplement, together with all other information contained in the prospectus supplement or incorporated by reference in this prospectus. You should also consider the risks, uncertainties and assumptions discussed under the caption "Risk Factors" included in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus, and which may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future.

USE OF PROCEEDS

Unless otherwise indicated in the prospectus supplement, we will use the net proceeds we receive from the sale of the securities described in this prospectus for general corporate purposes, among other things. We may invest funds not immediately required for such purposes in short-term investment grade securities. The amount and timing of sales of the securities described in this prospectus will depend on market conditions and the availability of other funds.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges for the three months ended March 31, 2016 and the five most recently completed fiscal years is as follows:

	Three Months Ended March 31, 2016	Year Ended December 31,				
		2015	2014	2013	2012	2011
Ratio of Earnings to Fixed Charges	6.96x	4.07x	5.85x	3.47x	3.05x	2.96x

For purposes of computing the ratio of earnings to fixed charges, earnings consist of the sum of income from continuing operations before income taxes and fixed charges, as discussed below, less capitalized interest and noncontrolling interest included in income from continuing operations before income taxes. Fixed charges consist of interest incurred, whether expensed or capitalized, including amortization of debt issuance costs, if applicable, and the portion of rent expense deemed to represent interest. Our ratio of earnings to combined fixed charges and preferred stock dividends for the periods indicated above is the same as our ratio of earnings to fixed charges set forth above because we had no shares of preferred stock outstanding during the periods indicated and currently have no shares of preferred stock outstanding.

DESCRIPTION OF DEBT SECURITIES

The debt securities will be issued by AGL Capital under an indenture dated as of February 20, 2001, as supplemented and modified, as necessary, among AGL Capital, AGL Resources and The Bank of New York Mellon Trust Company, N.A. (formerly known as The Bank of New York Trust Company, N.A., a successor in interest to The Bank of New York), as trustee. The indenture provides for the issuance from time to time of debt securities in an unlimited dollar amount and an unlimited number of series. The debt securities will be guaranteed by AGL Resources under the guarantees described below.

The following description of the terms of the debt securities and the guarantees summarizes the material terms that will apply to the debt securities and the guarantees. The description is not complete, and we refer you to the indenture, a copy of which is an exhibit to the registration statement of which this prospectus is a part. For your reference, in several cases below, we have noted the section in the indenture that the paragraph summarizes. The referenced section of the indenture and the definitions of capitalized terms are incorporated by reference in the following summary.

General

The indenture does not limit the aggregate principal amount of the debt securities that may be issued thereunder and provides that the debt securities may be issued from time to time in series. The debt securities will be unsecured and will rank on parity with all of our other unsecured and unsubordinated indebtedness, unless otherwise provided in a prospectus supplement.

The prospectus supplement and any related pricing supplement will describe certain terms of the offered debt securities, including:

- the title of the offered debt securities;
- any limit on the aggregate principal amount of the offered debt securities;
- the person or persons to whom interest on the offered debt securities shall be payable on any interest payment date if other than the person in whose name the offered debt security is registered on the regular record date;
- the date or dates on which the principal of the offered debt securities is payable;
- the rate or rates (or manner in which interest is to be determined) at which the offered debt securities will bear interest, if any, and the date from which such interest, if any, will accrue and the regular record date for the interest payable on the offered debt securities on any interest payment date;
- the periods within which, the prices at which and the terms and conditions upon which the offered debt securities may be redeemed, in whole or in part, at our option;
- our obligation, if any, to redeem or purchase the offered debt securities pursuant to any sinking fund or analogous provision or at the option of the holder, the period or periods within which, and the price or prices at which and the terms and conditions upon which such offered debt securities will be redeemed or purchased;
- whether the offered debt securities are to be issued in whole or in part in the form of one or more global notes and, if so, the identity of the depository for such global notes; and
- any events of default (in addition to those specified in the indenture) or other terms and conditions with respect to the offered debt securities that are not inconsistent with the terms of the indenture.

Unless otherwise provided in the prospectus supplement or a pricing supplement, the debt securities will be issued only in fully registered form, without coupons, in denominations of \$1,000 or any integral multiple thereof.

One or more series of debt securities may be issued as discounted debt securities (bearing no interest or interest at a rate which, at the time of issuance, is below market rates) to be sold at a substantial discount below their stated principal amount. Special federal income tax and other considerations applicable thereto will be described in the prospectus supplement relating thereto.

The indenture provides that all debt securities of any one series need not be issued at the same time and that we may, from time to time, issue additional debt securities of a previously issued series. In addition, the indenture provides that we may issue debt securities with terms different from those of any other series of debt securities and, within a series of debt securities, terms, such as interest rate or manner in which interest is calculated, original issue date, redemption provisions and maturity date, may differ.

Payment of Notes; Transfers; Exchanges

Except as may be provided in the applicable prospectus supplement, interest, if any, on each debt security payable on each interest payment date will be paid to the person in whose name such debt security is registered as of the close of business on the regular record date relating to such interest payment date. However, if there has been a default in the payment of interest on any debt security, such defaulted interest may be payable to the holder of such debt security as of the close of business on a date selected by the trustee not more than 15 days and not less than 10 days prior to the date we propose for payment of such defaulted interest. (See Section 307.)

Principal of, and premium and interest, if any, on the debt securities will be payable at the office of the trustee designated for such purpose or at any paying agency we maintain for such purpose. We may appoint one or more paying agents and may remove any paying agent, all in our discretion. The applicable prospectus supplement will identify any paying agent appointed.

The transfer of the debt securities may be registered, and the debt securities may be exchanged for other debt securities of authorized denominations and of like tenor and aggregate principal amount at the office of the trustee designated for such purpose or at any paying agency we maintain for such purpose. We may appoint one or more additional security registrars or transfer agents and may remove any security registrar or transfer agent, all in our discretion. The applicable prospectus supplement will identify any additional security registrar or transfer agent appointed.

No service charge will be made for any registration of transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith. We will not be required:

- to issue, register the transfer of or exchange debt securities during the period of 15 days prior to giving any notice of redemption or
- to issue, register the transfer of or exchange any debt security selected for redemption in whole or in part, except the unredeemed portion of any debt security being redeemed in part. (See Section 305.)

Redemption

Any terms for the optional or mandatory redemption of the offered debt securities will be set forth in the applicable prospectus supplement. In accordance with the terms of the indenture, debt securities will be redeemable only upon notice, by mail, not less than 30 nor more than 60 days prior to the date fixed for redemption and, if less than all of the debt securities of any series are to be redeemed, the particular debt securities will be selected by the security registrar by such method as the trustee deems fair and appropriate. (See Sections 403 and 404.)

Any notice of optional redemption may state that such redemption shall be conditional upon the receipt by the trustee, on or prior to the date fixed for such redemption, of money sufficient to pay the principal of and premium and interest, if any, on such debt securities and that if such money has not been so received, such notice will be of no force or effect, and we will not be required to redeem such debt securities. (See Section 404.)

Events of Default

The following are events of default under the indenture with respect to debt securities of any series:

- failure to pay any interest on any debt security within 30 days after the same becomes due and payable;
- failure to pay principal of or any premium on any debt security within three (3) business days of when due;
- failure to perform, or breach of, any other covenant or warranty in the indenture (other than a covenant or warranty included in the indenture solely for the benefit of one or more series of debt securities other than that series), continued for 90 days after written notice to us by the trustee or by the holders of at least 25% in principal amount of the outstanding debt securities to us and the trustee as provided in the indenture;
- certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization; and
- any other event of default provided with respect to the debt securities of that series. (See Section 801.)

No event of default with respect to the debt securities of one series necessarily constitutes an event of default with respect to the debt securities of any other series issued under the indenture.

If an event of default (other than certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization) occurs and is continuing, either the trustee or the holders of at least 33% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of all the outstanding debt securities of that series to be due and payable immediately; provided, however, that if such an event of default occurs and is continuing with respect to more than one series of debt securities, the trustee or the holders of not less than 33% in aggregate principal amount of the outstanding debt securities of all such series, considered as one class, may make such declaration of acceleration and not the holders of the debt securities of any of such series. (See Section 802.)

The holders of a majority in aggregate principal amount of the outstanding debt securities of each series may, on behalf of all holders of the debt securities of that series, waive any past default under the indenture with respect to the debt securities of that series, except a default in the payment of principal or premium or interest, if any, or in respect of a provision of the indenture which cannot be amended or modified without the consent of the holder of each outstanding debt security of the series affected. (See Section 813.)

Remedies

At any time after the declaration of acceleration with respect to the debt securities of any series has been made, but before a judgment or decree based on acceleration has been obtained, the event or events of default giving rise to such declaration of acceleration shall, without further act, be deemed to have been waived, and such declaration and its consequences shall, without further act, be deemed to have been rescinded and annulled if:

- we have paid or deposited with the trustee a sum sufficient to pay:
 - (1) all overdue interest on all debt securities of such series;
 - (2) the principal of and premium, if any, on any debt securities of such series which have become due otherwise than by such declaration of acceleration and interest thereon at the rate or rates prescribed hereof in such debt securities;
 - (3) to the extent that payment of such interest is lawful, interest upon overdue interest at the rate or rates prescribed therefor in such debt securities;
 - (4) all amounts due to the trustee under the indenture; and
- any other event or events of default with respect to the debt securities of such series, other than the nonpayment of the principal of the debt securities of such series which has become due solely by such declaration of acceleration, have been cured or waived as provided in the indenture. (See Section 802.)

The indenture provides that, subject to the duty of the trustee during the continuance of an event of default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless such holders shall have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee and subject to certain other limitations, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceedings for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series; provided, however, that if an event of default occurs and is continuing with respect to more than one series of debt securities, the holders of a majority in aggregate principal amount of the outstanding debt securities of all such series, considered as one class, will have the right to make such direction, and not the holders of the debt securities of any one of such series; and provided, further, that:

- such direction will not be in conflict with any rule of law or with the indenture and would not involve the trustee in personal liability in circumstances where reasonable indemnity could not be adequate and
- the trustee may take any other action it deems proper which is not inconsistent with such direction. (See Section 812.)

The right of a holder of any debt security of such series to institute a proceeding with respect to the indenture is subject to the following conditions precedent:

- the holder shall have previously given written notice to the trustee of a continuing event of default;
- the holders of not less than a majority in aggregate principal amount of the outstanding securities of all series in respect to which an event of default shall have occurred and be continuing shall have made a written request to the trustee to institute proceedings in respect of the event of default;
- the holders shall have offered to the trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;
- the trustee for 60 days after its receipt of such notice, request and offer of indemnity shall have failed to institute any such proceedings; and
- the trustee shall have not received direction inconsistent with the written request during the 60 day period by the holders of a majority in aggregate principal amount of the outstanding securities of all series in respect of which an event of default shall have occurred. (See Section 807.)

However, each holder has an absolute right to receive payment of principal and premium and interest, if any, when due and to institute suit for the enforcement of any such payment. (See Section 808.) The indenture provides that the trustee, within 90 days after the occurrence of any default thereunder with respect to the debt securities of a series, is required to give the holders of the indenture securities of such series notice of any default known to it, unless cured or waived; provided, however, that, except in the case of a default in the payment of principal of or premium or interest, if any, on any debt securities of such series, the trustee may withhold such notice if the trustee determines that it is in the interest of such holders to do so; and provided, further, that in the case of an event of default of the character specified above in the third bullet point under “—*Events of Default*,” no such notice shall be given to such holders until at least 75 days after the occurrence thereof. (See Section 902.)

The indenture requires us to annually furnish to the trustee a statement as to our performance of certain obligations and as to any default in such performance. The indenture also requires us to notify the trustee of any event of default within ten days after certain of our officers obtain actual knowledge thereof. (See Section 606.)

Modification, Waiver and Amendment

Certain modifications and amendments of the indenture may be made by us and the trustee without the consent of the holders, including those which:

- evidence the assumption by any of our successors of our obligations under the indenture or with respect to the debt securities;
- add to our covenants for the benefit of the holders or surrender any of our rights under the indenture;
- add any events of default, in addition to those specified in the indenture, with respect to any series of outstanding debt securities;
- change or eliminate any provision of the indenture or add any new provision to the indenture; provided, however, that if such change, elimination or addition will adversely affect the interests of holders of debt securities of any series in any material respect, such change, elimination or addition will become effective with respect to such series only when there is no debt security of such series remaining outstanding under the indenture;
- provide collateral security for the debt securities;
- establish the form or terms of debt securities of any series;
- evidence the appointment of a separate or successor trustee with respect to the debt securities of one or more series and to add to or change any of the provisions of the indenture as shall be necessary to provide for or to facilitate the administration of the trusts under the indenture by more than one trustee;
- provide for the procedures required to permit the utilization of a noncertificated system of registration for any series of debt securities;
- subject to certain conditions, change the place where debt securities may be transferred, exchanged or paid; or
- cure any ambiguity or inconsistency or make any other provisions with respect to matters and questions arising under the indenture, provided such provisions shall not adversely affect the interests of the holders of debt securities of any series in any material respect. (See Section 1201.)

Without limiting the generality of the foregoing, if the Trust Indenture Act is amended after the date of the indenture to require changes to the indenture or the incorporation therein of additional provisions or permit changes to, or the elimination of, provisions which, at the date of the indenture or at any time thereafter, are required by the Trust Indenture Act to be contained in the indenture, the trustee and we may, without the consent of any holders, enter into one or more supplemental indentures to effect or reflect any such change, incorporation or elimination.

Modifications and amendments of the indenture may be made by the trustee and us with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of all series then outstanding under the indenture and affected by such modification or amendment, considered as one class; provided, however, that no such modification or amendment may, without the consent of the holders of each outstanding debt security affected thereby:

- change the stated maturity of the principal of, or any installment of principal of or interest, if any, on, any debt security;
- reduce the principal amount of, or premium or interest, if any, on, any debt security;
- reduce the amount of principal of an original issue discount debt security payable upon acceleration of the maturity thereof;
- change the currency in which any principal of, or premium or interest, if any, on, any debt security is payable;
- impair the right to institute suit for the enforcement of any payment on or with respect to any debt security;
- reduce the percentage in principal amount of the outstanding debt securities of any series, the consent of whose holders is required for modification or amendment of the indenture or for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults;
- reduce the requirements for quorum or voting; or

- amend provisions of the indenture relating to waivers of covenants affecting the amount of securities that may be authenticated and delivered, waivers of past defaults and supplemental indentures requiring the consent of the holders.

A supplemental indenture which changes or eliminates any covenant or other provision of the indenture which has expressly been included solely for the benefit of one or more particular series of debt securities, or which modifies the rights of the holders of debt securities of such series with respect to such covenant or other provision, shall be deemed not to affect the rights under the indenture of the holders of any other debt securities. (See Section 1202.)

Covenants; Consolidation, Merger and Sale of Assets

We will cause (or, with respect to property owned in common with others, make reasonable effort to cause) all of our properties used or useful in the conduct of our business to be maintained and kept in good condition, repair and working order and will cause (or, with respect to property owned in common with others, make reasonable effort to cause) all necessary repairs, renewals, replacements, betterments and improvements thereof to be made, all as, in our judgment, may be necessary so that our business may be properly conducted; provided, however, that the foregoing will not prevent us from discontinuing, or causing the discontinuance of, the operation and maintenance of any of our properties if such discontinuance is, in our judgment, desirable in the conduct of our business and will not adversely affect the interests of the holders of debt securities of any series in any material respect. (See Section 605.)

Subject to the provisions described in the next paragraph, we will do or cause to be done all things necessary to preserve and keep in full force and effect our corporate existence and rights (charter and statutory) and our franchises; provided, however, that we will not be required to preserve any such right or franchise if, in our judgment, preservation thereof is no longer desirable in the conduct of our business and the failure to preserve any such right or franchise will not adversely affect the interests of the holders of debt securities of any series in any material respect. (See Section 604.)

We may, without the consent of the holders of any of the outstanding debt securities under the indenture, merge into, consolidate with, or sell, lease or convey all or substantially all of our assets to a successor company organized under the laws of the United States, any state thereof or the District of Columbia, provided, however, that such successor company assumes our obligations on the debt securities and under the indenture, that after giving effect to the transaction no event of default, and no event which, after notice or lapse of time or both would become an event of default, will have occurred and be continuing, and that we will have delivered to the trustee an opinion of counsel and an officer's certificate as provided in the indenture. (See Section 1101.) The term "substantially all" when used in reference to the sale, lease or conveyance of our assets has not been interpreted under governing law to represent a specific quantitative test as applied to us and, as a consequence, holders may not be able to determine when we have entered into a transaction that sells, leases or conveys substantially all of our assets. As a result of this uncertainty, it may be difficult for the holders to determine whether such sale, lease or conveyance has occurred and whether to declare an event of default and exercise acceleration rights. Further, there could be a disagreement between the holders and us over whether such a sale, lease or conveyance of our assets qualifies as substantially all of our assets. To the extent that the holders elect to exercise their rights under the indenture resulting from what the holders deem to be a sale, lease or conveyance of substantially all of our assets and we contest such an election, there can be no assurances as to how a court would interpret the meaning of substantially all of our assets.

Satisfaction and Discharge

We may terminate our obligations (except for certain specified surviving obligations described below) under the indenture with respect to debt securities of any series on the terms and subject to the conditions contained in the indenture, by depositing in trust with the trustee cash or eligible obligations (as defined below) (or a combination thereof) sufficient to pay the principal of and premium, if any, and interest, if any, due and to become due on the debt securities of such series on or prior to their maturity or redemption date in accordance with the terms of the indenture and such debt securities. (See Section 701.)

The indenture, with respect to any and all series of debt securities (except for certain specified surviving obligations) will be discharged and cancelled upon the satisfaction of certain conditions, including:

- the payment in full of the principal of (and premium, if any) and interest on all of the debt securities of such series or the deposit with the trustee of an amount in cash or eligible obligations (or a combination thereof) sufficient for such payment or redemption, in accordance with the indenture;
- the payment by us of all other sums required under the indenture; and
- the delivery of a certificate by us to the trustee stating that all conditions relating to the satisfaction and discharge of the indenture have been complied with. (See Section 702.)

Eligible obligations include:

- with respect to debt securities denominated in United States dollars, government obligations (which include direct obligations of, or obligations unconditionally guaranteed by, the United States of America entitled to the benefit of the full faith and credit thereof and certificates, depository receipts or other instruments which evidence a direct ownership interest in such obligations or in any specific interest or principal payments due in respect thereof); and
- with respect to debt securities denominated in a currency other than United States dollars or in a composite currency, such other obligations or instruments as shall be specified with respect to such debt securities, as contemplated by the indenture.

Notwithstanding the satisfaction and discharge of our obligations under the indenture as described above, the following obligations of AGL Capital and the trustee in respect of our debt securities shall survive:

- the obligation to execute, authenticate and deliver temporary securities (Section 304);
- the obligation to maintain a security register to provide for the registration of the debt securities and the registration of their transfer and exchange (Section 305);
- the obligation to execute, authenticate and deliver debt securities in exchange for mutilated securities surrendered to the trustee or in exchange for lost and stolen debt securities (Section 306);
- the obligation to give proper notice of redemption (Section 404);
- the obligation to give notice of a sinking fund payment date for the debt securities (Section 503);
- the obligation to maintain an office or agency where the debt securities may be surrendered for registration of transfer or exchange and where notices and demands to or from AGL Capital and AGL Resources may be served (Section 602);
- the obligation for money for debt securities payments to be held in trust (Section 603);
- obligations regarding satisfaction and discharge of the debt securities and the indenture and the application of trust money (Article Seven);
- obligations regarding compensation and reimbursement and indemnification of the trustee (Section 907); and
- the obligation of the trustee relating to the appointment of an authenticating agent (Section 914).

In order to terminate our obligations in respect of any series of debt securities, we must deliver to the trustee an opinion of counsel to the effect that the holders of that series of securities will not recognize income, gain or loss for federal income tax purposes as a result.

For federal income tax purposes, any deposit contemplated by the first two paragraphs of this section may be treated as a taxable exchange of the related debt securities for an issue of obligations of the trust or a direct interest in the cash and securities held in the trust. In that case, holders of such debt securities would recognize gain or loss as if the trust obligations or the cash or securities deposited, as the case may be, had actually been received by them in exchange for their debt securities. Such holders thereafter would be required to include in income a share of the income, gain or loss of the trust. The amount so required to be included in income could be different from the amount that would be includable in the absence of such deposit. Prospective investors are urged to consult their own tax advisors as to the specific consequences to them of such deposit.

Governing Law

The debt securities and the indenture will be governed by and construed in accordance with the laws of the State of New York.

Description of the Guarantees

AGL Resources will fully and unconditionally guarantee to each holder of debt securities and to the trustee and its successors the due and punctual payment of the principal of and premium, if any, and interest, if any, on the debt securities. The guarantees apply whether the payment is due at the maturity date of the debt securities, on an interest payment date, or as a result of acceleration, an offer to purchase or otherwise. The guarantees include payment of interest on the overdue principal of and interest, if any, on the debt securities (if lawful) and all other obligations of AGL Capital under the indenture.

The guarantees will remain valid even if the indenture is found to be invalid. AGL Resources is obligated under the guarantees to pay any guaranteed amount immediately after AGL Capital's failure to do so.

Concerning the Trustee

The indenture and Section 311 of the Trust Indenture Act contain limitations on the right of the trustee, should it become our creditor, to obtain payment of claims, or to realize on property received in respect of any such claim as security or otherwise in cases where the trustee is, or has become, our direct or indirect creditor within three months prior to or subsequent to an event of default. In such cases, unless and until such event of default is cured, the trustee must set apart and hold as a special account for the benefit of the trustee and the holders of the debt securities, an amount equal to any and all reductions in the amount due and owing to the trustee as a creditor calculated after the beginning of the three month period; and all property received by the trustee in respect of any claim as a creditor after the beginning of the three month period, or an amount equal to the proceeds of any such property, if the property has been disposed of. The trustee will be permitted to engage in other transactions with us; provided, however, that if the trustee acquires any conflicting interest, it must eliminate such conflict or resign.

The indenture provides that, in case an event of default shall occur and be continuing, the trustee will be required to use the degree of care and skill of a prudent person in the conduct of his or her own affairs in the exercise of its power.

DESCRIPTION OF JUNIOR SUBORDINATED NOTES

The junior subordinated notes will be issued by AGL Capital under an indenture, as supplemented and modified, as necessary, to be entered into by AGL Capital, AGL Resources and the trustee named therein, as trustee. The subordinated note indenture provides for the issuance from time to time of unsecured junior subordinated debt securities (which we refer to in this section as the junior subordinated notes) in an unlimited dollar amount and an unlimited number of series. The junior subordinated notes will be guaranteed by AGL Resources under the guarantees described below.

The following description of the terms of the junior subordinated notes and the guarantees summarizes the material terms that will apply to the junior notes and the guarantees. The description is not complete, and we refer you to the subordinated note indenture, a form of which is an exhibit to the registration statement of which this prospectus is a part. For your reference, in several cases below, we have noted the section in the subordinated note indenture that the paragraph summarizes. The referenced section of the subordinated note indenture and the definitions of capitalized terms are incorporated by reference in the following summary.

General

The subordinated note indenture does not limit the aggregate principal amount of junior subordinated notes that may be issued thereunder and provides that junior subordinated notes may be issued from time to time in series. Each series of the junior subordinated notes will be unsecured and will rank on parity with all of our other unsecured and subordinated indebtedness, unless otherwise provided in a prospectus supplement. The junior subordinated notes are subordinated and junior in right of payment to all senior indebtedness (as defined below) of AGL Capital. AGL Resources will guarantee, on a junior subordinated basis, the payment of the principal (and premium, if any) and interest on the junior subordinated notes, except that no payment of interest will be made under the guarantee for any period during which AGL Capital has exercised its right to defer interest payment on the junior subordinated notes.

The prospectus supplement and any related pricing supplement will describe certain terms of the offered junior subordinated notes, including:

- the title of the offered junior subordinated notes;
- any limit on the aggregate principal amount of the offered junior subordinated notes;
- the person or persons to whom interest on the offered junior subordinated notes shall be payable on any interest payment date if other than the person in whose name the offered junior subordinated note is registered on the regular record date;
- the date or dates on which the principal of the offered junior subordinated notes is payable;
- the rate or rates (or manner in which interest is to be determined) at which the offered junior subordinated notes will bear interest, if any, and the date from which such interest, if any, will accrue and the regular record date for the interest payable on the offered junior subordinated notes on any interest payment date;
- the place or places where the principal of, premium, if any, on and interest, if any, on the offered junior subordinated notes is payable;

- the period or periods within which, the prices at which and the terms and conditions upon which the offered junior subordinated notes may be redeemed, in whole or in part, at our option;
- our obligation, if any, to redeem or purchase the offered junior subordinated notes pursuant to any sinking fund or analogous provision or at the option of a holder and the period or periods within which, the price or prices at which, and the terms and conditions upon which, such offered junior subordinated notes will be redeemed or purchased;
- the portion of the principal amount of the offered junior subordinated notes of the series which is payable upon declaration of acceleration of the maturity, if other than the principal amount;
- any deletions from, modifications of or additions to the events of default or our covenants pertaining to the offered junior subordinated notes of the series, and any change in the rights of the trustee or holders of the offered junior subordinated notes;
- any additions to the definitions in the subordinated note indenture with respect to the offered junior subordinated notes;
- whether the offered junior subordinated notes are to be issued in whole or in part in the form of one or more global notes and, if so, the identity of the depository for the global notes; the terms and conditions, if any, on which the global note may be exchanged for certificated offered junior subordinated notes and the circumstances under which the exchange may occur, if other than in the manner provided for in subordinated note indenture; and the form of any legend or legends to be borne by any global note in addition to or instead of the legend referred to in subordinated note indenture;
- the right, if any, of AGL Capital to defer interest payments or to extend the interest payment periods of the offered junior subordinated notes, including the maximum duration of any such deferral or deferrals or any such extension or extensions, the additional interest, if any, payable on the offered junior subordinated notes during any deferral or extension of the interest payment period and any notice that must be given upon the exercise of the right to defer interest payments or to extend interest payment periods;
- any restriction or condition on the transferability of the offered junior subordinated notes; and
- any other terms and conditions with respect to the offered junior subordinated notes that are not inconsistent with the terms of the subordinated note indenture. (See Section 301.)

Unless otherwise provided in the prospectus supplement or a pricing supplement, the junior subordinated notes will be issued only in fully registered form, without coupons, in denominations of \$1,000 or any integral multiple thereof.

The subordinated note indenture provides that all junior subordinated notes of any one series need not be issued at the same time and that we may, from time to time, issue additional junior subordinated notes of a previously issued series. In addition, the subordinated note indenture provides that we may issue junior subordinated notes with terms different from those of any other series of junior subordinated notes and, within a series of junior subordinated notes, terms, such as interest rate or manner in which interest is calculated, original issue date, redemption provisions and maturity date, may differ. (See Section 301.)

The subordinated note indenture does not contain provisions that afford holders of junior subordinated notes protection in the event of a highly leveraged transaction involving us.

Subordination

The junior subordinated notes are subordinated and junior in right of payment to all senior indebtedness (as defined below) of AGL Resources. No payment of principal of (including redemption payments, if any), or premium, if any, on or interest (including additional interest (as defined below)) on the junior subordinated notes may be made by AGL Capital if:

- any senior indebtedness is not paid when due and any applicable grace period with respect to such default has ended with such default not being cured or waived or otherwise ceased to exist;
- the maturity of any senior indebtedness has been accelerated because of a default; or
- notice has been given of the exercise of an option to require repayment, mandatory payment or prepayment or otherwise of the senior indebtedness. (See Section 1303.)

Upon any payment or distribution of assets of AGL Resources or AGL Capital to creditors upon any liquidation, dissolution, winding-up, reorganization, assignment for the benefit of creditors, marshalling of assets or liabilities, or any

bankruptcy, insolvency or similar proceedings of AGL Resources or AGL Capital, the holders of senior indebtedness will be entitled to receive payment in full of all amounts due or to become due on or in respect of all senior indebtedness before the holders of the junior subordinated notes are entitled to receive or retain any payment or distribution. Subject to the prior payment of all senior indebtedness, the rights of the holders of the junior subordinated notes will be subrogated to the rights of the holders of senior indebtedness to receive payments and distributions applicable to such senior indebtedness until all amounts owing on the junior subordinated notes are paid in full. (See Section 1302.)

The term “senior indebtedness” means, with respect to an obligor:

- any payment due in respect of indebtedness of such obligor, whether outstanding at the date of execution of the subordinated note indenture or incurred, created or assumed after such date, (a) in respect of money borrowed (including any financial derivative, hedging or futures contract or similar instrument) and (b) evidenced by securities, debentures, bonds, notes or other similar instruments issued by such obligor that, by their terms, are senior or senior subordinated debt securities including, without limitation, all such obligations under its indentures with various trustees;
- all capital lease obligations;
- all obligations issued or assumed as the deferred purchase price of property, all conditional sale obligations and all obligations of such obligor under any title retention agreement (but excluding trade accounts payable arising in the ordinary course of business and long-term purchase obligations);
- all obligations for the reimbursement of any letter of credit, banker’s acceptance, security purchase facility or similar credit transaction;
- all obligations of the type referred to in the preceding four bulleted clauses of other persons the payment of which such obligor is responsible or liable as obligor, guarantor or otherwise; and
- all obligations of the type referred to in the preceding five bulleted clauses of other persons secured by any lien on any property or asset of such obligor (whether or not such obligation is assumed by such obligor), except for (1) any such indebtedness that is by its terms subordinated to or that ranks equally with the junior subordinated notes and (2) any unsecured indebtedness between or among such obligor and its affiliates.

Such senior indebtedness shall continue to be senior indebtedness and be entitled to the benefits of the subordination provisions contained in the subordinated note indenture irrespective of any amendment, modification or waiver of any term of such senior indebtedness. (See Section 101.)

The subordinated note indenture does not limit the aggregate amount of senior indebtedness that may be issued by AGL Capital or AGL Resources. As of March 31, 2016, senior indebtedness of AGL Capital and AGL Resources aggregated approximately \$3.37 billion.

Additional Interest

“Additional interest” is defined in the subordinated note indenture to include any interest due and not paid on an interest payment date, together with interest on such interest due from such interest payment date to the date of payment, compounded quarterly, on each interest payment date.

Payment and Paying Agents

Unless otherwise indicated in an applicable prospectus supplement, payment of principal of any junior subordinated notes will be made only against surrender to the paying agent of such junior subordinated notes. Principal of and interest on junior subordinated notes will be payable, subject to any applicable laws and regulations, at the office of such paying agent or paying agents as AGL Capital may designate from time to time. Payment of interest on junior subordinated notes on any interest payment date will be made to the person in whose name the junior subordinated notes (or predecessor security) are registered at the close of business on the record date for such interest payment.

Unless otherwise indicated in an applicable prospectus supplement, the subordinated note indenture trustee will act as paying agent with respect to the junior subordinated notes. AGL Capital may at any time designate additional paying agents or rescind the designation of any paying agents or approve a change in the office through which any paying agent acts.

All moneys paid to a paying agent for the payment of the principal of or interest on the junior subordinated notes of any series which remain unclaimed at the end of two years after such principal or interest shall have become due and payable will be repaid to AGL Capital, and the holder of such junior subordinated notes will from that time forward look only to AGL Capital for payment of such principal and interest. (See Section 1003.)

Redemption

Any terms for the optional or mandatory redemption of the junior subordinated notes will be set forth in the applicable prospectus supplement. In accordance with the terms of the subordinated note indenture, junior subordinated notes will be redeemable only upon notice to the trustee not less than 60 days prior to the date fixed for redemption and, if less than all of the junior subordinated notes of any series are to be redeemed, the particular junior subordinated notes will be selected by such method as the trustee deems fair and appropriate. (See Sections 1102 and 1103.)

AGL Capital shall not be required to (i) issue, register the transfer of or exchange junior subordinated notes of any series during a period of 15 days immediately preceding the date notice is given identifying the junior subordinated notes of such series called for redemption or (ii) issue, register the transfer of or exchange any junior subordinated notes so selected for redemption, in whole or in part, except the unredeemed portion of any junior subordinated note being redeemed in part. (See Section 303.)

Events of Default

The subordinated note indenture provides that any one or more of the following described events with respect to the junior subordinated notes of any series, which has occurred and is continuing, constitutes an event of default with respect to the junior subordinated notes of such series:

- failure for 10 days to pay interest on the junior subordinated notes of the series, including any additional interest in respect of the junior subordinated notes of the series, when due on an interest payment date other than at maturity or upon earlier redemption; provided, however, that a valid extension of the interest payment period by AGL Capital will not constitute a default in the payment of interest for this purpose;
- failure to pay principal of, or premium, if any, on or interest, including additional interest, on the junior subordinated notes of such series when due at maturity or upon earlier redemption;
- failure for three business days to deposit any sinking fund payment when due by the terms of a junior subordinated note of the series;
- failure to observe or perform any other covenant or warranty of AGL Capital or AGL Resources in the junior subordinated note Indenture (other than a covenant or warranty which has expressly been included in the subordinated note indenture solely for the benefit of one or more series of junior subordinated notes other than such series) for 90 days after written notice to AGL Capital from the subordinated note indenture trustee or the holders of at least 25% in principal amount of the outstanding junior subordinated notes of such series;
- certain events of bankruptcy, insolvency or reorganization of AGL Capital or AGL Resources; and
- any other default provided with respect to the junior subordinated notes of such series in the supplemental indenture authorizing the junior subordinated notes of such series. (See Section 501.)

The holders of not less than a majority in aggregate outstanding principal amount of the junior subordinated notes of any series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the subordinated note indenture trustee with respect to the junior subordinated notes of such series. (See Section 512.) If a subordinated note indenture event of default occurs and is continuing with respect to the junior subordinated notes of any series, then the subordinated note indenture trustee or the holders of not less than 25% in aggregate outstanding principal amount of the junior subordinated notes of such series may declare the principal amount of the junior subordinated notes due and payable immediately by notice in writing to AGL Capital or AGL Resources (and to the subordinated note indenture trustee if given by the holders), and upon any such declaration such principal amount shall become immediately due and payable. At any time after such a declaration of acceleration with respect to the junior subordinated notes of any series has been made and before a judgment or decree for payment of the money due has been obtained as provided in Article Five of the subordinated note indenture, the holders of not less than a majority in aggregate outstanding principal amount of the junior subordinated notes of such series may, by written notice to AGL Capital and the subordinated note indenture trustee, rescind and annul such declaration and its consequences if the default has been cured or waived and AGL Capital or AGL Resources has paid or deposited with the subordinated note indenture trustee a sum sufficient to pay all matured installments of interest (including any additional interest) and principal due otherwise than by acceleration and all sums paid or advanced by the subordinated note indenture trustee, including reasonable compensation and expenses of the subordinated note indenture trustee. (See Section 502.)

The holders of not less than a majority in aggregate outstanding principal amount of the junior subordinated notes of any series may, on behalf of the holders of all the junior subordinated notes of such series, waive any past default with respect to the series, except (i) a default in the payment of principal or interest or (ii) a default in respect of a covenant or provision which under Article Nine of the subordinated note indenture cannot be modified or amended without the consent of the holder of each outstanding junior subordinated note of such series affected. (See Section 513.)

Remedies

At any time after the declaration of acceleration with respect to the junior subordinated notes of any series has been made, but before a judgment or decree for payment of the money due has been obtained, the holders of not less than a majority in principal amount of the outstanding junior subordinated notes of that series, by written notice to AGL Capital and the trustee, may rescind and annul such declaration and its consequences if:

- we have paid or deposited with the trustee a sum sufficient to pay:
 - (1) all overdue interest (including additional interest) on all junior subordinated notes of the series;
 - (2) the principal of and premium, if any, on any junior subordinated notes of the series which have become due otherwise than by such declaration of acceleration and interest thereon at the rate or rates prescribed therefor in such junior subordinated notes;
 - (3) to the extent that payment of such interest is lawful, interest upon overdue interest (including additional interest) at the rate or rates prescribed therefor in such junior subordinated notes;
 - (4) all amounts due to the trustee under the subordinated note indenture; and
- all events of default with respect to the junior subordinated notes of such series, other than the non-payment of the principal of the junior subordinated notes of such series which has become due solely by such declaration of acceleration, have been cured or waived as provided in the indenture. (See Section 502.)

The indenture provides that, subject to the duty of the trustee during the continuance of an event of default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders, unless such holders shall have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee and subject to certain other limitations, the holders of a majority in aggregate principal amount of the outstanding junior subordinated notes of any series will have the right to direct the time, method and place of conducting any proceedings for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the junior subordinated notes of that series; provided, however, that:

- such direction will not be in conflict with any rule of law or with the subordinated note indenture and would not involve the trustee in personal liability in circumstances where reasonable indemnity could not be adequate, and
- the trustee may take any other action it deems proper which is not inconsistent with such direction. (See Section 512.)

The right of a holder of any debt security of such series to institute a proceeding with respect to the indenture is subject to the following conditions precedent:

- the holder shall have previously given written notice to the trustee of a continuing event of default;
- the holders of not less than 25% in principal amount of the outstanding junior subordinated notes of that series shall have made a written request to the trustee to institute proceedings in respect of the event of default in its own name as trustee under the subordinated note indenture;
- the holders shall have offered to the trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;
- the trustee for 60 days after its receipt of such notice, request and offer of indemnity has failed to institute any such proceeding; and
- the trustee shall have not received direction inconsistent with the written request during the 60 day period by the holders of a majority in principal amount of the outstanding junior subordinated notes of that series in respect of which an event of default shall have occurred. (See Section 507.)

However, each holder has an absolute right to receive payment of principal and premium, if any, and interest, if any (including additional interest), when due and to institute suit for the enforcement of any such payment. (See Section 508.) The subordinated note indenture provides that the trustee, within 90 days after the occurrence of any default thereunder with respect to the junior subordinated notes of a series, is required to give the holders of the junior subordinated notes of such series notice of any default known to it, unless cured or waived; provided, however, that, except in the case of a default in the payment of principal of or premium, if any, or interest, if any (including additional interest), on any junior subordinated notes of such series or in the payment of any sinking fund installment with respect to junior subordinated notes of such series, the trustee may withhold such notice if the trustee determines in good faith that it is in the interest of such holders to do so; and provided, further, that in the case of an event of default of the character specified above in the third bullet point under “—*Events of Default*,” no such notice shall be given to such holders until at least 45 days after the occurrence thereof. (See Section 602.)

The indenture requires us to annually furnish to the trustee a statement as to our performance of certain obligations and as to any default in such performance. The indenture also requires us to notify the trustee of any event which after notice or lapse of time or both would become an event of default, within five days after the occurrence of such event. (See Section 1006.)

Modification

The subordinated note indenture contains provisions permitting AGL Capital, AGL Resources and the subordinated note indenture trustee, with the consent of the holders of not less than a majority in principal amount of the outstanding junior subordinated notes of each series that is affected, to modify the subordinated note indenture or the rights of the holders of the junior subordinated notes of such series; provided, that no such modification may, without the consent of the holder of each outstanding junior subordinated note that is affected, (i) change the stated maturity of the principal of, or any installment of principal of or interest on, any junior subordinated note, or reduce the principal amount of any junior subordinated note or the rate of interest (including additional interest) on any junior subordinated note or any premium payable upon the redemption thereof, or change the method of calculating the rate of interest on any junior subordinated note, or impair the right to institute suit for the enforcement of any such payment on or after the stated maturity of any junior subordinated note (or, in the case of redemption, on or after the redemption date), or (ii) reduce the percentage of principal amount of the outstanding junior subordinated notes of any series, the consent of whose holders is required for any such supplemental indenture, or the consent of whose holders is required for any waiver (of compliance with certain provisions of the subordinated note indenture or certain defaults under the subordinated note indenture and their consequences) provided for in the subordinated note indenture, or (iii) modify any of the provisions of the subordinated note indenture relating to supplemental indentures, waiver of past defaults, or waiver of certain covenants, except to increase any such percentage or to provide that certain other provisions of the subordinated note indenture cannot be modified or waived without the consent of the holder of each outstanding junior subordinated note that is affected, or (iv) modify the provisions of the subordinated note indenture with respect to the subordination of the junior subordinated notes in a manner adverse to such holder. (See Section 902.)

In addition, AGL Capital, AGL Resources and the subordinated note indenture trustee may execute, without the consent of any holders of junior subordinated notes, any supplemental indenture for certain other usual purposes, including the creation of any new series of junior subordinated notes. (See Section 901.)

Guarantee of Junior Subordinated Note Payments by AGL Resources

If an event of default shall have occurred and be continuing and shall be attributable to the failure of AGL Capital to pay interest (or premium, if any) or principal of the junior subordinated notes on the due date, AGL Resources will guarantee on a junior subordinated basis the payment of the principal (and premium, if any) and interest on the junior subordinated notes, except that no payment of interest will be made under the junior subordinated note guarantee for any period during which AGL Capital has exercised its right to defer interest payments on the junior subordinated notes.

The junior subordinated note guarantee will rank subordinate and junior in right of payment to all senior indebtedness of AGL Resources to the extent provided in the subordinated note indenture. The right of AGL Resources to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise, is subject to the prior claims of creditors of that subsidiary, except to the extent AGL Resources may itself be recognized as a creditor of that subsidiary. Accordingly, AGL Resources' obligations under the junior subordinated note guarantee will be effectively subordinated to all existing and future liabilities of AGL Resources' subsidiaries, and claimants should look only to the assets of AGL Resources for payments thereunder. The junior subordinated note guarantee does not limit the incurrence or issuance of other secured or unsecured debt of AGL Resources, including senior indebtedness, whether under the indenture, any other indenture that AGL Resources may enter into in the future or otherwise. (See Section 1501.)

Consolidation, Merger and Sale

Neither AGL Capital nor AGL Resources may consolidate with or merge into any other corporation or convey, transfer or lease its properties and assets substantially as an entirety to any person, unless (1) such other corporation or person is a corporation organized and existing under the laws of the United States, any state of the United States or the District of Columbia and such other corporation or person expressly assumes, by supplemental indenture executed and delivered to the subordinated note indenture trustee, the payment of the principal of, and premium, if any, on and interest (including additional interest) on all the junior subordinated notes and the performance of every covenant of the subordinated note indenture on the part of AGL Capital or AGL Resources, as the case may be, to be performed or observed; (2) immediately after giving effect to such transactions, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have happened and be continuing; and (3) AGL Capital or AGL Resources, as the case may be, has delivered to the subordinated note indenture trustee an officers' certificate and an opinion of counsel, each stating that such transaction complies with the provisions of the subordinated note indenture governing consolidation, merger, conveyance, transfer or lease and that all conditions precedent to the transaction have been complied with. (See Section 801.)

Governing Law

The subordinated note indenture and the junior subordinated notes will be governed by and construed in accordance with the laws of the State of New York without regard to principles of conflicts of law thereof. (See Section 112.)

Information Concerning the Junior Subordinated Note Indenture Trustee

The subordinated note indenture trustee, prior to an event of default with respect to junior subordinated notes of any series, undertakes to perform, with respect to junior subordinated notes of such series, only such duties as are specifically set forth in the subordinated note indenture and, in case an event of default with respect to junior subordinated notes of any series has occurred and is continuing, will exercise, with respect to junior subordinated notes of such series, the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. Subject to such provision, the subordinated note indenture trustee is under no obligation to exercise any of the powers vested in it by the subordinated note indenture at the request of any holder of junior subordinated notes of any series, unless offered reasonable indemnity by such holder against the costs, expenses and liabilities which might be incurred by the subordinated note indenture trustee. The subordinated note indenture trustee is not required to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties if the subordinated note indenture trustee reasonably believes that repayment or adequate indemnity is not reasonably assured to it.

The subordinated note indenture trustee may also serve as senior note indenture trustee. AGL Capital and AGL Resources and certain of their affiliates may maintain deposit accounts and banking relationships with the subordinated note indenture trustee. The subordinated note indenture trustee may serve as trustee under other indentures pursuant to which securities of AGL Capital or certain affiliates of AGL Capital are outstanding.

DESCRIPTION OF PREFERRED STOCK

Set forth below is a summary discussion of the material terms of AGL Resources' preferred stock. We encourage you to read AGL Resources' amended and restated articles of incorporation and bylaws that AGL Resources has previously filed with the SEC. See "*Incorporation of Certain Documents by Reference.*" The prospectus supplement will describe the specific terms of the series of the preferred stock offered through that prospectus supplement and any general terms outlined in this section that will not apply to the series of preferred stock.

AGL Resources is authorized to issue up to 10,000,000 shares of preferred stock. As of the date of this prospectus, no preferred stock is outstanding.

AGL Resources' restated articles of incorporation authorize its board of directors to provide for the issuance of preferred stock in one or more series, without shareholder action. AGL Resources' board of directors can determine the rights, preferences and limitations of each series. Prior to the issuance of each series of preferred stock, AGL Resources' board of directors will adopt resolutions creating and designating the series as a series of preferred stock. AGL Resources' board of directors has the authority to determine or fix the following terms with respect to shares of any series of preferred stock:

- the dividend rate, the times of payment and the date from which dividends will accumulate, if dividends are to be cumulative;

- whether and upon what terms the shares will be redeemable;
- whether and upon what terms the shares will have a sinking fund;
- whether and upon what terms the shares will be convertible or exchangeable;
- whether the shares will have voting rights and the terms thereof;
- the rights of the holders upon liquidation, dissolution or winding-up; and
- any other relative rights, powers and limitations or restrictions.

These terms will be described in the prospectus supplement for any series of preferred stock that AGL Resources offers. In addition, you should read the prospectus supplement relating to the particular series of the preferred stock offered thereby for specific terms, including:

- the title of the series of preferred stock and the number of shares offered;
- the initial public offering price at which AGL Resources will issue the preferred stock; and
- any additional dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions.

When AGL Resources issues the preferred stock, the shares will be fully paid and nonassessable. This means that the full purchase price for the outstanding preferred stock will have been paid and the holders of such preferred stock will not be assessed any additional monies for such preferred stock. Unless the applicable prospectus supplement specifies otherwise:

- each series of preferred stock will rank senior to AGL Resources' common stock and equally in all respects with the outstanding shares of each other series of preferred stock, and
- the preferred stock will have no preemptive rights to subscribe for any additional securities which AGL Resources may issue in the future. This means that the holders of preferred stock will have no right, as holders of preferred stock, to buy any portion of those issued securities.

Georgia law provides that no shareholder, including holders of preferred stock, shall be personally liable for the acts and obligations of a Georgia corporation. This means that with respect to AGL Resources, the funds and property of AGL Resources will be the only recourse for these acts or obligations.
