*Notice of 2017 Annual Meeting and Proxy Statement
May 11, 2017 1:00 p.m. Eastern Time, Indianapolis, Indiana*

Letter from the Chairman and Chief Executive Officer

Dear Fellow Stockholder:

It is my pleasure, along with our Board of Directors, or Board, to invite you to the 2017 annual meeting of stockholders, or the Annual Meeting, of Allison Transmission Holdings, Inc. This year's meeting will be held on Thursday, May 11, 2017 at 1:00 p.m. Eastern Time, at our global headquarters located at One Allison Way, Indianapolis, Indiana 46222.

You will find information regarding the business to be conducted at the Annual Meeting in the attached Notice of Annual Meeting of Stockholders and Proxy Statement, including information you should consider when you vote your shares. We are sending our stockholders a notice regarding the availability of this Proxy Statement, our 2016 Annual Report to Stockholders and other proxy materials via the Internet. This electronic process gives you fast, convenient access to the materials, reduces the impact on the environment and reduces our printing and mailing costs. A paper copy of these materials can be requested using one of the methods described in the materials.

Whether or not you plan to attend the meeting, your vote is important and we encourage you to vote promptly. You may vote your shares by telephone, via the Internet or by signing, dating and returning your proxy card or voting instruction form.

Our Board unanimously recommends that you vote:

- (1) **"FOR" the election of the ten director nominees named in this proxy statement; and**
- (2) **"FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017.**

Last year was a successful year for Allison Transmission. In the face of global uncertainties and political unpredictability, our employees, through their hard work and continued commitment to excellence, delivered solid financial results while providing customers with products and services that were critical to their businesses. We also returned capital to stockholders through share repurchases and quarterly dividends and continued to strengthen our balance sheet through strong free cash flow and refinancing activities. We acted to improve our corporate governance by (i) adopting a majority voting standard for uncontested director elections, (ii) adopting proxy access for qualified stockholders, and (iii) amending our certificate of incorporation to declassify our Board. I appreciate your continued interest in and support of our company and look forward to seeing you at the Annual Meeting.

Sincerely,

A handwritten signature in black ink, appearing to read "Lawrence E. Dewey", with a stylized flourish at the end.

This proxy statement and accompanying proxy card are being provided to stockholders on or about March 31, 2017 in connection with the solicitation by the Board of Directors, or Board, of Allison Transmission Holdings, Inc., referred to in this proxy statement as Allison, we, us, our or the Company, of proxies to be voted at the 2017 annual meeting of stockholders, or the Annual Meeting, and at any adjournments or postponements thereof, for the purposes set forth in the accompanying Notice of 2017 Annual Meeting of Stockholders. The Annual Meeting will be held at 1:00 p.m. Eastern Time on Thursday, May 11, 2017 at our global headquarters located at One Allison Way, Indianapolis, Indiana 46222.

Questions and Answers about the Annual Meeting and Voting

Why did I receive a Notice of Internet Availability of Proxy Materials?

You are receiving this proxy statement because you owned shares of Allison common stock at the close of business on March 13, 2017, which is the record date for the Annual Meeting, or the Record Date, and that entitles you to vote at the Annual Meeting. By use of a proxy, you can ensure your shares are voted whether or not you attend the Annual Meeting.

We are furnishing proxy materials to our stockholders primarily via the Internet, instead of mailing printed copies of those materials to each stockholder. On or about March 31, 2017, we mailed a Notice of Internet Availability of Proxy Materials, or Notice, to certain of our stockholders. The Notice contains instructions about how to access our proxy materials and vote via the Internet. If you received a Notice and would like to receive a paper copy of our proxy materials, please follow the instructions included in the Notice. If you previously chose to receive our proxy materials electronically, you will continue to receive access to these materials via email unless you elect otherwise.

Who is entitled to vote at the Annual Meeting?

Holders of our common stock outstanding at the close of business on the Record Date are entitled to vote their shares at the Annual Meeting. As of the Record Date, 151,835,452 shares of our common stock were issued and outstanding. Each share of our common stock is entitled to one vote on each matter properly brought before the Annual Meeting.

The presence at the Annual Meeting in person or by proxy of the holders of record of a majority in voting power of the shares entitled to vote at the meeting, or 75,917,726 shares, will constitute a quorum for the transaction of business at the Annual Meeting.

What will I be voting on at the Annual Meeting and how does our Board recommend that I vote?

There are two proposals that stockholders will vote on at the Annual Meeting:

- Proposal No. 1: To elect ten directors to serve until the 2018 annual meeting of stockholders, or until their successors are duly elected and qualified; and
- Proposal No. 2: To ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017.

[Table of Contents](#)

Our Board recommends that you vote:

- Proposal No. 1: "FOR" the election of each of the ten directors nominated by our Board to serve until the 2018 annual meeting of stockholders, or until their successors are duly elected and qualified; and
- Proposal No. 2: "FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017.

Lawrence E. Dewey, David S. Graziosi and Eric C. Scroggins, three of our executive officers, have been selected by our Board to serve as proxy holders for the Annual Meeting. All shares of our common stock represented by properly delivered proxies received in time for the Annual Meeting will be voted at the Annual Meeting by the proxy holders in the manner specified by the stockholder. If you sign and return a proxy card without indicating how you want your shares to be voted, the persons named as proxies will vote your shares in accordance with the recommendations of our Board.

What does it mean if I receive more than one Notice, proxy card or voting instruction form?

If you received more than one Notice, proxy card or voting instruction form, your shares are registered in more than one name or are registered in different accounts. Please follow the voting instructions included on each Notice, proxy card and voting instruction form to ensure that all of your shares are voted.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company LLC, you are considered, with respect to those shares, the "stockholder of record." The Notice has been or will be sent directly to you, unless you previously requested printed copies of our proxy materials.

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the "beneficial owner" of those shares held in street name. The Notice has been or will be sent to you by your broker, bank or other holder of record who is considered, with respect to those shares, to be the stockholder of record. As the beneficial owner, you have the right to direct your broker, bank or other holder of record on how to vote the shares in your account.

How do I vote?

Stockholder of Record. If you are a stockholder of record, you may vote by using any of the following methods:

- Through the Internet. You may vote by proxy through the Internet no later than 11:59 p.m., Eastern Time, on May 10, 2017 by following the instructions on the Notice or the instructions on the proxy card if you request printed copies of the proxy materials by mail.
- By Telephone. If you request printed copies of the proxy materials by mail, you may vote by proxy by calling no later than 11:59 p.m., Eastern Time, on May 10, 2017 the toll free number found on the proxy card and following the recorded instructions.
- By Mail. If you request printed copies of the proxy materials by mail, you may vote by proxy by completing, signing and dating the proxy card and sending it back in the envelope provided. Properly executed proxies that are received in time and not subsequently revoked will be voted as instructed on the proxy card.
- In Person at the Annual Meeting. If you attend the Annual Meeting, you may vote your shares in person. We encourage you, however, to vote by proxy through the Internet, by telephone or by mail even if you plan to attend the Annual Meeting so that your shares will be voted in the event you later decide not to attend the Annual Meeting.

Beneficial Owners. If you are a beneficial owner of shares held in street name, you may vote by using any of the following methods:

- **Through the Internet.** You may vote by proxy through the Internet no later than 11:59 p.m., Eastern Time, on May 10, 2017 by following the instructions provided in the Notice.
- **By Telephone.** If you request printed copies of the proxy materials by mail, you may vote by proxy by calling no later than 11:59 p.m., Eastern Time, on May 10, 2017 the toll free number found on the voting instruction form and following the recorded instructions.
- **By Mail.** If you request printed copies of the proxy materials by mail, you may vote by proxy by completing, signing and dating the voting instruction form and sending it back in the envelope provided. Properly executed voting instruction forms that are received in time and not subsequently revoked will be voted as instructed on the voting instruction form.
- **In Person at the Annual Meeting.** If you are a beneficial owner of shares held in street name and you wish to vote in person at the Annual Meeting, you must obtain a legal proxy from your broker, bank or other holder of record and present it at the Annual Meeting. Please contact that organization for instructions regarding obtaining a legal proxy. We encourage you, however, to vote by proxy through the Internet, by telephone or by mail even if you plan to attend the Annual Meeting so that your shares will be voted in the event you later decide not to attend the Annual Meeting.

May I change my vote after I have submitted a proxy?

If you are a stockholder of record, you have the power to revoke your proxy at any time by:

- delivering to our General Counsel and Secretary an instrument revoking the proxy;
- delivering a new proxy in writing, through the Internet or by telephone, dated after the date of the proxy being revoked; or
- attending the Annual Meeting and voting in person (attendance without casting a ballot will not, by itself, constitute revocation of a proxy).

If you are a beneficial owner of shares, you may submit new voting instructions by contacting your broker, bank or other holder of record. You may also revoke your previous voting instructions by voting in person at the Annual Meeting if you obtain a legal proxy from your broker, bank or other holder of record and present it at the Annual Meeting.

Is my vote confidential?

We maintain the confidentiality of the votes of individual stockholders. Ballots, proxy forms and voting instructions returned to brokerage firms, banks and other holders of record are kept confidential. Only the proxy tabulator and the inspector of election have access to the ballots, proxy forms and voting instructions. The proxy tabulator will disclose information taken from the ballots, proxy forms and voting instructions only if there is a proxy contest, if the stockholder authorizes disclosure, to defend legal claims or as otherwise required by law. If you write comments on your proxy card or ballot, management may learn how you voted in reviewing your comments.

Who will serve as the proxy tabulator and inspector of election?

A representative from Broadridge Financial Services, Inc. will serve as the independent inspector of election and will tabulate votes cast by proxy or in person at the Annual Meeting. We will report the results in a current report on Form 8-K filed with the Securities and Exchange Commission, or SEC.

What vote is required to approve each proposal?

The shares of a stockholder whose ballot is marked as “abstain” on any or all proposals will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present.

If you are a beneficial owner of shares and do not provide the record holder of your shares with specific voting instructions, your record holder may vote on the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017 (Proposal No. 2). However, your record holder cannot vote your shares without specific instructions on the election of directors (Proposal No. 1).

[Table of Contents](#)

If your record holder does not receive instructions from you on how to vote your shares on Proposal No. 1, your record holder will inform the inspector of election that it does not have the authority to vote on that proposal with respect to your shares. This is generally referred to as a "broker non-vote." Broker non-votes will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present, but they will not be counted in determining the outcome of the vote on Proposal No. 1.

A proxy that is signed and returned to us will be voted in the manner directed therein. If properly signed and returned, but no such direction is made, any proxy will be voted (i) "FOR" our Board's ten nominees for director, (ii) "FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017, and (iii) in the discretion of the proxies on such other business as may properly come before the meeting or any adjournments or postponements thereof.

The following table summarizes the votes required for passage of each proposal and the effect of abstentions and broker non-votes.

Proposal	Vote Required	Impact of Abstentions and Broker Non-Votes, if any
No. 1 To elect ten directors	A nominee for director is elected only if the number of votes cast "FOR" a nominee's election exceeds the number of "AGAINST" votes cast with respect to the nominee's election	Abstentions and broker non-votes will not affect the outcome of the vote
No. 2 To ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017	Approval by a majority of the voting power of the shares entitled to vote on this proposal represented in person or by proxy	Abstentions will have the same effect as votes against the proposal; brokers can vote in their discretion on this proposal

Who is paying for the cost of this proxy solicitation?

Our Board is soliciting the proxy accompanying this proxy statement. We will pay all proxy solicitation costs. Proxies may be solicited by our officers, directors and employees, none of whom will receive any additional compensation for their services. These solicitations may be made personally or by mail, facsimile, telephone, messenger, email or the Internet. We will pay persons holding shares of common stock in their names or in the names of nominees, but not owning such shares beneficially, such as brokers, banks and other holders of record, for the expense of forwarding solicitation materials to the beneficial owners.

What do I need to do to attend the meeting in person?

In order to be admitted to the Annual Meeting, you must present proof of ownership of Allison common stock on the Record Date. This can be:

- a brokerage statement or letter from a bank or broker indicating ownership on March 13, 2017;
- the Notice of Internet Availability of Proxy Materials;
- a printout of the proxy distribution email (if you received your materials electronically);
- a proxy card;
- a voting instruction form; or
- a legal proxy provided by your broker, bank or nominee.

Any holder of a proxy from a stockholder must present the proxy card, properly executed, and a copy of the proof of ownership. Stockholders and proxy holders must also present a form of photo identification such as a driver's license. The Company reserves the right to deny admittance to anyone who cannot adequately show proof of stock ownership as of the Record Date. No cameras, recording equipment, large bags, briefcases or packages will be permitted into the Annual Meeting. All attendees must comply with Allison's admittance requirements, including our security registration protocols, by checking in to our facility in our main lobby.

Is there a list of stockholders entitled to vote at the Annual Meeting?

A list of stockholders entitled to vote at the Annual Meeting will be available at the meeting and for ten days prior to the meeting, between the hours of 8:00 a.m. and 4:00 p.m. Eastern Time, at our offices at One Allison Way, Indianapolis, Indiana 46222. If you would like to view the stockholder list, please contact our General Counsel and Secretary to schedule an appointment.

I share an address with another stockholder, and we received only one paper copy of the proxy materials. How may I obtain an additional copy of the proxy materials?

To reduce costs and reduce the environmental impact of our Annual Meeting, a single proxy statement and 2016 Annual Report to Stockholders, along with individual proxy cards or individual Notices, will be delivered in one envelope to certain stockholders having the same last name and address and to individuals with more than one account registered at our transfer agent with the same address, unless contrary instructions have been received from an affected stockholder, a practice commonly referred to as "householding." Stockholders participating in householding will continue to receive separate proxy cards. We will promptly deliver, upon written or oral request, individual copies of the proxy materials to any stockholder at the shared address to which single copies of those documents were delivered. If you are a stockholder of record and would like to enroll in this householding service or would like to receive individual copies of this year's and/or future proxy materials, please contact our General Counsel and Secretary by mail at One Allison Way, Indianapolis, Indiana 46222 or by phone at (317) 242-5000. If you are a beneficial owner, you may contact the broker or bank where you hold the account to enroll in this householding service or to receive individual copies of this year's and/or future proxy materials.

Could other matters be decided at the Annual Meeting?

As of the date of this proxy statement, our Board is not aware of any matters, other than those described in this proxy statement, which are to be voted on at the Annual Meeting. If any other matters are properly raised at the Annual Meeting, however, the persons named as proxy holders intend to vote the shares represented by your proxy in accordance with their judgment on such matters.

What is Allison's Internet address?

Our Internet address is <http://www.allisontransmission.com>. You can access this proxy statement, form of proxy card and our 2016 Annual Report to Stockholders at this Internet address. Allison's filings with the SEC are available free of charge via a link from this address or directly from the SEC's website at www.sec.gov. These website addresses are intended to be inactive textual references only.

Corporate Governance

Policies on Corporate Governance

Our Board believes that good corporate governance is important to ensure our business is managed for the long-term benefit of our stockholders. We have adopted a Code of Business Conduct that applies to all directors, officers and other employees. Our Board has adopted Corporate Governance Guidelines, which, in conjunction with our Second Amended and Restated Certificate of Incorporation, Fifth Amended and Restated Bylaws, or Bylaws, and Board committee charters, form the framework for our corporate governance. The current version of the Code of Business Conduct, our Board's Corporate Governance Guidelines and the charters for each of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are available in the Investor Relations section of our website, www.allisontransmission.com. We will post on the Investor Relations section of our website any amendment to, or waiver from, a provision of the Code of Business Conduct that applies to any of our directors or executive officers. Our Board regularly reviews corporate governance developments and modifies its Corporate Governance Guidelines, committee charters and key practices as warranted.

During 2016, as part of our continuing effort to enhance our corporate governance practices and strengthen the functioning of our Board and its ability to serve the long-term interests of stockholders, our Board adopted amendments to our Bylaws providing for majority voting for the election of directors in uncontested elections and providing proxy access to qualified stockholders. We also amended our Second Amended and Restated Certificate of Incorporation to declassify our Board and to provide for the annual election of all directors.

Board Leadership Structure

Since 2007, Lawrence E. Dewey has served as both Chairman of the Board and Chief Executive Officer. Our Board continues to believe that having Mr. Dewey fill these two leadership roles is an appropriate and efficient leadership structure. Combining the Chairman and Chief Executive Officer roles facilitates clear leadership responsibility and accountability, effective decision-making and a cohesive corporate strategy. Our Board has designated Thomas W. Rabaut as lead independent director to serve as chairman of executive sessions of the non-management directors. Our Board re-evaluates our leadership structure on an ongoing basis and may change it as circumstances warrant.

Board Role in Risk Oversight

While risk management is primarily the responsibility of our management, our Board provides overall risk oversight focusing on the most significant risks facing us. Our Board oversees the risk management processes that have been designed and are implemented by our executives to determine whether those processes are functioning as intended and are consistent with our business and strategy. Our Board executes its oversight responsibility for risk management directly and through its committees. Our Board's role in risk oversight has not affected its leadership structure.

The Audit Committee is specifically tasked with overseeing our compliance with legal, ethical and regulatory requirements, discussing our major financial risk exposures, including our risk assessment and risk management processes, with management and receiving information on material legal and regulatory affairs. Our Director, Internal Audit, who reports directly to the Audit Committee, coordinates our enterprise risk management process. The Audit Committee receives regular reports regarding our enterprise risk management process. The Compensation Committee is tasked with overseeing our compensation-related risk assessment. See "Executive Compensation—Compensation-Related Risk Assessment" below. Our Board's other committees oversee risks associated with their respective areas of responsibility.

The full Board considers specific risk topics, including risk-related issues pertaining to laws and regulations enforced by the United States and foreign government regulators and risks associated with our business plan and capital structure. In addition, our Board receives reports from members of our management that include discussions of the risks and exposures involved with their respective areas of responsibility. Further, our Board is routinely informed of developments that could affect our risk profile or other aspects of our business.

Director Independence

Our Board's Corporate Governance Guidelines, which are available on our website as described above, require that our Board be comprised of a majority of directors who qualify as independent directors under the listing standards of the New York Stock Exchange, or NYSE. Our Board has determined that each of our non-employee directors, Stan A. Askren, David F. Denison, David C. Everitt, Alvaro Garcia-Tunon, Richard P. Lavin, Thomas W. Rabaut, Francis Raborn, Richard V. Reynolds, Gregory P. Spivy and James A. Star, and our director nominee, William R. Harker, is independent under the listing standards of the NYSE. Our Board has determined that Lawrence E. Dewey, who is our employee, is not independent.

Majority Vote Standard for Election of Directors

Our Bylaws require directors to be elected by the majority of the votes cast with respect to that director in uncontested elections (the number of shares voted "for" a director must exceed the number of votes cast "against" that director). In a contested election (a situation in which the number of nominees exceeds the number of directors to be elected), the standard for election of directors will be a plurality of the shares represented in person or by proxy at any such meeting and entitled to vote on the election of directors. If a nominee who is serving as a director is not elected at the Annual Meeting, under Delaware law the director would continue to serve on the Board as a "holdover director." However, under our Bylaws, any director who fails to be elected must tender his resignation to the Board. The Nominating and Corporate Governance Committee would then make a recommendation to the Board whether to accept or reject the resignation, or whether other action should be taken. The Board will act on the Nominating and Corporate Governance Committee's recommendation and publicly disclose its decision and the rationale behind it within 90 days from the date the election results are certified. The director who tenders his resignation will not participate in the Board's decision. If a nominee who was not already serving as a director is not elected at the annual meeting, under Delaware law that nominee would not become a director and would not serve on the Board as a "holdover director."

Nominations for Directors

The Nominating and Corporate Governance Committee considers director nominees recommended by stockholders using the same criteria to evaluate candidates received from other sources. See "—Director Qualifications" below. A stockholder who wishes to recommend a director candidate for consideration by the Nominating and Corporate Governance Committee should send the recommendation to our General Counsel and Secretary at One Allison Way, Indianapolis, Indiana 46222, who will then forward it to the Nominating and Corporate Governance Committee. Any recommendation should include a description of the candidate's qualifications for board service, the candidate's written consent to be considered for nomination and to serve if nominated and elected, and addresses and telephone numbers for contacting the stockholder and the candidate for more information. A stockholder who wishes to nominate an individual as a candidate for election, rather than recommend the individual to the Nominating and Corporate Governance Committee as a nominee, must comply with the advance notice requirements or our proxy access requirements set forth in our Bylaws and provide the information required by our Bylaws regarding the nominee, the stockholder of record and the beneficial owner, if any. See "Stockholder Proposals at 2018 Annual Meeting" for more information on these procedures. From time to time we may employ a search firm to help identify qualified individuals for election to our Board. During 2015 and early 2016, the Nominating and Corporate Governance Committee engaged Spencer Stuart in this capacity.

Director Qualifications

In considering candidates for our Board, the Nominating and Corporate Governance Committee considers the entirety of each candidate's credentials and does not have any specific minimum qualifications that must be met by a committee-recommended nominee, but may consider the following criteria, among others: personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly-held company; experience in our industry and with relevant social policy concerns; experience as a board member of another publicly-held company; ownership of our stock; academic expertise in an area of our operations; and practical and mature business judgment, including the ability to make independent analytical inquiries. The Nominating and Corporate Governance Committee and our Board evaluate each individual in the context of our Board as a whole, with the objective of assembling a group that can best perpetuate the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas.

Table of Contents

Our Board does not have a specific policy regarding diversity of director candidates. However, as a matter of practice our Board recommends candidates based on the diversity of their business or professional experience, background, talents and perspectives. Our Board considers diversity in the context of the Board as a whole and takes into account the personal characteristics, including gender, ethnicity, age, and experience, including financial expertise, educational and professional background, of current and prospective directors. Our Board believes this process will best facilitate Board deliberations that reflect a broad range of perspectives and lead to a more effective decision-making process.

The following chart highlights each director's specific skills, knowledge and experience. A lack of a mark does not mean the director does not possess that qualification or skill; rather a mark indicates a specific area of focus or expertise on which our Board relies most heavily. Each director's and nominee's biography describes these qualifications and relevant experience in more detail.

Stockholder Communication with our Board

Our Board has implemented a process whereby our stockholders and all interested parties may send communications to our Board's attention. Any stockholder or interested party desiring to communicate with our Board, or one or more specified members thereof, should communicate (i) in writing addressed to Allison Transmission Holdings, Inc., Board of Directors, Attention: General Counsel and Secretary, One Allison Way, Indianapolis, Indiana 46222, (ii) via email at stockholders@allisontransmission.com or (iii) via telephone at +1.317.242.4425. Our Board has instructed our General Counsel and Secretary to promptly forward all such communications to the specified addressees thereof. With respect to correspondence received by the Company that is addressed to one or more directors, the Board has requested that the following items not be distributed to directors because they generally fall into the purview of management, rather than the Board: junk mail and mass mailings, service complaints and inquiries, resumés and other forms of job inquiries, solicitations for charitable donations, surveys, business solicitations, and advertisements.

Certain Relationships and Related Party Transactions

Our Board has adopted a written statement of policy for the evaluation of, and the approval, disapproval and monitoring of, transactions involving us and "related persons." For purposes of the policy, "related persons" includes our executive officers, directors and director nominees or their immediate family members, or stockholders owning five percent or more of our outstanding common stock and their immediate family members.

The policy covers any transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships, in which we were or are to be a participant, the amount involved exceeds \$120,000 and a related person had or will have a direct or indirect material interest. Pursuant to this policy, our management presents to our Nominating and Corporate Governance Committee each proposed related party transaction, including all relevant facts and circumstances relating thereto. Our Nominating and Corporate Governance Committee then:

- reviews the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party, if the transaction is in the best interests of the Company and the extent of the related party's interest in the transaction; and
- takes into account the conflicts of interest and corporate opportunity provisions of our Code of Business Conduct.

All related party transactions may only be consummated if our Nominating and Corporate Governance Committee has approved or ratified such transaction in accordance with the guidelines set forth in the policy. Certain types of transactions have been pre-approved by our Nominating and Corporate Governance Committee under the policy. These pre-approved transactions include:

- certain employment and compensation arrangements;
- transactions in the ordinary course of business where the related party's interest arises only from:
 - (i) his or her position as a director of another entity that is party to the transaction;
 - (ii) an equity interest of less than 10% in another entity that is party to the transaction; or
 - (iii) a limited partnership interest of less than 10%, subject to certain limitations;
- transactions in the ordinary course of business where the interest of the related party arises solely from the ownership of a class of equity securities in our company where all holders of such class of equity securities will receive the same benefit on a pro rata basis; and
- transactions determined by competitive bids.

No director may participate in the approval of a related party transaction for which he or she is a related party.

Sales to Customers Indirectly Owned by Director

During 2016, the Company had net sales of less than \$20 million to Gillig LLC, or Gillig, and less than \$5 million to General Dynamics Corporation, or GD. James A. Star, a member of our Board, has an indirect material interest in Gillig as a result of trusts for the benefit of his wife and children collectively owning an approximately 5% interest in the entities that directly and indirectly own Gillig. In addition, all of the remaining direct and indirect interests in Gillig are owned by trusts for the benefit of members of Mr. Star's wife's immediate and extended family. Mr. Star also has an indirect material interest in GD as a result of trusts for the benefit of his wife, children and members of his wife's immediate and extended family collectively owning approximately 10% of the outstanding shares of common stock of GD.

Meetings and Committees of our Board

Board Composition

Our Board currently consists of eleven members. Lawrence E. Dewey, our Chief Executive Officer, is Chairman of the Board. The exact number of members on our Board may be modified from time to time exclusively by resolution of our Board. Two of our current directors, David Denison and Gregory Spivy, are not seeking reelection at the Annual Meeting. Our Board has nominated William Harker to serve as a director to fill the vacancy created by Mr. Spivy's decision not to stand for reelection. The Board has decided to reduce the size of the Board from eleven to ten members effective as of the date of the Annual Meeting rather than fill the vacancy created by Mr. Denison's decision to not stand for reelection.

As approved by our stockholders at the 2016 annual meeting of stockholders, we amended our Second Amended and Restated Certificate of Incorporation in May 2016 to declassify our Board and to provide for annual election of all directors.

Board Meetings, Attendance and Executive Sessions

Our Board meets on a regularly scheduled basis during the year to review significant developments affecting us and to act on matters requiring Board approval. It also holds special meetings when an important matter requires Board action between scheduled meetings. Members of senior management regularly attend meetings of our Board and its committees to report on and discuss their areas of responsibility. Directors are expected to attend Board meetings, meetings of committees on which they serve and stockholder meetings. During 2016, our Board held eight meetings and committees of our Board held a total of 19 meetings. All directors attended 75% or more of the meetings of our Board and committees on which they served. All of our directors who were directors at the time of the 2016 annual meeting of stockholders attended that meeting.

Each regularly scheduled Board meeting normally concludes with a session between our Chairman and CEO and the independent directors. This provides a platform for discussions outside the presence of the non-Board management attendees, as well as an opportunity for the independent directors to go into executive session (without the CEO) if requested by any director. The independent directors may meet in executive session, without the Chairman and CEO, at any time, and are scheduled for such non-management executive sessions at each regularly scheduled Board meeting. As lead independent director, Mr. Rabaut presides at executive sessions.

Board Committees

Our Board directs the management of our business and affairs as provided by Delaware law and conducts its business through meetings of our Board and three standing committees: the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee. In addition, from time to time, other committees may be established under the direction of our Board when necessary to address specific issues. The table below shows the current membership of each Board committee and the number of meetings held during 2016:

The membership of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee is composed entirely of independent directors and meets the heightened standards of independence for audit committee and compensation committee members, respectively, required by SEC rules and NYSE listing standards.

The Audit Committee

The Audit Committee oversees our accounting and financial reporting processes and the audits of our consolidated financial statements provided by us to any governmental body or the public, and prepares the report of the Audit Committee included under "Report of the Audit Committee" in this Proxy Statement. The Audit Committee also assists our Board in discharging its oversight responsibilities regarding the integrity of our consolidated financial statements, our compliance with legal, ethical and regulatory requirements, the qualifications and independence of our independent registered public accounting firm and the performance of our internal audit function. The Audit Committee has sole authority to appoint, subject to stockholder ratification, or replace our independent registered public accounting firm and pre-approves the auditing services and permitted non-audit services to be performed by our independent registered public accounting firm, including the fees and terms thereof. The Audit Committee reviews and discusses with management and our independent registered public accounting firm our annual audited consolidated financial statements, our quarterly earnings releases and financial statements, and significant financial reporting issues and judgments made in connection with the preparation of our financial statements. The charter of the Audit Committee requires that each member meet the independence and experience requirements of the NYSE, the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the rules and regulations of the SEC.

Our Board has determined that Alvaro Garcia-Tunon qualifies as an "audit committee financial expert" as defined by SEC rules.

The Compensation Committee

The Compensation Committee (i) reviews, approves and/or oversees compensation provided to our executive officers, employees and directors and all agreements and arrangements with respect thereto, (ii) establishes our general compensation policies and (iii) reviews, approves and/or oversees the administration of our employee benefits plans and makes recommendations for stockholder approval of such plans, as applicable.

[Table of Contents](#)

The Compensation Committee may take into consideration the recommendations of our Chief Executive Officer with respect to the compensation of our other executive officers. The Compensation Committee also discusses with management the Compensation Discussion and Analysis, and, if appropriate, recommends its inclusion in our annual report on Form 10-K and proxy statement and issues the report on its activities which appears under “Executive Compensation—Compensation Discussion and Analysis—Compensation Committee Report” in this Proxy Statement. The charter of the Compensation Committee requires that each member meet the independence requirements of the NYSE and the rules and regulations of the SEC.

The Compensation Committee has authority to retain the advice and assistance of independent counsel, compensation consultants or other experts or consultants. For 2016, the Compensation Committee retained Semler Brossy Consulting Group, LLC, or Semler Brossy, as its compensation consultant. See “Executive Compensation—Compensation Discussion and Analysis—Compensation Overview—Role of Compensation Consultant” for a description of the services provided to the Compensation Committee by Semler Brossy.

The Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee assists our Board in discharging our Board’s responsibilities regarding identifying qualified candidates to become Board members, selecting nominees for election as directors at our annual meetings of stockholders, selecting candidates to fill any vacancies on our Board and overseeing the evaluation of our Board. See “Corporate Governance—Nominations for Directors” and “—Director Qualifications” above for additional information. The Nominating and Corporate Governance Committee has the authority to retain any independent counsel, experts or advisors. The charter of the Nominating and Corporate Governance Committee requires that all responsibilities of such committee required under NYSE rules to be performed by directors who satisfy the independence requirements of the NYSE be performed solely by the members of such committee who qualify as independent.

Compensation Committee Interlocks and Insider Participation

During fiscal year 2016, our Compensation Committee consisted of General Reynolds and Messrs. Everitt and Spivy through May 12, 2016 and General Reynolds and Messrs. Lavin, Spivy and Star after May 12, 2016. None of the members of our Compensation Committee during 2016 or as of the date of this proxy statement is or has been one of our officers or employees. During fiscal year 2016, none of our executive officers served as a member of the board of directors or compensation committee, or other committee serving an equivalent function, of any entity that has one or more executive officers who serve as members of our Board or our Compensation Committee. During 2016, the Company had sales to Gillig and GD, each of which may be deemed to be indirectly owned or controlled by Mr. Star as a result of the ownership interests in each of these companies held by trusts for the benefit of his wife, children and members of his wife’s immediately family. See “Certain Relationships and Related Party Transactions—Sales to Customers Indirectly Owned by Director” above for additional information.

A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Under these rules, more than one person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Our Board currently consists of eleven directors serving one year terms until the next annual meeting of stockholders and until the director's successor is elected and has qualified. Two of our current directors, Messrs. Denison and Spivy, are not standing for reelection. Our Board has decided to reduce the size of the Board from eleven to ten effective as of the date of the Annual Meeting. Based upon the recommendation of our Nominating and Corporate Governance Committee, our Board has nominated ten directors to be elected to our Board. Proxies cannot be voted for a greater number of persons than the ten director nominees.

Unless indicated otherwise, it is the intention of the persons named in the accompanying proxy card to vote such proxy for the election to our Board of Stan A. Askren, Lawrence E. Dewey, David C. Everitt, Alvaro Garcia-Tunon, William R. Harker, Richard P. Lavin, Thomas W. Rabaut, Francis Raborn, Richard V. Reynolds and James A. Star. Nine of the nominees for director currently serve on our Board and one nominee, Mr. Harker, is nominated to serve for the first time. Each of the nominees for director has consented to being named as a nominee in this proxy statement and has indicated a willingness to serve if elected. These approval decisions are presented to the full Audit Committee at the next scheduled meeting after such approvals are made.

	2016	2015
Audit Fees(1)	\$ 1,710,429	\$ 1,652,804

We expect that representatives of PwC will be present at the Annual Meeting, will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The Audit Committee of our Board has the sole authority to appoint, replace, compensate and oversee the independent auditor, and shall pre-approve the fees and other terms of all engagements for audit and non-audit services provided by the independent auditor. In 2016, all of the Company's audit fees paid to the independent auditor were pre-approved by the Audit Committee.

If the holders of a majority of the voting power of the shares entitled to vote on this proposal represented in person or by proxy do not approve the proposal, the Audit Committee will reconsider its choice, taking into consideration the views of the stockholders, and may, but will not be required to, appoint a different independent registered public accounting firm.

Our Board unanimously recommends that stockholders vote FOR the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2017.

Report of the Audit Committee

The Audit Committee is responsible for monitoring the integrity of the Company's consolidated financial statements, the qualifications, performance and independence of the independent registered public accounting firm, the performance of the Company's internal auditor and compliance with legal and regulatory requirements. The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm.

Management is responsible for the financial reporting process, including the system of internal control, for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States and for management's report on internal control over financial reporting. The independent registered public accounting firm is responsible for auditing the consolidated financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States, as well as auditing the effectiveness of the Company's internal control over financial reporting as of December 31, 2016. Our responsibility is to oversee and review the financial reporting process and to review and discuss management's report on internal control over financial reporting. We are not, however, professionally engaged in the practice of accounting or auditing and do not provide any expert or other special assurance as to such consolidated financial statements concerning compliance with laws, regulations or accounting principles generally accepted in the United States or as to the independence of the independent registered public accounting firm. We rely, without independent verification, on the information provided to us and on the representations made by management and the independent registered public accounting firm.

We held eight meetings during 2016. The meetings were designed, among other things, to facilitate and encourage communication among the committee, management, the internal auditor and the independent registered public accounting firm, PricewaterhouseCoopers LLP, or PwC.

We discussed with the internal auditor and PwC the overall scope and plans for their respective audits. We met with the internal auditor and PwC, with and without management present, to discuss the results of their examinations and their evaluations of the Company's internal control over financial reporting. We reviewed and discussed the Company's compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

We discussed with management the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures, including risk assessment and risk management processes.

We reviewed and discussed the audited consolidated financial statements for the year ended December 31, 2016 with management, the internal auditor and PwC and reviewed and discussed with management, the internal auditor and PwC management's report on internal control over financial reporting. We reviewed PwC's report on the Company's consolidated financial statements, which indicated that the consolidated financial statements present fairly, in all material respects, the Company's financial position and results of operations and cash flows in conformity with accounting principles generally accepted in the United States and PwC's audit of the effectiveness of the Company's internal control over financial reporting as of December 31, 2016. We also discussed with management, the internal auditor and PwC the process used to support certifications by the Company's Chief Executive Officer and Chief Financial Officer that are required by the Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002 to accompany the Company's periodic filings with the Securities and Exchange Commission and the process used to support management's report on internal control over financial reporting.

We also discussed with PwC all matters required to be discussed by their professional standards, including, among other things, matters related to the conduct of the audit of the Company's consolidated financial statements and the matters required to be discussed pursuant to applicable Public Company Accounting Oversight Board, or PCAOB, standards.

PwC provided us with the letter required by applicable PCAOB requirements and represented that PwC is independent from the Company. We discussed with PwC its independence from the Company. When considering PwC's independence, we considered if services they provided to the Company beyond those rendered in connection with their audit of the Company's consolidated financial statements, reviews of the Company's quarterly unaudited consolidated financial statements and review of the Company's internal control over financial reporting, were compatible with maintaining their independence. We concluded that the provision of such services by PwC has not jeopardized PwC's independence.

Based on our review and these meetings, discussions and reports, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to our Board, and our Board approved, that the Company's audited consolidated financial statements for the year ended December 31, 2016 be included in the Company's Annual Report on Form 10-K. We have also selected PwC as the Company's independent registered public accounting firm for the year ended December 31, 2017 and will present the selection to the stockholders for ratification at the Annual Meeting.

Executive Compensation

Compensation Discussion and Analysis

Executive Summary

This Compensation Discussion and Analysis provides an overview and analysis of (i) the elements comprising our compensation program for our named executive officers, which we refer to in this Compensation Discussion and Analysis as our NEOs; (ii) the material 2016 compensation decisions made under that program and reflected in the executive compensation tables that follow this Compensation Discussion and Analysis; and (iii) the material factors considered in making those decisions.

For the year ended December 31, 2016, our NEOs were:

- Lawrence E. Dewey, Chairman and Chief Executive Officer;
- David S. Graziosi, President, Chief Financial Officer, Treasurer and Assistant Secretary;
- John M. Coll, Senior Vice President, Global Marketing, Sales and Service;
- Michael A. Dick, Senior Vice President, Operations and Purchasing; and
- Randall R. Kirk, Senior Vice President, Product Engineering and Product Teams.

On January 1, 2016, Mr. Dick was promoted to the position of Senior Vice President, Operations and Purchasing. On October 7, 2016, Mr. Coll joined Allison as Senior Vice President, Global Marketing, Sales and Service. For a summary of the compensation paid to Mr. Coll in 2016, refer to the discussion below under the heading “—Coll Sign On Awards.”

We intend to provide our NEOs with compensation that is largely performance based. Our executive compensation program is designed to align executive pay with our performance on both short and long-term bases, link executive pay to specific, measurable results intended to create value for stockholders, and utilize compensation as a tool to assist us in attracting and retaining the high-caliber executives that we believe are critical to our long-term success.

Compensation Strategy and Context. We became publicly-traded through an initial public offering in March of 2012. Since that time, we continue to monitor public company pay practices to identify any large gaps to market while still retaining certain elements of our program that worked well as a private company (e.g., our annual incentive program). Our compensation strategy follows public company competitive market practices while driving towards maximizing stockholder value creation and focusing on strong long-term performance. We achieve this strategy through a combination of:

- Competitive base salaries;
- An annual incentive plan, which we refer to as IComp, focused on adjusted earnings before interest, taxes, depreciation and amortization margin, or Adjusted EBITDA margin, Gross Adjusted Free Cash Flow and Revenue; and
- Regular annual awards of equity, using stock options, time-based restricted stock units, or RSUs, and performance-based restricted stock units, or performance units, to align the interests of our executives with the interests of our stockholders.

The objective is to create competitive annual pay levels and to provide a balanced portfolio of cash and equity incentives designed to attract, retain and motivate key executives. The key components of this strategy are discussed in greater detail under “—2016 Compensation Decisions” below.

2016 Business Results and Implications for Compensation. We achieved solid financial results and executed several key strategic priorities in 2016. Highlights include:

Table of Contents

- Generating above target performance with respect to our Adjusted EBITDA margin, which was 35.01% for 2016.
- Delivering above maximum performance Gross Adjusted Free Cash Flow of \$530.3 million and returning value to stockholders by repurchasing approximately \$256.2 million of our common stock and paying \$100.6 million in cash dividends to stockholders in 2016.
- Achieving slightly below target Revenue of \$1,840.2 million (Target was \$1,841.0 million).
- Continued focus on debt management, represented by refinancing our term loan facility and revolving credit facility and making net principal payments of \$215.2 million on our outstanding debt.

As a result of these accomplishments, our 2016 performance was 114% of target for purposes of our IComp program. Adjusted EBITDA margin and Gross Adjusted Free Cash Flow are non-GAAP financial measures. For information about how we define these measures and where to find a reconciliation to the most comparable GAAP measures, refer to the discussion below under the heading “—2016 Compensation Decisions—Annual Performance-Based Compensation.”

Advisory Vote on Executive Compensation.

In 2013 our stockholders voted for future advisory votes on executive compensation to be held once every three years. We believe that this three-year cycle remains appropriate in that it better reflects the Company’s focus on linking executive compensation with long-term value creation for stockholders. Over 98% of the shares voted at our 2016 annual meeting of stockholders voted for our 2016 advisory vote on executive compensation, reflecting our stockholders’ strong support of our executive compensation program. We did not make any material changes to our executive compensation program as a result of this vote. We intend to conduct our next advisory vote on executive compensation and the frequency of advisory votes on executive compensation at our 2019 annual meeting of stockholders.

Corporate Governance Framework

We strive to maintain control and oversight of our executive compensation program through strong corporate governance. Specific examples of policies that we have adopted include:

- **Align pay for performance:** On average, approximately 78% of 2016 NEO total direct compensation, excluding Mr. Coll, calculated as base salary, annual incentive compensation at target-level achievement, and long-term incentive awards at target-level performance, is performance-based and is tied to financial performance and/or the performance of our stock price. Approximately 51% of 2016 NEO total direct compensation, excluding Mr. Coll, is equity-based, with vesting over three years.
- **Maintain executive stock ownership guidelines:** The Allison Transmission Executive Stock Ownership Policy requires certain key employees to own, within five years of becoming subject to the policy, an amount of our common stock equal to a multiple of their salary. The multiple for the Chief Executive Officer is 5.0x salary, for the other NEOs is 3.0x salary and for the remaining key employees is 1.5x salary. Executives not meeting their ownership guidelines will be required to hold 50% of all shares received upon exercise of stock options and any other vested shares received through equity incentive plans until the guideline levels of ownership are achieved. We believe that direct ownership of our stock provides our NEOs with a strong incentive to increase the value of the Company.
- **Prohibit tax gross-ups:** We provide no tax gross-ups on any benefits or perquisites, including after a change in control.
- **Prohibit hedging of our stock:** The Allison Insider Trading Policy prohibits our executive officers from hedging the economic risk of ownership of our common stock.
- **Prohibit option re-pricing:** Our equity plan does not allow for re-pricing of underwater stock options without stockholder approval.
- **Require double trigger for change in control benefits:** No severance payment or equity acceleration occurs solely as the result of a change in control event.

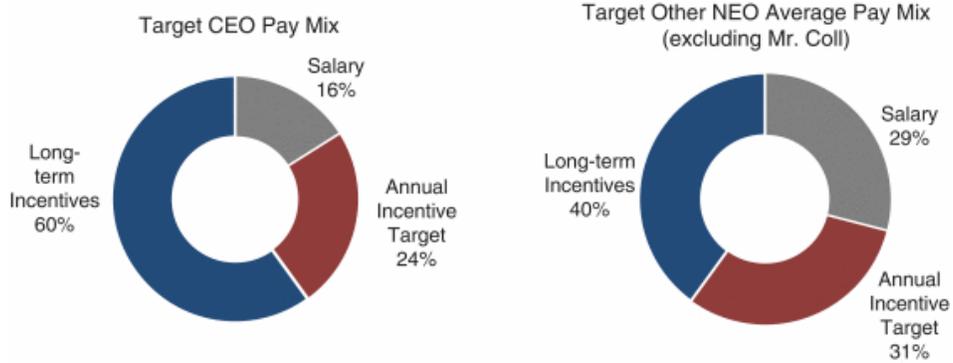

[Table of Contents](#)

- **Maintain an independent compensation committee:** All of the members of our Compensation Committee are independent as defined by NYSE listing standards and applicable SEC rules and regulations.
- **Retain an independent consultant:** The Compensation Committee engages a compensation consultant that does not provide other services to us.

Compensation Overview

Our overall compensation program is structured to attract, motivate and retain highly qualified executive officers by paying them competitively, with variable components to deliver pay results that are consistent with our success and their contribution to that success. We believe compensation should be structured to ensure that a significant portion of compensation opportunity is related to factors that directly and indirectly influence stockholder value. Accordingly, we set goals designed to link each NEO's compensation to our performance and the NEO's own performance.

We do not target a specific mix of compensation elements by executive, but our overall philosophy is to emphasize performance-based pay generally and long-term incentives, in particular. The following charts illustrate this emphasis for our CEO and other NEOs, except Mr. Coll, showing base salary, target annual cash incentive opportunity and target long-term incentive opportunity as a percentage of target total direct compensation for 2016:

[Table of Contents](#)

Compensation Elements. Compensation for our executive officers consists primarily of the elements, and their corresponding objectives, identified in the following table:

<u>Compensation Element</u>	<u>Primary Objective</u>
Base Salary	To recognize performance of job responsibilities and to attract and retain individuals with superior talent.
IComp (annual performance-based compensation)	To promote our near-term performance objectives across the entire workforce and reward individual contributions to the achievement of those objectives.
Long-term equity incentive awards	To emphasize our long-term performance objectives, align management's interests with those of our stockholders, encourage the maximization of stockholder value and retain key executives by providing an opportunity to participate in the ownership of the Company.
Severance and change in control benefits	To encourage the continued attention and dedication of certain key individuals when considering strategic alternatives.
Retirement savings (401(k)), pension and deferred compensation plans	To provide an opportunity for tax-efficient savings and long-term financial security.
Other elements of compensation and perquisites	To attract and retain talented executives in a cost-efficient manner by providing benefits with high perceived values at relatively low cost to us.

Our compensation decisions for the NEOs in 2016 are discussed below in relation to each of the above-described elements of our compensation program. The below discussion is intended to be read in conjunction with the executive compensation tables and related disclosures that follow this Compensation Discussion and Analysis.

Determination of Compensation Awards. The Compensation Committee is provided with the primary authority to establish and approve the compensation awards available to our executive officers and is charged with reviewing executive officer compensation policies and practices to ensure adherence to our compensation philosophies and that the total compensation paid to our executive officers is fair, reasonable and competitive. The Compensation Committee is primarily responsible for (i) establishing base salary and target bonus levels; (ii) assessing the performance of the Chief Executive Officer and other NEOs for each applicable performance period; (iii) approving the awards to be paid to our Chief Executive Officer and other NEOs under our annual IComp program for each year; and (iv) making equity award grants under our equity incentive compensation plan. To aid the Compensation Committee in making its determinations, the Chief Executive Officer provides recommendations to the Compensation Committee regarding the compensation of our other officers. The performance of our senior executive management team is reviewed by the Compensation Committee and the Compensation Committee approves each NEO's compensation at least annually.

In establishing and approving compensation levels for our NEOs, the Compensation Committee considers each NEO's unique position and responsibility and relies upon the judgment and experience of its members as well as the input of the Compensation Committee's independent compensation consultant, including information regarding market practices. We believe that executive officer total compensation should be competitive with the compensation of executive officers in similar positions and with similar responsibilities in our marketplace, as adjusted for financial and operating performance, each executive's level of experience, and each executive's current and expected future contributions to our results. In this regard, each executive officer's current and prior compensation is considered as a reference point against which determinations are made as to whether increases are appropriate to retain the NEO in light of competition or in order to incent performance.

Role of Compensation Consultant. The Compensation Committee retained Semler Brossy as its independent compensation consultant for 2016. During 2016, Semler Brossy assisted the Compensation Committee with the following compensation-related matters:

- Identifying a peer group of appropriately sized public companies for making market comparisons;
- Assessing executive pay levels and practices relative to market practices;
- Evaluating Board compensation relative to market practices;
- Reviewing pay recommendations for executive officers;
- Reviewing and providing guidance on performance measures and objectives established for determining performance-based compensation;
- Reviewing and providing guidance on performance measures and objectives established for determining performance-based compensation;
- Providing information on compensation methodologies and practices for new executive-level hires and succession planning purposes;
- Completing a review of compensation-related risks, focusing on compensation design; and
- Reviewing and providing input on the annual compensation discussion and analysis disclosures.

Semler Brossy does not provide other services to our management. The Compensation Committee has assessed Semler Brossy's independence and concluded that no conflict of interest exists that would prevent Semler Brossy from providing services to the Compensation Committee.

Use of Peer Group Data. The Compensation Committee reviews competitive pay practices in determining compensation for our executives including our NEOs; however, the Compensation Committee does not target a specific percentile of market in determining individual pay levels. Rather, in alignment with the considerations described above under "—Determination of Compensation Awards," the Compensation Committee determines the total amount of compensation for our NEOs, and the allocation of total compensation among each of our three main components of compensation, base salary, IComp and long-term equity incentives, in reliance upon the judgment and general knowledge of its members and the advice of the Compensation Committee's independent consultant to ensure we attract, develop and retain superior talent.

The Compensation Committee reviewed peer group data provided by Semler Brossy in 2016 for purposes of comparing our executive compensation programs and amounts to those of other publicly traded companies with size and financial characteristics similar to our own, or operating in similar industries. For pay decisions made for 2016, the peer group consisted of the following companies:

- | | |
|-----------------------------|-----------------------------------|
| • BorgWarner Inc. | • Lincoln Electric Holdings, Inc. |
| • Rexnord Corporation | • Wabtec Corporation |
| • Rockwell Automation, Inc. | • IDEX Corporation |
| • Joy Global Inc. | • Sensata Technologies Holding NV |
| • Flowserve Corporation | • Woodward, Inc. |
| • AMETEK, Inc. | • TransDigm Group Incorporated |
| • Roper Technologies, Inc. | • Nordson Corporation |
| • Crane Co. | • CLARCOR Inc. |
| • WABCO Holdings Inc. | • Gentex Corporation |
| • Donaldson Company, Inc. | • Graco Inc. |
| • ITT Inc. | |

Pall Corporation was included in the 2015 peer group and was removed from the peer group for 2016 because it is no longer a public company. ITT Inc. and Crane Co. were added to the 2016 peer group as replacements.

2016 Compensation Decisions

Base Compensation. We set base salaries for our NEOs generally at a level we deem necessary to attract and retain individuals with superior talent, while taking into account the total compensation package provided to each NEO. Each year we determine base salary adjustments based upon the scope of responsibility and demonstrated

[Table of Contents](#)

proficiency of the executive officers as assessed by the Compensation Committee, and for executive officers other than the Chief Executive Officer, in conjunction with recommendations made by the Chief Executive Officer. No formulaic base salary increases are provided to the NEOs. The Compensation Committee approved base salary increases for Messrs. Graziosi and Dick effective January 1, 2016. Base salaries for our NEOs in 2016 were as follows:

Name and Principal Position	2016 Base Salary (\$)	Percent Increase (%)
Lawrence E. Dewey Chairman and Chief Executive Officer	800,000	0%
David S. Graziosi President, Chief Financial Officer, Treasurer and Assistant Secretary	650,000	13%
John M. Coll Senior Vice President, Global Marketing, Sales and Service	375,000	N/A(1)
Michael A. Dick Senior Vice President, Operations and Purchasing	350,000	17%
Randall R. Kirk Senior Vice President, Product Engineering and Product Teams	375,000	0%

(1) Mr. Coll joined the Company in October 2016.

Mr. Graziosi's salary increase for 2016 reflects his promotion to the additional role of President, in addition to his position as Chief Financial Officer, Treasurer and Assistant Secretary, and his assumption of responsibility for oversight of our Operations and Purchasing, Quality and Reliability, Legal/Corporate Affairs and Communications and Internal Audit, Human Resources and Information Systems and Services operations. Mr. Dick's salary increase for 2016 reflects his promotion to Senior Vice President, Operations and Purchasing effective January 1, 2016.

Annual Performance-Based Compensation. Generally, all of our hourly and salaried employees, including our NEOs, are eligible for annual performance-based compensation under the Allison Transmission Holdings, Inc. 2016 Incentive Plan, or the Incentive Plan. We structure our compensation programs to reward employees based on our performance and the individual employee's relative contribution to that performance. This allows all employees to receive incentive bonus compensation under our Incentive Plan, which we refer to as IComp, in the event certain specified corporate performance measures are achieved. The annual IComp pool is approved by the Compensation Committee based upon the extent of achievement of corporate-level performance goals established annually by the Compensation Committee.

Payout Potential. Under the terms of the IComp program, the formulaic IComp awards are based upon a percentage of base salary, and target-level performance percentages have been set at or above what our Compensation Committee believes to be market levels, such that our total cash compensation is generally intended to be more performance-based than that of our peers. For our NEOs, this percentage ranged from 100% to 150% of salary for target-level achievement in 2016. As a result, at target performance levels, our NEOs will receive total direct cash compensation above median levels as compared to similar executives at our peer group companies, for what the Compensation Committee believes will be above median levels of performance. Maximum formulaic IComp awards are set at 250% of the target values based on our short-term performance and each NEO's contributions to that performance. None of our NEOs receives a guaranteed annual IComp award.

[Table of Contents](#)

The following chart sets forth the formulaic IComp awards for target-level achievement and the maximum formulaic IComp awards for our NEOs for 2016:

Name and Principal Position	Formulaic IComp at target-level performance (% of base salary)	Maximum formulaic IComp award (% of base salary)
Lawrence E. Dewey Chairman and Chief Executive Officer	150%	375%
David S. Graziosi President, Chief Financial Officer, Treasurer and Assistant Secretary	115%	287.5%
John M. Coll(1) Senior Vice President, Global Marketing, Sales and Service	100%	250%
Michael A. Dick Senior Vice President, Operations and Purchasing	100%	250%
Randall R. Kirk Senior Vice President, Product Engineering and Product Teams	100%	250%

(1) Mr. Coll joined the Company in October 2016 and was eligible to receive a prorated IComp award for three months of service. The amounts in this table represent target and maximum annual opportunities based on a full year of service.

Performance Measures. For the year ended December 31, 2016, the Compensation Committee approved several changes to the design of our IComp program in order to better align the program with our strategic focus over the next several years. For 2016 IComp, the Adjusted EBITDA and Quality metrics were replaced with Adjusted EBITDA margin and Revenue, while maintaining Gross Adjusted Free Cash Flow as an IComp metric. The Compensation Committee chose these metrics as they believe that the Adjusted EBITDA margin and cash flow metrics are important indicators of our long-term value creation for stockholders. Revenue metrics are included to incent employees to maintain focus on what is one of our strategic priorities. For this purpose, Adjusted EBITDA margin was defined as earnings before interest expense, income tax expense, amortization of intangible assets, depreciation of property, plant and equipment and other adjustments as defined by our senior secured credit facility divided by net sales, as reported in our Annual Report on Form 10-K for the year ended December 31, 2016, plus, if applicable, adjustments for non-operating activities and/or transactions, such as non-operating legal expenses and/or settlements and capital market transaction costs. No such adjustments were made to Adjusted EBITDA margin for purposes of 2016 IComp. For this purpose, Gross Adjusted Free Cash Flow was defined as net cash provided by operating activities, additions of long-lived assets, excess tax benefit from stock-based compensation and stockholder activism expenses, as reported in our Annual Report on Form 10-K for the year ended December 31, 2016, plus, if applicable, adjustments for certain transactions related to a change in our U.S. government price reduction reserve, capital expenditures timing decisions versus budget, capital markets transactions, and technology-related initiatives. No such adjustments were made to Adjusted Free Cash Flow for purposes of the Gross Adjusted Free Cash Flow metric for 2016 IComp. A reconciliation of Adjusted EBITDA margin and Adjusted Free Cash Flow to the most comparable GAAP measures can be found in our Annual Report on Form 10-K for the year ended December 31, 2016 as filed with the SEC on February 24, 2017.

The targets for 2016 IComp were approved by the Compensation Committee in February 2016. Once the extent of achievement of corporate IComp targets and the formulaic IComp calculations have been determined, the Compensation Committee may adjust the total funding amount of IComp awards upward or downward by a maximum of 25% of target IComp based upon its subjective assessment of our overall performance, taking into account the general industry and economic conditions in which we operate, and for IComp awards paid to our NEO group, each NEO's individual performance, business impact, contributions, leadership and attainment of individual objectives established periodically throughout the year, as well as other related factors. In addition, IComp funding amounts may be adjusted by the Compensation Committee to account for unusual events such as extraordinary transactions, asset dispositions and purchases, mergers and acquisitions, or other factors. The Compensation Committee made no adjustments to the total funding amount for IComp awards for 2016.

Table of Contents

The following chart sets forth the weighting of each performance metric, the threshold, target and maximum performance goals, and the actual performance achieved under our IComp program for the year ended December 31, 2016:

Performance Metric	Weighting (%)	Threshold (\$ in Millions)	Target (\$ in Millions)	Maximum (\$ in Millions)	Achieved (\$ in Millions)
Adjusted EBITDA margin	40%	32.0%	33.2-34.2%	35.7%	35.01%
Gross Adjusted Free Cash Flow	35%	\$400.0	\$435.0	\$475.0	\$530.3
Revenue	25%	\$1,801.0	\$1,841.0	\$1,891.0	\$1,840.2

Once the extent of achievement of IComp targets has been established, the total IComp funding pool is determined by increasing the formulaic IComp payout for each performance metric by 6% for each percentage point of performance that exceeds the target performance goals or decreasing by 5% for each percentage point of performance that falls below the target performance goals, multiplied by the weighting for each performance metric. Based on the foregoing levels of corporate achievement, the formulaic IComp payout was approximately 184% for 2016 performance.

In addition to the above performance metrics, for 2016, the Committee adopted and approved a minimum performance threshold for any IComp payout to preserve the tax deductibility under Section 162(m) of the Code on any earned incentives for covered executives. Specifically, for 2016, the IComp awards for the NEOs are funded at the maximum level if our Adjusted EBITDA margin was at least 25% and the Compensation Committee then uses negative discretion to adjust the payout level for each NEO based on the Company's performance relative to the 2016 IComp metrics and individual performance and contributions. If our Adjusted EBITDA margin is below 25%, no IComp would be awarded.

Applying the 2016 IComp metric performance, formulaic IComp award calculations for the NEOs for the year ended December 31, 2016 were as follows:

Name	Target Award as a % of Base Salary	% of Target Award	% of Base Salary
Lawrence E. Dewey	150%	184%	276%
David S. Graziosi	115%	184%	212%
John M. Coll	100%(1)	184%	184%
Michael A. Dick	100%	184%	184%
Randall R. Kirk	100%	184%	184%

(1) Mr. Coll joined the Company in October 2016 and was eligible to receive a prorated IComp award for three months of service. The target amount in this table represents Mr. Coll's annual opportunity based on a full year of service.

The Compensation Committee then further adjusted the formulaic payouts to certain of the NEOs based on the CEO's recommendations and the Compensation Committee's subjective assessment of the NEO's performance, business impact, contributions and leadership, as follows:

- Mr. Coll: prorated for three months of service during 2016 and increased to reflect his immediate impact on the marketing, sales and service organization;
- Mr. Dick: his oversight of strong operational performance; and
- Mr. Kirk: his taking on additional responsibilities with customers prior to our hiring a new Senior Vice President, Global Marketing, Sales and Service.

The actual IComp awards earned by the NEOs for 2016 are set forth below in our Summary Compensation Table for 2016 under the column entitled "Non-Equity Incentive Plan Compensation."

Long-Term Equity Incentive Awards. The Compensation Committee approves annual equity awards, which for 2016 were in the form of stock options, RSUs and performance units granted under the Allison Transmission Holdings, Inc. 2015 Equity Incentive Award Plan, or 2015 Plan, at its first regularly scheduled meeting of each year, which typically occurs in February. Specifically, the NEOs' annual equity awards are allocated as 1/3 of the value in stock options, 1/3 of the value in RSUs and 1/3 of the value in performance units. We grant stock options

Table of Contents

to our NEOs because these awards create value only to the extent our stock price appreciates over the stock price at the time of grant. RSUs were granted because these awards reward executives for stock price appreciation, while providing more stable value to enhance executive retention and limiting incentives for undue risk-taking. Both the 2016 stock option and RSU awards promote executive retention by cliff-vesting three years after the date of grant.

Performance units were granted because these awards are consistent with market best practices for executive pay and reward our executives appropriately for Company performance over the long-term on both an absolute and relative basis. For the 2016-2018 performance period, the Compensation Committee approved relative total shareholder return, or rTSR, as the metric for the performance units, with our rTSR compared to the same premier industrial peer group companies that are used to assess competitive pay, with the addition of Eaton Corporation plc, Cummins Inc. and Parker-Hannifin Corporation, which we believe remain relevant comparators from a performance perspective despite their larger size. The Compensation Committee set a performance target for rTSR at the 50th percentile of the TSRs of the peer group for the three-year period from January 1, 2016 to December 31, 2018. Possible payouts for the performance units range from: 0% if actual 2016-2018 rTSR is below the 25th percentile of the TSRs of the peer group, 50% if actual 2016-2018 rTSR is at the 25th percentile of the peer group and up to 200% if actual 2016-2018 rTSR is at or above the 75th percentile of the TSRs of the peer group. Performance units earned based on 2016-2018 performance will vest in 2019.

The number of stock options, RSUs and performance units granted was determined based on a target dollar value for each executive which was intended to provide a competitive total compensation opportunity relative to market practices, although no specific percentile of market was targeted and the actual value relative to market varies by individual position. Target values for each of our NEOs, except Mr. Coll, for 2016 were as follows:

Name	Target Value of Long-Term Equity Incentive Awards (\$)
Lawrence E. Dewey	3,000,000
David S. Graziosi	1,040,000
Michael A. Dick	420,000
Randall R. Kirk	450,000

The target value was then divided by a 60-day average share price to determine the number of shares to grant to our NEOs, with one-third allocated to stock options, one-third allocated to RSUs and one-third allocated to performance units for our NEOs. The number of shares allocated to stock options was then multiplied by two to reflect the lower value of a stock option as compared to an RSU. Our NEOs, except Mr. Coll, were granted the following awards on February 17, 2016:

Name	Stock Options (#)	RSUs (#)	Performance units (at Target) (#)
Lawrence E. Dewey	80,128	40,064	40,064
David S. Graziosi	27,778	13,889	13,889
Michael A. Dick	11,218	5,609	5,609
Randall R. Kirk	12,020	6,010	6,010

The values of the awards as reported in the Summary Compensation Table are computed in accordance with the Financial Accounting Standards Board's Accounting Standards Codification Topic 718, or ASC 718. As a result, the equity award values in the Summary Compensation Table differ from the target values described above and used to calibrate the number of shares granted.

Dewey and Graziosi Employment Agreement Retention Awards

In addition to the annual equity awards described above, the Compensation Committee also approved a package of cash and RSU awards for Messrs. Dewey and Graziosi in connection with their new employment agreements negotiated in 2016. The objective of these retention awards was to ensure a successful and smooth leadership transition as the CEO nears retirement, which the Compensation Committee believes is a critical period for the

[Table of Contents](#)

leadership team given the long-tenure of many executives, anticipated employee turn-over, and the executive succession planning needs of the organization. The specific terms of these awards were as follows:

- **Dewey Cash Retention Award:** For 2016, Mr. Dewey was awarded a \$500,000 cash retention award payable on January 15, 2017 for 2016 service, which payment was already contemplated as part of Mr. Dewey's prior employment agreement.
- **Graziosi Cash Retention Award:** For 2016 and 2017, Mr. Graziosi was awarded a cash retention award of \$425,000 payable on January 15, 2017 for 2016 service, which payment was already contemplated as part of Mr. Graziosi's prior employment agreement, and of \$500,000 payable on June 15, 2018 for service through May 31, 2018.
- **RSU Retention Award:** Messrs. Dewey and Graziosi were granted RSUs on December 21, 2016, the effective date of their respective employment agreements. Mr. Dewey received 25,000 RSUs vesting on May 31, 2018, subject to his continued employment with us. Mr. Graziosi was awarded 20,000 RSUs vesting on May 31, 2018, subject to his continued employment with us.

Coll Sign On Awards

Mr. Coll joined the Company in October 2016, and therefore only received a prorated portion of his annual base salary and was eligible to receive a prorated IComp payment for his three months of service during 2016. Mr. Coll did not participate in our 2016 long-term incentive program as he was not an employee of the Company at the time of grant. However, to incent Mr. Coll to join and be retained by the Company and link Mr. Coll's pay with stockholder performance, Mr. Coll received a sign on bonus of \$385,000 in cash payable on January 15, 2017, subject to clawback if Mr. Coll voluntarily terminates his employment, resigns for any reason or is separated from employment prior to July 1, 2019, and an award of 21,000 RSUs granted on October 13, 2016, which vest ratably on July 1, 2017, 2018 and 2019 subject to Mr. Coll's continued employment with us. When determining Mr. Coll's annual base salary, target and maximum IComp opportunity and target for future long-term incentive program awards, the Compensation Committee took into account the pay opportunities for our NEO group beyond the CEO and President as well as market data on the average 3rd through 5th highest paid executives from our peer group and industry survey data for top marketing and sales positions.

Defined Contribution Plans

We maintain a defined contribution plan that is tax-qualified under Section 401(k) of the Internal Revenue Code, or the Code, and that we refer to as the 401(k) Plan. The 401(k) Plan permits eligible salaried employees of the Company to defer receipt of portions of their eligible salaries, subject to certain limitations imposed by the Code, by making contributions to the 401(k) Plan.

We provide matching contributions to the 401(k) Plan in an amount equal to one hundred percent of each participant's contributions, up to a maximum of four percent of the participant's annual eligible salary and subject to certain other limits. We make additional contributions to the 401(k) Plan on behalf of certain groups of participants, depending on the date of their commencement of service with our predecessor and whether they are eligible to participate in our defined benefit plan as described below. These contributions are in amounts of either one percent and/or four percent of eligible salary, subject to certain other limits. All matching contributions fully vest after three years of service.

The 401(k) Plan is offered on a nondiscriminatory basis to all our salaried employees, including NEOs, who meet the eligibility requirements. The Compensation Committee believes that matching and other contributions assist us in attracting and retaining talented employees and executives. The 401(k) Plan provides an opportunity for participants to save money for retirement on a tax-qualified basis and to achieve financial security, thereby promoting retention.

Defined Benefit Plans

Annual retirement benefits under the Allison Transmission Retirement Program for Salaried Employees accrue at a rate of 1.25% of base wages each year for certain groups of participants, depending on the date of their commencement of service with our predecessor. The full retirement benefit is generally payable to participants who retire on or after attaining age 62 with 10 years of service, and a reduced early retirement benefit is generally available to participants who retire on or after age 55 with 10 years of service or who retire at any age with 30 years of service. No offsets are made for the value of any social security benefits earned.

[Table of Contents](#)

Similar to the 401(k) Plan, this defined benefit plan is a nondiscriminatory tax-qualified retirement plan that provides eligible participants with an opportunity to earn retirement benefits and provides for financial security. Generally, eligible participants are those employees who commenced service with our predecessor on or before January 1, 2007. Employees commencing service after January 1, 2007 are not eligible to participate in this plan. Offering these benefits is an additional means for us to retain well-qualified executives. Each of Messrs. Dewey, Dick and Kirk participate in our defined benefit plan. For additional information on the accrued pension benefits for the NEOs in 2016, see the "Pension Benefits for 2016" table below.

Deferred Compensation Plan

We maintain the Allison Transmission, Inc. Deferred Compensation Plan, or the Deferred Compensation Plan, a non-qualified deferred compensation plan that permits a select group of our management, including the NEOs, and other key employees to defer up to 50% of their compensation. We provide matching contributions to the Deferred Compensation Plan in an amount equal to 4% of the participant's deferral election that is in excess of the qualified 401(k) Plan limits. A participant's deferrals are 100% fully vested and the matching contributions are fully vested after three years of credited service. Upon death or disability of the participant or a change in control affecting us, a participant's account becomes 100% vested.

Employment and Severance Arrangements

The Compensation Committee considers the employment and retention of a highly capable and effective management team to be essential to protecting and enhancing the interests of the Company and our stockholders. To that end, we recognize that the uncertainty that may exist among management with respect to their "at-will" employment with us may result in the departure or distraction of management personnel to our detriment. Accordingly, the Compensation Committee has determined that severance arrangements are appropriate to encourage the continued attention and dedication of certain members of our management and to allow them to focus on the value to stockholders of strategic alternatives without concern for the impact on their continued employment. Each of Messrs. Dewey and Graziosi entered into a new employment agreement in December 2016, which provides for severance benefits upon termination of employment. In addition, we entered into a change in control severance agreement, or CiC Agreement, with Mr. Kirk in February 2014, Mr. Dick in February 2016 and Mr. Coll in October 2016.

Mr. Dewey's employment agreement, dated as of December 21, 2016, has a term ending on May 31, 2018, at which time he intends to retire. The employment agreement entitles Mr. Dewey to an annual base salary and annual performance-based bonus award and participation in our long-term incentive program and employee benefit programs as may be available to other senior officers from time to time. Mr. Dewey's employment agreement prohibits him from competing with certain of our businesses during his employment and for 24 months following termination, or from soliciting our employees, customers or suppliers to terminate their employment or arrangements with us during his employment and for 18 months following termination.

Mr. Graziosi's employment agreement, dated as of December 21, 2016, has an initial term ending on May 31, 2018 and is extended automatically for successive one-year periods thereafter unless either party delivers notice within specified notice periods to terminate the agreement. The employment agreement entitles Mr. Graziosi to an annual base salary and annual performance-based bonus award and participation in our long-term incentive program and employee benefit programs as may be available to other senior officers from time to time. Mr. Graziosi's employment agreement prohibits him from competing with certain of our businesses during his employment and for 24 months following termination, or from soliciting our employees, customers or suppliers to terminate their employment or arrangements with us during his employment and for 18 months following termination.

For information on the potential payments Messrs. Dewey and Graziosi would have received under their employment agreements had their employment been terminated by us without cause, by the executive for good reason, due to non-extension of the employment term, due to the executive's death or disability or due to the executive's retirement, in each case, on December 31, 2016, see "Potential Payments upon Termination or Change-in-Control" below.

The CiC Agreements are intended to ensure our management's interests align with the best interests of our stockholders in the event of a transaction that would constitute a change in control, and also to maintain continuity of management in the context of a transaction in which we undergo a change in control (as defined in the CiC

[Table of Contents](#)

Agreement). Payments under these agreements are “double triggered,” which means that payment of severance to the executive is only paid if (i) we have experienced a change in control within two years of the executive’s termination, and (ii) the executive’s employment is terminated without cause or the executive resigns with good reason. The severance paid under the agreements will be in an amount equal to two times the sum of (1) annual base salary plus (2) target bonus amount. In addition, all unvested equity or equity-based awards will fully vest upon a qualifying termination.

For each of the NEOs, “Cause” and “Good Reason” are defined in the applicable employment agreement or CiC Agreements. For more information on the potential payments Messrs. Coll, Dick and Kirk would have received under their CiC Agreements had their employment been terminated without Cause or for Good Reason following a change in control on December 31, 2016, see “Potential Payments upon Termination or Change-in-Control” below.

Other Elements of Compensation and Perquisites

We provide our executive officers, including our NEOs, with certain personal benefits and perquisites, which we do not consider to be a significant component of executive compensation but which we recognize are an important factor in attracting and retaining talented executives. Executive officers are eligible under the same plans as all other employees for medical, dental, vision and short-term disability insurance, and may participate to the same extent as all other employees in our tuition reimbursement program. We provide higher levels of long-term disability and life insurance coverages to our executive officers than is generally available to our non-executive employees. We also provide our executive officers with the personal use of our fleet automobiles and, for certain executives (generally executives who commenced service with our predecessor prior to our separation from General Motors), an automobile allowance. We provide these supplemental benefits to our executive officers due to the relatively low cost of such benefits and the value they provide in assisting us in attracting and retaining talented executives. The value of personal benefits and perquisites we provide to each of our NEOs is set forth below in our Summary Compensation Table.

Tax Considerations

Deductibility of Executive Compensation. Section 162(m) of the Code may limit the amount that we may deduct from our federal income taxes for compensation paid to our chief executive officer and our three most highly compensated NEOs (other than our chief financial officer) to one million dollars per executive officer per year, unless certain requirements are met. Section 162(m) provides an exception from this deduction limit for certain forms of performance-based compensation. While our Compensation Committee is mindful of the benefit to us of the full deductibility of compensation, the Compensation Committee believes that we should not be constrained by the requirements of the Section 162(m) exception when those requirements would impair our flexibility in compensating our executive officers in a manner that can best promote our corporate objectives. Therefore, the Compensation Committee has not adopted a policy that would require that all executive compensation be deductible. Our Compensation Committee reserves the right to use its judgment to authorize compensation payments that may be subject to the Section 162(m) limitations when it believes these payments are appropriate and in the best interests of the Company and our stockholders.

Taxation of Parachute Payments and Deferred Compensation. We do not provide and have no obligation to provide any NEO with a “gross-up” or other reimbursement payment for any tax liability that he or she might owe as a result of the application of Section 280G, 4999, or 409A of the Code. Sections 280G and 4999 of the Code provide that executive officers and directors who hold significant equity interests and certain other service providers may be subject to an excise tax if they receive payments or benefits in connection with a change in control that exceed certain limits prescribed by the Code, and that the employer may forfeit a deduction on the amounts subject to this additional tax. Section 409A of the Code also may impose significant taxes on a service provider in the event that he or she receives deferred compensation that does not comply with the requirements of Code Section 409A. We have structured our compensation arrangements with the intention of complying with or otherwise being exempt from the requirements of Code Section 409A.

(1) Amounts shown represent the aggregate grant date fair value, computed in accordance with ASC 718, of all awards of stock granted to the NEO in the year indicated. For a discussion of the assumptions made in the valuation of the awards, see NOTE 14 to our consolidated financial statements included in our annual report on Form 10-K for the years ended December 31, 2016, December 31, 2015 and December 31, 2014.

For 2016, amounts shown include RSUs and performance units granted on February 17, 2016 to Messrs. Dewey, Graziosi, Dick and Kirk, RSUs granted to Mr. Coll on October 13, 2016 and RSUs granted to Messrs. Dewey and Graziosi on December 21, 2016. To determine the grant date fair value of the RSUs, we used the closing market price of a share of our common stock as reported by the NYSE on the date of grant as follows: \$23.59 on February 17, 2016, \$27.77 on October 13, 2016 and \$34.20 on December 21, 2016.

Table of Contents

Performance unit amounts represent the value at the grant date based upon the probable outcome of the performance conditions, which was the target level of performance. The following table presents the grant date fair value of the performance units included in the "Stock Awards" column and the grant date fair value of these awards assuming that the highest level of performance conditions would be achieved:

Name	Grant Date Fair Value (Based on Probable Outcome (\$))	Grant Date Fair Value (Based on Maximum Performance (\$))
Mr. Dewey	1,030,847	2,061,694
Mr. Graziosi	357,364	714,728
Mr. Dick	144,320	288,640
Mr. Kirk	154,637	309,274

The amounts ultimately realized by the NEOs from the stock awards will depend on the price of our common stock in the future.

Narrative Discussion

Non-Equity Incentive Plan Awards. The non-equity incentive plan awards were granted under the Incentive Plan and represent the IComp opportunity for 2016. Amounts actually paid for 2016 performance are shown in the Summary Compensation Table in the column titled “Non-Equity Incentive Plan Compensation.” Material terms of the IComp awards, including a discussion of the applicable performance measures and target, maximum and actual performance for 2016, are described above under “Compensation Discussion and Analysis—2016 Compensation Decisions—Annual Performance-Based Compensation.”

Equity Incentive Plan Awards. The equity incentive plan awards were granted under the 2015 Plan and represent performance unit awards. The grant date fair value of these performance units was \$25.73 per share underlying the unit, as determined using a Monte Carlo simulation pricing model. Material terms of the performance units, including a discussion of the applicable performance measures and target performance for the three-year performance period ending December 31, 2018, are described above under “Compensation Discussion and Analysis—2016 Compensation Decisions—Long-Term Equity Incentive Awards.”

RSUs. The RSUs were granted under the 2015 Plan. The grant date fair value of the RSUs granted on February 17, 2016, October 13, 2016 and December 21, 2016 were \$23.59 per share, \$27.77 per share and \$34.20 per share, respectively, which were the closing prices of a share of our common stock on the dates of grant as reported by the NYSE. The RSUs granted on February 17, 2016 vest on the third anniversary of the date of grant, contingent on continued employment through the vesting date. Material terms of the RSUs are described above under “Compensation Discussion and Analysis—2016 Compensation Decisions—Long-Term Equity Incentive Awards.” The RSUs granted to Mr. Coll on October 13, 2016 in connection with his hiring vest ratably on July 1, 2017, 2018 and 2019, contingent on continued employment through the vesting dates. Material terms of these RSUs are described above under “Compensation Discussion and Analysis—Coll Sign On Awards.” The RSUs granted to Messrs. Dewey and Graziosi on December 21, 2016 pursuant to their new employment agreements vest on May 31, 2018, contingent on continued employment through the vesting date. Material terms of these RSUs are described above under “Compensation Discussion and Analysis—Dewey and Graziosi Employment Agreement Retention Awards.” Each RSU accrues dividend equivalents for all ordinary cash dividends that are paid to all or substantially all holders of the outstanding shares of our common stock between the grant date and the vesting date. All dividend equivalents are deemed to be reinvested in additional RSUs as of the dividend payment date based on the closing price of a share of our common stock on such date and are subject to the same vesting provisions that apply to the underlying RSU.

Option Awards. The option awards were granted on February 17, 2016 under the 2015 Plan and represent nonqualified stock options. The grant date fair value of these awards was \$5.28 per share underlying the options, as determined using a Black-Scholes option pricing model. The stock options become exercisable on the third anniversary of the grant date, contingent on continued employment through the vesting date, and expire ten years from the date of grant. The stock options have an exercise price of \$23.59 per share, which was the closing price of a share of our common stock on the date of grant as reported by the NYSE. Other material terms of our option awards are described above under “Compensation Discussion and Analysis—2016 Compensation Decisions—Long-Term Equity Incentive Awards.”

Director Compensation Policy

Under our Second Amended and Restated Non-Employee Director Compensation Policy, or the Director Compensation Policy, each non-employee director receives:

- an annual retainer for: (i) Board service, (ii) service as the chair of our Audit, Compensation and Nominating and Corporate Governance Committees, and (iii) service as a member of our Audit, Compensation and Nominating and Corporate Governance Committees; and
- an annual equity award.

For their service as members of our Board, all non-employee directors received an annual retainer of \$75,000 payable quarterly in arrears, at the director's election, either 100% in fully vested common stock granted under the 2015 Plan (valued based on the closing price of a share of our common stock on the NYSE on the date of grant), 100% in cash or 50% in fully vested common stock (valued as described above) and 50% in cash. For service as a member of the Compensation or Nominating and Corporate Governance Committees, each committee member received an annual cash retainer of \$5,000. The annual cash retainer for service on our Audit Committee and for service as the chair of our Compensation or Nominating and Corporate Governance Committees is \$10,000. The annual cash retainer for service as the chair of our Audit Committee is \$20,000. Each non-employee director will also receive an annual equity award of \$100,000 payable 100% in RSUs granted under the 2015 Plan (with the number of shares underlying the RSUs based on the closing price of our common stock on the NYSE on the date of grant). The Lead Director will receive a \$25,000 annual cash retainer.

[Table of Contents](#)

In May 2016, the Compensation Committee granted an additional award of \$50,000, payable in fully-vested shares of Allison common stock, to Mr. Rabaut, the Lead Director, in recognition of the Lead Director's increased responsibilities and time commitment with respect to stockholder engagement activities in the first half of 2016.

Director Deferred Compensation Plan

We maintain the Director Deferred Compensation Plan, a non-qualified deferred compensation plan that permits each member of our Board who is eligible to receive compensation under the Director Compensation Policy to receive deferred stock units under the Director Compensation Policy. Deferred stock units received pursuant to a director's deferrals are subject to vesting and forfeiture as provided in the Director Compensation Policy. Each deferred stock unit represents the right to receive one share of our common stock, or an equivalent amount of cash.
