BEIJING, November 7, 2017 – Autohome Inc. (NYSE: ATHM) (“Autohome” or the “Company”), the leading online destination for automobile consumers in China, today announced its unaudited financial results for the third quarter ended September 30, 2017.

Third Quarter 2017 Financial Highlights¹

- **Net Revenues** increased 5.0% year-over-year to RMB1,548.4 million (\$232.7 million), exceeding the high end of the Company’s original guidance of RMB1,520 million (\$228.5 million).
- **Media services and leads generation services** revenues increased 38.7% year-over-year to RMB1,498.3 million (\$225.2 million).
- **Net Income attributable to Autohome Inc.** increased 63.3% year-over-year to RMB426.1 million (\$64.0 million).
- **Net Cash Provided by Operating Activities** was RMB548.3 million (\$82.4 million), an increase of 41.7% year-over-year.

Third Quarter 2017 Operational Highlights

- **Continued Focus on Mobile Traffic:** During the third quarter of 2017, the number of average daily unique visitors who accessed the Company’s primary “Autohome” application increased by 28% compared with the third quarter of 2016, further enhancing the Company’s dominant position among auto vertical applications in China.
- **Nationwide Expansion of Used Car Platform on Track:** The Company’s pilot Used Car Platform has expanded to 85 cities in China and now covers approximately 5,300 dealers. This one-stop total solution for used car dealers offers many innovative services, including reliable used car sourcing, inventory management, customer relations management (“CRM”), online marketing and channel management, as well as a wider array of financing options that enable used car dealers to strengthen leads generation, increase sales and improve inventory turnover.

Mr. Min Lu, Chairman and Chief Executive Officer of Autohome, stated, “Our strong execution on all of our strategic initiatives during the quarter resulted in revenue growing 38.7% year-over-year for the media and leads generation services combined. Going forward, we remain committed to strengthening our competitive advantage in the core media and leads generation business as we increasingly benefit from our two newest initiatives in data solutions and auto-financing. Our core media and leads generation business continues to drive our robust performance, and we target to focus on growing these two businesses by further optimizing the user experience, enhancing user engagement, expanding the target audience, increasing mobile traffic to Autohome branded apps and websites, streamlining auto searches, leveraging our newly upgraded Dealer Cloud Platform to strengthen the vehicle selection and purchase process, as well as growing leads volumes and conversion rates.”

¹ The reporting currency of the Company is Renminbi (“RMB”). For the convenience of the reader, certain amounts throughout the release are presented in US dollars (“\$”). Unless otherwise noted, all conversions from RMB to US\$ are translated at the noon buying rate of US\$1.00 to RMB6.6533 on September 29, 2017 in the City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at such rate.

“In addition to our core business, big data is one of our key competitive advantages which we are leveraging. We have launched our data product suites earlier this month, and we expect the advanced data will reinforce our entire ecosystem by providing highly differentiated value to our clients. Our auto-financing initiative continues to progress well with an expanding variety of products covering loans, leases and insurances services for consumers and dealers. We expect auto-financing to better facilitate transactions for clients on our online marketplace. We will continue to develop synergies between our core media and leads generation business and our new data and auto-financing initiatives to realize the enormous growth potential our platform.” concluded Mr. Min Lu.

Mr. Jun Zou, Chief Financial Officer of Autohome, added, “As we enter the second half of the year, we continue to exceed our growth and margin expectations as net income increased 63.3% year-over-year. By maintaining discipline in our execution, enhancing consumer engagement and strengthening our financial position, I am confident in our ability to achieve our targets by the end of the year. This means that we are on the right path to achieve our strategic vision of building a reliable, consumer-driven platform with valuable data, content and high quality leads. While we are generating significant cash flow, we will continue to invest in innovative technology and digital marketing that enable our auto partners to improve leads conversion, enhance management of listings and advertising, and close automobile-related sales more efficiently. Given our strong cash position and ability to generate positive cash flow, our board of directors has approved a special cash dividend of approximately \$90.2 million in the aggregate or \$0.76 per ADS/ordinary share.”

Unaudited Third Quarter 2017 Financial Results

Net Revenues

Net revenues increased 5.0% to RMB1,548.4 million (\$232.7 million) from RMB1,474.9 million in the corresponding period of 2016. The increase was mainly due to a 38.7% increase in revenues from media and leads generation services.

- **Media services** revenues increased 38.1% to RMB797.5 million (\$119.9 million) from RMB577.2 million in the corresponding period of 2016. The increase was mainly due to an increase in average revenue per automaker advertiser as automakers continue to allocate a greater portion of their advertising budgets to the Company's online advertising and marketing channels, with increasingly diversified and optimized products being offered.
- **Leads generation services** revenues increased 39.3% to RMB700.8 million (\$105.3 million) from RMB503.3 million in the corresponding period of 2016. The increase was primarily attributable to a 20.2% year-over-year increase in average revenue per paying dealer as dealers continue to allocate a greater portion of their budgets to the Company's services, as well as an expanded dealer client base.
- **Online marketplace** revenues were RMB50.1 million (\$7.5 million) compared to RMB394.4 million in the corresponding period of 2016. Online marketplace revenues during the third quarter of 2017 primarily consisted of revenues from platform-based services offered on Autohome Mall and the Company's auto-financing business. This was the result of implementing the Company's strategy to de-emphasize direct vehicle sales and focus on facilitating transactions.

Cost of Revenues

Cost of revenues decreased 48.0% to RMB304.0 million (\$45.7 million) from RMB585.1 million in the corresponding period of 2016, primarily due to decrease in cost of goods sold related to direct vehicle sales. In addition, cost of revenues included share-based compensation expenses of RMB3.9 million (\$0.6 million) during the third quarter of 2017, compared to RMB3.5 million for the corresponding period of 2016.

Operating Expenses

Operating expenses increased 20.5% to RMB717.2 million (\$107.8 million) from RMB595.3 million in the corresponding period of 2016. This increase was mainly due to increases in product development expenses and sales and marketing expenses as the Company continues to reinvest in future growth opportunities.

- **Sales and marketing** expenses increased 10.0% to RMB422.3 million (\$63.5 million) from RMB383.8 million in the corresponding period of 2016. This increase was primarily due to increased offline execution and promotional expenses. Sales and marketing expenses for the third quarter of 2017 included share-based compensation expenses of RMB11.6 million (\$1.7 million), compared with RMB14.1 million in the corresponding period of 2016.
- **General and administrative** expenses increased 39.9% to RMB87.4 million (\$13.1 million) from RMB62.5 million in the corresponding period of 2016, primarily attributable to an increase in salaries and benefits. General and administrative expenses for the third quarter of 2017 included share-based compensation expenses of RMB25.1 million (\$3.8 million).
- **Product development** expenses increased 39.3% to RMB207.5 million (\$31.2 million) from RMB148.9 million in the corresponding period of 2016. This increase was primarily attributable to an increase in salaries and benefits associated with growth in product development headcount, which is in line with the Company's strategy of strengthening its technology and big data analysis capabilities. Product development expenses for the third quarter of 2017 included share-based compensation expenses of RMB8.0 million (\$1.2 million), compared with RMB12.9 million in the corresponding period of 2016.

Operating Profit

Operating profit increased 79.0% to RMB527.2 million (\$79.2 million) from RMB294.5 million in the corresponding period of 2016.

Income tax expense

Income tax expense increased 152.0% to RMB166.0 million (\$24.9 million), compared to income tax expense of RMB65.9 million in the corresponding period of 2016. The increase was primarily due to an increase in taxable income and withholding tax liability associated with special cash dividend.

Net Income attributable to Autohome Inc. and EPS

Net income attributable to Autohome Inc. increased 63.3% to RMB426.1 million (\$64.0 million) from RMB260.9 million in the corresponding period of 2016. To supplement net income presented in accordance with U.S. GAAP, we use Adjusted Net Income attributable to Autohome Inc., Non-GAAP basic and diluted EPS and Adjusted EBITDA as non-GAAP financial measures. We define Adjusted Net Income attributable to Autohome Inc. as net income attributable to Autohome Inc. excluding share-based compensation expenses and amortization expenses of intangible assets related to acquisitions.
