CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus, any related free writing prospectus and the documents incorporated by reference herein and therein may include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Statements containing words such as “expects,” “plans,” “strategy,” “projects,” “believes,” “opportunity,” “should,” “anticipates,” “desires” and similar expressions are intended to highlight or indicate forward-looking statements. These forward-looking statements reflect our best judgment based on current information and, although we base these statements on circumstances that we believe to be reasonable when made, there can be no assurance that future events will not affect the accuracy of such forward-looking information. As such, the forward-looking statements are not guarantees of future performance, and actual results may vary materially from the projected results and expectations discussed. Factors that might cause our actual results to differ materially from those anticipated in forward-looking statements include, but are not limited to: (i) competitive pressure on sales and pricing, including pressure from imports and substitute materials; (ii) U.S. and foreign trade policies affecting steel imports or exports; (iii) the sensitivity of the results of our operations to prevailing steel prices and changes in the supply and cost of raw materials, including pig iron, iron ore and scrap steel; (iv) availability and cost of electricity and natural gas which could negatively affect our cost of steel production or could result in a delay or cancelation of existing or future drilling within our natural gas drilling programs; (v) critical equipment failures and business interruptions; (vi) market demand for steel products, which, in the case of many of our products, is driven by the level of nonresidential construction activity in the United States; (vii) impairment in the recorded value of inventory, equity investments, fixed assets, goodwill or other long-lived assets; (viii) uncertainties surrounding the global economy, including excess world capacity for steel production; (ix) fluctuations in currency conversion rates; (x) significant changes in laws or government regulations affecting environmental compliance, including legislation and regulations that result in greater regulation of greenhouse gas emissions that could increase our energy costs and our capital expenditures and operating costs or cause one or more of our permits to be revoked or make it more difficult to obtain permit modifications; (xi) the cyclical nature of the steel industry; (xii) capital investments and their impact on our performance; and (xiii) our safety performance. Additional information regarding the risks and uncertainties which may affect our business operations and financial performance can be found in our filings with the Securities and Exchange Commission (the “SEC”).

The forward-looking statements contained in this prospectus supplement, the accompanying prospectus, any related free writing prospectus and the documents incorporated by reference herein and therein are expressly qualified in their entirety by the foregoing cautionary statements. The foregoing list of important factors that may affect future results is not exhaustive. When relying on forward-looking statements to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. All such forward-looking statements are based upon data available as of the date of this prospectus supplement or other specified date and speak only as of such date. Except as may be required by applicable law, we expressly disclaim any obligation to update or revise any forward-looking statement, whether as a result of new information, change in circumstances, future events or otherwise.

You should carefully read this prospectus supplement, the accompanying prospectus, any related free writing prospectus and the documents incorporated by reference herein and therein in their entirety. They contain information that you should consider when making your investment decision.

RISK FACTORS

An investment in the Notes is subject to certain risks. This prospectus supplement does not describe all of the risks of an investment in the Notes. Before purchasing any Notes, you should carefully read this prospectus supplement, the accompanying prospectus, any related free writing prospectus and the documents incorporated by reference herein and therein, including “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017, as well as those risk factors included below that are related to this offering. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also adversely affect our business and operations. If any of the matters described in the risk factors were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially adversely affected. In such case, you could lose all or a portion of your investment.

The Notes will be structurally subordinated to all obligations of our subsidiaries.

The Notes will not be guaranteed by our subsidiaries, and therefore they will be structurally subordinated to all existing and future indebtedness and liabilities of our subsidiaries. As of December 31, 2017, our subsidiaries had \$52.8 million aggregate principal amount of indebtedness, consisting of trade credit financing arrangements. Except as described under “Description of Notes—Covenants Applicable to the Notes,” the indenture pursuant to which the Notes will be issued does not limit any of our subsidiaries from incurring more indebtedness or issuing more securities and does not contain financial or similar restrictions on any of our subsidiaries. Our rights and the rights of our creditors, including holders of the Notes, to participate in any distribution of assets of any of our subsidiaries, upon the subsidiary’s liquidation or reorganization or otherwise, will be structurally subordinated to the claims of the subsidiary’s creditors, except to the extent that we or any of our creditors may be a creditor of that subsidiary. In the event of a bankruptcy, liquidation or dissolution of a subsidiary, following payment by the subsidiary of its liabilities, the subsidiary may not have sufficient assets to make payments to us.

Active trading markets for the Notes may not develop or be sustained.

Each series of the Notes is a new issue of securities with no established trading market. We do not intend to apply for the listing of either series of the Notes on any securities exchange or for quotation of such Notes on any automated dealer quotation system. Although the underwriters have advised us that they presently intend to make a market in the Notes of each series after completion of the offering, they have no obligation to do so, and such market-making activities may be discontinued at any time without notice. We cannot assure the liquidity of the trading markets for the Notes or that active public trading markets for the Notes will develop or be sustained. If active public trading markets for the Notes are not developed or sustained, the market prices and liquidity of the Notes may be adversely affected.

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$ _____, after deducting our estimated offering expenses and the underwriting discount. We plan to use the net proceeds from the sale of the Notes for (i) the repayment of \$500 million aggregate principal amount at maturity of our unsecured 5.850% notes due June 1, 2018 and (ii) other general corporate purposes, which may include, but are not limited to, working capital, capital expenditures, advances for or investments in our subsidiaries, acquisitions, redemption and repayment of outstanding indebtedness, and purchases of our common stock.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

The following table presents results of operations and balance sheet data for and as of the end of our last five years. The selected consolidated financial data for each of the three years ended December 31, 2017 and as of December 31, 2017 and 2016 have been derived from our audited consolidated financial statements incorporated by reference into this prospectus supplement. The selected consolidated financial data for the year ended December 31, 2014 and as of December 31, 2015 have been derived from our audited consolidated financial statements not incorporated by reference into this prospectus supplement. The selected consolidated financial data for the year ended December 31, 2013 and as of December 31, 2014 and 2013 have been derived from our unaudited consolidated financial statements not incorporated by reference into this prospectus supplement. In 2016, we (i) changed our accounting method for valuing our inventories held by Nucor Corporation and Nucor-Yamato Steel Company (Limited Partnership) to the first-in, first out (FIFO) method from the last in, first out (LIFO) method and (ii) adopted new accounting guidance that requires debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, and retrospectively adjusted prior periods to apply these changes; however, our consolidated financial statements for the years ended December 31, 2014 and 2013 were not reaudited following such adjustments. The unaudited financial information, in the opinion of management, has been prepared on a basis consistent with the audited consolidated financial statements and contains all adjustments necessary for a fair presentation of the information for the periods presented. You should read the information set forth below in conjunction with our consolidated financial statements and related notes and other financial information incorporated by reference into this prospectus supplement and the accompanying prospectus. See “Information Incorporated by Reference.”

General

The Notes will be issued under an indenture, dated as of August 19, 2014, between us and U.S. Bank National Association, as trustee, as supplemented by a supplemental indenture, to be dated as of April , 2018, between us and the trustee (together, the “Indenture”).

The Indenture does not limit the aggregate principal amount of debt securities (referred to as the “debt securities”) which may be issued thereunder.

The 20 Notes will mature on , 20 and the 20 Notes will mature on , 20 , unless earlier redeemed at the applicable redemption prices.

The original principal amount of the 20 Notes will be \$ and the original principal amount of the 20 Notes will be \$.

Each series of the Notes will be issued in fully registered book-entry form and in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

After issuance of the Notes, we may reopen and issue additional notes from the same series of Notes by board resolution without your consent and without notifying you. Any such additional notes will have the same ranking, interest rate, maturity date, redemption rights and other terms as the series of Notes (except the public offering price, date of issuance and, if applicable, the initial interest payment date) offered pursuant to this prospectus supplement. Any such additional notes, together with the same series of Notes offered by this prospectus supplement, will be consolidated with and constitute a single series of debt securities under the Indenture.

The Notes will not have the benefit of a sinking fund.

The covenants in the Indenture may not protect you from a decline in our credit quality due to highly leveraged or other transactions in which we may engage.

Interest

The 20 Notes will bear interest at the rate of % per year from, and including, , 2018, payable semi-annually in arrears on and of each year, commencing , 2018, to the persons in whose names the Notes were registered at the close of business on the immediately preceding and , respectively (whether or not a business day). Interest on the 20 Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

If any interest payment date, stated maturity date or earlier redemption date falls on a Saturday, a Sunday or a day on which banking institutions are authorized by law to close, then the required payment of principal of and premium, if any, and interest may be made on the next succeeding day not a Saturday, a Sunday or a day on which banking institutions are authorized by law to close, as if it were made on the date payment was due, and no interest will accrue on the amount so payable for the period from and after that interest payment date, stated maturity date or earlier redemption date, as the case may be.

Ranking

The Notes will be our senior unsecured obligations and will rank equally with our existing and future unsecured senior indebtedness. The Notes will be effectively subordinated to our existing and future secured indebtedness to the extent of the assets securing such indebtedness and structurally subordinated to all existing and future indebtedness and liabilities of our subsidiaries. After giving effect to the offering, as of December 31, 2017, we would have had approximately \$ of total consolidated indebtedness and a percentage of indebtedness to total capital (which includes our long-term indebtedness, Nucor stockholders' equity and noncontrolling interests) of approximately %. That amount includes approximately \$500 million aggregate principal amount of our unsecured 5.850% notes due 2018 (which mature on June 1, 2018), \$600 million aggregate principal amount of our unsecured 4.125% notes due 2022, \$500 million aggregate principal amount of our unsecured 4.000% notes due 2023, \$650 million aggregate principal amount of our unsecured 6.400% notes due 2037, \$500 million aggregate principal amount of our unsecured 5.200% notes due 2043 and \$1,010.6 million aggregate principal amount of secured indebtedness under our industrial revenue bonds.

Except as described under “—Covenants Applicable to the Notes,” the Indenture does not limit us or any of our Subsidiaries (as defined below) from incurring more indebtedness or issuing more securities and does not contain financial or similar restrictions on us or any of our Subsidiaries. Our rights and the rights of our creditors, including holders of the Notes, to participate in any distribution of assets of any of our Subsidiaries, upon the Subsidiary's liquidation or reorganization or otherwise, will be structurally subordinated to the claims of the Subsidiary's creditors, except to the extent that we or any of our creditors may be a creditor of that Subsidiary. As of December 31, 2017, our Subsidiaries had \$52.8 million aggregate principal amount of indebtedness, consisting of trade credit financing arrangements.

“Subsidiary” means an entity more than 50% of the outstanding voting interest of which is owned, directly or indirectly, by the Company or by one or more other Subsidiaries, or by the Company and one or more other Subsidiaries. For the purposes of this definition, “voting interest” in an entity means any equity interest which ordinarily has voting power for the election of directors or their equivalent.

Optional Redemption

At any time prior to , 20 with respect to the 20 Notes (months prior to the maturity date of the 20 Notes) and , 20 with respect to the 20 Notes (months prior to the maturity date of the 20 Notes), the Notes will be redeemable, in whole or in part, at any time or from time to time, at our option, at a redemption price equal to the greater of:

- 100% of the principal amount of the Notes to be redeemed; or
- the sum of the present values of the Remaining Scheduled Payments (as defined below) on such Notes being redeemed that would be due if the Notes to be redeemed matured on the applicable Par Call Date

[Table of Contents](#)

(as defined below), discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate (as defined below) (determined on the third business day preceding the redemption date),

plus, in each case, accrued and unpaid interest thereon, to, but excluding, the redemption date.

On or after _____, 20____ with respect to the 20____ Notes (____ months prior to the maturity date of the 20____ Notes) and _____, 20____ with respect to the 20____ Notes (____ months prior to the maturity date of the 20____ Notes), the Notes will be redeemable, in whole or in part, at any time or from time to time, at our option, at 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest thereon, to, but excluding, the redemption date.

Notwithstanding the foregoing, installments of interest on the Notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date.

“Adjusted Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue (as defined below), assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price (as defined below) for that redemption date, plus ____% (with respect to the 20____ Notes) or ____% (with respect to the 20____ Notes).

“Comparable Treasury Issue” means the U.S. Treasury security selected by our choice of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated or Wells Fargo Securities, LLC, and its successors, or, if such firm is unwilling or unable to select the applicable Comparable Treasury Issue, another Reference Treasury Dealer (as defined below), as having a maturity comparable to the remaining term of the Notes of that series to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes of that series (assuming for this purpose that such series of Notes matured on the applicable Par Call Date).

“Comparable Treasury Price” means, with respect to any redemption date, the average of the Reference Treasury Dealer Quotations (as defined below) for such redemption date.

“Par Call Date” means _____, 20____ with respect to the 20____ Notes (the date that is ____ months prior to the maturity date of the 20____ Notes) and _____, 20____ with respect to the 20____ Notes (the date that is ____ months prior to the maturity date of the 20____ Notes).

“Reference Treasury Dealer” means each of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC, and their respective successors (each, a “Primary Treasury Dealer”); provided, however, that if any of the foregoing shall cease to be a Primary Treasury Dealer or is no longer quoting prices for U.S. Treasury securities, we will substitute therefor another Primary Treasury Dealer.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the Comparable Treasury Issue (expressed, in each case, as a percentage of its principal amount) quoted in writing to the Company by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

“Remaining Scheduled Payments” means, with respect to each Note to be redeemed, the remaining scheduled payments of the principal thereof and interest thereon that would be due after the related redemption date but for such redemption; provided, however, that, if such redemption date is not an interest payment date with respect to such Note, the amount of the next succeeding scheduled interest payment thereon will be deemed to be reduced by the amount of interest accrued thereon to such redemption date.

[Table of Contents](#)

Notice of any redemption will be delivered at least 15 days but no more than 60 days before the redemption date to each registered holder of the Notes to be redeemed. The notice of redemption for the Notes will state, among other things, the amount of Notes to be redeemed, the redemption date, the redemption price and the place or places that payment will be made upon presentation and surrender of Notes to be redeemed. If less than all of the Notes of a series are to be redeemed, the Notes of that series to be redeemed shall be selected in accordance with the procedures of The Depository Trust Company (“DTC”). Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the Notes or portions thereof called for redemption.

Change of Control Offer to Purchase

If a Change of Control Triggering Event (as defined below) occurs, holders of the Notes may require us to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of their Notes at a purchase price of 101% of the principal amount, plus accrued and unpaid interest, if any, on such Notes, to, but excluding, the purchase date (unless a notice of redemption has been delivered within 30 days after such Change of Control Triggering Event stating that all of the Notes will be redeemed as described under “—Optional Redemption”). We will be required to deliver to holders of the Notes a notice describing the transaction or transactions constituting the Change of Control Triggering Event and offering to repurchase the Notes. The notice must be delivered within 30 days after any Change of Control Triggering Event, and the repurchase must occur no earlier than 30 days and no later than 60 days after the date the notice is delivered.

On the date specified for repurchase of the Notes, we will, to the extent lawful:

- accept for purchase all properly tendered Notes or portions of Notes;
- deposit with the paying agent the required payment for all properly tendered Notes or portions of Notes; and
- deliver to the trustee the repurchased Notes, accompanied by an officer’s certificate stating, among other things, the aggregate principal amount of repurchased Notes.

We will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations applicable to the repurchase of the Notes. To the extent that these requirements conflict with the provisions requiring repurchase of the Notes, we will comply with such requirements instead of the repurchase provisions and will not be considered to have breached our obligations with respect to repurchasing the Notes. Additionally, if an event of default exists under the Indenture (which is unrelated to the repurchase provisions of the Notes), including events of default arising with respect to other issues of debt securities, we will not be required to repurchase the Notes notwithstanding these repurchase provisions.

We will not be required to comply with the obligations relating to repurchasing the Notes if a third party instead satisfies them.

For purposes of the repurchase provisions of the Notes, the following terms will be applicable:

“Change of Control” means the occurrence of any of the following: (i) the consummation of any transaction (including, without limitation, any merger or consolidation) resulting in any “person” (as that term is used in Section 13(d)(3) of the Exchange Act) (other than us or one of our Subsidiaries) becoming the “beneficial owner” (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our Voting Stock (as defined below) or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than the number of shares; (ii) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in a transaction or a series of related transactions, of all or substantially all of our assets and the assets of our Subsidiaries, taken as a whole, to one or more “persons” (as that term is used in Section 13(d)(3) of the Exchange Act) (other than us or

[Table of Contents](#)

one of our Subsidiaries); or (iii) the first day on which a majority of the members of our board of directors are not Continuing Directors (as defined below). Notwithstanding the foregoing, a transaction will not be considered to be a Change of Control if (i) we become a direct or indirect wholly owned Subsidiary of a holding company and (ii)(1) immediately following that transaction, the direct or indirect holders of the Voting Stock of such holding company are substantially the same as the holders of our Voting Stock immediately prior to that transaction or (2) immediately following that transaction, no person is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company.

“Change of Control Triggering Event” means the occurrence of both a Change of Control and a Rating Event (as defined below).

“Continuing Director” means, as of any date of determination, any member of our board of directors who (i) was a member of the board of directors on the date the Notes were issued or (ii) was nominated for election, elected or appointed to the board of directors by or with the approval (given either before or after such member’s nomination, election or appointment) of a majority of the Continuing Directors who were members of the board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

“Investment Grade Rating” means a rating equal to or higher than Baa3 (or the equivalent) by Moody’s (as defined below) and BBB– (or the equivalent) by S&P (as defined below), and the equivalent investment grade credit rating from any replacement Rating Agency or Rating Agencies (as defined below) selected by us.

“Moody’s” means Moody’s Investors Service, Inc.

“Rating Agencies” means (i) each of Moody’s and S&P and (ii) if either Moody’s or S&P ceases to rate the Notes or fails to make a rating of the Notes publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” (as defined in Section 3(a)(62) of the Exchange Act) selected by us as a replacement Rating Agency for a former Rating Agency.

“Rating Event” means the rating on the Notes is lowered by each of the Rating Agencies and the Notes are rated below an Investment Grade Rating by each of the Rating Agencies on any day within the 60-day period (which 60-day period will be extended so long as the rating of the Notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies) after the earlier of (i) the occurrence of a Change of Control and (ii) public notice of the occurrence of a Change of Control or our intention to effect a Change of Control.

“S&P” means S&P Global Ratings, a division of S&P Global Inc.

“Voting Stock” means, with respect to any specified “person” (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

Covenants Applicable to the Notes

The Notes will have the benefit of the following covenants. We have defined below certain capitalized terms used in this section. Capitalized terms used in this section but not otherwise defined in this prospectus supplement shall have the meanings ascribed to such terms in the Indenture.

Restriction on Secured Indebtedness

The Indenture provides that as long as we have any Notes outstanding under the Indenture we will not, and we will not permit any Restricted Subsidiary (as defined below) to, create, assume, issue, guarantee or incur any

[Table of Contents](#)

Secured Indebtedness (as defined below), unless immediately thereafter the aggregate amount of all Secured Indebtedness (exclusive of certain types of permitted Secured Indebtedness described below), together with the discounted present value of all rentals (not otherwise excluded from the limitation discussed below under “—Restriction on Sales and Leasebacks”) due in respect of Sale and Leaseback Transactions (as defined below), would not exceed 10% of Consolidated Net Tangible Assets (as defined below). For purposes of the calculation, the discounted present value of all rentals does not include rentals to which the covenant discussed below under “—Restriction on Sales and Leasebacks” does not apply.

This restriction does not apply to the following Secured Indebtedness, which we exclude in computing Secured Indebtedness for the purpose of the restriction:

- Liens (as defined below) on property as to which such series of Notes are equally and ratably secured with (or, at our option, prior to) such Secured Indebtedness;
- Liens on property, including any Shares (as defined below) or Indebtedness (as defined below), of any entity existing at the time such entity becomes a Restricted Subsidiary or arising thereafter pursuant to contractual commitments entered into prior to and not in contemplation of such entity becoming a Restricted Subsidiary;
- Liens on property, including any Shares or Indebtedness, existing at the time of acquisition of such property by us or a Restricted Subsidiary, or Liens to secure the payment of all or any part of the purchase price of such property created upon the acquisition of such property by us or a Restricted Subsidiary, or Liens to secure any Secured Indebtedness incurred by us or a Restricted Subsidiary prior to, at the time of or within one year after the later of the acquisition, the completion of construction (including any improvements, alterations or repairs to existing property) or the commencement of commercial operation of the project of which such property is a part, which Secured Indebtedness is incurred for the purpose of, and the principal amount secured by any such Lien does not exceed the cost of, financing all or any part of the purchase price thereof or construction or improvements, alterations or repairs thereon;
- Liens securing Secured Indebtedness of any Restricted Subsidiary owing to us or to another Restricted Subsidiary;
- Liens on property of an entity existing at the time such entity is merged or consolidated with us or a Restricted Subsidiary or at the time of a sale, lease or other disposition of the properties of an entity as an entirety or substantially as an entirety to us or a Restricted Subsidiary or arising thereafter pursuant to contractual commitments entered into by such entity prior to and not in contemplation of such merger, consolidation, sale, lease or other disposition;
- Liens on our property or the property of a Restricted Subsidiary in favor of governmental authorities, or any trustee or mortgagee acting on behalf, or for the benefit, of any governmental authorities, to secure partial, progress, advance or other payments pursuant to any contract or statute or to secure any Indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of construction of the property subject to such Liens (including, without limitation, Liens in connection with pollution control, industrial revenue, private activity or similar financing), and any other Liens incurred or assumed in connection with pollution control, industrial revenue, private activity or similar bonds issued by a governmental authority on behalf of us or a Restricted Subsidiary;
- Liens existing on the first date on which a Note is authenticated by the Trustee under the Indenture;
- Liens on any property which is not a Principal Property (as defined below); and
- Any extension, renewal or replacement (or successive extensions, renewals or replacements) in whole or in part of the foregoing, provided that the principal amount of the Secured Indebtedness being extended, renewed or replaced shall not be increased.

[Table of Contents](#)

Restriction on Sales and Leasebacks

The Indenture provides that we will not, and we will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction, unless:

- after giving effect to the transaction, the aggregate amount of all Attributable Debt (as defined below) with respect to all such transactions plus all Secured Indebtedness outstanding to which the restriction described above under “—Restriction on Secured Indebtedness” is applicable, would not exceed 10% of Consolidated Net Tangible Assets; or
- an amount equal to the greater of the amount of the net proceeds to us or such Restricted Subsidiary or the fair market value of such property as determined by our Board of Directors is applied to retirement of Funded Debt (as defined below) within one year after the consummation of such transaction.

This restriction will not apply to, and there will be excluded in computing Attributable Debt for the purpose of this restriction or the restriction discussed above under “—Restriction on Secured Indebtedness,” Attributable Debt with respect to any Sale and Leaseback Transaction if:

- such Sale and Leaseback Transaction is entered into in connection with pollution control, industrial revenue, private activity or similar financing;
- if we or a Restricted Subsidiary applies an amount equal to the net proceeds (after repayment of any Secured Indebtedness secured by a Lien encumbering such Principal Property which Secured Indebtedness existed immediately before such Sale and Leaseback Transaction) of the sale or transfer of the Principal Property leased pursuant to such Sale and Leaseback Transaction to investment (whether for acquisition, improvement, repair, alteration or construction costs) in another Principal Property within one year prior or subsequent to such sale or transfer; or
- such Sale and Leaseback Transaction was entered into by an entity prior to the time (i) that such entity became a Restricted Subsidiary, (ii) that such entity merged or consolidated with us or a Restricted Subsidiary or (iii) of a sale, lease or other disposition of such entity’s properties as an entirety or substantially as an entirety to us or a Restricted Subsidiary, or, in each case, arises thereafter pursuant to contractual commitments entered into by such entity prior to and not in contemplation of such entity becoming a Restricted Subsidiary or such merger, consolidation, sale, lease or other such disposition.

Consolidation, Merger and Sale of Assets

Without the consent of the holders of any outstanding Notes, we may consolidate with or merge into any other corporation, or convey or transfer our properties and assets substantially as an entirety to any Person, as long as:

- the successor is a corporation organized and existing under the laws of the United States of America or any State or the District of Columbia;
- the successor corporation assumes our obligations on the Notes and under the Indenture;
- immediately after giving effect to such transaction, no event of default, and no event which, after notice, lapse of time or both, would become an event of default, has occurred and is continuing; and
- other conditions described in the Indenture are met.

Accordingly, the holders of the Notes may not have protection in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction involving us that may adversely affect the holders. The existing protective covenants applicable to the Notes would continue to apply to us in the event of a leveraged buyout initiated or supported by us, our management or any of our affiliates or their management, but may not prevent such a transaction from taking place.

[Table of Contents](#)

For purposes of the above covenants, the following terms will be applicable:

“Attributable Debt” means the present value (discounted in accordance with a method of discounting which for financial reporting purposes is consistent with generally accepted accounting principles but at a discount rate of not less than 10% per annum, compounded annually) of the rental payments during the remaining term of any Sale and Leaseback Transaction for which the lessee is obligated (including any period for which such lease has been extended). Such rental payments shall not include amounts payable by the lessee for maintenance and repairs, insurance, taxes, assessments, water rates and similar charges and for contingent rents (such as those based on sales). In case of any Sale and Leaseback Transaction which is terminable by the lessee upon the payment of a penalty, such rental payments shall also include such penalty, but no rent shall be considered as required to be paid under such lease subsequent to the first date upon which it may be so terminated.

“Consolidated Net Tangible Assets” means the aggregate amount of assets after deducting therefrom (i) all current liabilities and (ii) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense and other like intangibles, all as set forth in our most recent consolidated balance sheet.

“Funded Debt” means (i) all indebtedness for money borrowed having a maturity of more than 12 months from the date as of which the amount thereof is to be determined or having a maturity of less than 12 months from such date but by its terms being renewable or extendible beyond 12 months from such date at the option of the borrower and (ii) any indebtedness for borrowed money which may be payable from the proceeds under or pursuant to an agreement to provide borrowings with a maturity of more than 12 months from the date as of which the amount thereof is to be determined.

“Indebtedness” means, as to any corporation or other Person, all indebtedness for money borrowed which is created, assumed, incurred or guaranteed in any manner by such corporation or other Person or for which such corporation or other Person is otherwise responsible or liable.

“Lien” means any mortgage, pledge, security interest, lien or other similar encumbrance.

“Principal Property” means (i) any Manufacturing Plant (as defined below) located in the United States, or Manufacturing Equipment (as defined below) located in any such Manufacturing Plant (together with the land on which such plant is erected and fixtures comprising a part thereof), owned or leased on the first date on which a Note is authenticated by the Trustee or thereafter acquired or leased by us or any Restricted Subsidiary, and (ii) any Shares issued by, or any interest of ours or any Subsidiary in, any Restricted Subsidiary, other than (1) any property or Shares or interests the book value of which is less than 1% of Consolidated Net Tangible Assets or (2) any property or Shares or interests which our board of directors determines is not of material importance to the total business conducted, or assets owned, by us and our Subsidiaries, as an entirety, or (3) any portion of any property which our board of directors determines not to be of material importance to the use or operation of such property. “Manufacturing Plant” does not include any plant owned or leased jointly or in common with one or more Persons other than us and our Restricted Subsidiaries in which the aggregate direct or indirect interest of ours and our Restricted Subsidiaries does not exceed 50%. “Manufacturing Equipment” means manufacturing equipment in such Manufacturing Plants used directly in the production of our or any Restricted Subsidiary’s products and does not include office equipment, computer equipment, rolling stock and other equipment not directly used in the production of our or any Restricted Subsidiary’s products.

“Restricted Subsidiary” means any Subsidiary substantially all the property of which is located within the United States, other than a Subsidiary primarily engaged in investing in and/or financing our or any Subsidiary’s or affiliate’s operations outside the United States.

“Sale and Leaseback Transaction” means any arrangement with any Person providing for the leasing by us or any Restricted Subsidiary of any Principal Property of ours or any Restricted Subsidiary, whether such Principal Property is now owned or hereafter acquired (except for leases for a term of not more than three years

[Table of Contents](#)

and except for leases between us and a Restricted Subsidiary or between Restricted Subsidiaries and except for leases of property executed prior to, at the time of or within one year after the later of, the acquisition, the completion of construction, including any improvements or alterations on real property, or the commencement of commercial operation of such property), which Principal Property has been or is to be sold or transferred by us or such Restricted Subsidiary to such Person.

“Secured Indebtedness” means Indebtedness secured by any Lien upon property (including Shares or Indebtedness issued by or other ownership interests in any Restricted Subsidiary) owned by us or any Restricted Subsidiary.

“Shares” means as to any corporation all the issued and outstanding equity shares (except for directors’ qualifying shares) of such corporation.

Events of Default

The following are “events of default” with respect to the Notes:

- default in the payment of any interest installment with respect to the Notes, as and when the same shall become due and payable, and continuance of such default for a period of 15 days after receipt by us of written notice of the default from any holder of the Notes or the trustee;
- default in the payment of the principal of, or premium, if any, on, the Notes, as and when the same shall become due and payable either at maturity, upon redemption, by declaration or otherwise;
- default in the making of any payment for a sinking, purchase or analogous fund provided for in respect of the Notes, as and when the same shall become due and payable;
- failure by us to observe or perform any other covenant or agreement in respect of the Notes, or in the Indenture with respect to the Notes, for a period of 90 days after the trustee gives us written notice, or holders of at least 25% in aggregate principal amount of the outstanding Notes give us and the trustee written notice of default; and
- certain events of bankruptcy, insolvency and reorganization as more fully described in the Indenture.

The trustee shall not be deemed to have knowledge or notice of any event of default unless (i) a responsible officer of the trustee has actual knowledge thereof or shall have received written notice of such or (ii) the holders of at least 25% in aggregate principal amount of the outstanding Notes of any series as to which there exists an event of default give written notice of such event of default to the trustee.

Book-Entry System

The certificates representing the Notes of each series will be issued in the form of one or more fully registered global notes (each, a “Global Note”) and will be deposited with, or on behalf of, DTC and registered in the name of Cede & Co., as the nominee of DTC. Except in limited circumstances, the Notes will not be issuable in definitive form. Unless and until they are exchanged, in whole or in part, for the individual Notes represented thereby, any interests in a Global Note may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any nominee of DTC to a successor depository or any nominee of such successor. See “Description of Our Debt Securities—Global Securities” in the accompanying prospectus.

DTC has advised us that DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts, thereby eliminating the

[Table of Contents](#)

need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly. The DTC rules applicable to Direct Participants are on file with the SEC.

Holding through Euroclear and Clearstream

Investors may hold interests in a Global Note through Euroclear Bank S.A./N.V., as operator of the Euroclear System (“Euroclear”), or Clearstream Banking, S.A. (“Clearstream”), in each case, as a participant in DTC. Euroclear and Clearstream will hold interests, in each case, on behalf of their participants through customers’ securities accounts in the names of Euroclear and Clearstream on the books of their respective depositories, which in turn will hold such interests in customers’ securities in the depositories’ names on DTC’s books.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the Notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We and the trustee have no control over those systems or their participants, and we and the trustee take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on the one hand, and other participants in DTC, on the other hand, would also be subject to DTC’s rules and procedures.

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold interests in the Notes through those systems and wish on a particular day to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, may find that the transaction will not be effected until the next business day in Brussels or Luxembourg, as applicable. Thus, if investors wish to exercise rights that expire on a particular day, they may need to act before the expiration date. In addition, if investors hold their interests through both DTC and Euroclear or Clearstream, they may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of the Notes among participants of DTC, Euroclear and Clearstream, they are under no obligation or responsibility to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time.

Same-Day Funds Settlement and Payment

Settlement for the Notes will be made by the underwriters in immediately available funds. All payments of principal and interest in respect of Notes in book-entry form will be made by us in immediately available funds to the accounts specified by DTC.

The Notes will trade in DTC’s Same-Day Funds Settlement System until maturity or until the Notes are issued in certificated form, and secondary market trading activity in the Notes will therefore be required by DTC to settle in immediately available funds.

The Trustee

U.S. Bank National Association is the trustee under the Indenture. All payments of principal of, premium, if any, and interest on, and all registration, transfer, exchange, authentication and delivery of, the Notes will be effected by the trustee at the corporate trust office of the trustee in New York, New York.

U.S. Bank National Association is a lender under our unsecured revolving credit facility. Consequently, U.S. Bank National Association could be faced with potential conflicts of interest and conflicting obligations in the event of a default under, or with regard to other circumstances relating to, any or all of this indebtedness.

The Indenture and provisions of the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”), contain limitations on the rights of the trustee, should it become a creditor of ours, to obtain payment of claims in certain cases or to liquidate certain property received by it in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions with us or any of our affiliates. If the trustee acquires any conflicting interest within the meaning of the Trust Indenture Act and the Notes are in default, it must eliminate that conflict, resign or, if applicable, apply to the SEC to continue.

The trustee or its affiliates may in the future serve as trustee under various of our debt instruments and have served and may in the future serve as an agent and lender under our credit facilities.

Governing Law

The Indenture and the Notes shall be governed by and construed in accordance with the laws of the State of New York.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of material U.S. federal income tax considerations relating to the acquisition, ownership and disposition of the Notes, but does not provide a complete analysis of all potential tax considerations.

This summary describes, in the case of U.S. Holders (as defined below), material U.S. federal income tax consequences and, in the case of Non-U.S. Holders (as defined below), material U.S. federal income and certain estate tax consequences, of the acquisition, ownership and disposition of the Notes. We have based this summary on the provisions of the Internal Revenue Code of 1986, as amended (the “Code”), the applicable Treasury Regulations promulgated or proposed thereunder (the “Treasury Regulations”), judicial authority and current administrative rulings and practice, all as of the date hereof and which are subject to change, possibly on a retroactive basis, or to different interpretation. This summary applies to you only if you are an initial purchaser of the Notes who acquired the Notes at their “issue price” within the meaning of Section 1273(b)(1) of the Code (the first price at which a substantial amount of Notes is sold to investors for cash, not including sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and if you hold the Notes as capital assets. A capital asset is generally an asset held for investment rather than as inventory or as property used in a trade or business.

This summary does not discuss all of the aspects of U.S. federal income and estate taxation which may be relevant to you in light of your particular investment or other circumstances. This summary also does not discuss the particular tax consequences that might be relevant to you if you are subject to special rules under the U.S. federal income tax laws. Special rules apply, for example, if you are:

- a bank, thrift, regulated investment company or other financial institution or financial service company;
- a broker or dealer in securities or foreign currency;
- an insurance company;
- a real estate investment trust;
- a U.S. person that has a “functional currency” other than the U.S. dollar;
- a partnership or other flow-through entity for U.S. federal income tax purposes (or an investor that holds Notes through a flow-through entity for U.S. federal income tax purposes);
- a subchapter S corporation;
- a person subject to alternative minimum tax;
- a person subject to special tax accounting rules as a result of gross income with respect to the Notes being taken into account in an “applicable financial statement” within the meaning of Section 451 of the Code;
- a person subject to the base erosion and anti-abuse tax arising under Section 59A of the Code;
- a person who owns the Notes as part of a straddle, hedging transaction, constructive sale transaction, conversion transaction or other integrated transaction;
- a trader that elects to use a mark-to-market method of accounting with respect to its securities holdings;
- a tax-exempt entity;
- a tax-deferred or other retirement account;
- a U.S. expatriate;
- a foreign corporation that is classified as a “controlled foreign corporation” or a “passive foreign investment company” for U.S. federal income tax purposes; or
- a person who acquires the Notes in connection with employment or other performance of services.

[Table of Contents](#)

In addition, this summary does not address all possible tax consequences related to acquisition, ownership and disposition of the Notes. In particular, except as specifically provided, it does not discuss any estate, gift, generation-skipping, transfer, state, local or foreign tax consequences, or the consequences arising under any tax treaty. We have not sought, and do not intend to seek, a ruling from the Internal Revenue Service (the “IRS”) with respect to the statements made and the conclusions reached in this summary, and there can be no assurance that the IRS will agree with these statements and conclusions.

In certain circumstances, we may be obligated to pay you amounts in excess of stated interest or principal on the Notes. At our option, we may redeem all or part of the Notes, as described in “Description of Notes—Optional Redemption,” for a price that may include an additional amount in excess of the principal amount of such Notes. Based on existing Treasury Regulations, this option to redeem will be presumed not to be exercised and, accordingly, the premium payable upon a redemption will not affect the yield to maturity or the maturity date of the Notes. If, contrary to our expectations, we redeem the Notes, any premium paid to you should be taxed as capital gain under the rules described below under “U.S. Holders—Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of the Notes.” You should consult your tax advisor regarding the appropriate tax treatment of the amounts you receive upon any such redemption, including any premium you receive.

In addition, upon the occurrence of a Change of Control Triggering Event, holders of the Notes will have the right to require us to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of their Notes, as described in “Description of Notes—Change of Control Offer to Purchase,” at a price that may include an additional amount in excess of the principal amount of such Notes. Our obligation to pay such excess amount may cause the IRS to take the position that the Notes are “contingent payment debt instruments” for U.S. federal income tax purposes. If the IRS is successful in such an assertion, the timing and amount of income included and the character of gain recognized with respect to the Notes would likely be different from the consequences discussed herein. Notwithstanding this possibility, we intend to take the position that the likelihood of such a repurchase is remote and, accordingly, that the possibility of a premium payable upon such a repurchase does not affect the yield to maturity or the maturity date of the Notes and does not cause the Notes to be treated as contingent payment debt instruments. A holder may not take a contrary position unless the holder discloses the contrary position to the IRS in the manner required by applicable Treasury Regulations. If we pay a premium on a repurchase upon the occurrence of a Change of Control Triggering Event, the premium should be treated as a capital gain under the rules described below under “U.S. Holders—Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of the Notes.”

Investors considering acquiring Notes should consult their tax advisors regarding the application and effect of the U.S. federal tax laws to their particular situations as well as any consequences arising under the laws of any state, local or foreign taxing jurisdictions or under any tax treaty.

U.S. Holders

For purposes of this summary, you are a “U.S. Holder” if you are a beneficial owner of Notes and for U.S. federal income tax purposes are:

- a citizen or individual resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) that is created or organized in or under the laws of the United States, any of the 50 states or the District of Columbia;
- an estate the income of which is subject to federal income taxation regardless of its source; or
- a trust if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more “U.S. persons” (within the meaning of Section 7701(a)(30) of the Code) have the authority to control all substantial decisions of the trust or (ii) the trust has validly elected to be treated as a U.S. person for U.S. federal income tax purposes.

[Table of Contents](#)

If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the Notes, the U.S. federal income tax treatment of a partner in such partnership will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) or a partner in such partnership, you should consult your tax advisor regarding the U.S. federal income tax consequences of acquiring, owning and disposing of the Notes.

Payment of Interest

All of the Notes bear interest at a fixed rate and you generally must include this interest in your gross income as ordinary interest income:

- when you receive it, if you use the cash method of accounting for U.S. federal income tax purposes; or
- when it accrues, if you use the accrual method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of the Notes

You generally will recognize gain or loss upon the sale, exchange, redemption, retirement or other taxable disposition of the Notes equal to the difference between (i) the amount of cash proceeds and the fair market value of any property you receive (except to the extent attributable to accrued interest income not previously included in income, which will generally be taxable as ordinary income, or attributable to accrued interest previously included in income, which amount may be received without generating further taxable income) and (ii) your adjusted tax basis in the Notes. Your tax basis in a Note generally will equal the amount you paid for the Note reduced by the aggregate amount of payments on such Note (other than stated interest) made to you.

Gain or loss on the disposition of Notes will generally be capital gain or loss and will be long-term capital gain or loss if the Notes have been held for more than one year at the time of disposition. Otherwise, such gain or loss will be short-term capital gain or loss. Certain non-corporate U.S. Holders (including individuals) may be eligible for a reduced rate of tax on long-term capital gains. The deductibility of capital losses is subject to certain limitations.

Additional Medicare Tax

An additional 3.8% Medicare tax is imposed on certain net investment income of individuals (other than individuals who are nonresident aliens) with a modified adjusted gross income of over \$200,000 (\$250,000 in the case of joint filers or \$125,000 in the case of married individuals filing separately) and on the undistributed net investment income of certain estates and trusts. For these purposes, "net investment income" generally includes interest, dividends, annuities, royalties, rents, net gain attributable to the disposition of property not held in a trade or business (including net gain from the taxable disposition of a Note) and certain other income, as reduced by any deductions properly allocable to such income or gain. If you are a U.S. Holder that is an individual, estate or trust, you should consult a tax advisor regarding the applicability of the Medicare tax to income and gains arising from your investment in the Notes.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to payments to certain recipients of principal and interest on a Note and the proceeds of the sale, exchange, redemption, retirement or other taxable disposition of a Note. If you are a U.S. Holder, you may be subject to backup withholding, at a current rate of 24%, when you receive interest with respect to the Notes, or when you receive proceeds upon the sale, exchange, redemption, retirement or other taxable disposition of the Notes. In general, you can avoid this backup withholding by

[Table of Contents](#)

properly executing, under penalties of perjury, an IRS Form W-9 or suitable substitute form in a timely manner that provides:

- your correct taxpayer identification number; and
- a certification that you (i) are exempt from backup withholding because you come within an enumerated exempt category, (ii) have not been notified by the IRS that you are subject to backup withholding or (iii) have been notified by the IRS that you are no longer subject to backup withholding.

If you do not provide your correct taxpayer identification number on IRS Form W-9 or suitable substitute form in a timely manner, you may be subject to penalties imposed by the IRS.

Backup withholding will not apply, however, with respect to payments made to certain holders, including certain corporations and tax-exempt organizations, provided their exemptions from backup withholding are properly established. Amounts withheld pursuant to backup withholding are not an additional tax and may be refunded or credited against your U.S. federal income tax liability, provided you timely furnish required information to the IRS.

Non-U.S. Holders

As used herein, the term “Non-U.S. Holder” means a beneficial owner of a Note that is not a U.S. Holder and is not treated as a partnership for U.S. federal income tax purposes.

Payment of Interest

Generally, subject to the discussions below of backup withholding and withholding under the Foreign Account Tax Compliance Act, if you are a Non-U.S. Holder, interest income that is not effectively connected with a U.S. trade or business (and, where an income tax treaty applies, is not attributable to a U.S. permanent establishment or fixed base) will not be subject to U.S. federal income tax and withholding tax provided that:

- you do not directly or indirectly, actually or constructively, own 10% or more of the combined voting power of all of our classes of stock entitled to vote within the meaning of Section 871(h)(3) of the Code;
- you are not a “controlled foreign corporation” that is related to us actually or constructively through stock ownership; and
- either (i) you provide an IRS Form W-8BEN or W-8BEN-E (or other applicable form or a suitable substitute form) signed under penalties of perjury that includes your name and address and certifies as to your Non-U.S. Holder status or (ii) a securities clearing organization, bank or other financial institution that holds customers’ securities in the ordinary course of its trade or business provides a statement to us or our agent under penalties of perjury in which it certifies that an IRS Form W-8BEN, W-8BEN-E or W-8IMY (together with appropriate attachments), or a suitable substitute form, has been received by it from you or a qualifying intermediary and furnishes us or our agent with a copy of that form (including any attachments).

Interest on the Notes, which is not exempt from U.S. federal withholding tax as described above and is not effectively connected with a U.S. trade or business, generally will be subject to U.S. federal withholding tax at a 30% rate (or, if applicable, a lower income tax treaty rate). We may be required to report annually to the IRS and to each Non-U.S. Holder the amount of interest paid to, and any tax withheld with respect to, each Non-U.S. Holder. If a Non-U.S. Holder is engaged in a trade or business in the United States and interest on a Note is effectively connected with the conduct of that trade or business and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base, then such Non-U.S. Holder (although exempt from the 30% withholding tax) will generally be subject to U.S. federal income tax on that interest at

[Table of Contents](#)

graduated rates on a net income basis in the same manner as if the Non-U.S. Holder were a U.S. person as defined in the Code. In addition, if the Non-U.S. Holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or lower applicable treaty rate) of its earnings and profits for the taxable year, subject to adjustments, that are effectively connected with its conduct of a trade or business in the United States.

To claim the benefit of an income tax treaty or to claim exemption from withholding because the income is effectively connected with a U.S. trade or business, the Non-U.S. Holder must provide to the applicable withholding agent a properly executed Form W-8BEN or W-8BEN-E, or other applicable form, or Form W-8ECI, respectively. Under the Treasury Regulations, a Non-U.S. Holder may under certain circumstances be required to obtain a U.S. taxpayer identification number and make certain certifications to us. Special certification and other rules apply to payments made through qualified intermediaries. Prospective investors should consult their tax advisors regarding the effect, if any, of these certification rules.

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of the Notes

If you are a Non-U.S. Holder, subject to the discussions below of backup withholding and withholding under the Foreign Account Tax Compliance Act, you generally will not be subject to the U.S. federal income tax or withholding tax on any gain realized on the sale, exchange, redemption, retirement or other taxable disposition of the Notes, unless:

- the gain is effectively connected with your conduct of a U.S. trade or business (and, where an income tax treaty applies, is attributable to a U.S. permanent establishment or fixed base); or
- you are an individual and are present in the United States for a period or periods aggregating 183 days or more during the taxable year of the disposition (as determined under the Code) and certain other conditions are met.

If you are described in the first bullet point above, you will generally be subject to U.S. federal income tax on that gain at graduated rates on a net income basis in the same manner as if you were a U.S. person as defined in the Code. In addition, if you are a foreign corporation, you may be subject to a branch profits tax equal to 30% (or lower applicable treaty rate) of your earnings and profits for the taxable year, subject to adjustments, that are effectively connected with your conduct of a trade or business in the United States. If you are described in the second bullet point above, any gain realized by you from the sale, exchange, redemption, retirement or other taxable disposition of the Notes will generally be subject to U.S. federal income tax at a 30% rate (or lower applicable treaty rate), which may be offset by certain U.S.-source capital losses.

To the extent that the amount realized on any sale, exchange, redemption, retirement or other taxable disposition of the Notes is attributable to accrued but unpaid interest, such amount will be treated as interest for U.S. federal income tax purposes.

Estate Taxes

If you are an individual Non-U.S. Holder and you hold a Note at the time of your death, it will not be includible in your gross estate for U.S. federal estate tax purposes, provided that, at the time of death, (i) you do not, directly or indirectly, actually or constructively, own 10% or more of the combined voting power of all of our classes of stock entitled to vote within the meaning of Section 871(h)(3) of the Code and (ii) payments with respect to such Note would not have been effectively connected with your conduct of a trade or business within the United States.

Information Reporting and Backup Withholding

If you are a Non-U.S. Holder, U.S. backup withholding will not apply to payments of interest on a Note if you provide the statement described in “—Non-U.S. Holders—Payment of Interest” to the applicable

[Table of Contents](#)

withholding agent, provided that the payor does not have actual knowledge that you are a U.S. person. Information reporting requirements may apply, however, to payments of interest on a Note with respect to Non-U.S. Holders.

Information reporting will not apply to any payment of the proceeds of the sale of a Note effected outside the United States by a foreign office of a “broker” (as defined in applicable Treasury Regulations), unless such broker is:

- a U.S. person;
- a foreign person 50% or more of the gross income of which for certain periods is effectively connected with the conduct of a trade or business in the United States;
- a controlled foreign corporation for U.S. federal income tax purposes; or
- a foreign partnership if, at any time during its tax year, one or more of its partners are “U.S. persons” (as defined in the Code) who in the aggregate hold more than 50% of the income or capital interests in the partnership or if, at any time during its tax year, such foreign partnership is engaged in a U.S. trade or business.

Notwithstanding the foregoing, payment of the proceeds of any sale of a Note effected outside the United States by a foreign office of any broker that is described in the preceding sentence will not be subject to information reporting if the broker has documentary evidence in its records that you are a Non-U.S. Holder and certain other conditions are met, or you otherwise establish an exemption.

Payment of the proceeds of any sale of a Note effected outside the United States by a foreign office of a broker is not subject to backup withholding. Payment of the proceeds of any such sale to or through the U.S. office of a broker is subject to information reporting and backup withholding requirements, unless you provide the statement described in “—Non-U.S. Holders—Payment of Interest” to the applicable withholding agent or otherwise establish an exemption.

Non-U.S. Holders should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom and the procedure for obtaining such exemption, if applicable.

Foreign Account Tax Compliance Act Withholding

Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance issued thereunder (“FATCA”) impose a 30% withholding tax on any U.S.-source interest paid on debt obligations, such as the Notes, and on the gross proceeds from a disposition of such obligations paid after December 31, 2018, in each case, if paid to a “foreign financial institution” or a “non-financial foreign entity” (each as defined in the Code), including when acting as an intermediary, unless: (i) in the case of a foreign financial institution, such institution enters into an agreement with the IRS to withhold on certain payments and to collect and provide to the IRS information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are non-U.S. entities with U.S. owners); (ii) in the case of a non-financial foreign entity, such entity certifies that it does not have any “substantial U.S. owners” (as defined in the Code) or provides the withholding agent with a certification identifying its direct and indirect substantial U.S. owners; or (iii) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States with respect to these rules may be subject to different rules. Under limited circumstances, a beneficial owner of Notes might be eligible for refunds or credits of such taxes. The rules under FATCA are complex. You should consult with your tax advisor regarding the implications of FATCA on an investment in the Notes.

UNDERWRITING

J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement, dated the date hereof, among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the respective principal amounts of Notes set forth opposite its name below.

<u>Underwriter</u>	<u>Principal Amount of the 20 Notes</u>	<u>Principal Amount of the 20 Notes</u>
J.P. Morgan Securities LLC	\$	\$
Merrill Lynch, Pierce, Fenner & Smith Incorporated		
Wells Fargo Securities, LLC		
Total	\$	\$

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the Notes sold under the underwriting agreement if any of the Notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the Notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the Notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose to offer the Notes of each series initially to the public at the applicable public offering price set forth on the front cover of this prospectus supplement and to certain dealers at such price less a concession not in excess of % of the principal amount of the 20 Notes and % of the principal amount of the 20 Notes. After the initial offering, the public offering prices, concessions or any other terms of the offering may be changed.

The expenses of this offering, not including the underwriting discount, are estimated at \$ and are payable by us.

New Issue of Notes

Each series of the Notes is a new issue of securities with no established trading market. We do not intend to apply for the listing of either series of the Notes on any securities exchange or for quotation of such Notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the Notes of each series after completion of the offering. However, they are under no obligation to do

[Table of Contents](#)

so and may discontinue any market-making activities at any time without notice. We cannot assure the liquidity of the trading markets for the Notes or that active public trading markets for the Notes will develop or be sustained. If active public trading markets for the Notes are not developed or sustained, the market prices and liquidity of the Notes may be adversely affected. If the Notes are traded, they may trade at a discount from their initial offering prices, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

Price Stabilization and Short Positions

In connection with the offering, the underwriters may purchase and sell the Notes in the open market. These transactions may include short sales, stabilizing transactions and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of Notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market prices of such Notes while this offering is in progress.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market prices of the Notes. As a result, the prices of the Notes may be higher than the prices that might otherwise exist in the open market.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the prices of the Notes. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have engaged in, and may in the future engage in, commercial and investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. In particular, the affiliates of some of the underwriters are participants in our multi-year revolving credit facility described in our filings with the SEC. They have received, or may in the future receive, customary fees and commissions or other payments for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or financial instruments of ours or our affiliates. If any of the underwriters or their respective affiliates has a lending relationship with us, certain of these underwriters or their respective affiliates routinely hedge, and certain others of these underwriters or their respective affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their respective affiliates would hedge such exposure by entering into transactions that consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and financial instruments.

Settlement

We expect that delivery of the Notes will be made against payment therefor on or about April 1, 2018, which will be the third business day following the date of pricing of the Notes (such settlement cycle being referred to as “T+3”). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers of the Notes who wish to trade the Notes on the date of pricing will be required, by virtue of the fact that the Notes initially will settle in T+3, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes on the date of pricing should consult their advisors.

Notice to Investors

No action has been or will be taken in any jurisdiction outside of the United States of America that would permit a public offering of the Notes, or the possession, circulation or distribution of this prospectus supplement or any material relating to us, in any jurisdiction where action for that purpose is required. Accordingly, the Notes included in this offering may not be offered, sold or exchanged, directly or indirectly, and neither this prospectus supplement nor any other offering material or advertisements in connection with this offering may be distributed or published, in or from any such country or jurisdiction, except in compliance with any applicable rules or regulations of any such country or jurisdiction.

Notice to Prospective Investors in the European Economic Area

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any “retail investor” in the European Economic Area (the “EEA”). For these purposes, a “retail investor” means a person who is one or more of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); (ii) a customer within the meaning of Directive 2002/92/EC, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “Prospectus Directive”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to “retail investors” in the EEA has been prepared, and therefore offering or selling the Notes or otherwise making them available to any “retail investor” in the EEA may be unlawful under the PRIIPs Regulation. This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of Notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Notes. This prospectus supplement and the accompanying prospectus are not a prospectus for the purposes of the Prospectus Directive.

Each of the underwriters has represented and agreed that it has not offered, sold, distributed or otherwise made available and will not offer, sell, distribute or otherwise make available any Notes to any “retail investor” (as defined above) in the EEA. For the purposes of this provision, the expression “offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Each person in a Member State of the EEA to whom any offer of Notes is made or who receives any communication in respect of, or who initially acquires any Notes under, the offers to the public contemplated in this prospectus supplement, or to whom the Notes are otherwise made available will be deemed to have represented, warranted and agreed to and with each of the underwriters and us that it and any person on whose behalf it acquires Notes as a financial intermediary, as that term is defined in Article 3(2) of the Prospectus Directive, is: (i) a “qualified investor” within the meaning of the law in that Member State implementing Article 2(1)(e) of the Prospectus Directive; and (ii) not a “retail investor” as defined above.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the “SEC,” using a “shelf” registration process. Under this process, we may offer and sell from time to time any combination of the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities we may offer and sell. Each time we sell securities pursuant to this prospectus, we will provide a supplement to this prospectus and, if applicable, a free writing prospectus that will contain specific information about the offering and the terms of the particular securities to be offered. The prospectus supplement and any related free writing prospectus may also add, update or change information contained in this prospectus. If there is any inconsistency between the information in this prospectus and in any prospectus supplement or free writing prospectus, you should rely on the information in that prospectus supplement or free writing prospectus, as applicable. You should carefully read this prospectus, any prospectus supplement and any related free writing prospectus, together with the additional information described under the heading “Where You Can Find More Information.”

The registration statement of which this prospectus is a part, including the exhibits to the registration statement, provides additional information about us and the securities. Wherever references are made in this prospectus to information that will be included in a prospectus supplement, to the extent permitted by applicable law, rules or regulations, we may instead include such information or add, update or change the information contained in this prospectus by means of a post-effective amendment to the registration statement of which this prospectus is a part, through filings we make with the SEC that are incorporated by reference into this prospectus or by any other method as may then be permitted under applicable law, rules or regulations. The registration statement, including the exhibits to the registration statement and any post-effective amendment thereto, can be obtained from the SEC, as described under the heading “Where You Can Find More Information.”

You should rely only on the information contained in or incorporated by reference into this prospectus, the related prospectus supplement and any related free writing prospectus. We have not authorized anyone to provide you with different information. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information in this prospectus, any prospectus supplement, any free writing prospectus or any document incorporated by reference is accurate as of any date other than the date on the cover page of the specific document or that any information we have incorporated by reference is accurate as of any date other than the date of the document incorporated by reference.

Except as otherwise indicated or unless the context requires otherwise, all references in this prospectus to “Nucor,” the “Company,” “we,” “us,” “our” and similar terms refer to Nucor Corporation and its consolidated subsidiaries.

RISK FACTORS

Investing in our securities involves risks. Before making an investment decision, you should carefully consider the discussion of risks and uncertainties under the heading “Risk Factors” contained in any applicable prospectus supplement and any related free writing prospectus, and under similar headings in our most recent Annual Report on Form 10-K (together with any material changes thereto contained in subsequently filed Quarterly Reports on Form 10-Q) and those contained in our other filings with the SEC, which are incorporated by reference into this prospectus. Additional risks and uncertainties not presently known to us or that we currently deem immaterial could materially affect our business, results of operations or financial position and cause the value of our securities to decline.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement and any related free writing prospectus and the documents incorporated by reference herein and therein may include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Statements containing words such as “expects,” “plans,” “strategy,” “projects,” “believes,” “opportunity,” “should,” “anticipates,” “desires” and similar expressions are intended to highlight or indicate forward-looking statements. These forward-looking statements reflect our best judgment based on current information, and although we base these statements on circumstances that we believe to be reasonable when made, there can be no assurance that future events will not affect the accuracy of such forward-looking information. As such, the forward-looking statements are not guarantees of future performance, and actual results may vary materially from the projected results and expectations discussed. Factors that might cause our actual results to differ materially from those anticipated in forward-looking statements include, but are not limited to: (i) competitive pressure on sales and pricing, including pressure from imports and substitute materials; (ii) U.S. and foreign trade policies affecting steel imports or exports; (iii) the sensitivity of the results of our operations to prevailing steel prices and changes in the supply and cost of raw materials, including pig iron, iron ore and scrap steel; (iv) availability and cost of electricity and natural gas which could negatively affect our cost of steel production or could result in a delay or cancelation of existing or future drilling within our natural gas drilling programs; (v) critical equipment failures and business interruptions; (vi) market demand for steel products, which, in the case of many of our products, is driven by the level of nonresidential construction activity in the U.S.; (vii) impairment in the recorded value of inventory, equity investments, fixed assets, goodwill or other long-lived assets; (viii) uncertainties surrounding the global economy, including the severe economic downturn in construction markets and excess world capacity for steel production; (ix) fluctuations in currency conversion rates; (x) significant changes in laws or government regulations affecting environmental compliance, including legislation and regulations that result in greater regulation of greenhouse gas emissions that could increase our energy costs and our capital expenditures and operating costs or cause one or more of our permits to be revoked or make it more difficult to obtain permit modifications; (xi) the cyclical nature of the steel industry; (xii) capital investments and their impact on our performance; and (xiii) our safety performance. Additional information regarding the risks and uncertainties which may affect our business operations and financial performance can be found in our filings with the SEC. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

OUR COMPANY

Nucor and its affiliates manufacture steel and steel products. Nucor also produces direct reduced iron (“DRI”) for use in the Company’s steel mills. Through The David J. Joseph Company and its affiliates, the Company also processes ferrous and nonferrous metals and brokers ferrous and nonferrous metals, pig iron, hot briquetted iron and DRI. Most of the Company’s operating facilities and customers are located in North America. The Company’s operations include international trading and sales companies that buy and sell steel and steel products manufactured by the Company and others. Nucor is North America’s largest recycler, using scrap steel as the primary raw material in producing steel and steel products.

USE OF PROCEEDS

Unless we state otherwise in the applicable prospectus supplement, we will use the net proceeds from the sale of the securities offered by this prospectus and the applicable prospectus supplement for general corporate purposes, which may include, but are not limited to, working capital, capital expenditures, advances for or investments in our subsidiaries or acquisitions, redemption and repayment of outstanding indebtedness, and purchases of our common stock.

We may temporarily invest any net proceeds prior to their use for the above purposes in U.S. government or agency obligations, commercial paper, money market funds, taxable and tax-exempt notes and bonds, variable-rate demand obligations, short-term investment grade securities, bank certificates of deposit or repurchase agreements collateralized by U.S. government or agency obligations. We may also deposit the net proceeds with banks.

RATIO OF EARNINGS TO FIXED CHARGES

Nucor’s historical ratio of earnings to fixed charges is shown in the table below. The ratio of earnings to fixed charges is computed by dividing earnings by fixed charges. For this purpose, “earnings” consists of pre-tax earnings/losses before adjustment for noncontrolling interests, plus earnings/losses from equity investments, plus fixed charges, amortization of capitalized interest and distributed income of equity investees, less interest capitalized and pre-tax earnings in noncontrolling interests in subsidiaries that have not incurred fixed charges. “Fixed charges” consists of interest cost and amortization of bond issuance costs and settled swaps and estimated interest on rent expense.

DESCRIPTION OF OUR DEBT SECURITIES

The following description sets forth general terms and provisions of the debt securities that we may offer under this prospectus and the applicable prospectus supplement. We will provide additional or different terms of the debt securities in the applicable prospectus supplement.

We will issue debt securities under an indenture, dated as of August 19, 2014, between Nucor and U.S. Bank National Association, as trustee. We refer to this indenture as the “Indenture.”

The following description summarizes some of the provisions of the Indenture. However, we have not described every aspect of the debt securities. In the summary below, we have included references for section numbers of the Indenture so that you can easily locate the applicable provisions. You should refer to the Indenture for a complete description of its provisions, because the Indenture, and not this description, will define your rights as a holder of the debt securities. Whenever we refer to particular sections or defined terms of the Indenture in this prospectus or in any applicable prospectus supplement, we are incorporating by reference those sections or defined terms into this prospectus or the applicable prospectus supplement.

We have filed the Indenture as an exhibit to the registration statement of which this prospectus is a part, and supplemental indentures and forms of debt securities containing the terms of the debt securities being offered will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC. See “Where You Can Find More Information” for information on how to obtain a copy of the Indenture and any supplements thereto.

General

The Indenture does not limit the aggregate principal amount of debt securities that we may issue under the Indenture and provides that we may issue debt securities from time to time in one or more series. (Section 2.01). In addition, neither the Indenture nor the debt securities will limit or otherwise restrict the amount of senior indebtedness that we or our subsidiaries may incur.

Previously, we entered into an indenture, dated as of January 12, 1999, with The Bank of New York Mellon (the “1999 Indenture”). As of July 1, 2017, under the 1999 Indenture, we had outstanding approximately:

- \$600,000,000 of 5.750% Notes due 2017;
- \$500,000,000 of 5.850% Notes due 2018;
- \$600,000,000 of 4.125% Notes due 2022;
- \$500,000,000 of 4.000% Notes due 2023;
- \$650,000,000 of 6.400% Notes due 2037; and
- \$500,000,000 of 5.200% Notes due 2043.

The debt securities will be our unsecured obligations and will rank equally and ratably with all of our other existing and future unsecured and unsubordinated indebtedness, including the notes outstanding under the 1999 Indenture. The debt securities will be subordinated to our existing and future secured indebtedness and that of our subsidiaries and to any existing and future unsecured, unsubordinated indebtedness of our subsidiaries. In other words, if we should default on our debt, we will not make payments on the debt securities until we have fully paid off our secured indebtedness and that of our subsidiaries and any unsecured, unsubordinated indebtedness of our subsidiaries.

The particular terms of each issue of debt securities, as well as any modifications or additions to the general terms of the Indenture applicable to the issue of debt securities, will be described in the applicable prospectus supplement.

- the conversion price and other terms of any debt securities that a holder may convert into or exchange for our other securities before our redemption, repayment or repurchase of those convertible debt securities;
- any addition to or change in the covenants or events of default relating to any of the debt securities;
- any trustee or fiscal or authenticating or payment agent, issuing and paying agent, calculation agent, transfer agent or registrar or any other person or entity to act in connection with the debt securities for or on behalf of the holders thereof or the Company or an affiliate;
- whether the debt securities are to be issuable initially in temporary global form and whether any such debt securities are to be issuable in permanent global form and, if so, whether beneficial owners of interests in any such permanent global security may exchange the interests for debt securities of like tenor of any authorized form and denomination and the circumstances under which any such exchanges may occur;
- the listing of the debt securities on any securities exchange or inclusion in any other market or quotation or trading system; and
- any other specific terms, conditions and provisions of the debt securities. (Section 2.02).

Unless the applicable prospectus supplement provides differently, the trustee will register the transfer of any debt securities at its offices. (Section 2.05).

Unless the applicable prospectus supplement provides differently, we will issue the debt securities in fully registered form without coupons and in denominations of \$1,000 or any integral multiple of \$1,000. (Section 2.03). There will be no service charge for any exchange or registration or transfer of the debt securities, although we may require that purchasers of the debt securities pay any tax or other governmental charge that may be imposed in connection therewith. (Section 2.05).

We may issue debt securities as original issue discount securities, to be sold at a substantial discount below their principal amount. The applicable prospectus supplement will describe any special federal income tax and other considerations applicable to these securities.

Restrictive Covenants

We will describe any restrictive covenants for any series of debt securities in the applicable prospectus supplement.

Consolidation, Merger and Sale of Assets

Without the consent of the holders of any of the outstanding debt securities, we may consolidate with or merge into any other corporation, or convey or transfer our properties and assets substantially as an entirety to any person, as long as:

- the successor is a corporation organized and existing under the laws of the United States of America or any State or the District of Columbia;
- the successor corporation assumes our obligations on the debt securities and under the Indenture;
- immediately after giving effect to the transaction, no event of default, and no event that, after notice or lapse of time, or both, would become an event of default, has occurred and is continuing; and
- other conditions described in the Indenture are met. (Section 12.01).

Accordingly, the holders of debt securities may not have protection in the event of a highly leveraged transaction, reorganization, restructuring, merger or similar transaction involving us that may adversely affect the holders. The existing protective covenants applicable to the debt securities would continue to apply to us in the event of a leveraged buyout initiated or supported by us, our management, or any of our affiliates or their management, but may not prevent such a transaction from taking place.

Events of Default

The following are “events of default” with respect to debt securities of any series, unless it is either inapplicable to a particular series or is specifically deleted or modified in any supplemental indenture or other document under which such series is issued:

- default in the payment of any interest installment with respect to any of the debt securities of that series, as and when the same shall become due and payable, and continuance of such default for a period of ten (10) days after receipt by us of written notice of the default from any holder of debt securities or the trustee;
- default in the payment of principal of or premium, if any, on any of the debt securities of that series, as and when the same shall become due and payable either at maturity, upon redemption, by declaration or otherwise, and continuance of such default for a period of ten (10) days after receipt by us of written notice of the default from any holder of debt securities or the trustee;
- default in the making of any payment for a sinking, purchase or analogous fund provided for in respect of any of the debt securities of that series, as and when the same shall become due and payable, and continuance of such default for a period of ten (10) days after receipt by us of written notice of such default from any holder of debt securities or the trustee;
- failure by us to observe or perform any other covenant or agreement in respect of debt securities of that series, or in the Indenture with respect to that series, for a period of ninety (90) days after the trustee gives us written notice, or holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series give us and the trustee written notice of default; and
- certain events of bankruptcy, insolvency and reorganization as more fully described in the Indenture. (Section 7.01).

The applicable prospectus supplement will describe any additional events of default that may be added to the Indenture for a particular series of debt securities. (Section 7.01). No event of default with respect to a

[Table of Contents](#)

particular series of debt securities issued under the Indenture necessarily constitutes an event of default with respect to any other series of debt securities issued under the Indenture.

The Indenture provides that the trustee will, within ninety (90) days after the occurrence of a default with respect to the debt securities of any series, mail to the holders of those debt securities notice of all uncured defaults known to it; provided, that except in the case of default in payment of the principal of, premium, if any, or interest, if any, on any of the debt securities of that series, the trustee may withhold the notice if and so long as it in good faith determines that withholding the notice is in the interests of the holders of the debt securities of that series. The term “default” for the purpose of this provision means any event that is, or after notice or lapse of time or both would be, an event of default with respect to the debt securities of such series. (Section 7.08).

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, unless the principal of all of the debt securities of that series has already become due and payable, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice in writing to us, may declare the principal amount (or, the portion of the principal amount as may be specified in the terms of the series) of all the debt securities of that series to be due and payable immediately. (Section 7.01). Prior to any declaration accelerating the maturity of any series of debt securities, the holders of a majority in aggregate principal amount of the outstanding debt securities of that series may, on behalf of the holders of all debt securities of that series, waive any past default or event of default under the Indenture with respect to the debt securities of that series and its consequences except a default (i) in the payment of the principal of, premium, if any, or interest, if any, on any debt securities of that series or (ii) in respect of a covenant or provision under the Indenture applicable to that series that cannot be modified or amended without the consent of the holder of each outstanding debt security of that series. (Section 7.07). At any time after making a declaration of acceleration with respect to debt securities of any series, but before obtaining or entering of a judgment or decree for the payment of money, the holders of a majority in aggregate principal amount of outstanding debt securities of the series may, in some circumstances, rescind and annul the acceleration. (Section 7.01).

The Indenture provides that, except for the duty of the trustee in the case of an event of default to act with the required standard of care, the trustee will be under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request, order or direction of any of the holders, unless the holders have offered to the trustee reasonable security or indemnity. (Sections 8.01 and 8.02).

The Indenture provides that the holders of a majority in aggregate principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee in respect of the debt securities of that series, except for cases in which the trustee being advised by counsel in writing determines that the action or proceeding may not lawfully be taken or would be in conflict with the terms of the Indenture or if the determination is made that the action or proceeding would involve the trustee in personal liability or would be unduly prejudicial to the holders of the debt securities of that series not joining in the direction. (Section 7.07). Otherwise, a holder of debt securities of a series may not pursue any remedy with respect to the Indenture or any debt securities of that series unless:

- such holder of debt securities of that series gives us and the trustee written notice of a continuing default;
- the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding make a written request to the trustee, with a copy to us, to pursue the remedy;
- the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding offer the trustee reasonable security or indemnity satisfactory to the trustee against any costs, expenses and liabilities incurred in connection therewith;
- the trustee does not institute any action, suit or proceeding within sixty (60) days after receipt of the notice, request and offer of indemnity; and

[Table of Contents](#)

- during such sixty (60)-day period, the holders of a majority in aggregate principal amount of the debt securities of that series then outstanding do not give the trustee a direction that is inconsistent with such written request.

However, these limitations do not apply to the right of any holder of any debt securities to receive payment of the principal of, premium, if any, and interest, if any, on the debt securities of a series or to bring suit for the enforcement of any such payment on or after the due date expressed in the debt securities, which right shall not be impaired or affected without the consent of the holder. (Section 7.04).

We are required to furnish annually to the trustee a statement as to our performance and observance of and compliance with the terms, provisions, covenants and conditions of the Indenture and as to any default in our performance, observance or compliance. (Section 5.06).

Global Securities

We may issue the debt securities of a series as one or more fully registered global securities. We will deposit the global securities with, or on behalf of, a depositary identified in the applicable prospectus supplement relating to the series. We will register the global securities in the name of the depositary or its nominee. In such case, one or more global securities will be issued in a denomination or aggregate denominations equal to the aggregate principal amount of outstanding debt securities of the series represented by the global security or securities. Until any global security is exchanged, in whole or in part, for debt securities in definitive certificated form, the depositary or its nominee may not transfer the global certificate except as a whole to each other, another nominee or to their successors and except as described in the applicable prospectus supplement. (Section 2.11).

The applicable prospectus supplement will describe the specific terms of the depositary arrangement with respect to a series of debt securities that a global security will represent.

Modification of the Indenture

The Indenture provides that we and the trustee may, without the consent of any holders of debt securities, enter into supplemental indentures for the purposes, among other things, of:

- adding further events of default or other covenants, restrictions or conditions for the benefit of the holders of all or any series of debt securities;
- establishing the form or terms of any series of debt securities; or
- clarifying or curing ambiguities or inconsistencies in the Indenture or making other provisions in regard to matters or questions arising under the Indenture or any supplemental indenture or debt securities of a series, which will not adversely affect the interests of the holders of any affected series of debt securities in any material respect. (Section 11.01).

We and the trustee, with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of each series to be affected, may execute supplemental indentures for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the Indenture or of any supplemental indenture or debt security of a series or of modifying in any manner the rights of the holders of the debt securities of that series to be affected, except that no such supplemental indenture may, without the consent of the holders of all debt securities of that series then outstanding:

- change the fixed maturity (which term for these purposes does not include payments due pursuant to any sinking, purchase or analogous fund) of any debt securities, reduce the principal amount thereof, reduce the rate or extend the time of payment of interest thereon, reduce any premium payable upon the redemption thereof, or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof (or, in the case of redemption on or after the redemption date, without the consent of the holder of each debt security so affected); or

[Table of Contents](#)

- reduce the percentage of debt securities of a series required to approve any such supplemental indenture. (Section 11.02).

The Effect of Our Corporate Structure on Our Payment of the Debt Securities

The debt securities are the obligations of Nucor exclusively. Because our operations are currently conducted in significant part through subsidiaries, the cash flow and our consequent ability to service our debt, including the debt securities, are dependent, in part, upon the earnings of our subsidiaries and the distribution of those earnings to us or upon loans or other payments of funds by those subsidiaries to us. Our subsidiaries are separate and distinct legal entities. They have no obligation, contingent or otherwise, to pay any amounts due on the debt securities or to make any funds available for our payment of any amounts due on the debt securities, whether by dividends, loans or other payments. In addition, our subsidiaries' payments of dividends and making of loans and advances to us may be subject to statutory or contractual restrictions and are contingent upon the earnings of those subsidiaries and various business considerations.

The debt securities will be effectively subordinated to all indebtedness and other liabilities, including current liabilities and commitments under leases, if any, of our subsidiaries. Any right of ours to receive assets of any of our subsidiaries upon liquidation or reorganization of the subsidiary (and the consequent right of the holders of the debt securities to participate in those assets) will be effectively subordinated to the claims of that subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of the subsidiary, in which case our claims would still be subordinated to any security interests in the subsidiary's assets and any of the subsidiary's indebtedness senior to that which we hold.

No Restriction on Sale or Issuance of Stock of Subsidiaries

The Indenture contains no covenant that we will not sell, transfer or otherwise dispose of any shares of, securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, voting stock of any of our subsidiaries. It also does not prohibit any subsidiary of Nucor from issuing any shares of, securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, such subsidiary's voting stock.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest, if any, on any debt securities issued under the Indenture, or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any of our obligations, covenants or agreements in the Indenture or in a supplemental indenture or in any debt securities issued under the Indenture, or because of the creation of any indebtedness represented thereby, will be had against any of our incorporators, stockholders, officers, directors or employees or of any successor person thereof. Each holder, by accepting debt securities issued under the Indenture, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the debt securities. This waiver may not be effective to waive liabilities under the federal securities laws. (Section 14.01).

Reports to Holders and SEC Reports

We will, so long as any debt securities of any series are outstanding, file with the trustee and the SEC, and transmit to holders of debt securities, the information, documents and other reports, and such summaries thereof, as may be required pursuant to the Trust Indenture Act of 1939, as amended, at the times and in the manner provided in that Act; provided, that any such information, documents or other reports required to be filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act will be filed with the trustee within thirty (30) days after the information, documents or other reports are required to be filed with the SEC. All such required information, documents and other reports will be deemed filed with the trustee and transmitted to holders of debt securities at the time such information, documents or other reports are publicly filed with the SEC via the SEC's

[Table of Contents](#)

EDGAR filing system (or any successor system); provided, however, that the trustee will have no responsibility to determine whether or not such filing has taken place. (Section 6.04).

Anti-Takeover Effects of Delaware Law, the Restated Certificate of Incorporation and the Bylaws

Certain provisions of the DGCL, the Restated Certificate of Incorporation and the Bylaws may have the effect of delaying, deferring or discouraging another person from acquiring control of the Company, including takeover attempts that might result in a premium over the market price for the shares of common stock.

Delaware Law

We are subject to the provisions of Section 203 of the DGCL regulating corporate takeovers. In general, Section 203 prohibits a publicly-held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years following the time that the person became an “interested stockholder,” unless:

- before the person became an “interested stockholder,” the board of directors of the corporation approved either the transaction that would result in a business combination or the transaction which resulted in the stockholder becoming an “interested stockholder”;

[Table of Contents](#)

- upon consummation of the transaction which resulted in the stockholder becoming an “interested stockholder,” the “interested stockholder” owned at least 85% of the voting stock of the corporation that was outstanding at the time the transaction commenced. For purposes of determining the number of shares outstanding, shares owned by directors who are also officers of the corporation and shares owned by employee stock plans, in specified instances, are excluded; or
- at or after the time the person became an “interested stockholder,” the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of the stockholders by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the “interested stockholder.”

A “business combination” is defined generally to include mergers or consolidations between a Delaware corporation and an “interested stockholder,” transactions with an “interested stockholder” involving the assets or stock of the corporation or any majority-owned subsidiary, transactions which increase an “interested stockholder’s” percentage ownership of stock of the corporation or any majority-owned subsidiary, and receipt by the “interested stockholder” of various financial benefits provided by or through the corporation or any majority-owned subsidiary. In general, an “interested stockholder” is defined as any person or entity that is the beneficial owner of at least 15% of a corporation’s outstanding voting stock or is an affiliate or associate of the corporation and was the beneficial owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date of determination if such person is an “interested stockholder.”

A Delaware corporation may opt out of this provision with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from a stockholders’ amendment approved by at least a majority of the outstanding voting shares. However, we have not opted out of this provision. The statute could prohibit or delay mergers or other takeover or change-in-control attempts and, accordingly, may discourage attempts to acquire us.

The Restated Certificate of Incorporation and the Bylaws

The Restated Certificate of Incorporation and the Bylaws contain the following provisions that could have the effect of delaying, deferring or preventing a change in control of the Company:

- *Fixing and Changing Number of Directors.* The Bylaws allow our board of directors to fix the number of directors within a specified range, preventing a potential acquirer from increasing the size of the board and nominating its slate of candidates to fill the newly-created directorships.
- *Removal of Directors.* Under the Restated Certificate of Incorporation, our stockholders are prohibited from calling a special meeting of stockholders or acting by written consent in lieu of a meeting to remove directors without cause. Thus, a potential acquirer would not be able to remove existing directors except at an annual meeting of stockholders.
- *Enhanced Voting Requirements for Transaction with Interested Party.* The Restated Certificate of Incorporation contains enhanced voting requirements for certain business combinations and transactions involving greater than 10% stockholders.
- *Amendment to the Restated Certificate of Incorporation.* The Restated Certificate of Incorporation contains enhanced voting requirements to amend certain provisions of the Restated Certificate of Incorporation.
- *Amendment to the Bylaws.* The Bylaws contain enhanced voting requirements for stockholders to amend, alter or repeal the Bylaws.
- *Advance Notification.* The Bylaws contain advance notice requirements for stockholder proposals and director nominations.

[Table of Contents](#)

- *Issuance of Preferred Stock.* The Restated Certificate of Incorporation gives our board of directors the authority to issue, without stockholder approval, preferred stock with designations and rights that the board may determine.

Limitations of Liability and Indemnification of Directors and Officers

Section 145 of the DGCL provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, other than an action by or in the right of the corporation, by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful, except that, in the case of an action by or in the right of the corporation, no indemnification may be made in respect of any claim, issue or matter as to which such person is adjudged to be liable to the corporation, unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought determines upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court deems proper. The Restated Certificate of Incorporation provides that we will indemnify and advance expenses to our directors and officers to the fullest extent permitted by law.

Section 102(b)(7) of the DGCL permits a corporation to include a provision in its certificate of incorporation eliminating or limiting the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duties as a director, provided that such provision shall not eliminate or limit the liability of a director (i) for any breach of the director's duty of loyalty to the corporation or its stockholders; (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law; (iii) for unlawful payment of dividends or purchase or redemption of shares; or (iv) for any transaction from which the director derived an improper personal benefit. Neither the Restated Certificate of Incorporation nor the Bylaws contain such a provision.

Section 145 of the DGCL also permits a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation. We maintain directors' and officers' liability insurance for our directors and officers.

DESCRIPTION OF OUR PREFERRED STOCK

The following is a description of general terms and provisions of the preferred stock. The particular terms of any series of preferred stock will be described in the applicable prospectus supplement.

All of the terms of the preferred stock are, or will be, contained in the Restated Certificate of Incorporation, a Certificate of Amendment to the Restated Certificate of Incorporation or any resolutions which may be adopted by our board of directors relating to any series of the preferred stock, which will be filed with the SEC at or before the time we issue a series of the preferred stock.

The Restated Certificate of Incorporation authorizes us to issue 250,000 shares of preferred stock, par value \$4.00 per share, 200,000 shares of which have been designated as Series A Junior Participating Preferred Stock. We may amend the Restated Certificate of Incorporation from time to time to increase the number of authorized shares of preferred stock. Such an amendment would require the approval of the holders of the voting capital stock entitled to vote on such an amendment in accordance with the terms of the Restated Certificate of Incorporation. As of July 1, 2017, we had no shares of preferred stock outstanding.

Our board of directors is authorized to designate the following with respect to each new series of preferred stock:

- the title and stated value of the series;
- the number of shares in each series;
- the dividend rates and dates of payment and whether dividends will be cumulative and, if cumulative, the date from which dividends will accumulate;
- voluntary and involuntary liquidation preferences and the liquidation price and liquidation premium, if any, applicable to the series;
- redemption prices, if redeemable, and the terms and conditions of such redemption;
- the rights, if any, and the terms and conditions on which shares can be converted into shares of any other series or class;
- the voting rights, if any; and
- any other applicable terms.

The preferred stock, when issued in exchange for full consideration, will be fully paid and nonassessable. We will pay dividends and make distributions in the event of our liquidation, dissolution or winding up first to holders of our preferred stock and then to holders of our common stock.

Although it has no present intention to do so, our board of directors, without stockholder approval, may issue preferred stock with voting and conversion rights, which could adversely affect the voting power of the holders of common stock. If we issue preferred stock, it may have the effect of discouraging, delaying or preventing a change in control.

PLAN OF DISTRIBUTION

We may sell the securities being offered hereby in one or more of the following ways from time to time:

- to or through underwriters or dealers;
- through agents; or
- directly to purchasers.

The prospectus supplement with respect to each offering of securities will set forth the specific plan of distribution and the terms of the offering, including:

- the names of any underwriters, dealers or agents;
- the purchase price or initial public offering price of the securities;
- the net proceeds from the sale of the securities;
- the use of the net proceeds;
- any delayed delivery arrangements;
- any underwriting discounts, commissions and other items constituting underwriters' compensation;
- any discounts or concessions allowed or re-allowed or paid to dealers; and
- any commissions paid to agents.

We may designate agents to solicit purchases for the period of their appointment and to sell securities on a continuing basis, including pursuant to "at the market offerings."

We may offer these securities to the public through underwriting syndicates represented by managing underwriters or through underwriters without a syndicate. If underwriters are used, we will enter into an underwriting agreement with the underwriters at the time of the sale of the securities and the securities will be acquired by the underwriters for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions at a fixed public offering price or at varying prices determined at the time of sale. Unless otherwise indicated in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to customary conditions precedent and the underwriters will be obligated to purchase all the offered securities if any of the securities are purchased. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Underwriters and agents may from time to time purchase and sell the securities described in this prospectus and the applicable prospectus supplement in the secondary market, but are not obligated to do so. No assurance can be given that there will be a secondary market for the securities or liquidity in the secondary market if one develops. From time to time, underwriters and agents may make a market in the securities.

In order to facilitate the offering of the securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of these securities or any other securities the prices of which may be used to determine payments on these securities. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the debt securities for their own accounts. In addition, to cover over-allotments or to stabilize the price of the securities or of any other securities, the underwriters may bid for, and purchase, the securities or any other securities in the open market. Finally, in any offering of the securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allowed to an

[Table of Contents](#)

underwriter or a dealer for distributing the securities in the offering, if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters are not required to engage in these activities, and may suspend or terminate any of these activities at any time.

Underwriters named in an applicable prospectus supplement are, and dealers and agents named in an applicable prospectus supplement may be, deemed to be “underwriters” within the meaning of the Securities Act in connection with the securities offered thereby, and any discounts or commissions they receive from us and any profit on their resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. We may have agreements with the underwriters, dealers or agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments they may be required to make. Underwriters, dealers or agents and their respective affiliates may be customers of, engage in transactions with, or perform services for us or our subsidiaries and affiliates in the ordinary course of business.

If indicated in an applicable prospectus supplement, we may authorize dealers acting as our agents to solicit offers from some institutions to purchase our securities at the public offering price given in that supplement under “Delayed Delivery Contracts” providing for payment and delivery on the date or dates stated in such supplement. Each contract will be for an amount not less than, and the aggregate principal amount of securities sold under the contracts will not be less nor more than, the respective amounts stated in the applicable prospectus supplement. Institutions with whom contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but will in all cases be subject to our approval. Contracts will not be subject to any conditions except that:

- the purchase by an institution of the securities covered by its contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which such institution is subject; and
- if the securities are being sold to underwriters, we will have sold to the underwriters the total principal amount of the securities less the principal amount covered by contracts.

One or more firms, referred to as “remarketing firms,” may also offer or sell the securities, if the applicable prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us. These remarketing firms will offer or sell the securities in accordance with a redemption or repayment pursuant to the terms of the securities. The applicable prospectus supplement will identify any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm’s compensation. Remarketing firms may be deemed to be underwriters in connection with the securities they remarket. Remarketing firms may be entitled under agreements that may be entered into with us to indemnification by us against and contribution toward certain civil liabilities, including liabilities under the Securities Act, and may be customers of, engage in transactions with or perform services for us or our subsidiaries and affiliates in the ordinary course of business.

Unless indicated in the applicable prospectus supplement, we do not expect to apply to list any series of debt securities on a securities exchange.

Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise.
