Item 7.01 Regulation FD Disclosure.

On December 4, 2018, Patrick Schorn, Executive President, Wells for Schlumberger Limited (“Schlumberger”), presented at the 2018 Cowen Energy & Natural Resources Conference in New York, New York, and discussed, among other things, Schlumberger’s business outlook. The presentation and slides are available on the Schlumberger Investor Relations website at <http://www.slb.com/news/presentations.aspx> and <http://investorcenter.slb.com/phoenix.zhtml?c=97513&p=irol-presentations>.

Cautionary Statement Regarding Forward-Looking Statements

The presentation referred to above contains “forward-looking statements” within the meaning of the federal securities laws — that is, statements about the future, not about past events. Such statements often contain words such as “expect,” “may,” “believe,” “plan,” “estimate,” “intend,” “anticipate,” “should,” “could,” “will,” “see,” “likely,” and other similar words. Forward-looking statements address matters that are, to varying degrees, uncertain, such as statements about our financial and performance targets and other forecasts or expectations regarding, or dependent on, our business outlook; growth for Schlumberger as a whole and for each of our product lines (and for specified products or geographic areas within each product line); oil and natural gas demand and production growth; oil and natural gas prices; rig activity, pricing; access to raw materials; improvements in operating procedures and technology, including our transformation program; our stock repurchase program and dividend strategy; capital expenditures by Schlumberger and the oil and gas industry; the business strategies of Schlumberger’s customers; the success of Schlumberger’s SPM projects; the success of Schlumberger’s acquisitions, joint ventures and alliances; future global economic conditions; and future results of operations. These statements are subject to risks and uncertainties, including, but not limited to, global economic conditions; changes in exploration and production spending by Schlumberger’s customers and changes in the level of oil and natural gas exploration and development; general economic, political and business conditions in key regions of the world; foreign currency risk; pricing pressure; weather and seasonal factors; availability and cost of raw materials; our inability to meet our financial and performance targets and other forecasts or expectations, such as revenue and free cash flow conversion; operational modifications, delays or cancellations; production declines; changes in government regulations and regulatory requirements, including those related to offshore oil and gas exploration, radioactive sources, explosives, chemicals, hydraulic fracturing services and climate-related initiatives; the inability of technology to meet new challenges in exploration; and other risks and uncertainties detailed in our most recent Forms 10-K, 10-Q, and 8-K filed with or furnished to the U.S. Securities and Exchange Commission. If one or more of these or other risks or uncertainties materialize (or the consequences of such a development changes), or should underlying assumptions prove incorrect, actual outcomes may vary materially from those reflected in our forward-looking statements. The forward-looking statements speak only as of the date of the presentation referred to above, and Schlumberger disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.
