STERIS Announces Targeted Restructuring Plan

- **Approximately \$45 million restructuring charge to be recorded in fiscal 2019, of which approximately \$35 million is non-cash**
 - **Annual profit improvement of approximately \$12 million anticipated by fiscal 2021**

DERBY, UK (December 4, 2018) - STERIS plc (NYSE: STE) (“STERIS” or the “Company”) today announced a targeted restructuring plan, which includes the closure of two manufacturing facilities, one in Brazil and one in England, as well as other actions including product rationalization. Less than 200 positions will be eliminated as a result of the restructuring plan. The Company will relocate the production of the impacted products to existing manufacturing operations during fiscal 2020. The majority of people who will be impacted have already been notified.

“As a result of reduced demand for certain products and overall capacity in our global manufacturing network, we will rationalize select product offerings and consolidate manufacturing of others,” said Walt Rosebrough, STERIS’s President and Chief Executive Officer. “We are confident that the more efficient plants in our network can absorb the volume over time, and that these actions will improve our quality, delivery and costs.”

The Company anticipates that it will incur a restructuring charge of approximately \$45 million in fiscal 2019 related to these actions, which will be excluded from adjusted earnings per diluted share. Of the \$45 million charge, approximately \$35 million is non-cash. Profit improvement resulting from these actions is anticipated to be approximately \$12 million a year, with about half of the benefit occurring in fiscal 2020 and the balance in fiscal 2021.
