SCWorx Awarded \$1,625,000 Contract with Major Healthcare Institution.

NEW YORK--(BUSINESS WIRE)--March 13, 2019, SCWorx Corp (NASDAQ: WORX) - today announced the signing of a \$1,625,000 software service contract with a highly respected Integrated Delivery Network (IDN) servicing hospitals on the West Coast.

Under this 3-year fixed-term agreement, one of the largest US based IDN's is accessing SCWorx's business normalization, repair, enrichment and automation solutions that connect materials, financial and clinical attributes, which will provide the foundation of a business architecture that will enable all departments to collaborate using data that has been customized to their specific requirements. The repairs provided by the SCWorx software platform will allow a consistent flow of information, enabling the hospital to further develop clinical modeling, populate health analytics, and other critical requirements. This IDN feels it needs to do so in order to serve their community in the best way possible while helping to increase its bottom line.

Marc Schessel, founder and CEO of SCWorx said, "We have partnered with one of the most advanced super IDN's in the country to provide and develop services that will have significant value and drive a more collaborative industry. We are looking forward to taking part not only in this foundational project, but in the many derivative projects we anticipate via the enriched and interoperable data that is created from our software. We look forward to continued development of state of the art products with this partner for a long time to come."

The Company does not expect to incur any significant additional overhead resulting from this contract and anticipates procuring new contracts for its software by numerous other healthcare providers in the foreseeable future.
