**ITEM 2.02 DISCLOSURE OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On May 6, 2019, the registrant issued a news release announcing its first quarter 2019 results. A copy of that news release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The news release furnished herewith contains information regarding the registrant's operating income (loss). Operating income (loss) differs from net income (loss) attributable to Everest Re Group, the most directly comparable generally accepted accounting principle financial measure, by the exclusion of realized capital gains (losses) on investments, net foreign exchange income (expense) and the impact of the enactment of the Tax Cuts and Jobs Act of 2017 ("TCJA"). Management believes that presentation of operating income (loss) provides useful information to investors because it more accurately measures and predicts the registrant's results of operations by removing the variability arising from both the management of the registrant's investment portfolio and the fluctuations of foreign currency exchange rates, as well as the impact of one-time items such as the enactment of the TCJA. In addition, management, analysts and investors use operating income (loss) to evaluate the financial performance of the registrant and the insurance industry in general.

In accordance with general instruction B.2 of Form 8-K, the information in this report, including exhibits, is furnished pursuant to Item 2.02 and shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liability of that section.

## EVEREST RE GROUP, LTD.

Seon Place, 141 Front Street, 4<sup>th</sup> Floor, Hamilton HM 19, Bermuda

### Everest Re Group Reports First Quarter 2019 Results

HAMILTON, Bermuda—(BUSINESS WIRE – May 6, 2019)

Everest Re Group, Ltd. (“Everest”) (NYSE: RE) today reported first quarter 2019 net income of \$348.9 million, or \$8.54 per diluted common share, compared to net income of \$210.3 million, or \$5.11 per diluted common share for the first quarter of 2018. After-tax operating income<sup>1</sup> was \$282.4 million, or \$6.91 per diluted common share, for the first quarter of 2019, compared to after-tax operating income<sup>1</sup> of \$219.7 million, or \$5.34 per common share, for the same period last year.

Commenting on the Company’s results, President and Chief Executive Officer Dominic J. Adesso said: “During the first quarter of 2019 Everest produced very strong financial results while continuing to expand our market profile with growth in both our reinsurance and insurance businesses. The Company delivered \$8.54 of net income per diluted common share, equal to a 17% annualized return on equity, driven by both solid underwriting and investment returns. Our underwriting operations are strategically balanced between reinsurance and insurance, allowing us to quickly respond to market conditions across virtually all classes of business and territories in building the optimal portfolio of risks.”

Operating highlights for the first quarter of 2019 included the following:

- Gross written premiums for the quarter were \$2.1 billion, an increase of 10% compared to the first quarter of 2018. Worldwide reinsurance premiums were up 7% to \$1.5 billion, with growth primarily driven by increased casualty and property pro-rata premium, increased shares on existing business and profitable new growth. Direct insurance premiums were up 18%, from first quarter 2018, to \$595.1 million, continuing with the diversified growth trends noted in recent years.
- The combined ratio was 88.7% for the quarter compared to 93.3% in the first quarter of 2018. Excluding catastrophe losses, reinstatement premiums and the favorable prior period loss development, the current quarter attritional combined ratio was 87.4% compared to 87.1% in the same period last year.

- Current year catastrophe losses, net of reinsurance, amounted to \$25 million in the quarter, related to the Townsville monsoon in Australia. There was no change in total prior year catastrophe loss estimates. Estimated net favorable prior year catastrophe development was offset by \$24 million of adverse development on the third quarter 2018 Japan loss events.
- Net investment income increased 1.9% for the quarter to \$141.0 million.
- Net after-tax realized capital gains amounted to \$73.9 million for the quarter compared to realized capital losses of \$19.4 million during the first quarter of 2018.
- Cash flow from operations was \$459.8 million compared to \$195.6 million for the same period in 2018.
- During the quarter, the Company purchased 75,193 shares at a total cost of \$16.2 million. The repurchases were made pursuant to a share repurchase authorization, provided by the Company's Board of Directors, under which there remains 1.4 million shares available.
- Shareholders' equity ended the quarter at \$8.4 billion compared to \$7.9 billion at year end 2018. Book value per share was up from \$194.43 at December 31, 2018 to \$206.68 at March 31, 2019.

We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the U.S. Federal securities laws. These statements involve risks and uncertainties that could cause actual results to differ materially from those contained in forward-looking statements made on behalf of the Company. These risks and uncertainties include the impact of general economic conditions and conditions affecting the insurance and reinsurance industry, the adequacy of our reserves, our ability to assess underwriting risk, trends in rates for property and casualty insurance and reinsurance, competition, investment market fluctuations, trends in insured and paid losses, catastrophes, regulatory and legal uncertainties and other factors described in our latest Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.*

Recipients are encouraged to visit the Company's web site to view supplemental financial information on the Company's results. The supplemental information is located at [www.evereststre.com](http://www.evereststre.com) in the "Financial Reports" section of the "Investor Center". The supplemental financial information may also be obtained by contacting the Company directly.

<sup>1</sup> The Company generally uses after-tax operating income (loss), a non-GAAP financial measure, to evaluate its performance. After-tax operating income (loss) consists of net income (loss) excluding after-tax net realized capital gains (losses), after-tax net foreign exchange income (expense), and the tax charge related to the enactment of the Tax Cuts and Jobs Act of 2017 (TCJA), as the following reconciliation displays:

	Three Months Ended			
	March 31,			
	2019		2018	
	(unaudited)			
	Amount		Amount	
	Per Diluted Common Share		Per Diluted Common Share	
Net income (loss)	\$ 348,900	\$ 8.54	\$ 210,318	\$ 5.11
After-tax net realized capital gains (losses)	73,905	1.81	(19,355)	(0.47)
After-tax net foreign exchange income (expense)	(7,373)	(0.18)	9,933	0.24
After-tax operating income (loss)	\$ 282,368	\$ 6.91	\$ 219,740	\$ 5.34

(Some amounts may not reconcile due to rounding.)

Although net realized capital gains (losses) and net foreign exchange income (expense) are an integral part of the Company's insurance operations, the determination of net realized capital gains (losses) and foreign exchange income (expense) is independent of the insurance underwriting process. The Company believes that the level of net realized capital gains (losses) and net foreign exchange income (expense) for any particular period is not indicative of the performance of the underlying business in that particular period. Providing only a GAAP presentation of net income (loss) makes it more difficult for users of the financial information to evaluate the Company's success or failure in its basic business, and may lead to incorrect or misleading assumptions and conclusions. The Company understands that the equity analysts who follow the Company focus on after-tax operating income (loss) in their analyses for the reasons discussed above. The Company provides after-tax operating income (loss) to investors so that they have what management believes to be a useful supplement to GAAP information concerning the Company's performance.

Return on equity calculations use adjusted shareholders' equity excluding net after-tax unrealized (appreciation) depreciation of investments.
