ITEM 2.02 Results of Operations and Financial Condition

On April 9, 2019, Pentair plc (the “Company”) issued a press release announcing its preliminary financial results for the first quarter ended March 31, 2019 along with updated outlook for the full year 2019. A copy of the press release is furnished herewith as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The preliminary 2019 adjusted diluted earnings per share from continuing operations (“EPS”) include eliminates intangible amortization, certain targeted restructuring activities, impairments, deal related costs, inventory step-up, gain on sale of business and certain tax items. The 2018 adjusted EPS eliminates intangible amortization, certain targeted restructuring activities, corporate allocations, loss on sale of business, interest expense adjustments and certain tax items.

We use the term “core sales” to refer to GAAP net sales from continuing operations excluding (1) the impact of currency translation and (2) the impact of revenue from acquired businesses recorded prior to the first anniversary of the acquisition less the amount of sales attributable to divested product lines not considered discontinued operations (“acquisition sales”). The portion of GAAP net sales attributable to currency translation is calculated as the difference between (a) the period-to-period change in net sales (excluding acquisition sales) and (b) the period-to-period change in net sales (excluding acquisition sales) after applying current period foreign exchange rates to the prior year period. We use the term “core sales growth” to refer to the measure of comparing current period core net sales with the corresponding period of the prior year.

Management utilizes these adjusted financial measures to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company’s underlying operations. These non-GAAP measures may not be comparable to similarly titled measures reported by other companies.

The information included in this item, including Exhibit 99.1, is hereby furnished and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Pentair Provides Preliminary First Quarter Results and Updates Outlook for Full Year 2019

LONDON, United Kingdom - April 9, 2019 - Pentair plc (NYSE: PNR) today provided preliminary first quarter results and revised its full year 2019 guidance.

Preliminary first quarter 2019 earnings per diluted share from continuing operations ("EPS") were \$0.30 per share compared to \$0.32 in the first quarter of 2018. On an adjusted basis, the company reported EPS of \$0.43 compared to \$0.49 in the first quarter of 2018. The company's prior expectations for first quarter 2019 GAAP EPS from continuing operations were \$0.47 to \$0.50 and on an adjusted basis were \$0.52 to \$0.55. Preliminary first quarter 2019 sales were \$689 million. Sales were down 6 percent compared to sales for the same period last year. Excluding currency translation, acquisitions and divestitures, core sales declined 4 percent in the first quarter. The company's prior guidance for first quarter sales was to be approximately flat to up 1 percent on a reported basis and up approximately 4 to 5 percent on a core basis compared to first quarter 2018. Core sales and adjusted EPS are described in the attached schedules.

"Our first quarter was significantly impacted by the adverse cold and wet weather in our higher margin Aquatics and ag-related businesses," said John L. Stauch, Pentair President and Chief Executive Officer. "While we are disappointed with the slow start to the year, we are pleased with our recent acquisitions and remain confident about the long term outlook of our businesses."

OUTLOOK

Based on preliminary first quarter results, the company has updated its outlook for the full year 2019.

The company updates its 2019 GAAP EPS from continuing operations to a range of \$2.04 to \$2.09 and on an adjusted basis to a range of \$2.30 to \$2.35. This compares to the company's prior 2019 GAAP EPS guidance from continuing operations of \$2.29 to \$2.39 and on an adjusted basis of \$2.50 to \$2.60. The company now anticipates full year 2019 sales to increase approximately 1 to 2 percent on a reported basis and to be approximately flat to up 1 percent on a core basis. The company's prior 2019 sales guidance was an increase of approximately 5 to 6 percent on a reported basis and up approximately 4 to 5 percent on a core basis.

"To start 2019, in addition to the adverse impact from weather, we have seen moderating growth in several of our end markets. We are also experiencing higher than anticipated inventory levels in some of our key distribution channels. The Aquatics and agriculture businesses are seasonal and while we believe demand trends remain stable, the window for recovery this year is narrow. We believe this is a 2019 event and we expect to be better positioned for the season next year. We are adjusting costs to reflect the lower volumes we are expecting, implementing additional productivity actions, and building an even stronger foundation as we enter 2020."

"We continue to believe in our long-term strategy to be a leading residential and commercial water treatment company. We have a leading Aquatics business and our Residential and Commercial Treatment business was strengthened with two strategic acquisitions we made earlier this year. Our balance sheet remains strong and we will continue to be disciplined in our capital allocation focused on creating long-term shareholder value."
